DFND FIRE

OUR STORY

Started in 2015, DFND (pronounced “de-fend”) is the brainchild of two industry veterans whose aim was to bring quality performance apparel to the people who needed it most; our US Military and First Responders. Proudly specializing in developing products that maximize human performance, DFND currently offers a Flame Resistant (FR) base layer product line, Graduated Compression for injury prevention and Recovery and a complete line of Customized training gear. Every item that DFND offers is entirely Made in the USA and 100% Berry Compliant, and is uniquely crafted to support the needs of athletes training at any level.

Since it’s initial launch, DFND has been adopted by First Responders, The US Military, NBA, NFL, over 100 D1 collegiate teams and Olympic athletes.

We believe that everyone deserves access to apparel that supports training, improves readiness, reactivates the body, encourages faster recovery and, most importantly, enhances overall health.

PROTECTION. FROM THE INSIDE OUT.

The DFND FIRE Fx performance collection is made with Tencate TechT4 fabric and provides protection and comfort from the inside out. This remarkable innovation brings ease of wear and flame resistance in an incredibly light weight base layer. The DFND FIRE Fx collection makes the perfect addition to the multi layer, flame-resistant clothing systems.

The DFND FIRE Fx performance collection is engineered with Coolderm Technology which allows for active moisture wicking and fast dry times, as well as being extremely soft and comfortable. The antimicrobial protection will reduce unpleasant odors, which is ideal for hot humid environments. DFND FIRE Fx will enhance your protection level from the inside out!

DFND

TRAIN. RECOVER. REPEAT.

 DFND IS BUILT FOR WARRIORS BOTH ON THE FIELD, AND OFF. OUR PATENTED TECHNOLOGY PROVIDES UNPARALLELED SUPPORT AND RECOVERY FOR ATHLETES AND HEROES Alike. DFND UNDERSTANDS THAT A GOOD WORKOUT IS ONLY AS GOOD AS THE RECOVERY AFTER. AND THAT BOTH ARE NOT MUTUALLY EXCLUSIVE. YOU PUT THE WORK IN, WE'LL GET THE RECOVERY OUT.
