COMFORT AND PROTECTION ALL-IN-ONE

At Flying Cross, comfort and protection are at the center of our design and manufacturing for the public and industrial safety markets. Our Cross FR™ safety apparel line is no exception.

Tri-certified to meet and exceed the performance standards for the NFPA 1975 Emergency Services, 2112 and 70E, our Cross FR line offers the most comfortable and functional designs to meet the strenuous needs of your day-to-day job.

CROSS FR™ PROFESSIONAL FR WORK PANTS

4- & 6-POCKET FR WORK PANTS

Cross FR™ offers two great styles of tri-certified work pants. Choose from a traditional 4-pocket design, or a 6-pocket design featuring a concealed cargo pocket for added storage.

Fabric:
TenCate Tecasafe 700-AI
7 oz. Twill
47% modacrylic,
37% Lyocell, 16% Aramid

ATPV Value:
11
cal/cm²

Color:
LAPD Navy (86)

- Fire retardant Nomex® thread used throughout pant construction, as well as self-fabric pocket bags for protection from fire and heat
- 2-inch, structured waistband with fire retardant Tru-grip™ silicone to keep shirt tucked at all times
- Military-style permanent, Supercrease®, that lasts the life of the garment
- Double-needle stitched gusseted crotch for wider range of motion and comfort
- Men's and Women's sizes available

T-21 Hidden Cargo Pocket allows for additional storage without the bagging-out experienced in other traditional cargo pocket designs

TRI-CERTIFIED FR APPAREL

CROSS FR™ DURABLE FR WORK SHIRTS

BUTTON-FRONT FR WORK SHIRT

For a professional, uniformed look, the Cross FR™ button-front work shirt provides garment construction that fits and feels great, while offering you the protection you need.

Fabric: TenCate Tecasafe Plus 580A1 5.8 oz. Twill 47% modacrylic, 37% Lyocell, 16% Aramid	ATPV Value: 7.1 cal/cm ²
	Color: LAPD Navy (86)

- Double-needle stitching used throughout the garment for added durability and long wear
- Fire retardant Nomex® thread used throughout shirt construction for protection from fire and heat
- Conventional collar and band with permanent collar stays provides lasting professional structure, even after washing
- Two flat, pointed pocket designs with mitered flaps on front chest
- Men's and Women's sizes available

TRI-CERTIFIED MEANS SAFETY YOU CAN TRUST

TRI-CERTIFIED FR APPAREL

As an emergency services or industrial safety professional, compromising your protection is never an option. Our Cross FR™ line of tri-certified apparel ensures you have the protection, and added protection you need to prevent and deal with thermal encounters. Tested and certified by Underwriters Laboratories (UL), our Cross FR™ line of FR apparel is certified to the following NFPA standards:

1975 Emergency Services: certification of emergency services work clothing constructed from thermally stable or flame-resistant materials that won't cause or exacerbate burn injury.

- Stationwear
- Emergency Services

2112 Flash Fire: certification of clothing used as protection from the industrial flash fire hazard.

- Combustible Dust
- Oil & Gas
- HVAC-R

70E Arc Flash: certification of clothing used as protection from the thermal hazards of an electrical arc.

- Arc Flash Industrial and Utility
- Electrical Contractors
- Maintenance Personnel

CROSS FR™ CASUAL FR POLO & PERFORMANCE TEE

FEEL THE DIFFERENCE IN FABRIC TECHNOLOGY

Cross FR™ offers a line of safety apparel built to the highest quality standards and superior construction for long wear and a professional appearance. But protection doesn't have to feel stiff and boardy. Using the latest in fabric innovations from TenCate Protective Fabrics™, our line of Cross FR safety apparel is soft and pliable for all-day comfort. Plus, it is part of our VaporCore™ Elite, Powered by Tencate™ Coolderm™ Technology.

VaporCore™ ELITE Powered by TenCate™ Coolderm™ Technology

- Fabric that breathes and protects from heat and thermal events
- Advance Moisture Wicking™ that allows your body to stay cool and dry fast when sweating
- Evaporative cooling properties that manage moisture and regulate the body's temperature
- Soft hand that requires no break-in period or extra laundering
- FR protection that is inherent to the fabric, doesn't wash out and will last the life of the garment
- Hypoallergenic properties that do not include chemicals that could irritate the skin
- True color technology that minimizes fabric fading
- Anti-pilling finish to ensure the fabric remains smooth, comfortable and maintains a professional appearance

CAUSAL DUTY FR POLO SHIRT

For a more casual, yet still professional appearance, Cross FR™ offers a high-quality, short sleeve polo shirt for your day-to-day job.

Fabric:
TenCate Tecasafe Plus Knit 6.7 oz.
Double Pique
45% modacrylic, 35% Lyocell,
20% Aramid

ATPV Value:
8.2
cal/cm²

Color:
LAPD Navy (86)

- Double-needle stitching used throughout the garment for added durability and long wear
- Fire retardant Nomex® thread used throughout the polo shirt for protection from fire and heat
- Self-fabric collar with permanent collar stays; and 3-button front placket
- Wearer's left sleeve double pen pocket

PERFORMANCE FR T-SHIRT

Cross FR™ offers fire resistant performance from the inner most layer, out. The Cross FR Performance FR Tee is the perfect compliment to the duty and workwear line.
