

FIND IT! WITH SENSIT[®] HXG-3 COMBUSTIBLE GAS LEAK DETECTOR

ATEX  CE 

STATE OF THE ART

The SENSIT[®] HXG-3 is an advanced state-of-the-art combustible gas leak detector capable of sensing many combustible gases such as methane, propane and natural gas. The backlit LCD display shows percent lower explosive limit (LEL) and part-per-million (ppm) readings simultaneously for accurate leak detection and analysis. Audible and visual alarms warn of potential hazardous conditions.

LEAKS EASILY PINPOINTED

Leaks can easily be pinpointed by using an audible tick rate. The sensor is located at the end of a flexible gooseneck to easily reach areas where leaks may be suspected.

DATALOGGING

A datalogging feature allows you to save data during any investigation as well as the last calibration date for download to the optional printer or PC interface. All downloading is accomplished through the infrared LED.

SIMPLE MAINTENANCE

Calibration and other maintenance are simple and can be performed in the field. A limited two year warranty covers the instrument.

THE HXG-3 IS ALSO AVAILABLE WITH AN OPTIONAL INTERNAL PUMP!
