# Wildland Fire Pants

## CX WILDLAND VENT PANT

The CX Wildland Vent Pants are the perfect balance between protection and comfort. Each feature in these wildland fire pants was specifically designed to battle against heat, sweat, and discomfort. Our Xvent system (YKK® Nomex® zippered leg vents) allows airflow to battle against internal heat buildup.

The cut and fit of these dual compliant wildland pants are second to none and totally raises the bar on Wildland Fire PPE design and function. With absolutely stellar fit, leg venting, knee articulation, and seamless crotch (less chafing!) these wildland fire pants keep you protected and comfortable all day long. Whether you're on the fire line or at base camp you will appreciate these pants like no others.

- Patent Pending "XVent" Technology makes these pants the "coolest" period.
- Minimize chafing with our new underside pattern design
- Articulated areas provide excellent comfort and fit
- Aggressively cut for maximum mobility
- Double reinforced in high-stress areas to take the abuse
- Super tough black oxidized YKK fly zipper assures a long life
- Double closure system with Mil-Spec Velcro and melamine button makes a solid closure system which gives redundancy and reliability in the field
- Dual Compliant Wildland Pant to current NFPA 1977 & 1975 Specifications
- Backed by our 100% Guarantee

## LL WOMEN'S WILDLAND FIRE PANT

Our customers spoke and we responded with new vented women's wildland fire pants, designed with Xvent Technology (patent pending) and built to fit the contours of a women's body. For years, women had to wear wildland fire pants that were designed specifically for men, making them a poor, uncomfortable fit. Recognizing the need for all fire fighters to have gear that fits properly and allows for maximum cooling during the toughest assignments, Coaxsher™ went through several versions, working closely with women firefighters to find the perfect balance that allows for maximum movement and comfort.

- Patent Pending “XVent” Technology makes these pants the “coolest” period.
- Designed to contour a women's body
- Articulated areas provide excellent comfort and fit
- Aggressively cut for maximum mobility
- Double reinforced in high-stress areas provides great durability
- Super tough black oxidized YKK fly zipper assures a long life
- Double closure system with Mil-Spec Velcro and melamine button makes a solid closure system which gives redundancy and reliability in the field
- Dual Certified to current NFPA 1977 & 1975 Specifications
- Backed by our 100% Guarantee

## BETAX WILDLAND FIRE SHIRT

Xvent is king in the BetaX Wildland Fire Shirt. Airflow vents in each bicep area of the arms and two lower chest region vents allow for maximum torso airflow. Torso airflow helps to cool the core, keeping you more alert and focused. Made mostly of 5.8oz Tecasafe Plus (Lightweight and Breathable) with 7oz Tecasafe Plus in the areas you want extra toughness. Top button neck closure along with Mil-Spec Velcro wrist straps allow you to batten down the hatches when needed. 3/4 YKK Nomex front zip allows for breathability and easy on/off capabilities. Two slanted bicep pockets with segmented Velcro keeps contents secure while allowing easy access even with gloves.

- **Airflow Vents in Each Bicep Area and Chest Area**
- **3/4 Front Zipper for breathability and easy on/off capabilities**
- **Two slanted bicep pockets with segmented Velcro**
- **5.8oz Lightweight Fabric Provides Unmatched Comfort**
- **Excellent Moisture Management**
- **7.0oz Material for Toughness**
- **FR Properties Won't Wash or Wear Out**
- **Mic Clip Strap for Radio Mic**

## OPERATOR WILDLAND FIRE PACK

Rebuilt from customer feedback the newly updated Operator wildland fire pack is mission ready. Easy water bottle access, updated pockets and connection points, updated reinforcement points, along with new torso fit patterns for maximum comfort. Internal aluminum stay structure and high-quality materials provide a stout and sturdy foundation. Shoulder straps adjust both vertically and tilt for optimal custom torso fit. Closed cell foam structuring throughout with an ergonomic PALS hip-belt finishes off the pack framework. Water/fuel bottle side pockets with internal fusee loops and webbing sheath for files. Side pockets cinch and compress to keep items stored safely. Access main pocket quickly with dual zip spine opening and/or full zipper opening to entire main pocket. Flagging tape dispensers below each side pocket with fire shelter case that can load for right or left handed deployment. PALS webbing throughout for MOLLE/P-cord/carabiner attachment capabilities. 15 (6 internal/9 external) pockets keeps gear easily accessible and organized.

- Quick Dual Zipper Spine Access to Main Pocket
- Full Zipper Opening to Entire Main Pocket
- Aluminum Stay Harness Structuring for Ultimate Hiking Comfort
- Water/Fuel Bottle Side Pockets w/ Webbing Sheath for Files and Elastic Fusee Loops
- Grommets on Each Side Pocket Provides Drainage for Fluids and Dirt
- Flagging Tape Dispenser Case below each Side Pocket
- Two Quick Access Zipper Compartments
- Additional Inside Mesh Storage Pockets
- Adjustable Hip-Belt to Fit Multiple Sizes

# Radio Chest Harnesses

## DR-1 COMMANDER DUAL RADIO CHEST HARNESS

### TECHNICAL SPECS

- Radio Holster fits all Radios/GPS Units between the following Sizes:
- Large Size: BK Radio (2.50" W x 1.50" D x 8.50" H)
- Small Size: All Sizes Smaller than Large Size (BK Radio)

Communication is key and the DR-1 Commander will keep all your communication devices in the right place at the right time. Almost a twin to the RCP-1 Pro radio chest harness model -- the DR-1 Commander comes equipped to hold two BK/800 MHz radios with two main radio holsters on the front plate. We incorporated all the RCP-1 Pro features and designs our customers love into the DR-1 Commander to make it the ultimate dual communication radio chest harness. The DR-1 Commander dual radio chest harness works great with or without a backpack. When wearing this unit with a backpack you can either use the supplied torso straps or purchase the Harness Converter Kit. The Harness Converter Kit allows you to attach the DR-1 Commander to the shoulder straps of any Coaxsher backpack. iPad mini with protective case fits into the large main compartment.

- Two Main Radio Holsters - Fits Two BK / 800 MHz radios
- iPad mini with protective case fits into the large main pocket
- Large Wide-Mouth Zipper Close Main Pocket
- Main Pocket Snaps for Closure when Long Objects Don't Allow the Zipper to Close
- Two Internal Pockets within the Main Pocket for Organization
- Fold-Down Platform for Reading/Writing
- Open Air Back Plate Cuts Weight and Allows Airflow
- Writing Tool Pockets
- Adjustable Radio Holsters to Fit Multiple Radio Sizes
- Spare Battery Shell / Cell Phone Pocket
- Hi-Strength Grommets / D-Ring to Secure Extra Gear
- Great Visibility - Reflective Material & Glow Stick Holder
- Removable Mod-u-Lox C-Clip Holds Mini Mag Lite® (MML Sold Separately)
- Backed by our 100% Guarantee

## RCP-1 PRO RADIO CHEST HARNESS

### TECHNICAL SPECS

- Main Radio Holster fits all Radios/GPS Units between the following Sizes:
- Large Size: BK Radio (2.50" W x 1.50" D x 8.50" H)
  - Small Size: All Sizes Smaller than Large Size (BK Radio)
- Secondary Holster fits all Radios/GPS Units between the following Sizes:
- Large Size: (2.50" W x 1.50" D x 6.50" H)
  - Small Size: All Sizes Smaller than Large Size Dimensions

Unparalleled in design and workmanship, the RCP-1 Pro radio chest harness comes loaded with all the bells and whistles. Perfected over time from customers' feedback to become the most comfortable and functional radio chest harness anyone can wear. The RCP-1 Pro radio chest harness works great with or without a backpack. When wearing this unit with a backpack you can either use the supplied torso straps or purchase the Harness Converter Kit. The Harness Converter Kit allows you to attach the RCP-1 Pro to the shoulder straps of any Coaxsher backpack. iPad mini with protective case fits into the large main pocket.

- Large Wide-Mouth Main Pocket with Double Zipper Pull Closure
- iPad mini with protective case fits into the large main pocket
