PADDED ON THE BOTTOM TO CUSHION EVERY STEP

Cushioned, the original padded bottom Joxi Sox, add comfort to every step you take. Originally designed for athletes whose feet take a pounding, they are perfect for anyone who wears socks. Padded only on the bottom, each step you take feels as if you are walking on a cloud, without adding bulk or changing your shoe size.

Technical features include AirFlow Technology which allows air to circulate to your feet keeping them cooler. Advanced Fibers transfer moisture away from your feet, keeping them drier. Padded Bottoms absorb shock and cushion your every step. Snug Fit adds support and promotes circulation. 90% Cotton, 7% Nylon, 3% Stretch Spandex.

EXCEPTIONALLY LIGHT FEATHERWEIGHT YARNS

SupraLite, the thinnest, smoothest, softest and most absorbent socks you can imagine. Specifically designed for runners and cyclists, they are perfect for anyone looking for a sock so thin it feels as if you are wearing nothing at all.

SupraLite's share the same technical features as Cushioned Jox Sox, but without the padded bottoms. Advanced Fibers keep you drier. Snug Fit adds support and promotes circulation. Proprietary, cotton free, exceptionally light, FeatherWeight, UltraThin yarns. 97% Microfiber Nylon, 3% Stretch Spandex.

ULTRA THIN AND LIGHT WITH CUSHIONED IMPACT PADS

Ultra's give you the cushioning where you need, while being ultra thin where you want. Designed to reduce fatigue and add comfort to every step, stride, leap, and jump, while keeping your feet cooler and drier.

High density impact pads provide the ultimate cushioning for your heel and the ball of your foot. Special padding to protect your Achilles tendon. Micro mesh instep wrap provides added support, while reducing bulk for a perfect fit. Ultra thin cooling channels keep you cooler. 55% Cotton, 43% Nylon and 2% lycra.

FLUID FILLED INSOLE

therassage®

A MESSAGE FOR THE SOLE

ABSORBS IMPACT & HELPS REDUCE FATIGUE

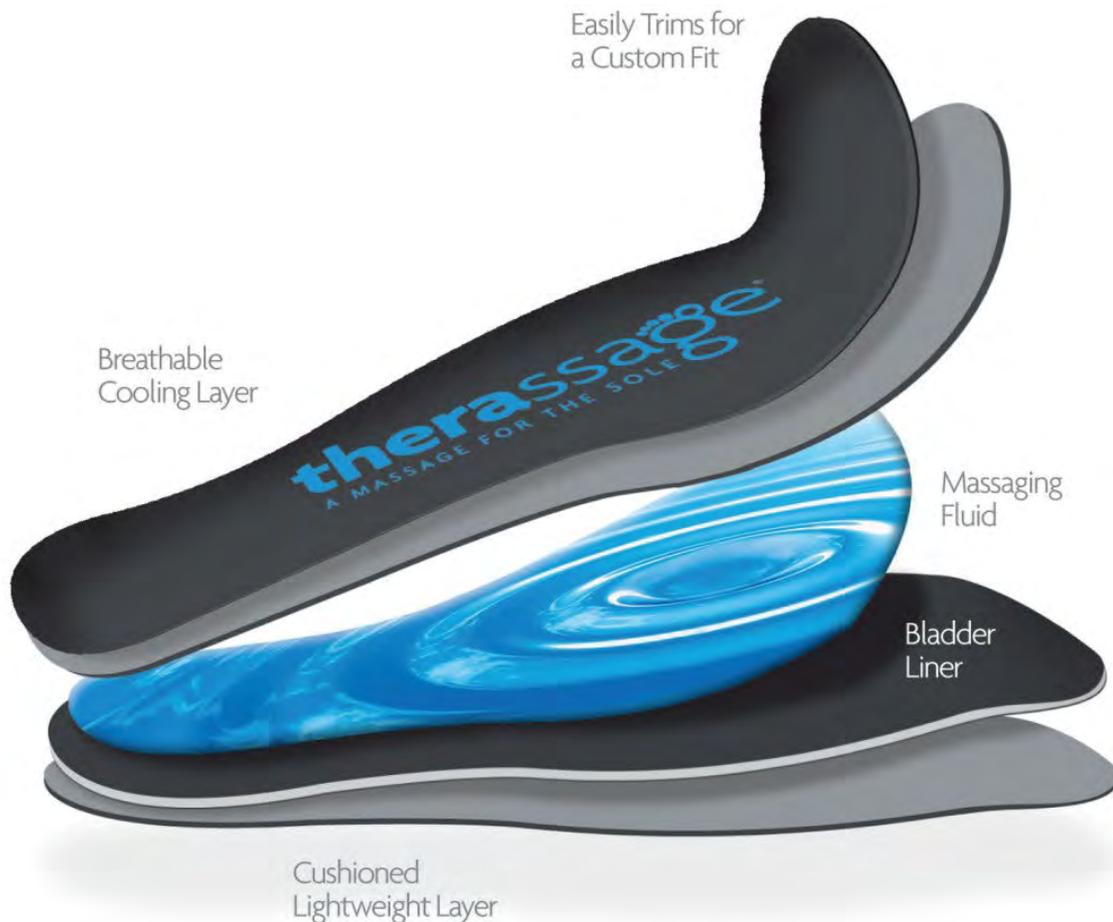

Fluid filled insoles “float” foot on a cool cushion of massaging fluid to absorb shock and fill all spaces between foot and shoe.

DISTRIBUTES WEIGHT & REDUCES FRICTION

Pressure is redistributed across entire foot, from heel to arch to ball of foot.

DYNAMIC FLUID MESSAGES WITH EVERY STEP

Constantly massages and cushions foot with each step. Helps deter foot and back discomfort.

Easily Trims for a Custom Fit
