Since 1907 Elbeco and the Lurio family have been proudly designing, manufacturing, and servicing the uniform needs of our nation's Law Enforcement, Fire/EMS, Postal, and Transportation professionals.

Today, Elbeco continues to be privately owned and operated, supplying over 1.8 million uniforms annually to 17,000 federal, state, and local government agencies throughout North America.

As president and the fourth generation of this family owned & operated business, and on behalf of all our associates— I want to thank you for your support and look forward to serving your uniform needs.

Sincerely,

David Lurio
President

Nano Moisture Wicking Permanent fiber technology pulls fluids away from the skin and evaporates off the fabric for quick dry comfort

Nano Fluid Repellency Permanent fiber technology repels fluids which bead up and roll off the fabric to keeping you dry and comfortable.

UV Protection UV40+ protection against the sun while protecting the fabric from fading.

Hydrotech Windproof, waterproof and breathable membrane to keep you dry, warm and comfortable.

"I love these pants, they have stretch to them and feel comfortable all day. I washed them every few days and they held up really well; no color fading and no pilling to the fabric. They even had double pocket – 1 side with Velcro closure and the other with a zip top. Amazing, I absolutely recommend these pants!"

External Vest Carrier Fit Guide

This document is meant to be used as a guide in determining suitable size options available & should not replace an actual garment fitting. Upon receipt of the garment, we recommend that it be tried on by the intended wearer to ensure proper fit prior to making any alterations.

We recommend the following in order to determine the most suitable size option:

- Keep the ballistic panels inside the carrier when measuring.
- Measure the full amount of both the ballistic panels and the excess fabric bulk created by the panel carrier

How to Measure

1	Front Panel Width	With cloth tape measure, measure the ballistic carrier at the widest point of the body of the front panel. This point should fall between the bottom of the armhole & the waistline of the carrier.
2	Front Panel Height	With cloth tape measure, measure the front height of the ballistic carrier from the center front neckline to the waistline.
3	Back Panel Width	With cloth tape measure, measure the ballistic carrier at the widest point of the body of the back panel. This point should fall between the bottom of the armhole & the waistline of the carrier.
4	Back Panel Height	With cloth tape measure, measure the back height of the ballistic carrier from the center back neckline to the waistline.
