

PROTECTION. FROM THE INSIDE OUT.

The DFND FIRE Fx performance collection is made with Tencate TechT4 fabric and provides protection and comfort from the inside out. This remarkable innovation brings ease of wear and flame resistance in an incredibly light weight base layer. The DFND FIRE Fx collection makes the perfect addition to the multi layer, flame-resistant clothing systems.

The DFND FIRE Fx performance collection is engineered with Coolderm Technology which allows for active moisture wicking and fast dry times, as well as being extremely soft and comfortable. The antimicrobial protection will reduce unpleasant odors, which is ideal for hot humid environments. DFND FIRE Fx will enhance your protection level from the inside out!
