

The OMNI™ PRO X is the perfect BLS/ ALS bag for the first responder who wants an organized solution for their equipment with options, and with COMPLETE INFECTION CONTROL. Constructed internally and externally from non-absorbing wipe-clean materials the OMNI™ PRO X is specifically designed to easily clean and remove blood borne pathogens. The OMNI™ PRO X is the foundation for a system of TS2-Ready™ first responder bags that are interchangeable, enabling the first responder to attach internal or external modules depending on the team's requirements. Now available with NIJ certified Level IIIA ballistic M4L Armored Ballistic Protection, the OMNI™ PRO can withstand multiple rounds including a .44 MAG, providing protection so you can advance quicker onto an unsecure shooter scene to quickly aid and evacuate the injured.

MERET focuses on designing products that meet the rigorous demands you encounter when saving lives. Our design philosophy centers on the basics of organization, functionality, ergonomics, and rapid response. Our quality requirements far exceed industry standards so our response bags never fail when you need them most. Our constant dedication to superior design, quality, and craftsmanship, backed by a solid warranty has gained us countless loyal customers and an exemplary reputation for producing reliable, innovative response gear. We proudly stand behind our commitment to excellence and we guarantee our products will function for a lifetime under our MERET for Life (M4L) Warranty Policy. MERET will repair free of charge any functional defect in our product – whether it has been in service for 1 year or 20. MERET warrants that all MERET response bags will be free from functional defects in material and workmanship for the lifetime of the product.
