

LION[®]

ready for action

FIRST RESPONDER RESCUE-READY PROTECTIVE WEAR

Multipurpose VersaPro™, MedPro™ & TR51™
Rescue Wear

TECHNICAL RESCUE | EMS | WILDLAND FIREFIGHTING

BECAUSE NOT ALL EMERGENCY CALLS REQUIRE STRUCTURAL TURNOUT GEAR.

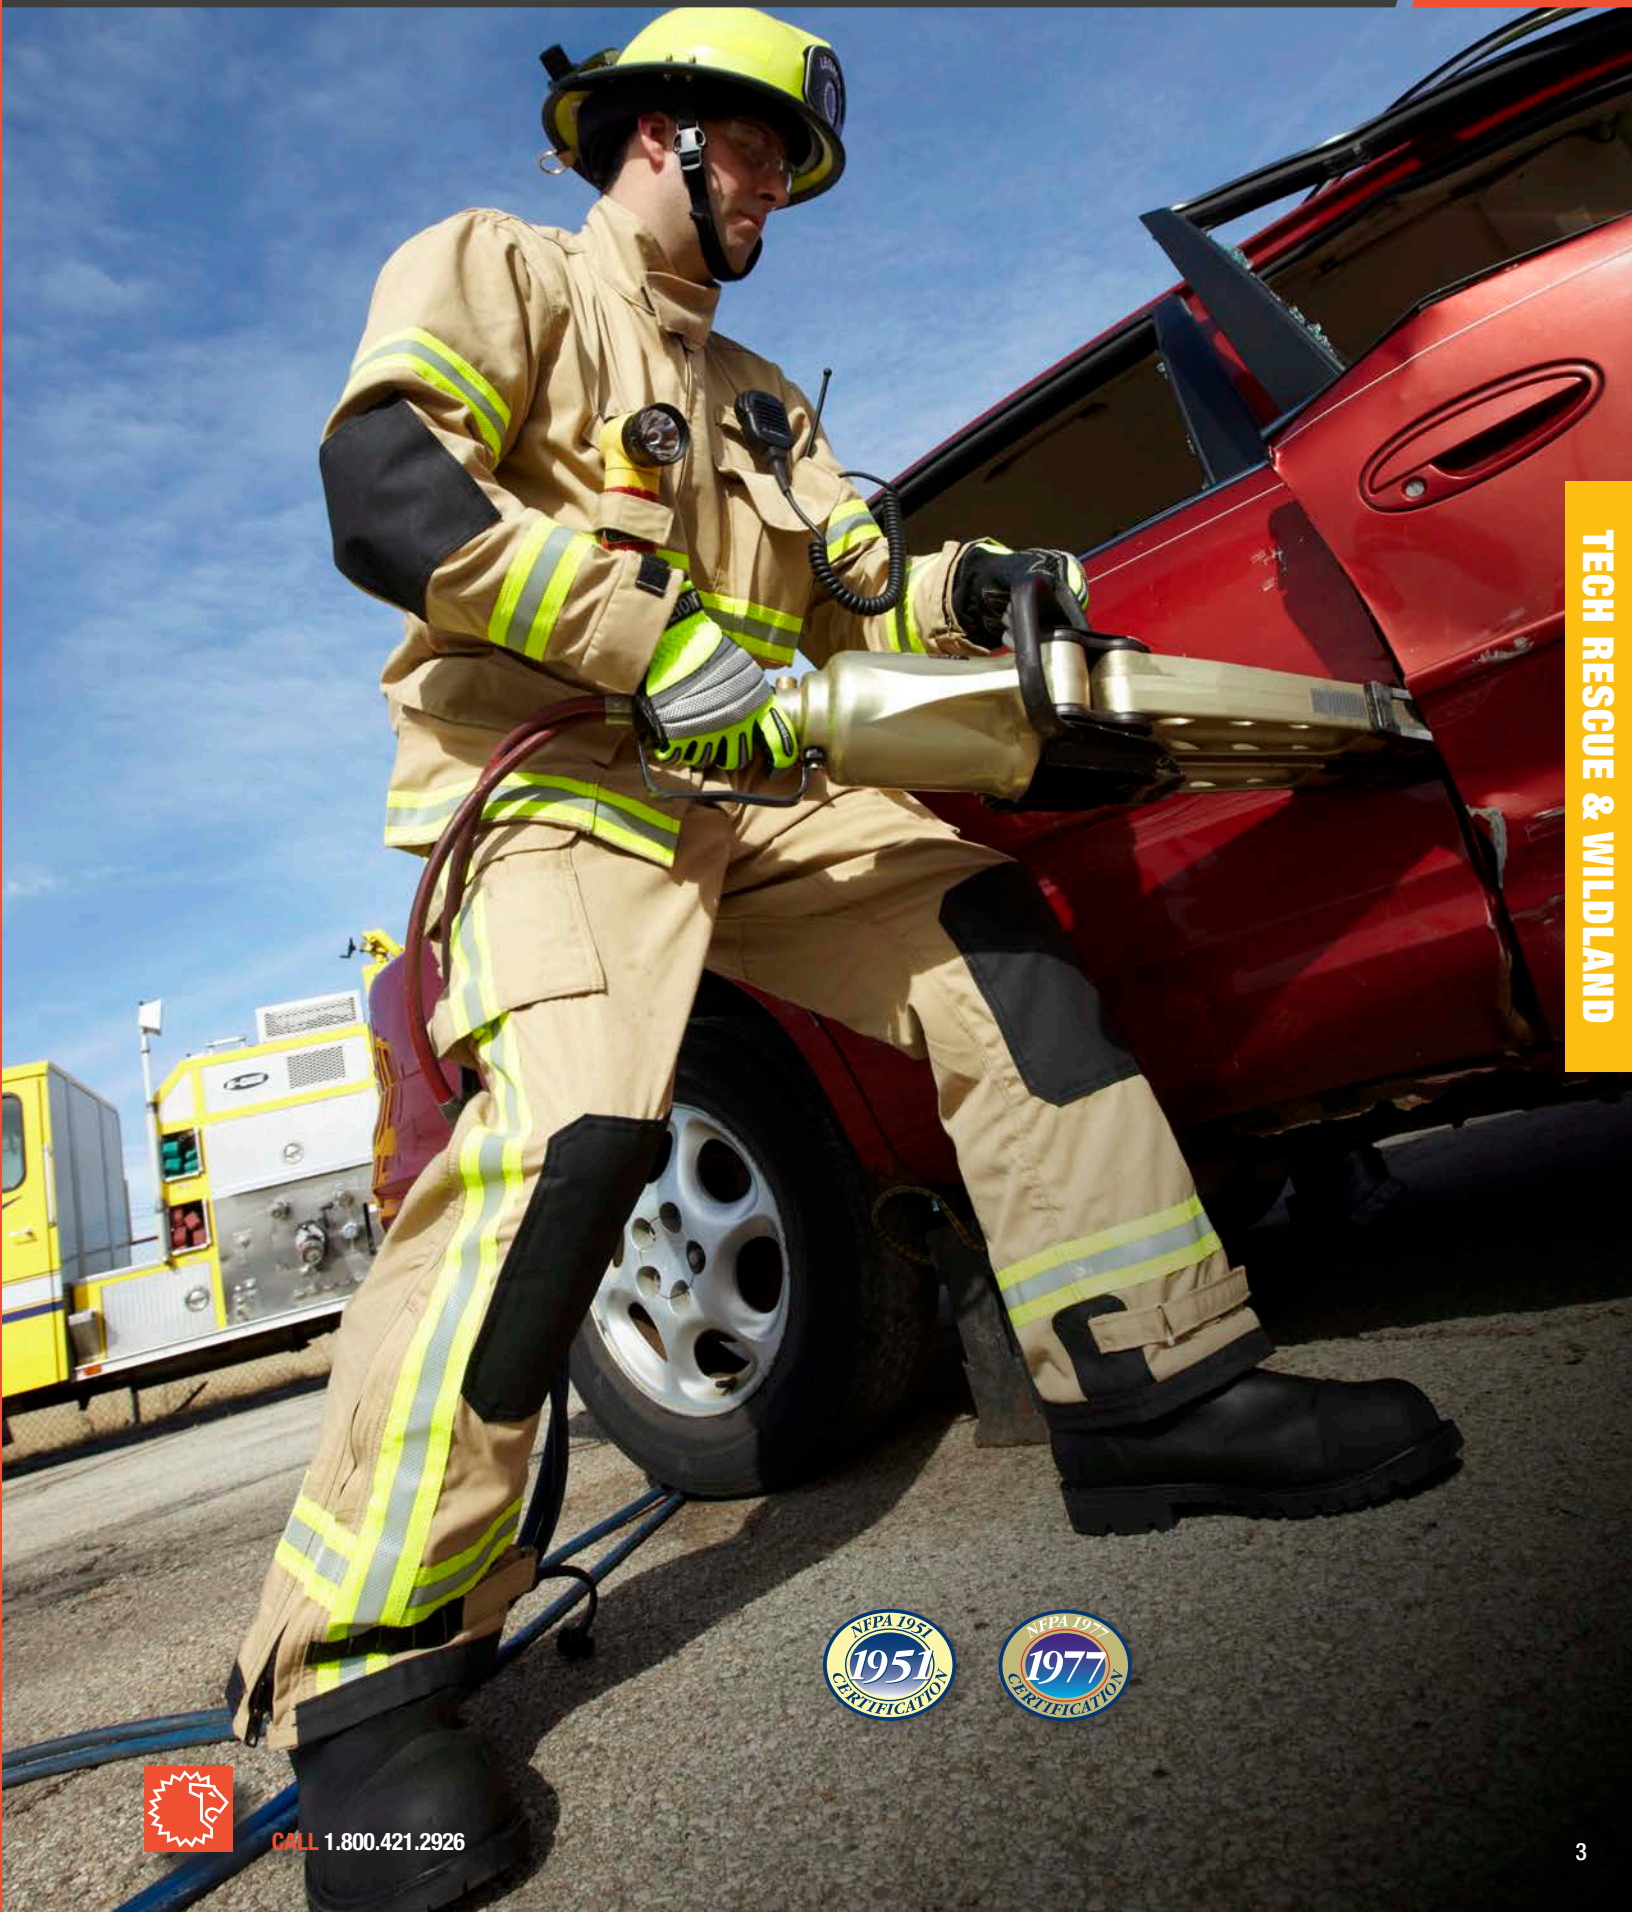

But you still need to be ready to gear up for that call. LION rescue wear is designed with you in mind. According to the NFPA, in 2018, fire departments in the U.S. responded to over 1.3 million fires. That may sound like a lot, but it's a mere 3.6% of the more than 36 million total calls that fire departments received. That's why the situation may call for **VersaPro™**, **MedPro™** or **TR51™** instead of traditional turnouts.

These versatile protective garments are perfect for non-fire and wildland calls. They also reduce wear and tear on your heavy duty structural turnout gear.

LION VersaPro, MedPro and TR51 rescue wear is available in a variety of sizes, fabrics, colors and options. ▶

VERSAPRO™ RESCUE

TECH RESCUE & WILDLAND

CALL 1.800.421.2926

VERSAPRO™ RESCUE

Why VersaPro?

Available in two models (VersaPro and VersaPro Plus), this dual-certified, NFPA 1951 and 1977 garment offers more protection than a station uniform, but is less cumbersome than structural turnouts for non-structural calls. Its ground-breaking Sigma™ fabric is soft, while offering the best combination of flash/thermal protection, durability and comfort in a single-layer garment. VersaPro is breathable and engineered to provide maximum protection without weighing you down. It also provides great range of motion and flexibility when maneuvering in tight spaces. Treated with a durable water-repellent finish, VersaPro also helps keep you dry while working.

GARMENT SPECS

- Dual-certified to meet NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland Firefighting)
- Lightweight, breathable and durable 7 oz, twill fabric with a water-repellent finish
- Fiber Content: 45% Meta-Aramid, 32% Lenzing FR, 17% Polyamide, 6% Para-Aramid
- LION Ventilated 3M™ Scotchlite™ II Reflective Material Triple Trim (Lime-Yellow/Silver)
- Options: Custom Name and ID Lettering, Belt/Belt Loops, Suspenders
- Numeric Sizes: 32"-60" Coats and 28"-58" Pants (Long sizes also available)

TECH RESCUE & RECOVERY

CALL 1.800.421.2926

TR51™ RESCUE

Why TR51?

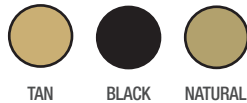

The LION TR51™ is an extremely versatile technical rescue garment with optional blood borne pathogen protection. It's certified to meet NFPA 1999 and 1951, so you can use it for both EMS duty and USAR tasks. The comfortable, yet durable Sigma® outer shell offers the best combination of flash/thermal protection. The 3M™ Scotchlite™ Reflective Material makes sure you're seen in low-light and daylight conditions. The CROSSTECH® SR removable liner provides liquid penetration resistance to water, blood, and bodily fluids. And, there's plenty of task-specific pockets for the tools of the trade.
