Pigalog

YOUR MESS. OUR MISSION.™

Staying on top of leaks and spills can feel impossible.
We're ready to help you stay clean, safe and productive!

FREE 'PIG OUT ON LIFE' LONG-SLEEVE T-SHIRT! DETAILS INSIDE →

YOUR MESS. OUR MISSION.™

Clean. Safe. Productive. Let's go!

Back in 1985, we invented a better way to clean up messy machines and filthy plant floors. The world's first Absorbent Sock kicked clay to the curb! Since then, we've been on a mission to keep you working cleaner, safer and more productive.

Here's the PIG difference...

We're super-serious about leaks and spills, but we're firm believers in fun stuff and good feelings to get you through your day. You can always count on New Pig for products that work, people who know, and service that'll put a smile on your face.

HOLD ON TO THIS 2019 BUYING GUIDE.

This year, we've remodeled our catalog so it's easier than ever to find what you need. That's especially handy when you're working to keep people safe and protect the environment. Our *Big Pigalog* delivers 438 pages of plant-proven products and expert advice to help take some of the worry out of your workday.

World's Best Stuff for Leaks, Drips and Spills®

PIG is the #1 trusted brand worldwide, and we vow to wow you with products that won't disappoint. We're always looking for a better way, and that starts with thoughtful engineering and an honest commitment to quality. Every item inside this catalog is here to help you get the job done right — if something's not up to snuff, it doesn't make the cut!

A helping hand from your Partners In Grime®

As the industry leader for more than 30 years, we know a thing or two about the messes you're facing. Throughout this catalog you'll find product guides, EPA and OSHA regulation info, helpful section intros and links to exclusive content at newpig.com. Still have questions? Reach out to our service team for always-free advice. We're happy to help!

The New Pig Team

Pig out on life!

There's no better feeling than putting in a hard day's work, heading out the door, and then *totally pigging out* on whatever part of life makes you happy. Share the vibe in this 100% cotton t-shirt (sizes S–3XL) with cool pig design, New Pig mantra and PIG logo on the back. It's yours FREE, just use the Promo Code from the back cover when you order. **It's a fact of life: this shirt is so you.**

THE PIG PROMISE SERVES YOU RIGHT.

BEST SERVICE AROUND

We're obsessed with keeping you happy.

From our offices in Tipton, Pennsylvania, your call is answered in two rings by a real person. (They're friendlier than robots!) The average order takes only three minutes, and we won't rest until you're good to go.

Get unstumped with FREE expert advice!

Not sure how to handle a messy situation? Need to double-check chemical compatibility? Confused about EPA and OSHA regulations? Our team can help you figure it out. Give us a squeal for second-to-none support at absolutely no cost to you.

FAST SHIPPING

Get what you need, when you need it.

Thanks to our speedy warehouse crew and massive in-stock inventory, most orders ship same day! And when you order using Autoship, your favorite products ship automatically so you never run out of stock.

(Details on the next page and at newpig.com/autoship)

RISK-FREE SHOPPING

Zero risk. No guff. All good.

We stand behind 100% of our products, 100% of the time. So if you're not happy, we'll refund every single penny, including shipping both ways. We'll even schedule the return from your location.

Heavy Metal Filter Socks
(FLT822–FLT823) remove
oil and sediment plus zinc,
cadmium, lead and other
dissolved metals.

FLT822

FLT823

Filter Socks also available
for **oil and sediment only**
(FLT820–FLT821 sold below).

FOR DRAINS AND SOURCE POLLUTANT REMOVAL

Ideal for use around drains, dumpsters, oil containment areas, downspouts, stock piles, property perimeters, culvert pipes, washdowns and more. Create source-to-drain protection anywhere you need it!

Trench drains

Curb drains

Dumpsters

Roof drains

Stormwater Filter Sock — Keep your runoff free from pollutants.

- Filter sock **allows water to pass through** as it removes oil, sediment, trash, debris and other pollutants from your stormwater runoff
- **Heavy Metal Sock** (FLT822, FLT823) removes all of the above plus zinc, cadmium, chromium, lead and other dissolved metals
- **Patent-pending dual-chamber design:** first chamber's filler pulls in hydrocarbons; second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals
- **Weighted sock** eliminates the labor and expense of staking or trenching
- Durable geotextile skin **removes total suspended solids (TSS)** over 297 microns (50 mesh) and maintains an impressive flow rate of 2 gpm per foot
- **Flexible design** follows the contours of uneven ground for maximum surface contact; can be shaped, even at right angles, to create fully contained spaces
- **Heavy-duty handles** make socks easy to carry, install, reposition and replace
- Can use multiple socks to build a **treatment train** for source-to-drain protection
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Stormwater Filter Sock

Patent Pending

GUARANTEED NOT TO FALL IN.

Hi-viz straps show from a distance that you're proactively managing stormwater.

PIG Storm Drain Filter — Adjustable frame and 4-stage filtration guard your drains against oily runoff.

- Stainless steel adjustable frame **holds up to 60 lbs.** of oil, sediment, debris and trash; stays in place even when grate is not installed
- Easy, **one-person job** to install, maintain or remove; just pull on ends of frame and expand filter to match your drain size
- **Four-stage filtration:** Stormwater flows through drain grate onto fabric shelf (Stage 1), passes over filter ring (Stage 2) into collection bag (Stage 3) and over four sets of filter strips (Stage 4)
- All-polypropylene construction **removes contaminants** at multiple stages, increasing the amount of pollutants captured
- **Filter ring** (patent-pending) channels water to center of collection bag to prevent untreated water from escaping through overflow ports
- **Filter strips** float freely to remove hydrocarbons from moving water

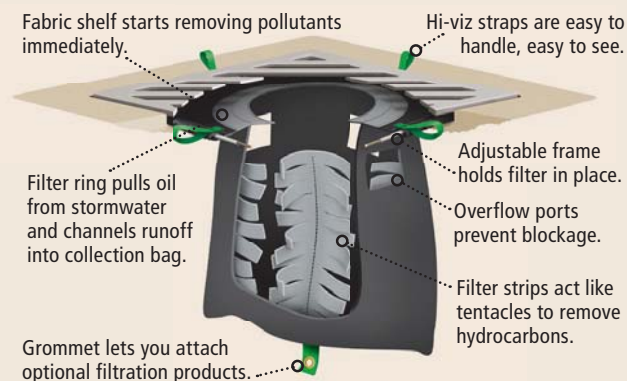

◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG™ Storm Drain Filter					
Item #	Storm Drain Size	Product Size	Abs. Up To.	1-4	5+

PIG EXPERT
ADVICE

Read about how to handle stormwater pollution: newpig.com/stormwaterpollutionprevention

Integrated straps make positioning the Drain Filter in place an easy task — no need for rebar.

The reusable Drain Filter is easy to remove to dispose of collected sediment or for periodic maintenance.

Sediment Drain Filter — Collect debris and dirt to comply with regulations and protect drains.

- **Ideal for use in the construction industry** and anywhere sediment collection is a concern
- **Constructed of a monofilament polypropylene** that captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts
- **Hi-viz integrated straps secure the bag** in place under the drain grate without the use of rebar and cradle the grate for added support and security during installation and removal
- Can handle large capacity but is manageable during maintenance; **no equipment or forklift needed for removal**
- **Filters with overflow ports** (FLT746, FLT748) allow excess water to release into drain during heavy flow or if filter is blocked; also provides an opening to collect samples of filtered stormwater
- **UV resistant**, durable and reusable
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

FLT746

**EXPERT
ADVICE**

Get tips to prevent waterway pollution and meet stormwater regs during construction: newpig.com/construction-stormwater

Oils are captured by the filter mats before they can harm the environment.

MAT1206

Oily Water Filter Mats — Trap oils and fuels but let water pass through for fast outdoor cleanup.

- Clean up oily leaks, drips and spills on land — **rain or shine**; mats absorb diesel, gasoline, kerosene, transformer oil, hydraulic fluid, motor oil and other oil-based liquids
- Absorbent mats **allow water to pass through as they capture oils** — ideal for stormwater applications
- Heavyweight construction is superabsorbent for demanding tasks and large-volume cleanups; **great for use near storm drains**, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment
- UV resistant mat is **perfect for outdoor use**
- Can also be used as a **pour-through filter** for mop buckets and other containers of oily water

◆ **Helps you comply** with SPCC and Stormwater Regulations

PIG® Oily Water Filter Mat Pads

Item #	Size	Unit	Abs. Up To	1-2	3-6	7+

MAT1204

MAT1203

MAT1206

PIG® Oily Water Cleanup Towels — Wipe down outdoor surfaces or oily equipment. Towels absorb oil but let water pass through!

Material can be worked into cracks and crevices to remove oil from concrete and asphalt surfaces.

- **Designed to work differently** than conventional oil-only spill products; absorbent towels allow water to pass through while capturing oils, fuels and hydrocarbons
- Lightweight yet durable material conforms to irregular surfaces; **tough enough to scrub** concrete, rocks or asphalt
- Perfect for wiping down oily tools and cleanups in **outdoor applications**, especially in wet or rainy conditions; floats to remove oil on water, even the oily sheen
- **Great for final cleanup** when used in conjunction with PIG Oily Water Filter Mat Pads
- White color **shows absorbed oil** to indicate saturation level
- **Can be wrung out** after use to reduce waste or for fuels blending or incineration
- Available in **vac-pack bags** (MAT1208) or **dispenser box** (MAT1209–1210)
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

DRM1406

DRM1407

DRM1408

PIG® Burpless Poly Drum Funnels — Built-in overfill preventers stop flow when drums are almost full to help you avoid messy overfills.

- Burpless design **vents during pouring** for fast, smooth flow with no dangerous splashback
- Lets you pour **without venting through ¾" bung**
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals
- **Lockable** to prevent unauthorized access
- **Multiple lid color options** let you segregate drums
- Attached hinged lid **won't get lost or separated** from funnel
- Threaded brass neck (DRM1680) **fits 2" NPT bung opening** on 30- and 55-gallon steel and poly drums
- Brass neck (DRM1681) **fits 30- and 55-gallon poly drums** with buttress threads
- PTFE tape (included) **provides an excellent seal** between funnel and drum

DRM1680

Overfill preventer acts as a shutoff valve that tells you to stop pouring.

PIG® Burpless® Poly Drum Funnel

*"Amazing product — I use it
all over my shop."*

— Vernon, PIG Grippy
Absorbent Mat Customer

ABSORBENTS

World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up oil and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything. It was a nightmare. And it was everywhere. When they started losing money on these jobs, they set out to find a better way to soak up the oily mess.

They cut up pantyhose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen. Nothing worked. Finally, they tried the ground corncob they used to blast oil off factory walls — and the first PIG was born.

The **PIG Original Sock** is still the most preferred absorbent sock in the world — sucking up oils, coolants, solvents and water in all kinds of workplaces. Don't miss the PIG Socks on pages 34–38 to see how our offering has grown!

PIG Mat: It's mat with muscle!

When absorbent mats came on the scene 30-some years ago, they were flimsy and fell apart. So we made one that was better. Today, PIG Mat is still the most durable absorbent mat you can buy.

Exclusive 8-layer construction

No other brand delivers the perfect combination of fine-fiber materials, thermal bonding and multilayered design. That all adds up to absorption, retention and durability that just can't be beat.

“SOAK IT UP WITH THE #1 BRAND.”

The quality and engineering that go into our absorbents are second to none. Nothing outperforms or outlasts PIG, and we never stop looking for ways to get even better.

Dan Silver — Vice President of Product Development

■ UNIVERSAL

For oils, coolants, solvents & water

Also called MRO absorbents (Maintenance, Repair & Operations), they soak up the widest range of liquids in everyday applications. Use these versatile products for almost any job.

PIG Universal Mats.....	8–30
PIG Universal Socks	34–38
PIG Universal Pillows	38–39
PIG Universal Pans & Loose.....	40–45

■ OIL-ONLY

For oils, NOT water

Oil-only absorbents are naturally water-repellent, making them your best choice for oily cleanups on water. Perfect when you want to preserve absorbency just for oil.

PIG Oil-Only Mats.....	48–59
PIG Oil-Only Socks	60–66
PIG Oil-Only Pillows	67–68
PIG Oil-Only Pans & Loose.....	68–69

■ HAZMAT

For most acids, bases and chemicals

Specially treated absorbents soak up spills without degrading or reacting to corrosive liquids. Play it even safer with our neutralizing absorbents for most acids and bases.

PIG HazMat Pads & Rolls	72–73
PIG HazMat Socks.....	74
PIG HazMat Pillows.....	75
Neutralizing Absorbents.....	76–81

UNIVERSAL MATS

Perform everyday maintenance and clean up spills of oils, coolants, solvents and water.

What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Gasoline
- Diesel fuel
- Antifreeze
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

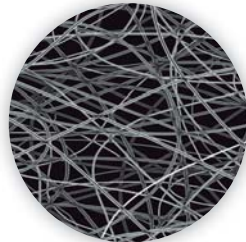

TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability.

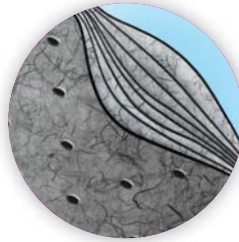

SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of liquid throughout the mat. Leak and spill cleanup is quick and easy.

HOLDS ITS LIQUID

Highly absorbent fine fibers trap liquids so they don't pour back out when you pick up the mat. The mess is gone for good!

LASTS 2X LONGER

Eight layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

WE MAKE MATS FOR EVERY WAY YOU WORK

MAINTENANCE MATS

When you need an absorbent mat for catching everyday leaks and drips or soaking up small spills, PIG Mat delivers. These mats keep your workstations clean, and they're perfect for jobs without much foot traffic:

Pig Blue Mat
PIG Mat
PIG Rip-&-Fit Mat
PIG High-Visibility Mat

WALK-ON MATS

Got a messy application that will see a fair share of foot traffic? Make sure you're choosing a mat that's built for the job. Step up to these PIG Mats with a spunbond top layer for extra walk-on durability:

PIG Ham-O Mat
PIG Chat Mat
PIG 4 in 1 Mat
PIG Fat Mat

HIGH-TRAFFIC MATS

If leaks and spills are hitting your busiest aisles and walkways, you need our roughest, toughest PIG Mats. These high-traffic mats are designed to withstand a daily barrage of wheels and workboots:

Grippy® Absorbent Mat
PIG Traffic Mat
Grippy® Floor Mat
PIG Elephant Mat

"We use PIG Mats all the time in our facility, and they are terrific."

— Patty, PIG Mat Customer

REELY, REELY ABSORBENT

BLU101

 EXCLUSIVE!

Blue Mat — Our most absorbent mat easily handles high-volume leaks and spills.

- **Maximum absorbency soaks up more** so you use less on big spills and high-volume leaks
- **No leak zones!** Consistent construction produces a mat that's free of light spots to absorb liquid evenly for better wicking and retention
- **Stays together**, even when picking up or shifting a fully saturated mat
- **Contains 75% recycled fibers**; ideal in situations where green products are desired or required
- **Fire retardant for added safety**; flame tested in accordance with ASTM Standard E84-08
- **Absorbs oils, coolants, solvents and water**; not recommended for acids, bases or other corrosive liquids
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

**EXPERT
ADVICE**

See why PIG Mat is the #1 Mat
in the world!

newpig.com/pig-mat-video

MAT140

PIG Mat lets you work grit-free to keep your shop clean and your tools and parts in top condition.

MAT283

Poly-Back Mat (MAT283) provides extra protection for floors, counters or other surfaces; place over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

PIG® Rip-&-Fit Rolls — Create custom sizes without cutting!

- **Extra perforations** in our Rip-&-Fit Mat allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting
- No matter how you rip it, this mat features the proven eight-layer, 100% polypropylene construction of PIG Mat, the **strongest mat on the market!**
- **Standard mat** (MAT242, MAT243) is perforated every 3 3/4" across width and every 10" along length
- **Extra-wide mat** (MAT252, MAT253) is perforated every 10" across width and length; prefolded for increased absorbency and compact storage; unfolds to cover large areas
- **Dispenser box** (MAT253, MAT242) makes it easy to carry and store your mat while protecting it from dirt and moisture

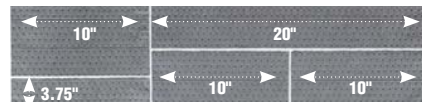

MAT242

MAT253
Unfold to cover wide aisles and walkways, or leave it folded to increase absorbency.

MAT243
Tear at the perfs to create the right mat size for any area, any shape!

PIG® Rip-&-Fit® Absorbent Mat Rolls in Dispenser Box

Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Heavy	MAT253	30"W x 50'L	1 roll	13.7 gal./box	\$88	\$81	\$75
	MAT242	15"W x 60'L	1 roll	7.8 gal./box	\$54	\$48	\$44

PIG® Rip-&-Fit® Absorbent Mat Rolls

Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Heavy	MAT252	30"W x 50'L	2 rolls	26.5 gal./bag	\$148	\$137	\$124
	MAT243	15"W x 150'L	1 roll	19.6 gal./bag	\$108	\$101	\$89

PIG® Absorbent Mat Roll — Four-inch-wide roll catches moisture along narrow ledges or near coolers to stop it from spreading into walkways.

MAT4150

- 4" x 150' rolls are ideal for covering long runs, narrow areas or placing in troughs; **mat absorbs and retains minor leaks, spills and condensation** to stop them from spreading into walkways
- **100% polypropylene** resists the growth of mildew, tearing and chemicals; reduces dust and holds in liquids, even when saturated
- **Perforated every 10"** so you can tear off as much as you need
- Very effective and **highly efficient for absorbing water**; also absorbs and retains oils, coolants, grease, gasoline, solvents, auto fluids, paint, battery acid and most other liquids
- Choose **dark gray color** to hide grime so mat stays on the job longer, or **hi-viz yellow** for high traffic or poorly lit areas

PIG® Absorbent Mat Rolls in Dispenser Box

(Specify Color: Gray Yellow)

Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Heavy	MAT4150	4"W x 150'L	1 roll	5.4 gal./box	\$38	\$34	\$31

Extra-Duty Mat — Clean up with two-sided toughness.

- Two additional spunbond outer layers **resist ripping and fraying from wiping rough surfaces or parts** that would shred conventional mats
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent**, fine-fiber construction won't leave behind liquids or fiber residue
- Absorbs and retains **oils, coolants, solvents and water**
- **Low-lint** for wiping rough parts or equipment and for cleaning in paint booth applications; great for lining benches or for placing under rough or sharp parts

MAT32100

EXCLUSIVE!

pig Grippy® Absorbent Mat — Soak up messes to stop slips, trips and falls around workstations and machinery.

- Adhesive-backed absorbent mat stays exactly where you put it with **no shifting, bunching up or flipping over**
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily** for quick changeouts
- **Tough, spunbond top layer** with heavy-duty zigzag stitching stands up to foot and light-wheeled traffic as well as heavy equipment driveovers
- **Eight layers** of fine-fiber polypropylene safely absorb leaks, drips and overspray of oils, coolants, solvents and water
- **Traps oil, grease and grime** to keep them from being tracked around; leakproof backing prevents liquid from reaching the floor
- Mat rolls provide enough length to create **continuous coverage** and absorbency in oily areas near machines and equipment
- **Easy to cut and install:** just roll it out, stick it down and smooth it out (also available in precut pads)
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

A CLOSER LOOK

Spunbond top layer stands up to traffic; dark color hides grime.

Zigzag stitching adds strength.

Eight layers of fine-fiber polypropylene absorb oils, coolants, solvents and water.

Poly backing stops liquid from passing through to floors.

Fully coated adhesive backing holds tight but peels up easily.

Grippy Absorbent Mat is the world's first adhesive-backed mat.

"It sticks and stays in place under foot traffic, carts and dolly traffic. I'm able to walk, work and restock shelving safely and productively without having to worry about tripping over loose or bunched-up mats."

— Greg V., MAT32100 Customer

PIG Grippy Absorbent Mats Notice: PIG Grippy Absorbent Mats are formulated to work with most common industrial and commercial floor surfaces but are not intended for home/residential use and wood flooring. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of PIG Grippy Absorbent Mats for your application, test a 6" x 6" piece in a noncritical area before use. PIG Grippy Absorbent Mats should be replaced if they become saturated or show signs of wear or damage.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE IN THE CUSTOMER'S FACILITY. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S FACILITY.

Grippy Absorbent Mat lays flat to provide a spill-soaking surface that won't shift or hang up carts and dollies.

pig Grippy® Floor and Traffic Mats — Keep floors dry, even in forklift areas, with our most durable absorbent mat.

- 100% polypropylene material is heat fused and needle punched for **incredible durability** for walk-on and wheeled traffic
- Our most durable mat **won't rip, shred or fray**, even under heavy forklift traffic!
- Absorbs and retains **oils, coolants, solvents and water**
- Dark gray color **hides grime** so mat stays on the job longer
- Rolls are **ideal for walkways** and large areas to soak up leaks and overspray
- **Cuts easily** with scissors or utility knife

*"We were using carpeting but the expense to change them out was costing us close to \$1,000 per month. Then I talked to a wonderful PIG rep who recommended this product and **WOW — it not only does a great job absorbing the oil and keeping our employees safe but it lasts 6 months or longer, allows our tool carts to roll over it and saves us lots of money.**"*

— Marge, GRP36200 Customer

PIG Grippy Floor Mat with special adhesive backing sticks to floors to provide safe footing

Zigzag stitching lets you walk all over it.

minspower.com

MAT234

EXCLUSIVE!

PIG Elephant Mat — Step up to our zigzag-stitched mat for absorbency plus walk-on durability.

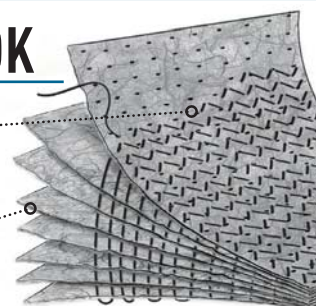

- Mat has **greater wear resistance** so you replace it less often
- Highly absorbent eight-layer PIG Mat is zigzag stitched to offer **excellent walk-on durability**
- Designed specifically for **heavy foot traffic or moderate to light wheel traffic**; put the zigzag side up to extend product life
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent, fine-fiber construction** won't leave liquids or fiber residue behind
- Absorbs and retains **oils, coolants, solvents and water**
- **Dark gray color hides grime**, so mat stays on the job longer
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job

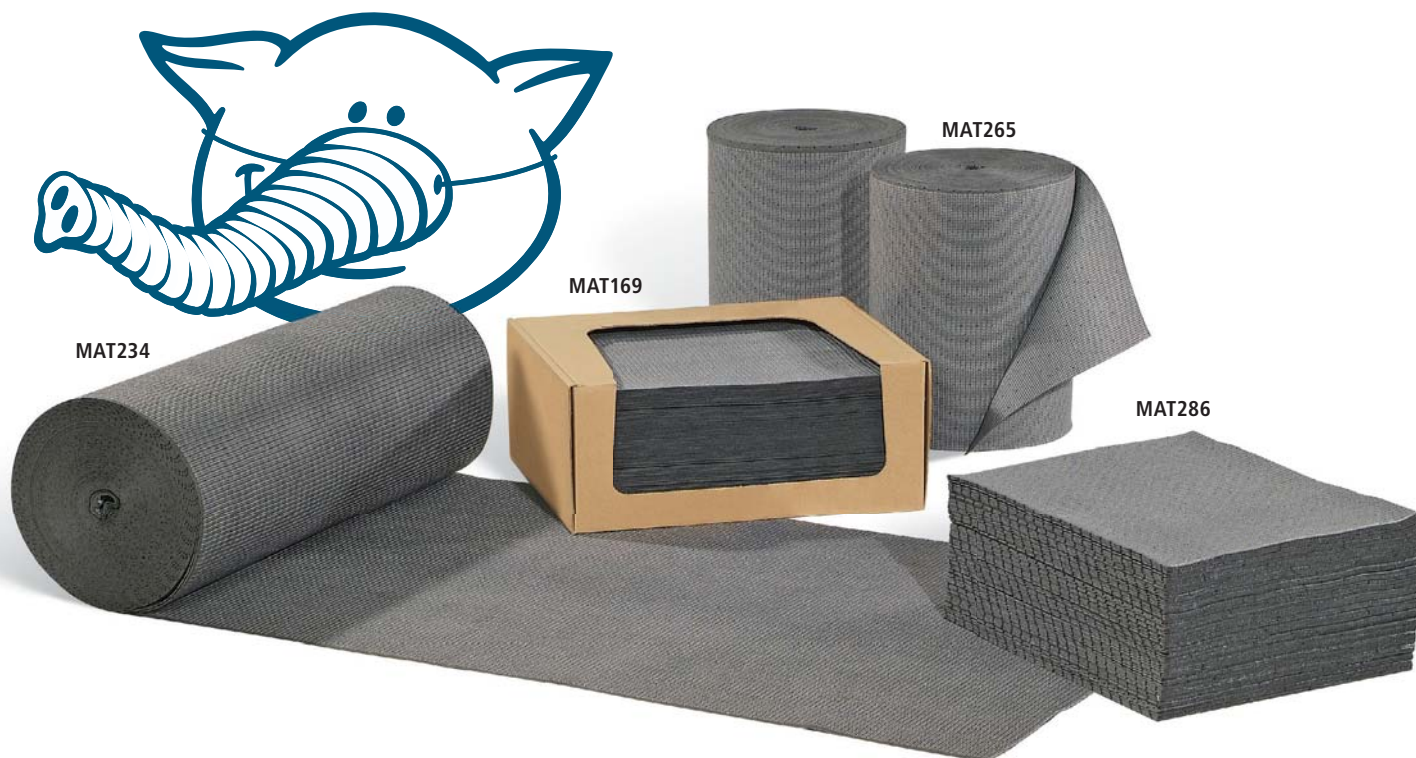

◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

A CLOSER LOOK

Zigzag stitching adds strength.

Eight layers of melt-blown polypropylene absorb oils, coolants, solvents and water

Even really heavy foot traffic like this won't rip or shred Elephant Mat!

Poly-Back Mat (MAT270) provides an extra layer of protection to prevent absorbed liquids from reaching floors, counters or other surfaces; can be placed over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

"This is definitely some tough material. Very similar absorbing capacity as other mats we already use, but TOUGH! I like how it does not pill up when tools or materials get set down, moved or slid on the mat."

— Mike T., MAT256 Customer

UNIVERSAL SOCKS, PANS, PILLOWS AND LOOSE

PIG-tough solutions to absorb oils, coolants, solvents and water.

World's
#1
Absorbent
Brand

What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Diesel fuel
- Propylene glycol
- MEK (methyl ethyl ketone)
- Vegetable oil
- Antifreeze
- Acetone
- Many other noncorrosive liquids
- Gasoline
- Water-based solvents
- Toluene & Xylene

SOME MESSES NEED MORE THAN A MAT.

Small spills and machine overspray call for the quick absorbency of PIG Mat. But leaking machines or runaway spills must be confined before they make your floors a mess and create the potential for a slip-and-fall accident.

That's when you reach for a moldable PIG Sock. No matter what kind of mess you're facing, there's a PIG Sock to tackle it. From Original PIG Socks for general maintenance to PIG Blue Socks for diking and damming liquids, every sock we sell is PIG-tough to get the job done.

Find out why choosing the right sock matters. Read the article at newpig.com/look-inside-socks

Highly absorbent filler traps and holds liquids — they won't leach out onto floors.

Moldable skin won't fall apart.

Absorbent material is contained, so socks are easy to pick up and replace.

■ UNIVERSAL SOCKS, PANS, PILLOWS & LOOSE

For oils, coolants, solvents & water

3 simple steps to get the most out of your PIG Socks.

1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

EXCLUSIVE!

PIG Original Sock — Control your everyday leaks with our most shape-hugging socks.

- Formable socks **hug corners and surround machine bases** to absorb leaks, contain puddles and keep workers safe
- Corncob filler **pulls liquids from the floor** for maximum absorbency; cleanup is quick and easy
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated

PIG Clip-&-Fit Socks (PIG220) let you create custom-sized socks in seconds! Use only what you need and reduce waste.

*"We have about 30 CNC machines in our shop and, of course, some of these machines leak coolant and oil. Out of everything we've tried to contain these leaks, we found that **PIG products work the best**. Very happy with our purchases from PIG."*

— Adam R., PIG218 Customer

Universal

Absorbs oils, coolants, solvents and water

EXCLUSIVE!

Blue Sock — Our heaviest sock forms a barrier to keep spills from spreading.

- The **heaviest sock** we make features extra-dense construction to hug floors and stay in place while containing spills; ideal for **diking and damming liquids**
- **Fine-grade vermiculite filler** quickly absorbs leaks, drips and spills; great for spill response or absorbing machine leaks
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- Can be **air-dried for reuse** when soaked with water

Ideal for surrounding leaking machines, too!

PIG210

EXCLUSIVE!

Super Absorbent Sock — Handle your high-volume leaks with our most absorbent sock.

- **Extra-thirsty, formable socks** hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is **highly absorbent for big leaks and spills**; super absorbency means that you replace them less often
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- 95% recycled cellulose filler is **ideal when green products** are desired
- **Wringable** for reclaiming up to 65% of absorbed liquid
- Can be incinerated after use to **reduce waste** or for fuels blending

Super Socks can be wrung out to reclaim liquids for recycling. (See page 288 for wringer.)

BEST SELLER!

PIG Water Hog — Remove water from fuel tanks with easy-to-retrieve absorbents.

- Prevent frozen fuel lines and gelled fuel; just drop a Water Hog into tank port for **fast absorption of water**
- Combats rust, algae and filter blockage to help **prevent premature engine wear and potential failure**
- Heavy-duty rip-stop nylon skin with unbreakable plastic casing ensures **snag-free use** in closed tanks and ports

PIG Mildew-Resistant Sock — Great for soaking up water — air-dry and reuse!

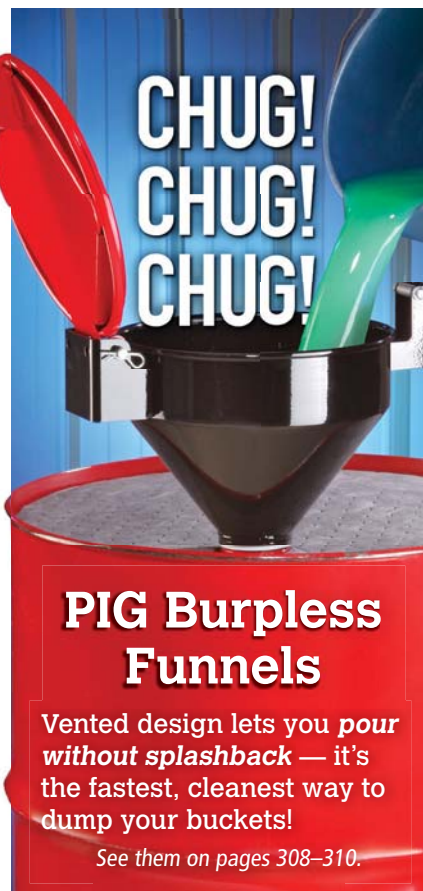

- **Stops leaks, spills and condensation from spreading**
- 100% polypropylene skin and filler **resist the growth of mildew**, unlike cellulose absorbent socks
- Very effective and efficient for **absorbing water**; air-dry and reuse (when absorbing water only)
- **Also absorbs** oils, coolants, grease, paint, gasoline, solvents, auto fluids and battery acid

PIG® Dri Loose Absorbent — Highly absorbent granules are heavy like clay and won't blow around.

- Unlike clay, which coats itself in liquid, fast-wicking cellulose-based kaolin granules **begin to soak up liquid the moment they touch the spill**
- **100% recycled content** (a by-product of the papermaking process); ideal when green products are desired or required
- Lightweight absorbent is **easier than clay to carry and use** without injury
- Silica-free composition **does not pose the health hazards** associated with breathing in clay dust
- **Absorbs and retains** oils, coolants, solvents and water
- **Can be incinerated after use** to reduce waste or for fuels blending

PIG® Dri Loose Absorbent

PIG® Dri Loose Absorbent in Spill Pouch

Item #	1-2	3+
PLP220 • 12 - 3-lb. pouches • Absorbs up to 4.5 gal./box	\$48	\$44

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids.

"We tried several different brands from at least 6 different vendors. This product tops them all. Very little dust, **it's light, but won't blow away in outside applications** and it absorbs faster than anything we've tried. New Pig has all my shop's business for absorbent products."

— Mark H., PLP213-50 Customer

Easy-to-handle pouch (PLP220) is perfect for small spills and helps reduce injuries from lifting heavy bags of loose absorbent.

LITE-DRI VS. CLAY? THERE'S NO COMPARISON!

What happens when we put PIG Lite-Dri Absorbent against clay on a 45-gallon spill? Lite-Dri Absorbent wins hands down!

Number of bags needed

Lite-Dri = 5.5
Clay = 10

Dry weight of absorbent

Lite-Dri = 121 lbs.
Clay = 500 lbs.

Used absorbent & liquid

Lite-Dri = 1 drum
Clay = 2 drums

Disposal cost^a

Lite-Dri = \$600^b
Clay = \$1,800^c

Total costs (material, disposal)

Lite-Dri = \$705
Clay = \$1,995

Use PIG Lite-Dri and save \$1,290!

^aWhether you use incineration or landfill, savings are 50% because you dispose of 50% less volume.

^bThis is because of higher Btu potential and lower ash content of Lite-Dri Absorbent.

^c\$900/drum for 2 drums.

PIG Lite-Dri Loose Absorbent — Lighter and easier to carry than clay, plus it absorbs up to 3X more!

- Unlike clay, which is simply coated with liquid, fast-wicking recycled cellulose actually **soaks up the spill the moment it touches the liquid**
- Three times more absorbent means you'll use less material on the spill, **reducing your labor and disposal costs**
- Silica-free composition is nonabrasive and **does not pose the health hazards** associated with breathing in clay dust
- Nonabrasive composition **won't harm finished floors or damage expensive machinery**
- **Lightweight absorbent** is easier than clay to carry and use without injury
- **Absorbs and retains oils, coolants, solvents and water**

- Bag features a **built-in handle** for easy portability, handling and dispersal
- Recycled cellulose is ideal when **green products** are desired or required

SHEEN CLEAN HELPS PREVENT SLIPS AND FALLS!

We used the BOT-3000 Binary Output Tribometer Universal Walkway Tester to measure the Static Coefficient of Friction (SCOF) of Sheen Clean on concrete floors. High SCOF numbers mean a higher traction surface; low numbers indicate a slippery surface.

There was a dramatic increase in SCOF when oily concrete was cleaned with PIG Sheen Clean. It picked up oily residue and restored the surface to nearly its original condition!

PIG Sheen Clean Loose Absorbent SCOF Test

Surface	Test 1	Test 2	Test 3	Avg.
Dry Concrete	.84	.80	.81	.82
Oily Concrete	.43	.36	.21	.33
Oily Concrete Cleaned with PIG Sheen Clean Loose Absorbent	.80	.74	.77	.77

PIG Sheen Clean Loose Absorbent — Removes slippery sheen from all surfaces.

- **Helps reduce slips and falls** by quickly absorbing spills and removing liquid residue that can leave floors slick and dangerous
- **Fine, granular absorbent** gets into cracks and crevices to help remove trapped liquids; removes slippery sheen from surfaces
- **Quickly absorbs** oils, coolants, solvents, water, paint or viscous liquids
- Specially formulated to **minimize dust**
- **Highly absorbent**; you use less and save
- Lightweight and **easy to handle**; bag has gusseted sides for easy pouring

Surround the spill with Sheen Clean Loose; it quickly absorbs spills and any liquid residue.

Then just sweep it up: it's lightweight and specially formulated to minimize dust.

OIL-ONLY ABSORBENTS

Soak up oily leaks and spills without wasting absorbency on water.

World's
#1
Absorbent
Brand

What is Oil-Only?

Oil-only absorbents do not absorb water. They should be your first choice for any application — indoors or out — where you need to soak up oil without wasting absorbency on water. Use for any oil- or hydrocarbon-based liquids, including:

- Motor oil
- Cutting oil
- Synthetic oils
- Vegetable fluids
- Hydraulic oil
- Diesel fuel
- Vehicle fluids
- Oil-based solvents

2 WAYS TO ABSORB OIL AND LEAVE WATER BEHIND:

Hydrophobic technology repels water.

Oil is absorbed.

Water beads and rolls off.

Oil-Only Socks & Booms — Since they float on water, you can control even large waterborne oil spills. They won't sink, even if they're soaked!

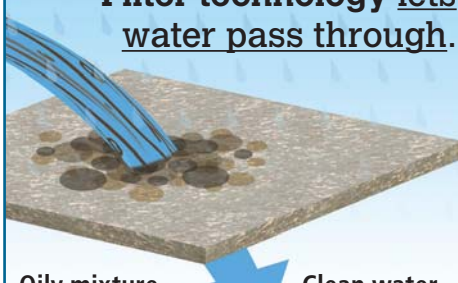

Oil-Only Mat Pads & Rolls — Indoors or out, if you know you're only cleaning up fuels or oil-based liquids, these products can maximize efficiency and save you money.

Oil-Only Pillows — Clean up large volumes of oil with our high-capacity absorbent pillows. Great for big spills on water or use beneath leaky machines.

Filter technology lets water pass through.

Oily mixture enters mat.

Clean water flows through.

Oily Water Filter Mats — Designed for stormwater applications and oily cleanups on land, these absorbent mats work rain or shine.

Oily Water Cleanup Towels — Wipe down oily equipment or surfaces outdoors where oil has collected in cracks and crevices. (See page N6)

Frequently asked questions:

Q: Will oil-only mats absorb diesel fuel?

A: Yes! PIG Oil-Only Mat absorbs all fuels and oil-based liquids including hydrocarbon-based, vegetable-based and synthetic oils and solvents. If static is a concern, choose PIG Stat Mat, sold on page 53.

Q: What mat should I use to filter oil out of water?

A: PIG Oily Water Filter Mats absorb oils and fuels but let water pass through. Use for stormwater jobs or as a pour-through filter for oily water. See pages 56–57.

Q: Do you have mats for absorbing jet fuel and other flammables?

A: PIG Stat-Mat Pads and Rolls are specially treated to reduce the risk of electrostatic discharge when working with flammables and consistently dissipate static per NFPA 99 criteria in 0.05 seconds or less. See page 53 and don't miss our new static-dissipative socks on page 61.

**EXPERT
ADVICE**

Oil hates water and so does PIG Oil-Only Mat! Watch them go at it: newpig.com/oil-absorbent-mat-video

LOVES OIL HATES WATER.

MAT403

TOP 10
BEST
SELLER!

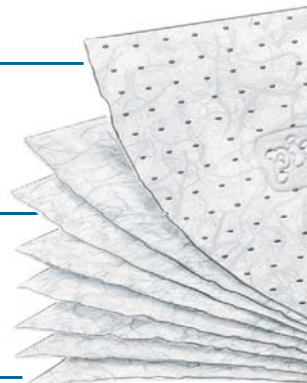

EXCLUSIVE!

Oil-Only Mat — Absorbs oil-based liquids, repels water and lasts 2X longer than ordinary mats!

- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the **strongest mat on the market**; won't rip, tear or fray even when saturated
- Highly absorbent, **fine-fiber construction** won't leave behind liquids or fiber residue
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Exclusive dimple pattern **speeds wicking of liquid** throughout mat for faster, easier cleanup
- **Bright white color** makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response
- **Floats** to clean up spills on water
- Choose **lightweight** for small jobs or for routine changeouts; **mediumweight** as a great general purpose mat; and **heavyweight** for bigger spills and leaks
- Can be wrung out and incinerated after use to **reduce waste or for fuels blending**
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- **Pads** are ideal for catching drips and soaking up spills; **Rolls** are ideal for covering large areas and soaking up leaks and overspray
- **Easy-tear perforations** let you take only what you need, so you use less mat and save money

PIG® Ham-O Oil-Only Mat — Exclusive "hamouflage" top layer makes absorbed oily grime invisible so you can keep the mat down longer.

MAT437

- The grime-hiding top layer lets you leave the mat in place longer and **save money**; stands up to **heavy foot traffic**, and **won't rip, tear, fray or create a trip hazard**, even when saturated
- **Fast-wicking "diaper action"** transfers liquids from the tough, spunbond top layer into the absorbent inner layers
- Under the Ham-O top layer is the **proven eight-layer, 100% polypropylene construction of PIG Mat**
- **Absorbs and retains oil-based liquids**, not water

NOTE: Ham-O Mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.

A CLOSER LOOK

Spunbond polypropylene..... adds walk-on durability.

Sixteen layers of melt-blown polypropylene make PIG Fat Mat extremely absorbent.

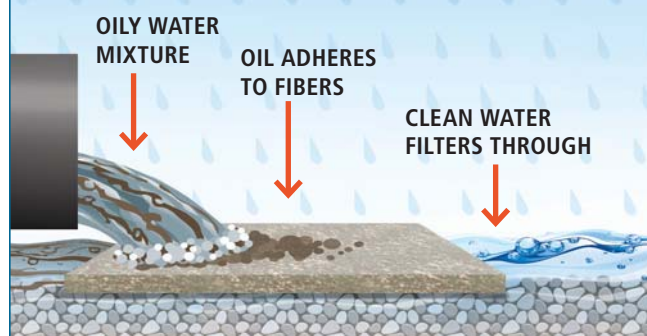

Oils are captured by the filter mats before they can harm the environment.

Oily Water Filter Mats — Traps oils and fuels but lets water pass through for fast outdoor cleanup.

- Clean up oily leaks, drips and spills on land — **rain or shine**; mats absorb diesel, gasoline, kerosene, transformer oil, hydraulic fluid, motor oil and other oil-based liquids
 - Absorbent mats **allow water to pass through as they capture oils** — ideal for stormwater applications
 - Heavyweight construction is superabsorbent for demanding tasks and large-volume cleanups; **great for use near storm drains**, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment
 - UV resistant mat is **perfect for outdoor use**
 - Can also be used as a **pour-through filter** for mop buckets and other containers of oily water
 - **Contains 85% recycled fibers**; can be incinerated after use to reduce waste or for fuels blending
 - Choose **Mat Pads** for everyday jobs and **Mat Rolls** for more coverage on bigger cleanups; **Mat Strips** are designed to be placed around storm drains
- ◆ **Helps you comply** with SPCC and Stormwater Regulations.

A CLOSER LOOK

How PIG Oily Water Filter Mats work to capture oils:

MAT1206, MAT1201 and MAT1207 Special "vacuum" packaging takes up less space on your shelf and helps you respond quickly to spills.

Pads absorb diesel, gasoline and kerosene — perfect for cleaning up spills around fuel tanks and dispensing areas.

Narrow strips are designed to line the perimeter around your drains to keep oil and fuel spills from entering the stormwater system.

	MAT445	10'W x 10'L	1 pad	12 gal./bag	\$197	\$185

Precut ground mats catch leaks during maintenance; MAT444 and MAT445 feature brass corner grommets for tying in place.

PIG Oil-Only Socks are great for absorbing oil-based liquids on land and they float to clean up oil spills on water.

EXCLUSIVE!

PIG Oil-Only Sock — A full year of UV resistance makes PIG the best outdoor sock you can buy.

- **Moldable socks** hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe
- Cellulose filler is hydrophobic — **absorbs oil-based liquids but not water** — in a variety of environments
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Ideal for use **on land**, but also floats to clean up oil spills **on water**
- **Attached string** conveniently allows socks to be tied down, tied together or dipped in noncorrosive wash baths
- Skin is **UV resistant** up to 12 months; meets NFPA 99 standards for static decay
- **95% recycled content** is ideal when green products are desired or required

*"Delivery was super fast. The socks are easy to use just about anywhere. They bend or can be tied together for the shape and length you need. And, they get the job done. **We'll be purchasing these again and again.**"*

PIG® Sheen Clean Sock — Cleans up thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that **pulls in thin, "rainbow" sheens of oil**
- Ideal for **long-term deployment** to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- **Attached string** for tying socks down, together or dipping into tanks
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Skin is **UV resistant up to 12 months**; provides long-term outdoor use without degradation
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

PIG® Sheen Clean® Oil-Only Absorbent Sock

Item #	Size	Unit	Abs. Up To	1-2	3-6	7+

BEST SELLER!

PIG® Static-Dissipative Absorbent Socks — Static discharge won't be a problem if you clean up volatile spills with these socks.

- **Reduces the risk** of electrostatic discharge; a critical precaution around flammable liquids and vapors
- **Absorbs and retains oil-based solvents and fuels** — acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — but not water
- **Spunbond polypropylene skin is UV resistant up to 12 months**; filler and skin are 100% static-dissipative polypropylene
- **Socks pass NFPA 99 standards** for static decay and surface resistivity; ideal for fueling areas, solvent cleanup and truck spill kits
- ◆ **Helps you comply** with 29 CFR 1910.106(h)(7)(i)(a) for preventing static that could ignite flammable vapors

PIG® Static-Dissipative Absorbent Sock

Item #	Size	Unit	Abs. Up To	1-2	3-6	7+

SEE PIG STAT-MAT ON PAGE 53 AND FUEL KITS ON PAGES 117–119

PIG® Skimmer Sock — Skim and absorb surface oil from acid baths or other caustic environments.

- Tough, UV- and **chemical-resistant** polypropylene skin and filler absorb oil-based liquids but repel water-based liquids
- Ideal for **skimming oil off acid or caustic baths** or in other acidic environments
- **Meets NFPA 99** standards for static decay
- **Attached string** allows socks to be tied down, tied together or dipped into tanks
- **Socks float** for easy retrieval

SKM203

BEST
SELLER!

PIG® Oil-Only Maintenance Sock — Soak up oil-based liquid indoors with our 95% recycled-content sock.

- Designed for use indoors, **these socks absorb a variety of oils, solvents, food-grade oils and other hydrocarbons**, but not a drop of water
- **Economical design** for general, daily use, compared to socks for specialty applications
- **Tan color hides grime** to stay on the job longer
- **Filler is a mixture** of pre- and postconsumer hydrophobic newsprint; 95% recycled content

NOTE: Not for continuous outdoor use.

PIG® Oil-Only Maintenance Absorbent Sock							PIG
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+	
SKM500	Ext. Dia. 3" x 48"L	30 socks	30 gal./box	\$130	\$128	\$125	

PIG® Flat Oil-Only Sock — UV-resistant flat sock has a wider surface area for oily drips outdoors.

- Design is a **hybrid of round socks and flat pillows**; hugs walls, machine bases and uneven ground to absorb and contain oil-based leaks, drips and spills, but no water
- Low-profile design puts more material in contact with the ground for **better diking and max saturation**
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Skin is **UV resistant up to 12 months**; meets NFPA 99 standards for static decay

PIG® Flat Oil-Only Absorbent Sock							PIG
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+	
SKM414	6"W x 48"L x 2"H	8 socks	16 gal./box	\$109	\$102	\$95	

pig Sump Skimmer — Perfectly sized to pull oil out of your sumps, tanks and bilges.

- **Simply lower floating skimmer** into any water-based liquid to absorb oil-based liquids without taking in water
- **Bright white color** makes absorbed oil easier to see; clearly shows saturation level
- Can be **incinerated after use** to reduce waste or for fuels blending
- SKM400, SKM401 and SKM404 **meet NFPA 99 standards for static decay**

Tie skimmer to grate with a rope (not included) for easy retrieval during inspections and changeouts.

PIG Monitoring Well Skimming Socks are just the right size for keeping an eye on well maintenance.

Skimmer floats while absorbing oils without taking in water.

PIG® Sump Skimmer

"Your skimmers and oil-only products saved our bacon many times during surprise environmental regulators' visits. They were impressed with how they absorb all the oil and don't drip any while being retrieved from the sump."

— Robert B., SKM400 Customer

pig Rigid Monitoring Sock — Small-diameter sock lets you know if there's oil in your monitoring well.

- Rigid polypropylene case with large apertures keeps small-diameter sock in **direct contact with liquids** at all times for max efficiency
- Design **prevents bunching or bending** when lowered into spaces as tight as 2" wide
- Perfect for **soaking up unwanted oil-based fluids** that collect in monitoring wells, tanks, bilges, underground substations, stormwater drains and other limited-access applications

Eyelet on each end lets you attach ropes and weights (not included).

SOP UP SPILLS ON LAND OR WATER

TOP 10
BEST
SELLER!

BOM304

EXCLUSIVE!

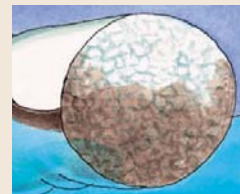

pig Absorbent Boom — Control an oil spill anywhere with our field-proven boom.

- **Floats** to confine and soak up spills on water; **hugs ground** for land-based spills
- **Tough outer mesh** is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- **Rope running along length of boom withstands up to 400 lb. loads**, adding strength for deployment and retrieval
- White spunbond polypropylene skin is UV resistant up to 12 months; **meets NFPA 99 standards for static decay**
- **Dark color (BOM410–BOM415)** spunbond polypropylene boom skin is UV resistant up to 4 months
- **Bright white color** makes booms easier to see in outdoor environments and clearly shows saturation level
- **Booms float** at surface for easy retrieval, even when saturated
- **Absorbs and retains oil-based liquids** — including lubricants — without taking in a drop of water
- Strong, zinc-plated carbon steel attachment clips and rings allow you to **link booms together** for greater length
- **Can be incinerated** after use to reduce waste or for fuels blending

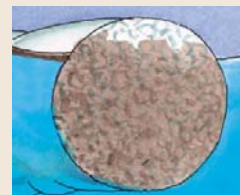

OIL-ONLY BOOMS AT WORK

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

BOM304

BOM414

BOM304

PIG Oil-Only Booms in bright white are easier to see in outdoor environments and clearly show the saturation level.

BOM414

Dark color booms blend in while they absorb so they're barely noticeable.

newpig.com/lowertheboom

Spaghetti strip filler pulls in thick, petroleum-based liquids for effective spill cleanup.

PIG® Oil-Only Spaghetti Boom — Specially designed to contain and absorb thick oils on water.

- Mesh skin and **spaghetti strip filler** design are ideal for pulling in thick oil or for use in fast-moving waters; **bright white color** is easy to see and shows saturation level
- Tough outer mesh is **UV resistant** for long-term outdoor use without degradation; lets fluids easily pass through to filler material
- Rope running along length of boom withstands up to **400 lb. loads**
- **Absorbs and retains oil-based liquids** — including lubricants and crude oil — without absorbing a drop of water
- **Boom floats** at surface for easy retrieval, even when saturated
- Strong, zinc-plated carbon steel attachment clips and rings allow you to **link booms together**
- To confine spills in rough water, **add a skimming sweep** (MAT405-01, below) — absorbs an additional 3.9 gallons

PLP500 • For Oils • 4 - 2-lb. Containers	\$233	\$225

THERE'S ONE IN EVERY FAMILY.

Okay, so one of these socks is a total ham. But underneath their skin, every PIG Sock is just a suck-up looking for a spill.

Find our stand-out
PIG Blue Absorbent Sock (4048)
on page 35.

HAZMAT ABSORBENTS

Specially treated to absorb most acids, bases, corrosives and chemicals.

World's
#1
Absorbent
Brand

What is HazMat?

PIG HazMat Absorbents are specially treated to soak up spills without degrading or reacting to corrosive liquids including:

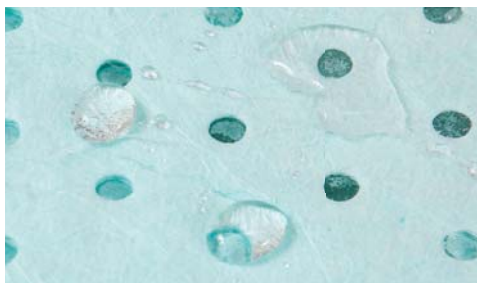

- Sulfuric acid
- Nitric acid
- Phosphoric acid
- Potassium hydroxide
- Hydrochloric acid
- Hydrofluoric acid
- Sodium hydroxide
- Hydrogen peroxide

KICKIN' ACID AND TAKIN' NAMES.

OURS

PIG HazMat completely absorbs 98% sulfuric acid.

THEIRS

Highly concentrated corrosives just puddle on top.

Clean up acids and bases with the only mats and pads for high-concentration chemicals.

Only PIG HazMat Absorbents are built to handle the worst of the worst. Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react. But PIG is specially treated to absorb high concentrations of corrosive chemicals.

PIG HazMat Absorbents provide the widest range of chemical resistance you can buy, but don't let the pink color fool you — they're all tough as nails. You get the same strength and durability that make PIG the world's #1 selling absorbent brand. Nasty chemical spill? Think pink!

Need to neutralize the spill while you're cleaning it up? See pages 77–81.

Look where customers are using PIG HazMat:

- Surrounding drums in chemical storage areas
- Around battery packs
- Around dip tanks
- Under cleanroom windows to catch condensation
- Boiler rooms
- Labs
- Research and development departments
- Finishing departments

Frequently asked questions:

Q: Why do PIG HazMat Absorbents cost more than universal sorbents?

A: Many universal sorbents on the market are made from cellulose or other materials that are unsuitable for corrosive liquids. PIG HazMat Absorbents are 100% polypropylene and specially treated to provide the widest range of chemical resistance.

Q: Why are high concentrations of acids or bases slow to absorb?

A: The surface tension of highly concentrated acids and bases slows absorption. Lightly misting the absorbent with water will help break the surface tension and allow it to be absorbed more quickly.

Q: Do they neutralize acids and bases?

A: No. PIG HazMat Absorbents help responders with cleanup by quickly absorbing spills but they don't neutralize. (See PIG Neutralizing Absorbents on pages 77–81.)

MAT302

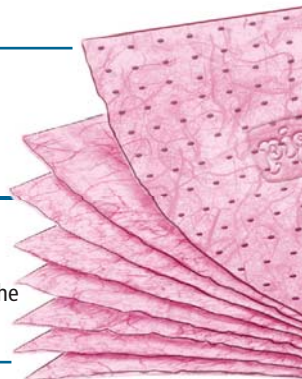

EXCLUSIVE!

pig HazMat Pads and Rolls — Specially treated to absorb highly concentrated corrosives.

- Absorbs the widest range of acids, bases and unknown liquids — even those with **high concentrations like 98% sulfuric acid and 30% sodium hydroxide**
- Chemical-resistant mat **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; **won't rip, tear or fray even when saturated**
- Exclusive dimple pattern **speeds wicking** of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fiber construction **won't leave behind liquids** or fiber residue
- **Absorbs and retains** most acids, bases and unknown liquids
- Pink **color is easily distinguishable** to assure workers use the correct mat during a spill emergency
- **Flame-resistant** material won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Heavyweight construction is **highly durable and absorbent** for demanding tasks and large-volume cleanups

A CLOSER LOOK

Eight layers of melt-blown polypropylene specially treated to absorb corrosives make PIG Mat the toughest mat on the market!

Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Heavy	MAT342	15"W x 60'L	1 roll	7.9 gal./box	\$54	\$48	\$45

"I work for a chemical delivery company, and we must be prepared for spills at all times with special pads and socks. **New Pig has the best products hands-down**, and we never worry if they're going to work. All the area fire departments also use PIG products."

— Cory F., MAT354 Customer

PIG® HazMat Socks and Dikes — Contain and absorb spreading spills of highly concentrated corrosives.

- Absorbs the **widest range of acids, bases and unknown liquids**, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant socks and dikes **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Polypropylene skin **resists chemicals and tearing**; reduces dust and holds in liquid, even when saturated
- Polypropylene filler is **highly absorbent** for containing corrosive or reactive spills
- **Socks** (124CR and PIG301) are excellent for quickly diking and stopping the spread of **smaller chemical spills**; **dikes** (HA1010) are excellent for quickly diking and stopping the spread of **larger chemical spills**
- **Pink color is easily distinguishable** to assure workers use the correct dike during a spill emergency
- **Can be incinerated** after use to reduce waste

HA1010

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

Watch how PIG Socks dike and stop the spread of smaller chemical spills: newpig.com/sockvideo

PIG® Chem Guard Sock — Form a barrier to stop corrosive spills from spreading.

- Each sock **absorbs 80 oz.** of acids, bases, coolants, solvents and water; should not be used with hydrofluoric acid or hydrazine
- **Fast-wicking** amorphous silicate filler retains liquids after absorbing
- **Flexible socks** are great for diking and molding around chemical spills

PIG® Chem Guard Hazardous Chemical Absorbent Sock				PIG
Item #		1-2	3-9	10+
PIG305 • Ext. Dia. 3" x 48"L				
12 socks • Abs. up to 7.5 gal./box	\$118	\$112	\$107	

See note above for more details on compatibility and testing.
Acid Absorbents Notice: Not for use with hydrofluoric acid.

* ⚠️ **WARNING:** Cancer - www.P65Warnings.ca.gov

HazMat Pillow — More absorbency for large chemical cleanups.

- Absorbs the **widest range of acids, bases and unknown liquids**, even 98% sulfuric acid and 30% sodium hydroxide
- **Pillow won't degrade** or cause a dangerous reaction upon contact with corrosive spills
- Pillow has large surface area, high capacity and fast-wicking filler to quickly soak up liquids; **great for adding absorbency during spill response**
- **Pink color is easily seen** to assure use of the correct pillow

PIG® HazMat Chemical Absorbent Pillow in Dispenser Box

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
PIL302	8"W x 8"L x 1"H	20 pillows	4.69 gal./box	\$144	\$134	\$130
PIL306	8"W x 8"L x 1"H	10 pillows	2.34 gal./box	\$82	\$81	\$70

PIG® HazMat Chemical Absorbent Pillow

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
HR7015	17"W x 16"L x 2"H	10 pillows	10 gal./box	\$251	\$243	\$234
PIL307	8"W x 17"L x 2.5"H	10 pillows	6 gal./box	\$144	\$134	\$130

See note on page 74 for more details on compatibility and testing.

Forms into a solid mass that can be easily removed with a shovel and broom.

PIG® Absorb-&-Lock Absorbent — Solidifies absorbed acids and locks them into the material for easier cleanup.

- **Permanently solidifies** to "lock in" absorbed acids; won't leak or revert to liquid state when handled or placed under pressure
- Environmentally friendly product **absorbs acids and corrosives**
- **Helps you comply with EPA requirements** when used to solidify waste prior to shipment or landfilling

PIG® Absorb-&-Lock® Acid Absorbent

Item #	1-2	3+
PLP501 • 4 - 4-lb. Containers • Abs. up to 16 gal./box	\$251	\$243

PIG® Loose Absorbent — Our HazMat Pad in loose form.

- With the power of PIG HazMat in a loose absorbent, it can be used for **various applications**; ideal for hard-to-reach spaces or final cleanup
- Chemical-resistant absorbent **won't degrade** or cause a dangerous reaction

PIG® HazMat Chemical Loose Absorbent

Item #	1-4	5-11	12+
HA8010 • 1 - 5-lb. bag • Abs. up to 6.5 gal./box	\$65	\$61	\$58

See note on page 74 for more details on compatibility and testing.

NEUTRALIZING ABSORBENTS

Absorb and neutralize small spills of most acids and bases for safer handling and cleanup.

Neutralizers and neutralizing absorbents are made for spills of 5 gallons or less. If you're working with small quantities of acids or bases, neutralizers can help make these liquids safer to clean up and handle. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making neutralizers impractical for large corrosive spills.

Color change helps you work safer.

To further minimize your risk during chemical cleanup, many of our absorbents feature color-change technology. Take our PIG Encapsulating & Neutralizing Absorbents on the opposite page. They change color on contact with acids or bases, then return to their original color when neutralization is complete.

Look for this important safety feature in our offering of neutralizing products. Need help choosing? Just call 1-800-HOT-HOGS!

PIG Training

Train workers on best practices for incidental spills with our award-winning **PIG Spill Response Tactics Training**. See TRN100 and DVD100 on page 253.

PLP800

WE ALSO HAVE NEUTRALIZING SPILL KITS!

You can get our powerful PIG Neutralizing Absorbents in specially designed spill kits, too. Be prepared with PPE, cleanup tools and disposal containers — see pages 128–132.

KIT319

PIG Base Neutralizing Spill Kit in Bucket (See page 128)

KIT352

PIG Battery Acid Spill Kit in 20-Gallon Overpack (See page 131)

KIT353

PIG Battery Acid Spill Pack (See page 131)

PIG® Acid Encapsulating/Neutralizing Absorbents — Four absorbent choices, one easy step for safer acid cleanup.

- Choose from **mats, pillows, socks and loose** to help encapsulate and neutralize common acids in one step
- **Color changes** as acids are taken in, then returns to normal when neutralization is complete; helps identify the best time to handle with least risk
- **Gelling agents solidify acids** during neutralization; prevents them from leaching out of the absorbent
- **Acid neutralizer** instantly absorbs up to 98% concentrations of sulfuric acid and other acids

Color-change technology takes the guesswork out of safe handling.

Quick-acting mats absorb, encapsulate and neutralize common acids.

Stop a spreading spill with socks, and use mats and pillows to encapsulate the acid.

Loose absorbent neutralizes and solidifies spilled acid for safe and easy cleanup.

HAWK Battery Containment Unit — System includes neutralizing pillows, barrier walls and floor liner to keep acid leaks in check.

- Provides **spill containment** for stationary, sealed or VRLA lead-acid battery systems
- **Acid-resistant barrier walls and liner** contain leaks and spills of corrosive battery acid
- **VRLA Battery Acid-Neutralizing UL Recognized Pillows** (included) change color on contact with acids or electrolytes (but not water) to indicate a spill; replacement pillows (PIL3000) sold separately on page 79
- Entire system is made of **non-metallic components** for a wide range of chemical compatibility
- UL Recognized liner has **Class 1 fire rating** (NFPA 101)
- ◆ **Helps you comply** with battery containment regulations

PAK4040
Includes walls, liner and absorbents.

Quick-slip barrier walls with floor liner are quick and easy to install.

DON'T NEED VRLA PILLOWS? CUSTOM ORDER FOR FLA OR NICAD! CALL 1-800-HOT-HOGS.

Dry Acid Neutralizer — Economical and easy to use for large spill cleanup.

- Dry, granular solids are easy to use; large bag provides quick and easy way to **neutralize acid spills**
- Sodium sesquicarbonate effectively neutralizes most acids; allows **safer cleanup after neutralization**
- **Ideal for use** in battery storage and charging areas

Dry Acid Neutralizer			
Item #	1-2	3+	
PLP300 • 1 - 50-lb. Bag • Neutralizes up to 1.5 gal.	\$93	\$88	

Notice: Not for use with hydrofluoric acid.

Battery Acid-Resistant Tray — Protect your equipment and flooring from corrosive leaks and drips.

- Low-profile tray is easy to use with cabinet and **Valve Regulated Lead Acid (VRLA)** battery applications; also use with motive power and backup battery power systems
- **Acid-resistant tray** is compatible with a wide range of chemicals
- Designed for use with battery acid-neutralizing **pillows and socks** (sold separately below) based on your battery type and application

Battery Acid-Resistant Tray			ENVIRGUARD	
Item #	Size	Sump Capacity	1-2	3+

DON'T FORGET THE ABSORBENTS! FILL THIS TRAY WITH PILLOWS AND SOCKS SOLD BELOW.

Battery Acid-Neutralizing Absorbents — Already have a containment unit? Line it with these socks and pillows. Choose VRLA, FLA or NiCAD.

- **Acid-neutralizing filler** protects your people and equipment against dangerous leaks, drips and spills
- Choose pillows and socks to absorb acid in **VRLA or FLA** battery applications; socks also available to absorb **NiCAD** electrolytes (KOH)
- **Changes color on contact** with acids or electrolytes (but not water) to indicate that a spill has occurred
- Choose a combination of 12" x 12" pillows or 4" x 24" socks to **cover the surface area** of your containment unit or tray
- **UL Recognized** Pillows and Socks have been tested to meet Class 1 fire ratings; **FM Approved** Pillows and Socks meet approval standard 4955 (see ordering information below)
- **Use with existing containment units** or buy as refills for the units sold on these two pages

PIG353 • Sock • 4 socks/box • Absorbs up to 1.5 gal./box Ext. Dia. 2" x 4"L	\$68	\$63	\$60

PIG® Base Encapsulating/Neutralizing Loose Absorbent			
Item #	1-2	3-6	7+
PLP804 • 1 - 40-lb. Pail • Neutralizes up to 11 gal.	\$320	\$316	\$314
PLP803 • 1 - 8-lb. Pail • Neutralizes up to 2.5 gal.	\$114	\$108	\$103
PLP805 • 10 - 2-lb. Shaker Bottles • Neutralizes up to 5.7 gal.	\$263	\$258	\$251

Base Absorbents Notice: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

PIG® Hydrofluoric Acid Neutralizing Loose — Safer handling of acid spills.

- Product **contains, absorbs and neutralizes** hydrofluoric acid
- **Pelletized formula** absorbs more and requires less cleanup than traditional hydrofluoric acid neutralizers
- **Doesn't splatter** or create hazardous dust

PIG® Hydrofluoric Acid Neutralizing Loose Absorbent			
Item #	1-2	3-6	7+
PLP806 • 6 - 1.5-lb. Containers • Neutralizes up to 1.4 gal./box	\$102	\$96	\$92
PLP807 • 1 - 10-lb. Container Neutralizes up to 1.6 gal.	\$92	\$86	\$82

PIG® Hydrofluoric Acid Neutralizer — Converts acid into organic salts and water for safer cleanup.

- **Liquid changes color** on contact with acid, then returns to normal when neutralization is complete; helps identify the best time to handle with the least amount of risk
- **Safer to use** than caustic soda neutralizers which can form a poisonous gas by-product
- Liquid formula works at a **1:1 ratio**

PIG® Hydrofluoric Acid Neutralizer		
Item #	1-2	3+
GEN864 • 4 - 1-gal. Bottles Neutralizes up to 4 gal.	\$336	\$323

Formaldehyde Pads — Minimize vapors for safer formaldehyde cleanup.

- Specially treated polypropylene **quickly absorbs formaldehyde**, formaldehyde-based fixatives, glutaraldehyde and other aldehyde solutions
- **Rapidly neutralizes** formaldehyde vapors to help protect workers
- **Durable top surface** resists rips, tears and abrasion

Formaldehyde Neutralizing Absorbent Mat Pads			
Item #	1-2	3-6	7+
MAT1400 • 16"W x 20"L Absorbs up to 4.5 gal./box 25 pads/box	\$374	\$366	\$359

Ansul Adsorbents — Neutralize spills up to 5 gallons for cleanup and handling.

- **GEN322 and GEN381 neutralize and solidify most mineral and organic acids** including sulfuric, hydrochloric, nitric and hydrofluoric
- **GEN323 and GEN382 neutralize and solidify many caustics** including sodium hydroxide (50%) and ammonium hydroxide (29%)
- **GEN324 adsorbs spills of many common hydrocarbon solvents** (including mineral spirits, naphtha and xylene), reagents and fuels; solidified liquid is easy to clean up

Ansul® Neutralizing Adsorbents		
Item #		1+
GEN382	• Spill-X-C® Caustic-Neutralizing Adsorbent • 168-lb. Fiber Drum Neutralizes up to 20 gal.	\$1775
GEN381	• Spill-X-A® Acid-Neutralizing Adsorbent • 168-lb. Fiber Drum Neutralizes up to 20 gal.	\$1020
GEN324	• Spill-X-S® Solvent Adsorbent • 16-lb. Pail • Neutralizes up to 3 gal.	\$535
GEN323	• Spill-X-C® Caustic-Neutralizing Adsorbent • 42-lb. Pail Neutralizes up to 4–6 gal.	\$488
GEN322	• Spill-X-A® Acid-Neutralizing Adsorbent • 50-lb. Pail Neutralizes up to 4–6 gal.	\$308

Spill-X Portable Spill Treatment — Neutralize a variety of small spills for safer cleanup and handling. Great for labs!

- **GEN522** is a portable kit packed with agents that **neutralize a wide range** of hazardous chemicals and solvents
- **Includes** guide, safety goggles, rubber gloves, disposal bags, scraper, pick-up pans and pH test paper
- **GEN527 has separate neutralizers** for acids, caustics and organic solvents
- **GEN528** is packed with spill control agents that **neutralize and solidify acid** spills; works on **most mineral and organic acids** including sulfuric, hydrochloric, nitric and hydrofluoric
- **GEN529** has spill control agents that **neutralize and solidify caustic** spills including sodium hydroxide (50%) and ammonium hydroxide (29%)

Spill-X® Portable Chemical Spill Treatment Kit		
Item #		1+
GEN522	• Multi-Purpose Spill Treatment Kit • 6 - 2-lb. Shaker Bottles Neutralizes up to 3 gal.	\$639
GEN522 Contents • 1 Portable Plastic Case • 6 Spill-X® Shaker Bottles • 1 Pair of Safety Goggles • 1 Pair of Safety Gloves • 2 Clean-up Pans, Mixers, Scrapers • 6 Chemical Spill Waste Bags • 1 Spill Kit Treatment Guide • 1 Package pH Indicator Paper • 1 Package Wall-mount Hardware		
GEN527	• Multi-Purpose Spill Treatment Kit • 6 - 2-lb. Shaker Bottles Neutralizes up to 3 gal.	\$179
GEN528	• Acids Spill Treatment Kit • 6 - 2-lb. Shaker Bottles Neutralizes up to 3 gal.	\$124
GEN529	• Caustics Spill Treatment Kit • 6 - 2-lb. Shaker Bottles Neutralizes up to 3 gal.	\$191

GEN527
Multi-pack includes agents for cleaning up acids, caustics and organic solvents.

**SEE BATTERY ACID SPILL KITS ON
PAGES 130–132.**

"Great value! Kit includes all items needed to handle spills at our location."

— Becky, PIG Spill Kit Customer

SPILL KITS

You can always expect the best from PIG Spill Kits!

Is it your job to make sure that a manageable mishap doesn't turn into a spill catastrophe? Be prepared for the worst by stocking your facility with the best — PIG Spill Kits are a no-brainer if you're serious about protecting your facility and avoiding EPA fines. Here's what separates PIG from the pack:

Packed with PIG Absorbents

PIG Mats, Socks, Pillows and Loose are the world's #1 brand of absorbents — and you'll only find them in PIG Spill Kits.

Filled for fast response

Every PIG Spill Kit is filled in the order you need the contents. No digging required! Cleanup starts the second you open the lid.

More choices to fit your facility

From UN Rated overpack salvage drums to grab-and-go bag kits, you'll find a PIG Spill Kit that's perfect for your application. Turn the page for help choosing!

UNIVERSAL KITS

For oils, coolants, solvents & water

- in Overpack Drums86–87

“WE’VE GOT SPILL RESPONSE DOWN TO A SCIENCE.”

As the leak-and-spill leader since 1985, every kit in our lineup is built on 30+ years' experience.

Kelli Steindl — Product Manager

Spill kits can help you meet SPCC requirements for active secondary containment.

If your facility is subject to SPCC requirements, spill kits can be an effective active secondary containment strategy for areas where you don't store bulk containers but you still have the potential for oil discharges.

reghelp@newpig.com • 1-800-HOT-HOGS

GET FREE ADVICE ON REGS! See page 317 for details.

◆ HELPS YOU COMPLY

Make PIG Spill Kits part of your plan for SPCC and Stormwater Regulation compliance.

◆ SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

◆ STORMWATER

40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

3 WAYS TO CHOOSE A SPILL KIT

1 SHOP BY LIQUID

Choose a spill kit with the right kind of absorbents for the liquids you manage at your facility.

UNIVERSAL SPILL KITS

Also called "MRO" absorbents, they soak up the widest range of liquids — oils, coolants, solvents and water.

Common liquids absorbed: hydraulic oil, vegetable oil, gasoline, diesel fuel, antifreeze, water-based solvents, propylene glycol, acetone, toluene, xylene and MEK

See pages 86–103

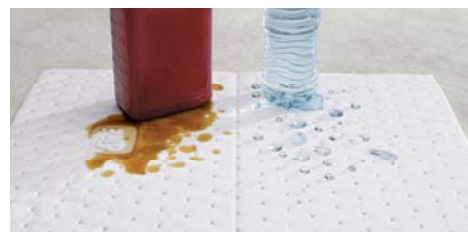

ABSORBS OILS, COOLANTS,
SOLVENTS AND WATER

OIL-ONLY SPILL KITS

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

Common liquids absorbed: motor oil, hydraulic oil, cutting oil, diesel fuel, synthetic oils, vehicle fluids, vegetable fluids and oil-based solvents

See pages 104–119

ABSORBS OIL BUT NOT WATER

HAZMAT SPILL KITS

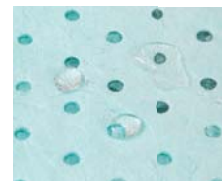

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

Common liquids absorbed: sulfuric acid, hydrochloric acid, nitric acid, hydrofluoric acid, phosphoric acid, sodium hydroxide, potassium hydroxide and hydrogen peroxide

See pages 120–133

OURS
Even 98% sulfuric acid
is completely absorbed.

THEIRS
Highly corrosive liquids
just puddle on top.

2 SHOP BY CONTAINER

Identify spill-prone areas and choose your spill kit based on where it's stored and how it's used.

We've got a container for every conundrum, giving you more spill kit choices than anyone else. Most of our kits are available in three versions to absorb any mess: Universal, Oil-Only or HazMat (see opposite page).

Overpack Kits — UN Rated containers are perfect when you need to ship your spill cleanup waste.

Economy Kits — Basic “trash can” containers do the job without the extra cost of a UN Rated shippable container.

Response Chests — Our largest kits can be centrally located as an absorbents “warehouse” or wheeled to a large spill.

Carts & Mobile Container Kits — Roll your spill response supplies right to the spill site in these containers with wheels.

Bucket Kits — Grab-and-go convenience that can also double as a UN Rated shipping container.

Bag Kits — Stuff these kits just about anywhere for easy access and quick transport to the scene of the spill.

3 SHOP BY APPLICATION

Choose from popular spill kit lines designed for specific areas and special tasks.

We've developed several lines of spill kits to meet the specific demands of certain applications. These kits have been fine-tuned with unique containers, essential protective equipment and job-specific absorbents.

Fuel Station Kits — Rugged, weather-resistant containers packed with our best absorbents for spilled fuel and oil.

Forklift Kits — Strap this fully equipped spill kit right to your forklift. No other kit mounts horizontally or vertically like this one.

Truck Kits — Rugged spill kits are road-ready and packed with supplies for cleaning up oil, gas and other vehicle fluids.

PIG Fuel Station Spill Kits
available in 5 container types (Overpack shown)

Battery Acid Kits — Stay ready for battery charging blunders with these spill kits for cleaning up and neutralizing battery acid.

Biohazard Kits — Stay safe and minimize the yuck factor with these specialized kits made just for biofluid cleanups.

PIG Truck Spill Kits
available in 6 bag types (Duffel shown)

KIT202

pig Spill Kit in Overpack Drum — Strong enough to earn a UN Rating for shipping spill cleanup waste.

- **Packed with PIG Absorbents** for the durability and retention you need for spill cleanup
- Lift-out baskets in 50-, 65- and 95-gallon kits **provide speedy access** and block damaging UV rays
- Overpacks are **X-rated for Packing Groups I, II and III** for shipping spill cleanup waste by land, sea or rail
- Lightweight, 100% plastic container **resists chemicals and keeps contents clean and dry**
- Overpacks are available **with or without wheels**
- **Leakproof, twist-on lid** protects contents from water damage
- Ledges molded into container make kit **easy to move by forklift**
- **Tamperproof seal** helps prevent pilfering of spill response supplies
- ◆ **Helps you comply** with HAZWOPER 29 CFR 1910.120 (j)(1)(vii)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

NOTE: A PIG Overpack Protection Cover (sold separately) is suggested for outdoor storage to protect container from UV degradation and weathering. See page 135.

Exclusive UV InnerShield System protects kit contents and provides easy access.

Lift-out baskets make it easy to reach the supplies you need. They also provide side protection against UV rays.

Lid insert protects against UV exposure from the top down. Keep your absorbents covered for longer life and maximum effectiveness!

pig Forklift Spill Kit in Bag — Strap a kit on your forklift: It's your first response to accidental spills.

Attached straps secure bag to the seat or rear beam of a forklift or other vehicle for easy grab-and-go.

Forklifts are a leading cause of spills from punctured drums, burst pipes, leaky tanks or upturned containers. These kits have basic spill response materials to stop a spill at the source and protect the responder.

- Kits are in reusable, weather-resistant, **grime-hiding black bags with attached straps**; easy to grab and go
- **Yellow reflective striping** on bags improves visibility

TRUCK SPILL KITS

Inside and out, we designed **PIG Truck Spill Kits** just for trucks. That may sound like a no-brainer, but until now, people used industrial spill kits as truck kits — it just doesn't work. Here's what makes ours better:

Truck-First Design

We studied trucks of every size and shape, *then* we developed spill kits to fit. (Check 'em out below!)

Ultra-Durable

Rugged construction for the rigors of the road. Our new bags won't rip or tear, so you can refill and reuse them.

Road-Ready Supplies

Packed with PIG Absorbents, collapsible containment and more for cleaning up spilled oil, gas and other vehicle fluids.

Behind the seat

Stowaway Bags are just the right size for storing behind or underneath your seat.

Exterior mounted Bucket Kits and Duffel Bag Kits can be mounted with optional brackets.

In the bed

Storage Boxes fit standard truck beds. **Bucket Kits** are also designed to ride outside and protect contents.

Box compartments

Tote Bag Kits are ideal for large internal or external compartments and mounted storage boxes.

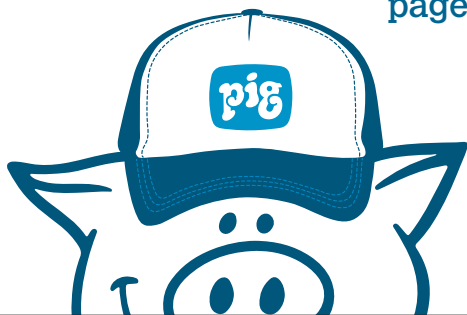

Big rig, box truck or pickup, there's a spill kit that fits on pages 100–103 and 114–115.

Long compartments

Duffel Bag Kits fit wheel well boxes and other long, narrow areas. External mounting containers also available.

**EXPERT
ADVICE**

Learn about our spill kits designed specifically for all kinds of trucks:

HIT THE ROAD WITH PIG!

Your truck's external compartments are perfect for spill kit storage. And now you can buy a kit that fits!

KIT622

EXCLUSIVE!

PIG® Truck Spill Kit in Stowaway Bag — Space-saving spill response stashes behind or underneath your seat.

- **Suitcase-style stowaway bag** is designed to fit behind or underneath the seat of a truck or other vehicles
- Packed with PIG Absorbents and other spill response supplies for cleaning up **oil, gasoline and other fluids** that leak, drip or spill from your vehicle (see contents at right)
- **Hi-viz yellow bag with reflective striping** is easy to find; increases driver visibility and safety during spill response
- **Bold "Spill Kit" lettering** on front and sides for quick identification
- Durable fabric and **rugged construction** for repeated use
- **Three interior compartments** help segregate contents
- Use carrying straps to **pull bag from its space** and take to the spill
- ◆ **Helps you comply** with 40 CFR 263.30(a) and 40 CFR 263.31

PIG® Oil-Only Spill Kit in Hi-Viz Economy Container — Clean up and comply without the extra cost of a UN Rated container.

Don't get us wrong, spill kits in overpack salvage drums are well worth the money when you need a UN Rated shipping container. But when you just need a spill kit, you can't beat the value (or visibility) of these economical containers.

- Basic container **saves money** when a UN Rated container for shipping haz waste is not necessary
- Bright yellow color is **easy to locate**
- Nonthreaded lid lifts off for **fast access**; molded-in handles make carrying easy
- Lightweight polyethylene container **resists chemicals and protects contents**
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

NOTE: Not recommended for outdoor storage.

REFILLS SOLD ON OPPOSITE PAGE.

BEST SELLER

UV-Resistant Oil-Only Spill Kit — Overpack and contents resist UV rays for up to 12 months.

- **Opaque container blocks UV** from degrading contents for up to 8,000 hours
- **All absorbents resist UV for up to 1 year** (12 hours/day of direct exposure for 12 months) and float to absorb oil on water
- **Lift-out, prepacked baskets** allow easy access to contents
- **Overpack drum is UN Rated** for shipping waste after cleanup
- **Reflective tape** on the lid adds visibility
- Ledges molded into container make kit **easy to move by forklift**
- **Leakproof, twist-on lid is notched** for easy removal or tightening with a 2x4 or pole
- **KIT416** contains PIG Oil-Only Booms, PIG Oil-Only UV-Resistant Mat and Pillows, PIG Lite-Dri Loose and temporary disposal bags
- **KIT467** includes the same absorbents as KIT416 plus materials for responding to **ruptured or punctured transformers** (see contents)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Meet both sides of the SPCC equation with active and passive containment.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

PIG® Forklift Spill Kits in Bags — Strap a kit on your forklift: It's your first response to fuels and oil-based spills.

Forklifts are a leading cause of spills from punctured drums, burst pipes, leaky tanks or upturned containers. These kits have basic spill response materials to stop a spill at the source and protect the responder.

- Kits are in reusable, weather-resistant, **grime-hiding black bags with attached straps**; easy to grab and go
- **Yellow reflective striping** on bags improves visibility
- Clean up spills of **up to 6 gallons** of fuels and oil-based liquids but no water
- **Keep refills on hand** to replace used contents of kit (sold separately below)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Attached straps secure bag to the seat or rear beam of a forklift or other vehicle for easy grab-and-go.

FUEL STATION SPILL KITS

Spills around fuel stations are a given, but the cleanup can get a little dicey. So we studied fueling operations (every shape and size) and designed PIG Fuel Station Spill Kits: the **ONLY** kits made specifically for safe cleanup of fuel and oil-based spills. No more worries — you can count on our kits to be sturdy, fast-acting, versatile, UV-resistant, weatherproof — and safe for fuels!

Made to Soak Up Fuel Spills

We pack our kits with PIG Absorbents, PPE and cleanup tools to safely and effectively clean up gasoline, diesel, jet fuel and kerosene — but no water.

Safer Cleanup = Peace of Mind

The PIG Mats and Socks in our kits are static-dissipative and pass NFPA 99, so you can be confident you'll be safe when responding to flammable liquid spills.

Rugged Containers

All the kits are UV-resistant, weather-resistant and grime-hiding black with reflective labeling and striping for visibility — perfect for outdoor storage. Portable, wheeled or stationary kits: You have options for every fueling location.

BAG & CABINET
KIT4004 Hang cabinet on a station pole, beam or wall

DUFFEL BAG
KIT4003 Store in a cabinet, building or vehicle

OVERPACK
KIT4002 Place by above-ground tanks, piping, or at fueling sites

CART
KIT4001 Park indoors or out, at a fuel island or near above-ground tanks

BUCKET
KIT4000 Keep indoors or out, in vehicles or at fuel stations

Perfect for marinas, garages, commercial, military, industrial, construction, airports, truck terminals and remote operations.

See these kits on pages 117–119!

EXCLUSIVE!

PIG Fuel Station Spill Kit in Overpack — Use this kit for spill cleanup, then ship the waste in the UN Rated container.

- The **only kits designed for fueling stations** — tough, grime-hiding containers packed with absorbents specifically made for gasoline, diesel, jet fuel and kerosene, but no water
- **Packed with absorbent, static-dissipative mats and socks** that pass NFPA 99 standards for static decay and surface resistivity
- **Includes PIG Loose Absorbent, PPE** and cleanup tools
- **Opaque black container has reflective labeling** and striping for easy visibility at night
- **95-gallon overpack container is UN Rated 1H2/Y345/S** for shipping waste after cleanup and is weatherproof and UV resistant
- **Lift-out, prepacked baskets** allow easy access to contents; molded-in ledges make it easy to move by forklift
- **Ideal to store near** above-ground storage tanks, by piping or at fuel-dispensing stations
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

pig HazMat Spill Kit in XL Chest — Absorb up to 108 gallons with our largest chemical spill kit.

- Seamless, polyethylene, lockable containers keep absorbents **clean, dry and secure** before use
- **Four-way forklift entry** for easy moving
- Choose **10" wheels** for mobility on uneven surfaces and **5" wheels** for smooth indoor rolling
- Prepacked chest provides **easy access** to contents
- Bold "Spill Kit" lettering for **quick identification**

NOTE: A PIG Response Chest Protection Cover (available separately) is suggested for outdoor storage to protect container from UV degradation and weathering. See PAK800 on page 135.

PIG® HazMat Spill Kit in Extra-Large Response Chest				
Item #	1	2-5	6+	
KIT304-01 • Absorbs up to 108 gal. • 10" No-flat Wheels	\$3297	\$3154	\$2858	
KIT304 • Absorbs up to 108 gal. • 5" Rubber Wheels	\$3131	\$2986	\$2689	
KIT304-02 • Absorbs up to 108 gal. • No Wheels	\$2690	\$2554	\$2315	
KITR304 • Refill • Absorbs up to 108 gal.	\$2036			
KIT304-01, KIT304, KIT304-02 & KITR304 Contents • 43 Socks • 2 Dikes • 100 Mat Pads • 15 Pillows • 2 Bags of Loose Absorbent • 30 Disposal Bags and Ties • 6 Tamperproof Labels • 1 Instructions				

See note on page 120 for more details on compatibility and testing.

Choose 5" rubber wheels (pictured) or 10" no-flat wheels.

pig HazMat Spill Kit in Hi-Viz Chest — Easily roll right through doorways to quickly get to a big chemical spill.

PIG Absorbents are compartmentalized for fast response.

KIT380

- UV-resistant, lockable polyethylene container keeps chemical spill absorbents secure and dry **indoors or out**
- 31"-wide chest **fits through standard doors** and aisles and has forklift entry for easy moving
- **Highly visible** color helps you locate the kit faster
- Choose **5" rubber wheels** or **8" no-flats** for uneven surfaces

NOTE: A PIG Response Chest Protection Cover (available separately) is suggested for outdoor storage to protect container from UV degradation and weathering. See PAK802 on page 135.

PIG® HazMat Spill Kit in High-Visibility Storage Chest				
Item #	1	2-5	6+	
KIT380 • Absorbs up to 74 gal. • 8" No-flat Wheels	\$1838	\$1745	\$1577	
KIT379 • Absorbs up to 74 gal. • 5" Rubber Wheels	\$1634	\$1542	\$1424	
KITR303 • Refill • Absorbs up to 74 gal.	\$1262			
KIT380, KIT379 & KITR303 Contents • 17 Socks • 2 Dikes • 100 Mat Pads • 7 Pillows • 2 Bags of Loose Absorbent • 15 Disposal Bags and Ties • 6 Tamperproof Labels • 1 Instructions				

See note on page 120 for more details on compatibility and testing.

PIG® HazMat Kit in See-Thru Container — It's easy to inventory your spill supplies with this see-through container.

- Durable polypropylene container with snap-tight lid **protects absorbents** from dirt and moisture
- Mounted on **1½" caster wheels** for easy rolling over smooth surfaces
- **PIG HazMat Socks** stop spreading spills; **PIG HazMat Pads and Pillows** absorb; **PIG Acid & Base Neutralizing Loose Absorbent** neutralizes remaining acid or base

PIG® HazMat Spill Kit in See-Thru Container				
Item #	1-2	3-4	5+	
KIT395 • Absorbs up to 8 gal. • 1.5" Plastic Wheels	\$202	\$187	\$181	
KIT395 Contents • 4 Socks • 12 Mat Pads • 4 Pillows • 1 Acid Encapsulating/Neutralizing Loose Absorbent • 1 Base Encapsulating/Neutralizing Loose Absorbent • 2 Disposal Bags and Ties				

See note on page 120 for more details on compatibility and testing.

PIG® HazMat Spill Kit in Mobile Container — Roll this kit to the spill for fast response.

- Lightweight, **100% polyethylene** container resists chemicals and keeps contents clean and dry
- Packed with PIG Absorbents **specially treated to handle concentrated chemicals**
- **Yellow high-visibility container** (KIT366) is easy to locate
- Heavy-duty **8" rubber wheels** roll easily over nearly any surface
- **Hinged lid** provides easy access
- **Built-in handles** allow easy steering through tight spots

NOTE: Not for outdoor storage.

RFL359

PIG® HazMat Spill Kit in Large Mobile Container			
Item #		1-2	3+
KIT366 • High-Visibility • Absorbs up to 34 gal. • 8" Rubber Wheels		\$551	\$507
KIT359 • Standard Blue • Absorbs up to 34 gal. • 8" Rubber Wheels		\$503	\$458

NEUTRALIZING & SPECIALTY LIQUID SPILL KITS

An extra measure of safety for chemical spill cleanups.

Size matters when deciding if you need to use a neutralizer or a standard hazmat absorbent. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making neutralizers impractical for large corrosive spills. But, for smaller spills of 5 gallons or less, neutralization can help make these liquids safer to clean up and handle.

Find the PIG Neutralizing Spill Kit that's right for you on pages 128–134.

KIT322 – PIG Battery Acid Spill Kit in See-Thru Bin (See page 131)

PLS1850 – PIG Biohazard Spill Kit (See page 134)

PIG Base Spill Kit in Bucket — Absorb and neutralize caustic spills.

KIT319

- Specially designed kit **neutralize bases** (caustics)
- Absorbents **change color as liquids are taken in**, then return to normal when neutralization is complete; helps identify the best time to handle with the least amount of risk
- Gelling agents solidify bases during neutralization; **prevents liquids from leaching out**

PIG® Base Neutralizing Spill Kit in Bucket			PIG
Item #	1-2	3+	
KIT319 • Absorbs up to 4 gal.	\$384	\$363	
KIT319 Contents • 2 Socks • 5 Mat Pads • 2 Pillows • 3 Loose Absorbent • 1 Headgear/Faceshield • 1 Economy Goggles • 1 Pair of Neoprene Gloves • 1 Apron • 2 Temporary Disposal Bags and Ties • 1 Instructions			

See note on page 120 for more details on compatibility and testing.

PIG® Acid Spill Kit in Bucket — Neutralize acid and corrosive spills for safe, effective cleanup.

- All absorbents in this specially designed kit **neutralize acid spills**
- Lightweight, 100% polyethylene **container resists chemicals** and is easy to carry
- Absorbents **change color as liquids are taken in**, then return to normal when neutralization is complete; helps identify the best time to handle with the least amount of risk
- Gelling agents solidify acids during neutralization; **prevents liquids from leaching out**
- **Includes PPE** to guard against acidic materials

KIT399

PIG® Acid Neutralizing Spill Kit in Bucket

Item #	1-2	3+
KIT399 • Absorbs up to 4 gal.	\$245	\$228
KIT399 Contents • 2 Socks • 5 Mat Pads • 2 Pillows • 3 PIG® Acid Encapsulating/Neutralizing Loose Absorbent • 1 Headgear/Faceshield • 1 Economy Goggles • 1 Pair of Neoprene Gloves • 1 Apron • 30 Neutralizing Wipes • 2 Temporary Disposal Bags and Ties • 1 Instructions		

See note on page 120 for more details on compatibility and testing.
Acid Absorbents Notice: Not for use with hydrofluoric acid.

KIT399

Watch how easy it is to clean up an acid spill with a PIG Acid Spill Kit:
newpig.com/acidkitvideo

PIG® Hydrofluoric Acid Neutralizing Spill Kit — Neutralize dangerous hydrofluoric acid without nasty by-products.

KIT601

- Pour **PIG Hydrofluoric Acid Neutralizer** onto spills or spray into the air for vapor control
- To help minimize risk, **liquid changes color** on contact with acid and again when neutralization is complete
- **Specially formulated liquid** changes dangerous hydrofluoric acid into inorganic salts and water; **safer to use** than caustic soda neutralizers

KIT601

PIG® Hydrofluoric Acid Neutralizing Spill Kit in Bucket

TAKE CHARGE OF BATTERY ACID SPILLS

KIT352

pig Battery Acid Spill Kits — Just neutralize that battery acid spill and get on with your day!

Corrosive liquids require special handling and extra precaution when they hit the floor. Everyday absorbents just don't cut it when you're dealing with the nasty stuff. That's why we pack our **Battery Acid Spill Kits** with specialized contents. We've hand-picked the perfect mix of neutralizers, absorbents and personal protective equipment to help you clean up the mess — and stay safe doing so.

Battery management must-haves!

Speaking of safety, we've also put together a selection of products specifically designed for safer handling of batteries and battery acid. From specialized absorbents to spill kits to cleaners and PPE, you'll find a solution on pages 78–79, 131–132 to help you protect workers and comply with OSHA regulations. For battery recycling containers, see page 286.

◆ **Helps you comply** with 29 CFR 1910.178(g)(2)

KIT610

We don't mess around when it comes to battery acid. Our kits contain everything you need to clean up a spill — and do it safely.

pig Mercury Spill Kit — Keep the dangers of mercury spills to a minimum with a kit that is made for the job.

- Includes **PIG Mercury Absorbent Powder** to transform up to 1,000 grams of visible mercury into a zinc amalgam
- **Suppresses hazardous mercury vapors** to limit worker exposure
- Hand **broom, dustpan and disposal bags** included
- Lightweight, **100% polyethylene container** resists chemicals
- **Screw-on lid** opens easily for access to supplies
- Includes **PPE** to guard against mercury
- **PIG Mercury Cleanup Wipers** decontaminate hands, tools and surfaces

Shake PIG Mercury Absorbent Powder onto spills to absorb visible mercury, transform it into a zinc amalgam and suppress hazardous vapors.

Use enclosed hand broom and dustpan to sweep up stabilized mercury for easy transfer into disposal bags.

Eliminate dangerous residue and decontaminate hands, tools and surfaces with premoistened PIG Mercury Cleanup Wipers.

PIG® Mercury Spill Kit in Bucket			
Item #	1-2	3-4	5+
KIT600 • Absorbs up to 35.27 oz. • UN1H2/Y6/S	\$130	\$126	\$120
KIT600 Contents • 1 Mercury Absorbent Powder • 1 Goggles • 1 Pair of 18 mil. Gloves • 10 Wipers • 1 Dustpan & Hand Broom • 1 Spatula • 1 Disposal Bag and Tie • 1 Instructions			
PIG® Mercury Absorbent Powder			
Item #	1-2	3-4	5+
PLP602 • Absorbs Mercury • 1 - 1,000 gram Container	\$106	\$103	\$99
PIG® Mercury Cleanup Wipers			
Item #	1-2	3-5	6+
WIP1404 • Center-pull roll • White • 10 wipers	\$10	\$9	\$8

NOTE: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

Respirators sold separately on page 208.

Absorbs up to
1.5
gallons

KIT501

pig Formaldehyde Spill Kit in Bucket — Quickly absorb and solidify formaldehyde.

- **Absorbs, solidifies** formaldehyde, glutaraldehyde, formaldehyde-based fixatives and other aldehyde solutions
- Includes **PPE and cleanup tools** for safe, effective spill response

PIG® Formaldehyde Spill Kit in Bucket			
Item #	1-2	3-5	6+
KIT501 • Absorbs up to 1.5 gal.	\$189	\$182	\$177
KIT501 Contents • 1 Formaldehyde Loose Absorbent • 2 Aprons • 2 Pairs of Goggles • 2 Pairs of Gloves • 2 Pairs of Boot Covers • 1 Hand Broom & Dustpan • 1 Roll Caution Tape • 1 Disposal Bag			

pig Mercury Vacuum Kit — Control mercury spills with a vacuum pump.

- **Vacuum pump** allows you to quickly and effectively capture mercury spills for proper recycling and disposal
- Includes **collection vials and cleanup gear** for up to six spills
- **Scoop and spatula** allow for easier gathering of scattered mercury
- Durable polyethylene **carrying case** keeps equipment in one place

KIT330

PIG™ Mercury Spill Vacuum Kit		
Item #	1-2	3+
KIT330 • Absorbs up to 6 oz.	\$499	\$484
KIT330 Contents • 6 Pair of Latex Gloves • 6 Scoop/Spatulas • 1 Butyl Rubber Tape • 7 Plastic Zip Closure Bags • 6 Premoistened Wipes • 1 Storage/Carrying Case • 1 Vacuum Hand Pump • 6 Collection Vials • 1 Safety Glasses		
RFL330 • Refill	\$162	\$155
RFL330 Contents • 6 Pair of Latex Gloves • 6 Scoop/Spatulas • 1 Butyl Rubber Tape • 7 Plastic Zip Closure Bags • 6 Premoistened Wipes • 6 Collection Vials		

PIG® Biohazard Spill Kit — Clean up blood, urine and other biofluids.

- Portable, multi-use kit **reduces safety risks** during cleanup
- Loose absorbent solidifies to **lock in liquids** so they won't leak or liquefy
- **Ideal for first responders**, hospitals, schools and nursing homes
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

PIG® Biohazard Spill Kit			
Item #	1-4	5+	
PLS1850 • Absorbs up to 8.5 gal.	\$156	\$144	
PLS1850 Contents • 20 Mat Pads • 1 Loose Absorbent • 1 Economy Goggles • 2 Pairs of Neoprene Gloves • 2 Aprons • 6 Surface Wipes • 6 Hand Wipes • 4 Scraper and Scoops • 4 Biohazard Bags and Ties • 1 Instructions			
PIG® Absorb-&-Lock® Bio-Fluids Absorbent			
Item #	1-2	3+	
PLP503 • 4 - 4-lb. Containers	\$216	\$209	

See note on page 120 for more details on compatibility and testing.

Vomit & Body Fluid Kit — A helping hand for urine, blood and feces cleanup.

- An excellent **supplemental kit** to keep on hand with standard first aid kits and supplies
- **Body fluid cleanup kit** includes protection gear, a biohazard bag, germicidal cloth and other supplies
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

Vomit & Body Fluid Cleanup Kit		
Item #	1-6	7+
PLS1131 • 13 Pieces	\$28	\$26

PIG® Biohazard Spill Kit — Stocked with PIG Absorbents and more for safer cleanup.

- Portable, **single-use kit** helps reduce the risks while cleaning up blood, urine or other biofluids
- Includes PPE, PIG Absorbent Pads, blood solidifier and supplies for **responder and scene cleanup**
- Packaged in a clear plastic, lightweight case for **easy transportation**
- ◆ **Helps you comply** with 29 CFR 1910.1030

PIG® Biohazard Spill Kit		
Item #	1-4	5+
PLS1245 • 26 Pieces	\$66	\$62

NEWPIG.COM OR CALL 1-800-HOT-HOGS.**

Body Fluid Cleanup Kits — Clean up body fluid hazards with your choice of two kits.

- **Body Fluid Cleanup Kit (PLS1013)** is an excellent supplement to keep on hand with standard first aid kits and supplies
- Contains **16 body protection items** including an eye shield, gown and gloves
- **Bloodborne Pathogen Kit (PLS1014)** helps protect workers from **bloodborne pathogens**; 26 pieces include a CPR pack, head-to-toe protection and cleanup items
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

Body Fluid Clean-Up Pack		
Item #	1-5	6+
PLS1013 • 16 Pieces	\$22	\$20
Bloodborne Pathogen Protection Kit		
Item #	1-5	6+
PLS1014 • 26 Pieces	\$37	\$35

Polyethylene Disposal Bags — Confidently bag hazardous waste or used absorbents for disposal.

- **Tough polyethylene bags** resist punctures, tearing and blowouts
- Bright yellow bag carries bold **hazardous content warning**
- Ideal for **lining drums** or short-term storage of saturated waste
- **Durable 3-mil thickness** (BAG201 and BAG202) is ideal for most waste; **6-mil thickness** (BAG111, BAG114, BAG115, BAG206) handles heaviest saturated waste

Polyethylene Disposal Bags

Item #		1-9	10+
BAG201 "Caution- Handle with Care"	Large • 45 gal. • 25/box • 3 mil • 36"W x 60"H	\$83	\$79

* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

pig Dolly — Quickly move your PIG Overpack Spill Kit.

- **Wide-base design** helps keep overpacks stable during transport
- Heavy-duty rolled steel construction **holds up to 800 lbs.**
- **Lockable casters** keep overpack stationary, even on uneven surfaces

PAK414
For use with 95 and 110 gal. overpack containers.

Dolly for PIG™ Overpack		
Item #		1+
PAK414	• For 95-gal. & 110-gal. Overpack • 800 lb. Load Capacity	\$187

Vehicle Bracket — Mount your spill kit right on your truck to save cab space.

- Designed for use with PIG Spill Kit in Bucket or other PIG Spill Kits in **6½-gallon containers**
- **Corrosion-resistant aluminum** bracket is lightweight yet very durable

Truck Mounting Bracket for PIG® Spill Kit in 6.5-Gallon Bucket		
Item #	1-2	3+
BKT213	\$110	\$106

THIS BRACKET FITS OUR SPILL KITS IN BUCKETS ON PAGES 88, 98, 103, 105, 115, 119 AND 126.

Wall-Mount Hook — Hang your PIG Spill Kit so you can find it fast.

- **Increase spill kit visibility** for faster response; establish a specific kit location
- **Durable steel hook** mounts on any surface (hardware not included); accepts most PIG Spill Kits with handles or straps
- **Wall-mounted kits build awareness** of where to find tools quickly

Wall-Mount Hook for PIG® Spill Kit		
Item #	1-2	3+
BKT214	• Use with PIG® Spill Kits w/ Handles • 2.5"W x 8.5"L	\$30 \$28

Container Wall Bracket — Mount kits near spill areas.

- Keeps spill kits in the open and elevates them to **maximize visibility and response**
- **Hot-rolled steel** for long-term use
- Use with **20- and 30-gallon** overpack kits

Wall-Mount Bracket for PIG® Spill Kit Container		
Item #		1+
TLS468	• For 20- and 30-gal. Spill Kits	\$104

Bucket Wall Bracket — Mount spill kits on the wall so they're easier to see.

- Designed to **wall-mount** your PIG Spill Kit in Bucket for better visibility and accessibility (mounting hardware not included)
- **Powder-coated steel** bracket

Wall-Mount Bracket for PIG® Spill Kit in Bucket		
Item #	1-4	5+
GEN160	• For KIT318, KIT319, KIT213, KIT413 and 64CRSC	\$19 \$18

Reflective Tape — Make your spill kit easier to find in dimly lit areas.

- Durable, highly reflective glass bead tape **maximizes visibility in any lighting**
- Apply to floors or walls to **create a designated spill kit location**
- Printed "Spill Kit" legend repeats along length of tape

Reflective Tape for PIG® Spill Kit		
Item #	1-4	5+
PLS2000 • 2"W x 150'L	\$121	\$115

Tamperproof Seals — Secure kits and containers with tamper-evident seals.

- Attach a tamperproof seal to container lid and sidewall to **show when it's been opened**
- **Ideal for ensuring** that routine cleanups don't deplete your emergency spill kits
- Bright yellow color is **highly visible**

Safety Signs — Point out spill kits and supplies with these easy-to-read signs.

Choose from two sizes and three different compositions:

- Long-lasting **aluminum signs** offer superior resistance to abrasion, chemicals, weather, splashes and washdowns
- Indoors or sheltered outdoors, **plastic signs** are an economical choice for light-duty or temporary use on flat or slightly curved surfaces
- Indoors or out, **Dura-Vinyl self-sticking signs** provide exceptional flexibility and performance; high-gloss film resists UV rays, water, chemicals and abrasion

Easy ordering:

1. Choose a sign
2. Choose a composition
3. Choose a size

Wall Sign — Display spill response instructions and designate your kit location.

- Designed to **wall-mount** your PIG Spill Kit in Bucket for better visibility and accessibility (mounting hardware not included)
- **Powder-coated steel** bracket

* ⚠️ **WARNING:** Reproductive Harm - www.P65Warnings.ca.gov

Don't go searching for a lot of different tools to clean up a spill. This kit has it all.

Spill Response Tool Kit — Everything you need to clean up spills on land.

- Designed for **environmental and industrial spill cleanups**
- Grab-and-go, **water-resistant nylon bag** with handles and shoulder strap make kit easy to carry
- **Sturdy, chemical-resistant tools** are built to last

Spill Response Tool Kit	
Item #	1+
TLS1002	\$373
TLS1002 Contents • 1 - Telescoping Response Shovel • 1 Non-Sparking Shovel • 1 PIG Picker • 1 Non-Sparking Scraper • 1 Large Broom Head • 1 Large Squeegee Head • 1 Telescoping Handle • 1 Decon Brush • 1 Dust Pan/Brush Combo • 5 Disposal Bags & Ties • 1 Duffel Bag	

Insta-Chek Paper — When unknown liquid spills, use this paper for pH checks.

- **Instantly indicates** any pH from 0 to 13 with one of 14 colors
- Color chart has **checkpoints at each unit pH**, determined by single-color match
- Distinct, **easy-to-read colors** for accurate readings
- **Portable kit** includes color chart, dispenser and polyethylene case

pHydrion® INSTA-CHEK® Paper		
Item #	1-3	4+
PLS236 • 0.5"W x 50"L	\$15	\$14

Fluoride Detection Paper — Detect fluoride ions or hydrofluoric acid.

- **Paper quickly changes color** when in contact with dangerous fluoride ions or hydrofluoric acid, whether in liquid or vapor
- **Improve spill response safety** by testing unknown liquids before cleanup or by attaching to protective suit for an instant warning
- **Hard plastic case** protects remaining strips; compact for convenient storage

Fluoride Detection Test Paper		
Item #	1-4	5+
GEN179 • .75"W x 2.75"L 200/dispenser	\$50.65	\$48.60

Waterproof pH Tester — Accurate even in harsh conditions.

- **Dip into any liquid** for readings down to ± 0.01 ; capable of off-the-chart pH measurements from -1.00 to $+15.00$
- **Easy-to-read screen** displays pH and temperature; adjusts pH for temps from 32°F to 122°F
- **Double-junction electrode** withstands plating baths, process streams, wastewater and other harsh liquids

PLS1552
Protective plastic case and quick-release lanyard also included.

PLS1268
Buffer solutions to calibrate tester come in pH 4, 7 or 10.

BEST SELLER!

Oil Detection Test Paper

Item #	1-4	5+
GEN180 • .75"W x 2.75"L • 100/dispenser	\$49.70	\$47.60

Whether you use it on soil or water, if the color changes, there's oil present!

Oil Detection Paper — Hydrocarbon-detecting strips show need for cleanup.

- **Paper quickly changes color** when in contact with hydrocarbons, including gasoline, diesel, fuel, oil, lubricating oils and mineral oils
- **Immerse in water** to test for oil contamination or press to soil to check need for remediation
- **Compact, easily stored**, hard plastic case protects remaining strips

Chemical Classifier Kit — Identify a hazardous chemical in 30 seconds.

- Kit's **color-changing test strips** quickly and accurately identify the presence of acids/bases, oxidizers, fluoride, petroleum/organic solvents and iodine/bromine/chlorine
- Portable, **easy-to-use** kit
- Can be used in sewers, construction sites, landfills and other **sites of unknown chemicals**

Chemical Classifier Kit

Item #	1+
GEN420 • Ext. Dia. 1.5" x 12"L	\$110
GEN420 Contents • 6 Test Strips • 1 Bobbin of Polypropylene Thread • 1 Classifier Chart	

pH Spill Stiks — Easy-read test strips keep hands away from acids and bases.

- **6"-long, nonwicking strip** helps keep potentially dangerous acids and bases away from hands
- **1"-square pad** of pH-testing paper is easy to read in dark or confined spaces
- One-dip, one-color system **instantly identifies pH value**
- **Included chart** features 14 colors to identify pH from 0 to 13

Hydriion® pH Spill Stiks

Item #	1-5	6+
PLS1559 • 1"W x 6"L • 10/package	\$26	\$24

Water Indicating Paste — Detect water in fuel tanks.

- Easily **test for water in a fuel tank** by spreading a thin film of Kolor Kut onto a dipstick or other graduated rod
- **Dark brown paste turns bright red** after contacting water, clearly measuring the level of water in your tank
- **Will not harm or alter** the composition of gasoline, kerosene or any other fuel
- Paste is made entirely of **nonhazardous materials** and cleans off easily after use

Kolor Kut® Modified Water Indicating Paste

Item #	1-4	5+
GEN834 • 1.5"W x 6"L x 1"H	\$22	\$21

*"These wipers are great! **Very strong** — you can wring them out and keep using them!"*

— Laura, PIG All-Purpose Wipers Customer

WIPERS & RAGS

Reusing laundered rags? Here's a better way to work.

You wouldn't use old, dirty rags for your critical wiping jobs, but that's exactly what you're getting with rental shop towels. They may be laundered, but they still contain residual oil, grease and metal shavings that can contaminate what you're wiping. So think twice before you wipe your hands or face with that "clean" red rag.

A clean break from rental towels.

Our disposable wipers and shop rags are always clean and free from contamination. They're not only safer, but you can fine-tune the strength, absorbency and chemical resistance for every job. When you're done, just toss 'em in the proper disposal container!

WHAT'S YOUR NUMBER?

Performance Ratings (PR) help you zero in on the right wiper for your job and budget.

Look for this icon — we've done the comparison shopping for you!

The higher the Performance Rating (PR), the more you can expect from your wiper.

- **PR100 Ultra-Duty** can be used all day and provide the highest levels of abrasion and solvent resistance
- **PR60–80 Heavy-Duty** provides the extra toughness you need for jobs like wiping rough parts, gears and sprockets
- **PR30–40 Medium-Duty** delivers a balance of toughness, absorbency and economical cost per toss
- **PR10–20 Light-Duty** is made for high-volume use during light wiping or surface drying jobs

"WE'VE GOT WIPERS OUT THE WAZOO!"

From rough scrubbing to fine dusting, you'll find exactly what you need to do the job right.

Chris Iuzzolino — Product Manager

EXPERT ADVICE

3 steps to choosing the right wiper, shop towel or rag.

Using the wrong wiper, towel or rag can be wasteful. You could spoil a surface that's being prepared for finishing, not clean the surface completely or cause other problems. Having the right product for the job adds efficiency and allows the job to be done right the first time.

Keep reading at:
newpig.com/wiper-rag-shoptowel-selection

PR100 Disposable Polishing & Wiping Cloths — Tiny pores nab dust, wax and other contaminants. Great for final wiping!

- Perfect for **no-scratch** removal of wax, polishing compound, fingerprints and smudges from surfaces, or for prepping products for painting
- Rayon/poly blend stands up to **harsh sanitizers, degreasers, cleaners and solvents**
- **Highly absorbent** and textured cloth pulls contaminants away from parts and surfaces while soaking up liquids
- **Can be rinsed and reused** for long life and less frequent replacement

Tiny pores are great for final wiping.

WIP950

BEST SELLER!

PIG® PR100 Disposable Polishing & Wiping Cloths

Style	Item #	Color	Wipers/Unit; # Units	Total Wipers	Size	1-2	3-6	7+

PR80 Extra-Heavy-Duty Maintenance Wipers — No stiffness here! These wipers are tough, yet soft.

- Exceptional abrasion resistance and strength, yet **very soft and pliable**
- **One wiper can handle everything** from scrubbing rough parts to final wipedown and inspection of machined parts
- **Embossed texture grabs grime** due to a durable hydroentangled blend of cellulose and synthetic fibers
- **No chemical binders or adhesives** that could degrade in solvents; quickly absorbs liquids to leave surfaces dry and lint-free

Embossed texture helps lift dirt and grime from surfaces.

PR70 Heavy-Duty Maintenance Wipers — Low-lint blend is our top seller for heavy-duty jobs.

- **Strong and solvent-resistant** for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces
- Exceptional **abrasion resistance and wet strength** that stands up to rough surfaces, jagged edges or metal chips
- For **heavy-duty maintenance** jobs like machine wipedowns and degreasing parts
- **Many size and packaging options** (see order box below)

Binder-free cellulose/poly blend leaves surfaces dry and lint-free. Available in blue or white.

WIP309

WIP306

WIP303

"This is a high-quality product with good absorbency, and is tough enough to wring out and keep using all day. It can be used in places that would shred a paper towel. For durability, it's more akin to cloth than to paper."

— Drew P., WIP309 Customer

USING SOLVENTS? YOU COULD BE HAZ WASTE EXEMPTED!

Thanks to the EPA's **Solvent-Contaminated Wipes Management Rule** (40 CFR 261.4), you could eliminate some red tape at your facility. Properly managed wipes with no free liquids could be haz waste exempted (depending on the solvent) — meaning less paperwork and lower shipping costs for you.

Take a step toward exemption by using **PIG Latching Drum Lids** (see pages 300–306) to help meet closed container regs.

WorkWipes Rags — Screened, sized and

Eco-friendly rags are conveniently packaged and made from reclaimed post-consumer materials.

- **Strict material and size requirements** mean more usable, high-quality rags in every package
- All rags are **double scanned for metallic content and many are screened for printing**, so you never have to worry about contamination or poor performance
- **Eco- and cost-friendly rags** are made from recycled, postconsumer materials
- Choose white colored material **for use with solvents**, which might cause colored rags to bleed
- **Poly bags** are compression-packed to take up half the space of loosely packed boxes; plus no heavy packaging added into the final weight
- **Cardboard boxes** provide neat storage, stacking and dispensing with handles for easy transportation; some offer compression packaging for space savings (see ordering information)

Pick from eight reclaimed options:

- **T-shirts** are durable, laundered, low-lint cotton; ideal for staining, wiping, polishing
- **Refreshed T-shirts** are washed and scented to remove odors and stains
- **Sweatshirts** are thick, absorbent cotton and cotton blends for softness and strength; ideal for heavy-duty wiping
- **Surgical huck** is colorfast, low lint and sanitized; 100% cotton for glass cleaning
- **Denim** has no rivets or zippers, great for heavy-duty wiping and absorbing oil; ideal for high-temperature worksites
- **Flannel** is durable, absorbent, soft nonscratching cotton and cotton blends; for general wiping
- **Healthcare linen** is low-lint and laundered for staining, wiping and polishing
- **Hospital blankets** are soft, absorbent, thoroughly washed and sanitized; ideal for polishing and cleaning

Compression-packed bags take up half the space of loosely packed boxes.

All 10 lb. bags feature a built-in handle, so they're easy to carry. Rags dispense right from the bag!

Personal-sized packs in WIP519 and WIP520 feature a slide closure for easy access to rags.

All boxes feature built-in handles and an opening for easy dispensing.

scanned so you get only usable rags.

WIP529

WIP519

Master box contains five personal-sized packs of colored T-shirts. Also available with white T-shirts (WIP520).

PIG Rapid Response

Drain Co

PIG® Drive-Over DrainBlocker®

SPILL CONTROL

Runaway liquids? Nothing goes down faster or seals tighter than PIG Blockers.

When you need to protect drains or channel liquids to keep contaminants out of your water system, we make the toughest, tightest-sealing products you can buy.

PIG DrainBlockers and SpillBlockers

Every PIG Blocker features a patented, tear-resistant formulation that stands up to real-world abuse. Along with all that toughness, you get a super-sealing bottom layer to keep liquids from seeping underneath. Unlike ordinary blockers, PIG DrainBlockers and SpillBlockers won't rip when you pick them back up. Most are even built UV-safe for long-term outdoor deployment. From the plant floor to your parking lot, our family of blockers has a solution for every drain you need to protect.

A better way to work

Superior products mean less work for you. Since our stuff is so tough, you save time and money with longer-term product deployment, fewer replacements and more reliable performance. The following pages are filled with drain covers, dikes, barriers and booms to help you meet regs and avoid EPA fines!

DrainBlocker Drain Covers

DrainBlockers.....	166–167

Build-A-Berm Barriers.... 180–183

Containment Booms 184–185

◆ HELPS YOU COMPLY

Most of the PIG products in this section can help you protect the environment and avoid fines by meeting these EPA regulations:

◆ **STORMWATER**

40 CFR 122.26

When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

◆ **SPCC 40 CFR 112.7**

SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.

“PIG STANDS FOR QUALITY. ALWAYS.”

We use only the best of the best materials to make sure our blockers, barriers and dikes perform when you need them to.

Tyler Becher
Product Development

REG TIP

Meet both sides of the SPCC equation with active and passive containment.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

reghelp@newpig.com • 1-800-HOT-HOGS

GET FREE ADVICE ON REGS! See page 317 for details.

BLOCKERS & BARRIERS

Three PIG-proven ways to control liquids and avoid fines:

1 COVER DRAINS

PIG DrainBlocker Drain Cover

- Seals tight to keep out unwanted liquids
- Won't rip, tear or stretch when you pick it back up
- Use for fast spill response or long-term outdoor deployment without UV degradation

See all PIG DrainBlockers
on pages 166–172.

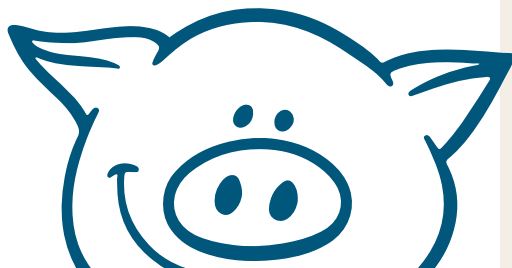

2 CONFINE & CHANNEL SPILLS

PIG SpillBlocker Dike

- Flexible and formable to the shape of the spill
- Tacky bottom layer seals tight so no liquid seeps underneath
- Confines spills or channels washdown liquids without absorbing them

See all PIG SpillBlockers
on pages 174–178.

YOU'RE PROTECTING MORE THAN A DRAIN.

Comply with SPCC regs to keep water sources clean and avoid fines.

The environment isn't the only thing that takes a hit when oil goes down your drains — the EPA retaliates with a hit to your wallet. Our DrainBlockers, SpillBlockers and Build-A-Berm Barriers help you contain oil and keep it away from sensitive areas.

40 CFR 112.7 states that facilities subject to SPCC Regulations must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can result in fines of up to \$100,000 per day and/or six years in jail. But aside from the fines, protecting the environment is just the right thing to do! The products on these pages can help you on both fronts.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

Frequently asked questions:

Q: Can I reuse my DrainBlocker and SpillBlocker?

A: Yes, we use a very high-quality urethane, and our patented formulations are built to last. They clean up easily with soap and water so you can reuse them over and over again. (Our SpillBlocker Rough Surface Dike is designed for one-time use on asphalt.)

Q: Can I drive over a SpillBlocker Dike?

A: Yes and no. SpillBlocker Dikes are tough, but they're not built for vehicle traffic. That's why we invented the Drive-Over SpillBlocker Dike — it stands up to the heavy stuff! (See page 178)

Q: Can I leave my DrainBlocker out in the sun?

A: Yes, PIG DrainBlocker and our Drive-Over DrainBlockers are built for long-term outdoor use. If you're not using PIG, get ready for gooey degradation!

on pages 180–183.

DRAINBLOCKERS ARE UV TOUGH!

TOP 10
BEST
SELLER!

PLR403

EXCLUSIVE!

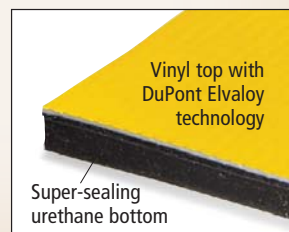

pig DrainBlocker Drain Cover — Our patented design protects drains, seals tight and won't rip.

- **Patented two-layer design seals tight** to protect drains and won't rip. Guaranteed.
- **Reusable cover** is ideal for quick spill response or long-term, outdoor deployment without worrying about degradation
- **Vinyl composite top layer** resists stretching, ripping and tearing
- DuPont Elvaloy technology provides lifelong flexibility **plus chemical, UV and infrared light resistance to vinyl top**
- **Super-sealing urethane bottom layer** conforms to uneven surfaces and tightly seals drain openings to block liquid
- Cover **withstands prolonged exposure to diesel fuel and gasoline**, even when completely submerged
- Ideal for drain protection where **liquid transfers, washdowns or other leak- and spill-prone jobs** are common
- **High-visibility yellow top layer** draws attention to spills for increased safety
- **DrainBlocker carrying bags and cases** available on page 172
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

Problem: Our original DrainBlocker used to work great for spill response: seal the drain, pick it up, use it again. The problem was that people would leave it outside for weeks and it would become gooey. Or it would tear when they picked it back up.

Finding the solution: We wanted to come up with a top cover that could withstand long-term outdoor use and keep the urethane layer from tearing when customers pulled it off the drain. We created 15 different versions before we had the best combination. The next step was fusing the layers together. We ultimately patented a way to bond a rugged layer of DuPont Elvaloy vinyl with our super-sealing urethane to create the toughest, most weather- and UV-resistant drain cover on the market.

Problem Solved:
PIG DrainBlocker Drain Cover

These tough covers protect your drains — no rips, no tears, no worries!

Tear Resistant

Tougher than standard covers to resist ripping.

Chemical Resistant

Stands up to long-term hydrocarbon exposure.

UV & IR Resistant

Let the sun shine — this cover is made for outdoor use.

Easy to Clean and Reuse

Dirt and grime won't stick, so the top wipes clean for storage and reuse.

PLR403

The PIG DrainBlocker is tough enough to use over and over again or leave down long-term — and it won't rip when you pick it back up.

"We purchased this to cover a trap we don't want water getting into. Since we have installed it, we have cleaned the floor numerous times — even with a pressure washer — and **no water has gotten past the cover.**
Excellent product!

— James P., PLR402 Customer

- **Ideal for long-term drain protection** where liquid transfers, washdowns or other leak- and spill-prone jobs are common
- **Eliminates the need to frequently deploy and remove** a temporary cover or permanently seal your drains
- Tough, patented-rubber HogHyde Skin stands up to punctures, tearing and abrasion, **even under heavy vehicle traffic from tankers, trucks or forklifts**
- **Super-sealing urethane bottom layer** conforms to uneven surfaces and tightly seals drain openings to block liquid
- Also **withstands UV rays, infrared light and all weather conditions**; keep outdoors without worrying about degradation
- Polyurethane and rubber materials **resist water, oils and many chemicals**
- ◆ **Helps you comply** with Stormwater and SPCC Regulations

Problem: Drain covers shred when vehicles drive over them.

Finding the solution: Our bottom urethane layer sealed tight and stuck just the way we wanted it to, so we set out to create a top layer that would stand up to all kinds of conditions and be tough enough to drive over. But getting it just right took years of trial and error.

We tried every type of vinyl, rubber and urethane formulation out there and finally had a breakthrough with a material that we named HogHyde®. It's the toughest, most UV-resistant and weatherproof top layer ever — and it stands up to heavy traffic.

Problem Solved:
PIG Drive-Over DrainBlocker

Our toughest DrainBlocker can take whatever your parking lot dishes out.

Punctures

Stands up to debris and sharp objects that trash other covers.

Abrasion

Won't wear down even when tires track on dirt and gravel.

UV & IR Light

Made to stand up to the baking sun in your parking lot.

Chemicals

Resists many commonly used chemicals to keep drains secure.

PLR308

Even after repeated tanker or forklift driveovers, this DrainBlocker still seals tight. And it won't rip when you pick it back up. Use it over and over again!

PLR340 (Only)

PLR330

Use the built-in connectors to join multiple covers and create the perfect length for your trench drain. Urethane connectors "fuse" together for a liquidtight seal.

Round drains? No problem! We have DrainBlockers for those, too.

PLR601

EXCLUSIVE!

Rapid Response DrainBlocker Drain Cover — Stay prepared for spill emergencies and meet EPA regs.

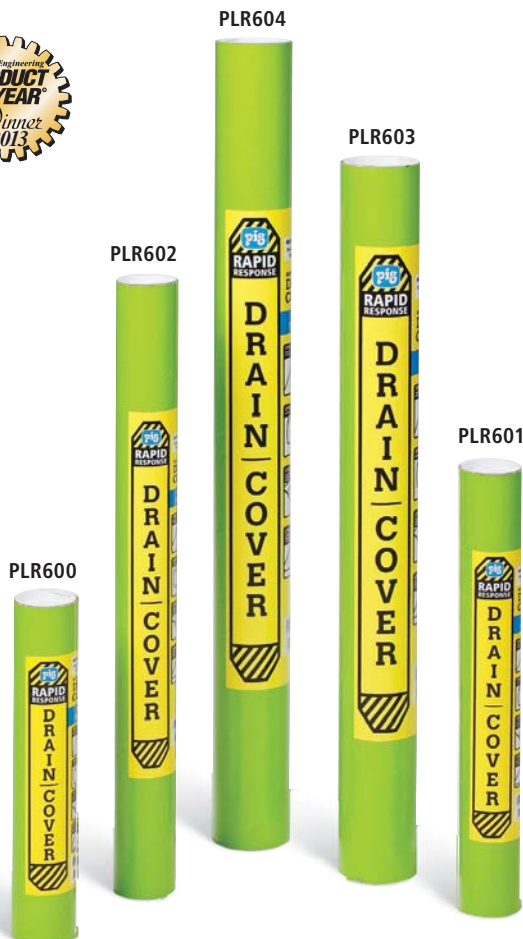

- **Helps you meet spill plan requirements** without buying more cover than you need
 - Specially designed to work in **emergency spill applications**; mount on a wall (bracket sold separately) or store in a spill kit
 - **Polypropylene top layer** prevents drain cover from stretching or tearing when you pick it up; cover resists chemicals, oils and detergents
 - **Super-sealing urethane bottom layer** creates a tight seal
 - Packaged in an easy-open, **hi-viz storage tube** so workers can find it fast and get to the spill
 - **Storage tube (included) is for indoor use only**; for outdoor storage, use PLR700, sold on opposite page
 - Add a **Wall-Mount Bracket** (BKT102, BKT100) for easier access and faster response
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

Problem: Some customers don't need all the bells and whistles of a DrainBlocker that's designed for repeated use, long-term deployment or vehicle traffic.

Finding the solution: There's no sense in buying a Lamborghini and only keeping it in the garage. So we wanted to offer a more affordable drain cover for limited-use situations. Something that just covered the basics, like protecting drains in emergencies and helping facilities comply with SPCC regs. We ended up with a finished product made from our highest-quality urethane for a classic PIG seal. It's thinner and costs less, but there's nothing cheap about it!

Problem solved:

Multi-Flex Inflatable Pipe Plug — Expands up to eight times its size to fit a wide range of pipe dimensions.

- **Small, flexible design** can be snaked through hot tap or branch pipes into larger, otherwise inaccessible pipelines
- Pipe plug **inflates up to eight times its size** to prevent the flow of liquids during repairs or to block pipes or drains in the event of a spill (connects to your air compressor)
- **Conforms to a wide range** of pipe dimensions; inflate fully or partially to fit your application
- **UV-resistant, nylon-reinforced nitrile** resists oils and has a shelf life of more than ten years
- **Compact** for storage and grab-and-go applications
- ◆ **Helps you comply** with Stormwater Regulations

NOTE: Seal may not be airtight. Not recommended for pressure tests.

When deflated, a Multi-Flex Plug slides into just about any pipe. Three models cover a range of pipes from 3.5" to 24".

Multi-Flex™ Inflatable Pipe Plug

Built-in connectors let you
create barriers of any length.

EXCLUSIVE!

pig SpillBlocker Dike — Fast protection for spreading spills, leaking machines or for capturing liquids during maintenance.

- **Exclusive New Pig formulation** resists tearing, and a tacky bottom layer seals tight to smooth surfaces
- Reusable dike is flexible and formable to shape to the spill; **confines and diverts fluids without absorbing** them, making cleanup or reclamation simpler
- **Built-in connectors create a liquidproof seal** and allow you to join as many sections as you need (add connectors and corners to PLR204 and PLR280 to join sections)
- Polyurethane material **resists water, oils and many chemicals;** **cleans easily** with soap and water
- **High-visibility color** draws attention to spill for increased safety
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 112.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**EXPERT
ADVICE**

You're only 5 steps from effective
spill response:

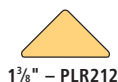

newpig.com/spillresponse

Have a leak that's starting to spread? Just surround your machine with a dike to contain the liquid until you can make repairs.

AVAILABLE IN FIVE HEIGHTS!

Contain spills from shallow to deep with our wide range of spill blockers.

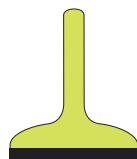

1 1/8" – PLR212

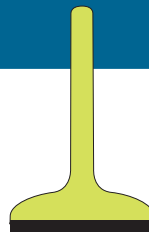

2 1/4" – PLR204

3" – PLR267

4 1/2" – PLR253

6 3/4" – PLR254

PLR254

Taller dikes contain more liquid.
Our tallest dikes can handle high-volume
spills and pooling liquids up to 6 3/4" deep.

PLR205
Connector

PLR204

Contain washdown liquids or
channel to drains.

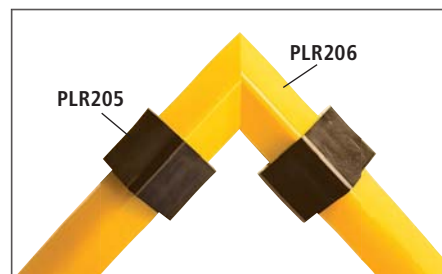

PLR205
Connector

PLR204
Dike

PLR280

Attach the **SpillBlocker Vacuum Dike (PLR280)** to your wet vac — the four intakes and integrated channels will suck up liquid faster than a traditional vacuum. You can also connect it to the Original SpillBlocker Dike (PLR204) to create a larger containment area.

Add corners and connectors (PLR205 and PLR206) to PLR204 to join dike sections and/or Vacuum Dikes together.

BEST
SELLER!

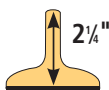

pig SpillBlocker Rough Surface Dike — Special bottom layer fills into surface cracks to stop spills on asphalt.

- **Exclusive New Pig formulation** resists tearing and has a super-tacky bottom layer for tight seals on rough surfaces
- Specially designed bottom layer "seeps" into surface cracks; **our best blocker for asphalt**
- **Fast protection** when spills head for your drain, **confines and diverts fluids** without absorbing for easy cleanup or reclamation
- 2¼" height contains spills up to 2" deep; **intended for one-time use only**, and should not be left down for extended period
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Easy installation — lay dike down on its side, turn it over so sticky strip contacts asphalt, and press into place.

Pig® SpillBlocker® Rough Surface Dike	
Item #	1+
PLR230 • 2"W x 10'L x 2.25"H	\$254
PLR230 Contents • 1 Connector • 1 Disposal Bag	

See note on page 175 for more details on compatibility and life expectancy.

Patent 5,236,281

"Great product! Really sticks to the floor forming a very good seal against liquid seepage. **Very easy to apply**, no cure time needed."

— David J., PLR230 Customer

LIKES TO PLAY IN TRAFFIC

PLR350

PLR351

Optional corner pieces let you make sharp 90° turns to create a fully enclosed containment area.

Interlocking end joints connect dike sections to create longer lengths.

Creates a tight seal that contains liquids, diverts stormwater and helps you comply with regs.

Drive-Over SpillBlocker Dike — The ONLY barrier designed for traffic and long-term outdoor use.

- First flexible barrier **designed for traffic and long-term outdoor use**; driveovers won't rip, tear or crush it to compromise containment
- **HogHyde skin** stands up to heavy traffic driveovers and resists UV rays
- **Molds easily** around mounting brackets or other obstacles
- **Provides a full-width bond** that strengthens over time
- **Reusable** — cleans up with soap and water; picks up and repositions as needed
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Problem: Customers were trying to use our spill response dikes for long-term outdoor and driveover applications — and they didn't work.

Finding the solution: To create a barrier tough enough for long-term use and driveover applications, we started with our patented HogHyde® skin. Then we combined it with our super-sealing urethane so that it would bond to asphalt or concrete without adhesive. When we tested our new dike in all kinds of harsh conditions, it didn't become brittle or lose adhesion — in fact, it stayed put until a snow plow peeled it up.

Problem solved:

**BEST
SELLER!**

PLR264

Open-cell foam interior springs back into shape after you walk on it or roll over it with a hand cart.

PLR222

Install a 2"H barrier around machines to keep leaks and drips away from walkways.

EXCLUSIVE!

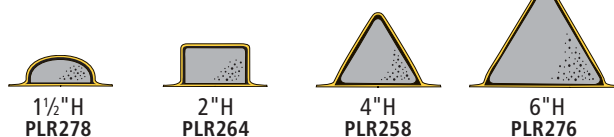

pig Build-A-Berm Barrier — Configure a barrier to fit your leak-prone area.

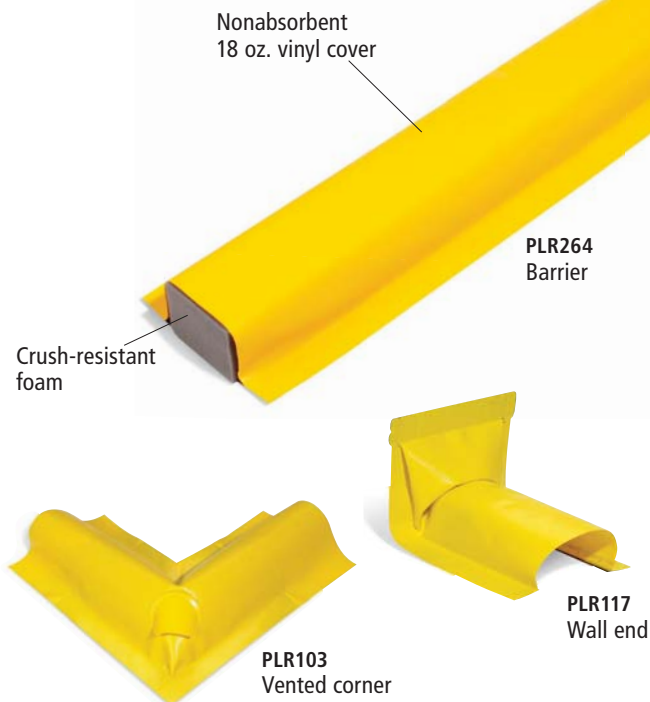

- PIG Build-A-Berm Barriers can be constructed into a **semipermanent, high-visibility barrier** that's exactly the size and shape you need — indoors or out
- Pliable open-cell foam barrier **springs back into shape** after you walk or roll over it with light, wheeled equipment (see drive-over version on page 183)
- Durable, 18 oz. vinyl covering **resists oils, coolants and most chemicals**
- **Contain leaks and spills around your machinery** without building expensive concrete curbs or cutting angle iron
- For best sealing results, **secure to a smooth, sealed surface**
- **Kit (PLR222, PLR511) includes** straight sections, corners and Sili-Thane sealant; create any length or configuration
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

Add these components to your layout:

- **Corners** let you create liquidproof junctions; join two Build-A-Berm sections at a 90-degree angle
- **Vented corner** prevents seam rupture by letting air escape during a cart driveover
- **Wall end** seals flush against the floor and wall for a seepage-free connection

Available in four heights!

A Build-A-Berm Barrier is great for use around battery charging stations, machinery or other leak-prone areas.

Build-A-Berm installation is as easy as 1-2-3 when you use these accessories.

Simple installation

1. Cut to desired length with scissors or utility knife
2. Fit pieces together and secure to floor with **Sili-Thane Sealant** to form a flexible, liquidtight seal (PTY340 sold below; use one tube per approx. 25 ft. of barrier)
3. Seal seams with **Industrial-Strength Vinyl Cement** (PTY105 sold below; installs approx. 10 connections)

Sili-Thane™ 803 Sealant

**EXPERT
ADVICE**

Installing a PIG Build-A-Berm is easy:
newpig.com/buildabermhowto

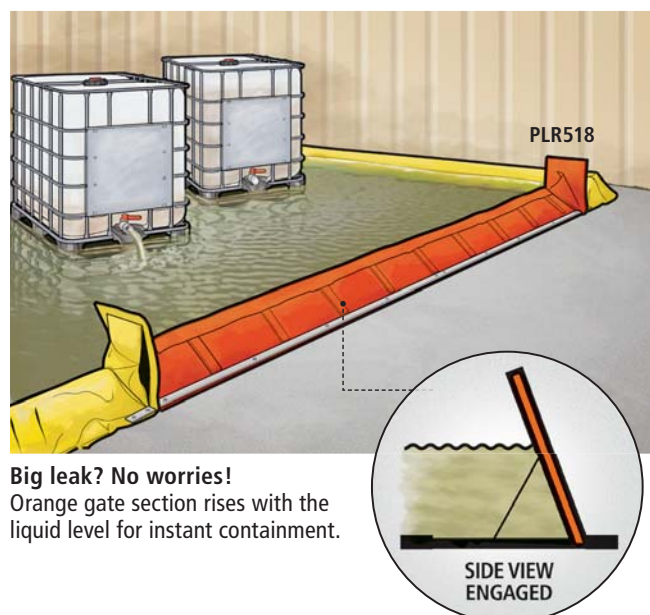

Build-A-Berm Self-Rising Drive-Over Barrier — Roll across this special gate section, and when a spill strikes, it rises to the occasion.

- Berm wall lays flat to allow forklifts, pallet jacks and drum trucks to drive over for **easy access to containment area**
- In the event of a spill, drive-over gate will **automatically rise with the spill level** to keep liquids contained
- Berm ends can be **directly connected** to an existing 4" H Build-A-Berm system (PLR258, sold separately on page 181)
- Ends of 4" H berm are pliable, open-cell foam core covered with vinyl; gate section is **constructed of durable PVC**
- Secure to a smooth, sealed surface with Sili-Thane sealant and reinforce with predrilled aluminum mounting strips and anchors; seal seams with Industrial-Strength Vinyl Cement (**sealant and vinyl cement sold separately on page 181**)

◆ **Helps you comply** with SPCC and Stormwater Regulations

It's a snap to add this drive-over gate to your existing Build-A-Berm system — hardware is included.

Big leak? No worries!
Orange gate section rises with the liquid level for instant containment.

4" High PIG™ Build-A-Berm™ Self-Rising Drive-Over Barrier

Patent 9,498,806

TOUGH ENOUGH FOR HEAVY VEHICLE TRAFFIC.

pig Drive-Over Build-A-Berm Barrier — Build a spill berm that can handle heavy vehicle driveovers.

- Provides **semipermanent containment** in high-traffic areas on concrete, asphalt or most sealed surfaces; for best results, use on a smooth, sealed surface
- Constructed of 40-ounce, vinyl-coated fabric with an open-cell foam core; compresses to approximately 1/4" when driven over; **springs back to shape when vehicles pass**
- Can withstand **indoor or outdoor traffic from heavy vehicles**; low-profile,

1 1/2" berm accommodates pallet jacks, heavy carts and dollies

- Predrilled aluminum mounting strips with **anchors secure berm to most surfaces**; remove anchors to reposition and **create any configuration**
- **Vented corner** allows built-up air pressure caused by heavy vehicle driveovers to escape; **wall ends** seal flush for seepage-free connection

◆ **Helps you comply** with SPCC and Stormwater Regulations

Patent 5,820,297

**BEST
SELLER!**

"I work in a chemical warehouse where forklift traffic is constant. Build-A-Berm **made going over containment strips a walk in the park**. I like this product so much that I installed it in our shop and other warehouses."

— **Andrew G., PLR283 Customer**

Sili-Thane 803 Sealant (PTY340, sold on page 181) cures fast and holds securely.

Use vinyl cement (PTY105, sold on page 181) to connect barrier sections and corners.

Containment Booms — Contain oil and debris to keep it from spreading and protect the environment.

- Closed-cell polyethylene foam **corrals pollutants** while the skirting barrier hangs below the waterline to stop them from creeping under
- **Galvanized steel chain** along the length of the boom adds weight and rigidity (BOM108 is water-filled for weight, no chain included)
- Vinyl-coated polyester material is **UV resistant**
- Foam floats are segmented, so **all booms fold up neatly for compact storage**
- Built-in connectors let you **link multiple booms** (two styles shown below)
- Strap handle/anchor point allows **easy one-person deployment** (featured on all models except EconoMax Booms)
- **High-visibility yellow** for instant recognition in emergencies
- Conforms to **OPA-90 specifications** (in all except BOM301 and BOM302)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 33 CFR 154.545(a) regarding discharge containment equipment
- ◆ **Helps you comply** with 33 CFR 154.1040 requirements for facilities that could cause harm to the environment

Slide connectors

Most booms shown on the opposite page include marine-grade aluminum slide connectors and toggle pins. (Excludes BOM301 and BOM302)

Snap hooks

PIG Oil and Debris Containment Booms (BOM301 and BOM302) feature snap hooks so you can easily secure and overlap booms.

Choose your booms based on type of current and body of water:

For calm waters

Rectangular foam inserts and 16"-18" height provide enough buoyancy for calm water. Effective in bays, harbors and breakwaters.

Choose these products:
EconoMax Booms
PIG Oil & Debris Booms

BOM103

Rectangular foam insert

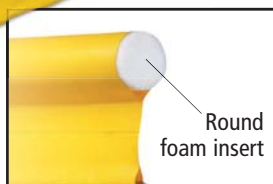

For calm, shallow waters

10"-high boom with round foam inserts is designed for shallow waters. Use in streams, canals, drainage ditches and swamps.

Choose these products:
Super Swamp Booms

BOM100

Round foam insert

**NEED A BOOM THAT
ABSORBS SPILLS, TOO?
SEE PAGES 64-66.**

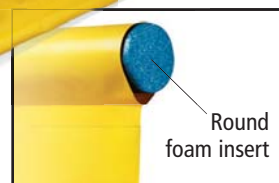

For fast currents

Round foam inserts and 18"-20" height makes these best for rough waters. Ideal for rivers, shorelines, ports and harbors.

Choose these products:
Optimax Booms & Simplex Booms

BOM107

Round foam insert

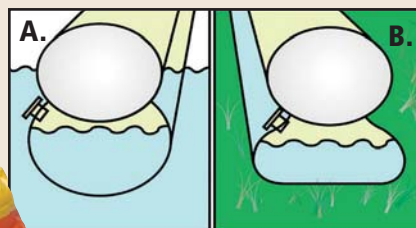

Tundra Guard Boom

BOM108

Round foam insert

Fill port

Water-filled boom floats in deeper waters (A), but settles snugly in marshes or when the tide is low (B).

What's Freeboard and Draft?

Freeboard

Draft

Freeboard refers to the part of the boom that remains above the waterline. The *draft* is submerged below the waterline. Both work together to contain spills.

Nonabsorbent Oil & Debris Containment Boom

Item #	Product Name	Type of Current	Where to Use	Dimensions (L x H)	Freeboard	Draft	Breaking Strength	1	2+

QUICK-SELECTION GUIDE: GLOVES

From light grime protection to a full-spectrum chemical barrier, we have the gloves to fit every job. Use the quick-selection guide below to help you find what you're looking for. Need a hand choosing? Call our Technical Specialists at 1-800-HOT-HOGS (468-4647).

Glove Category			Page(s)
 GLV107	Disposable	<p>Our best-selling gloves! From light-duty latex to heavyweight nitrile, we have a glove for every wear-and-toss application.</p> <p><i>See our Disposable Gloves Guide on opposite page.</i></p>	190–192
 GLV213	Chemical Resistant	<p>Provide extra protection to keep hands safe when working with chemicals like MEK, harsh solvents, degreasers and more.</p> <p><i>See our Chemical Compatibility Guide on opposite page.</i></p>	193–195
 GLV323	Coated	<p>Coated gloves give workers a secure grip on slippery parts — without the expense of leather!</p>	195
 GLV500	Cut Resistant	<p>Working with sheet metal, glass, castings or other sharp objects? Keep hands and wrists protected with gloves that are made for the job.</p>	196
 WPL838	Mechanic's Style	<p>Get a comfortable, sure grip on hand tools, as well as impact protection, when you're wrenching in these top-quality gloves.</p>	197
 GLV328	Jersey & Cotton	<p>When you need minor abrasion protection, our knit and cotton jersey gloves do the job without breaking the bank.</p>	198
 GLV410	Leather	<p>From thin, supple goatskin to tough cowhide, we have a leather work glove for every job.</p>	199
 GLV441	Leather Palm	<p>Durable cowhide reinforcement in high-wear areas and a rubberized safety cuff provide durability and economy.</p>	199
 GLV1207	Touchscreen	<p>There's no need to remove these gloves to use your touchscreen devices. Stay safe and productive!</p>	195–196

DISPOSABLE GLOVES

4 STYLES FOR ANY APPLICATION

Nitrile Gloves

- Nonallergenic
- More chemical resistant than latex to protect against intermittent contact and splashes
- Resists puncture and abrasion better than PVC/vinyl

See pages 190–191

Vinyl Gloves

- Nonallergenic
- Versatile material delivers comfort, sensitivity and performance
- Tough enough for reuse, but inexpensive enough to be disposable

See page 192

Latex Gloves

- Excellent stretchability
- Fits hands tightly to give them added sensitivity for delicate tasks
- More economical than nitrile

See page 192

Triple Polymer Gloves

- An exclusive blend of rubber, neoprene and nitrile
- Delivers the comfort of latex with the strength of nitrile and neoprene
- Flexible for easy on and off

See page 192

GLV118

**BEST
SELLER!**

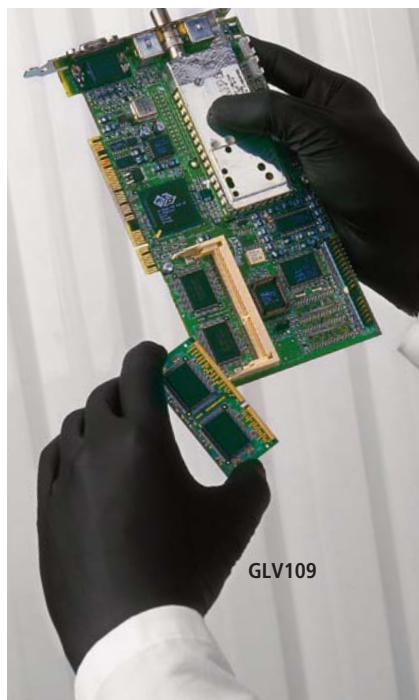

Disposable Nitrile Gloves — Light-duty protection for handling grease, food and chemicals.

- **Nonallergenic nitrile** is more chemical resistant than latex to guard against intermittent contact and splashes
- **Resists puncture and abrasion** better than PVC or vinyl
- Offer **light protection, sensitivity and dexterity** with use-and-toss convenience
- **Thin enough to use as a liner** under another glove
- **Ambidextrous design** simplifies inventory
- **Beaded cuff** helps prevent ripping and creates a better seal
- Available **powder-free** to help **eliminate skin irritation, contamination and residue**
- **Nonsterile industrial grade** provides an affordable barrier to keep dirt or mild chemicals away from hands
- **Nonsterile medical grade** ensures reliability with strict standards
- Great for **assembly, repair, electronics, quality control, chemicals, hospitals, food, laboratories** and more
- Available **fully textured or with textured fingertips** to provide a firm grip when handling wet or oily objects

Special features to suit your needs:

- GLV104, WPL362, GLV120 and GLV102 have a **light dusting of powder** to help gloves slide on effortlessly and absorb perspiration throughout the day
- GLV108, GLV117, GLV123 and WPL580 have a **longer cuff** for extended protection onto forearm
- GLV109 and WPL847 feature an **accelerator-free formulation** that won't cause dermatitis
- GLV107, GLV109 and GLV116 are **thicker in fingertips and palm** to minimize tearouts
- GLV116 features an **aloe and vitamin A inner coating** to help prevent chapped or cracked skin
- GLV123 has an **interior polymer coating that allows easy on/off without powder** and additional thickness in fingertips and palm to minimize tearouts
- GLV1211 has **3,000 raised diamonds per glove that produce an aggressive texture** for a superior grip under oily, wet or dry conditions

Need help choosing the right glove? Call our Tech Team at 1-800-HOT-HOGS!

GLV109

GLV102

GLV900

Glove Dispenser hangs on a wall or other flat surface to keep gloves readily available.

Wire Disposable Glove Dispenser

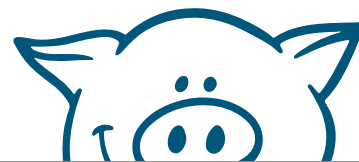

Item #	1-4	5+
GLV900 • For Cardboard Glove Dispenser Boxes	\$20.35	\$19.35

Disposable Latex Gloves — Get a tighter fit and better dexterity with super-stretchy latex.

- Stretchable latex is **more economical than nitrile**; fits tightly to further increase sensitivity for intricate tasks
- **Ambidextrous design** simplifies inventory
- **Beaded cuff** helps prevent ripping and creates a better seal
- **Nonsterile industrial grade** provides an affordable barrier to keep dirt or mild chemicals away from hands; great for assembly, repair, electronics, quality control, chemicals, laboratories and more
- **Nonsterile medical grade** ensures reliability with strict standards; great for laboratories, hospitals, food industry, electronics, chemicals and more
- **Entirely free of powder** to help eliminate skin irritation, contamination and residue (GLV150 has a **light dusting of powder** that helps gloves slide on and absorb perspiration)

Reusable Nitrile Gloves — Look no further for economical protection against harsh chemicals.

- Nitrile material **stands up to long-term submersion in many harsh chemicals**, including 30% hydrogen peroxide, ethylene glycol, gasoline and diesel fuel
- Reusable gloves** resist swelling and degradation; excellent protection against skin irritation and worker injury
- Flock lining** absorbs perspiration
- Unlined gloves offer greater economy** and tactile sensitivity
- Left- and right-hand molds** are curved to match hand contours for minimized fatigue
- Embossed texture adds grip** when handling wet or oily objects
- Extra-long cuff extends protection** past wrist onto forearm
- Shoulder-length cuff (GLV210)** extends protection to entire arm; elastic top cinches to limit sliding and leakage
- Interlock-reinforced lining (GLV210)** increases strength and puncture resistance; soft, comfortable cotton absorbs perspiration
- Great for spill response**, degreasing, solvent washing, painting, acid dipping, oil refining and more

SUIT UP FOR SAFETY

Choose the appropriate suit level for your application.

Level A

Use when you need the highest level of skin, eye, respiratory and mucous membrane protection. Provides Level A protection when combined with either a Self-Contained Breathing Apparatus (SCBA) or a Supplied Air Respirator (SAR) with egress bottle.

See page 201

WPL922

Level B

Ideal when you need the highest level of respiratory protection, but a lower level of skin, eye and membrane protection. Provides Level B protection when combined with either an SCBA or SAR with egress bottle.

See pages 201–202

WPL860

Level C

Select this suit when the type of airborne substance is known, its concentration is measured, the criteria for using Air-Purifying Respirators (APR) are met, and skin and eye exposure is unlikely.

See pages 202–203

WPL911

Level D

The best choice when you only require minimum protection and no eye, skin or respiratory hazards are present.

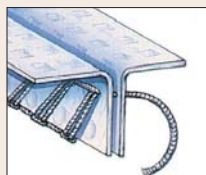

See pages 202–203

WPL718

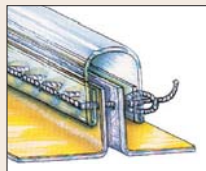

3 seam types offer different levels of protection.

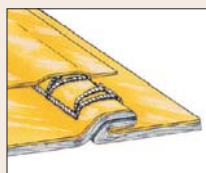

The best protective garments in the world are useless without strong, tight seams. Just one loose thread or gap, and the barrier of protection can unravel and leave you vulnerable to injury. Kappler offers three different seam types for its protective garments.

Serged Seams provide general protection. This seam is produced when three threads are interlocked around the raw edges of two pieces of material.

Bound Seams offer mid-range protection. A clean-finished binding totally encloses the raw edges of two pieces of fabric, then it's sewn through all layers with a chain stitch.

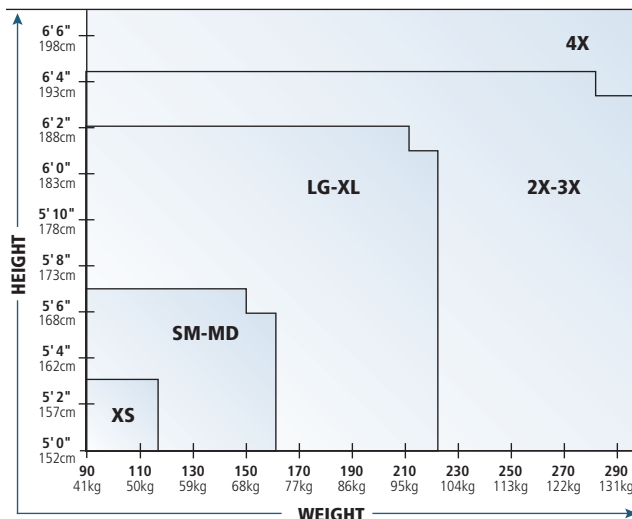

Heat-sealed Seams are very strong and tight for high-end chemical protection. A sewn seam is covered with a strip of compatible material, then "heat taped" or "hot air taped" as with film laminated fabrics.

Size matters. Respond to hazards in a suit that fits.

This chart is a guide for garment selection, but a proper fit varies with individual body shape and underclothing. Always test for proper fit before use. Garment performance depends on selecting appropriate size. Sizes S–3XL are stock items (4XL is available through custom order).

When deciding which size suit to order, consider whether workers will be wearing bulky clothing under their suits. If they are, order suits one or two sizes larger than the sizing shown below.

KAPPLER PROTECTIVE CLOTHING SIZING CHART

WPL922

NOTE: Respirator not included.

Zytron 500 Chemical Protection Suit — Superior protection with expanded faceshield and anti-fog visor.

- **Industry-first innovation:** Large, expanded-view faceshield increases field of vision with 17% more visor surface area
- **Industry-first innovation:** View window now resists fogging far more effectively than standard suit faceshields
- Effective **barrier against most organic and inorganic chemicals**, including acids, bases, salts, greases and oils
- Suits show **no permeation breakthrough** after 8 hours of exposure to the ASTM F739-85/ASTM F1001-89 list of 15 hazardous chemicals and 6 gases
- **Fully encapsulating Level A suit** made from Zytron material withstands long-term contact with wet and dry chemicals
- **Hot-air taped seams** and double storm flaps maximize strength and help prevent chemical penetration

Pig Shower Tester — Stay dry while you comply with ANSI shower-testing regs.

- Tester **catches water and channels it** to a floor drain or container, keeping floors dry
- 12"-diameter funnel made of clear vinyl with reinforced top opening; durable material **keeps its shape and allows easy inspection**
- Attached 25' flat vinyl hose has 2" dia.; **drains up to 20 gallons per minute**
- Has mounting bracket, hooks; **installs easily** on most dome-style drench showers

PIC® Drench Shower Tester			pig	
Item #	1+			
TSL609	\$155			

* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

ABS plastic showerhead is corrosion resistant and highly visible.

Drench Shower and Eye Wash — Install one unit for total body and MSR face decontamination.

- Ideal for installation in high-risk areas to **provide onsite initial treatment**
- Chrome-plated brass **valves stay open** until manually closed for complete decontamination
- Axion MSR **eye wash head design** works more effectively with natural eye function than standard eye washes
- Inverted streams contact eye at the inner corner and sweep contaminants toward the outside edge; **helps stop contaminants** from flowing into other eye or draining into nasal cavities
- Nearly vertical streams reach zero velocity and softly puddle in midair before falling for a **gentler, fuller flush**
- Face wash nozzles also use inverted streams to **flush entire face** as eyes are cleaned
- **Antimicrobially treated head** prevents the growth of mold and mildew
- **ANSI Z358.1 compliant**

Free-Standing Drench Shower & Eye Wash

"I love it! Nice and short, to the point and grabs your attention."

— Sally, PIG Training Customer

PLANT SAFETY

Avoid accidents, injuries and OSHA fines with our proven selection of safety products.

The next 34 pages are packed with PIG-approved solutions to help keep your facility on the up-and-up when it comes to safety. Whether you need them to comply with OSHA regulations, or because your company values best practices to provide a safe workplace, you'll find everything you need right here.

Proven performers from market leaders.

We've partnered with the top names in safety to bring you the best in anti-fatigue mats, floor tapes, signage, lockout/tagout and more. We use them in our own plants and buildings, so we know they'll get the job done at yours, too.

PIG exclusives invented right here.

We've also got industry firsts that you won't find anywhere else. Check out **PIG Grippy® Floor Mats** on pages 220–225 — the world's first adhesive-backed mats eliminate slips and trips. And rounding out this section on pages 252–253 is our library of **PIG Training Videos** to educate your workforce on safety and compliance.

◆ HELPS YOU COMPLY

OSHA has always required that workroom floors be kept clean and dry.

◆ Walking-Working Surfaces

29 CFR 1910.22(a)(2)

The floor of each workroom is maintained in a clean and, to the extent feasible, in a dry condition. When wet processes are used, drainage must be maintained and, to the extent feasible, dry standing places, such as false floors, platforms, and mats must be provided.

29 CFR 1910.22(a)(3)

Walking-working surfaces are maintained free of hazards such as sharp or protruding objects, loose boards, corrosion, leaks, spills, snow, and ice.

**“PUT YOUR TRUST
IN PIG-APPROVED.”**

We screen and scrutinize hundreds of safety products. The ones that make the cut are inside this Pigalog.

Justin Stroup — Product Development

MAKE THE SWITCH TO THE MAT THAT STICKS™

RENTAL RUGS: Crappy. Dangerous.

PIG GRIPPY MAT: Safe. Attractive.

Before PIG Grippy® Mat, you had no choice.

We know that rental rugs are a pain in the you-know-what, because we used them (past tense) on our floors, too. We've watched them ripple, flip and shift. We've seen people slip, trip and fall. We were stuck in a rental rug rut, but there was nothing better on the market to keep floors safe.

Now you have a better way.

PIG Grippy Mat is not just another rug. It's the **world's first adhesive-backed mat**, and we've spent thousands of hours perfecting the formula to fix everything you hate about rental rugs. Finally, you can stop hassling with mats that shift, ripple and flip over — just stick down our Grippy Mat (patent pending) and start enjoying safer floors.

7 WAYS GRIPPY MAT BEATS RUGS

NO RIBBLING

Lays flat and stays flat so you never worry about people tripping.

Nope

WON'T SHIFT

Stays put no matter what* so you don't waste time adjusting it.

Nope

CONTINUOUS COVERAGE

No gaps or overlays, just roll out the perfect length and cut to size.

Nope

ABSORBENT & FAST-DRYING

Wicks moisture and dries fast to stop it from being tracked around.

Nope

BUILT FOR EXTREME TRAFFIC

Retains high traction and lasts up to three months between changeouts.

Nope

EASY TO CLEAN

Clean it right along with your floors, using a vacuum, mop or scrubber.

Nope

SAVES TIME & MONEY

Costs less than rentals, reduces labor expenses and liability claims.

Nope

Ditch your crappy rental rugs and switch to Grippy Mat!

SEE IT IN ACTION AT GRIPPYMAT.COM

SLIPS.
TRIPS.

GRP91 shown in Gray Berber

HERE'S HOW GRIPPY MAT WORKS:

ADHESIVE BACKING sticks tight, but peels up easily. It stops the mat from shifting or creeping and prevents absorbed liquid from soaking through.

ABSORBENT TOP pulls in liquid and wicks it away from the center. Moisture disperses evenly so the mat dries out quickly.

INTERLOCKING FIBERS make the mat virtually indestructible, plus they trap dirt and fine particles to stop grime from being tracked into your facility.

PIG Grippy Mat Notice: PIG Grippy Mats are formulated to work with most common industrial and commercial floor surfaces but are not intended for home/residential use and wood flooring. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or predamaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of PIG Grippy Mats for your application, test a 6" x 6" piece in a noncritical area before use. PIG Grippy Mats should be replaced if they show signs of wear or damage and should always be changed out before 13 weeks of use.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE IN THE CUSTOMER'S FACILITY. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S FACILITY.

NFSI 
HIGH-TRACTION

Reduce slip and fall claims by as much as 90%!

PIG Grippy® Floor Mat is tested and certified by the National Floor Safety Institute (NFSI) as a high-traction surface, which can reduce slip and fall claims by as much as 90% when used as part of a Floor Safety Program.

GRP36200
Gray

piG EXCLUSIVE!

piG Grippy® Floor Mat — Prevent slips, trips and falls in high-traffic areas with our no-hassle, adhesive-backed mat.

- Adhesive-backed mat stays exactly where you put it with **no shifting, rippling or flipping over**; traps dirt, salt and moisture to keep it from being tracked around
- **P53® adhesive backing** delivers the ideal balance of stick-and-release performance
- **Extreme durability** stands up to heavy traffic — even forklifts — to keep it on the job for up to three months
- **Easy to use:** roll out continuous walk-off coverage for entrances, aisles and walkways with no gaps, ripples or overlaps; ADA compliant for wheelchairs and walkers; carts and pallet jacks roll right over it
- **Easy to clean:** you can sweep, vacuum, mop, use your shop/wet vac or run your floor scrubber over Grippy Mat and it won't budge
- **Easy to customize:** lets you create custom-size floor mats for transition areas and wet problem spots
- Highly efficient absorbent top soaks in moisture, wicks and spreads it evenly so the mat dries quickly — **ideal for entrances, aisles and walkways** — anywhere you need maximum absorbency for water
- Absorbs a wide variety of liquids including water, oil and grease; **leakproof backing** prevents liquid from soaking through to the floor
- Completely eliminates rental mat hassles and can **save up to 50% per year over rental contracts**
- **90% less environmental impact** than rental floor mats

"Our company used to spend from \$10K–\$15K per year per location on commercial rugs. We now spend about \$1,500 annually per location. The initial cost savings for us is just one benefit — we have not had one injury."

— Nicholas, PIG Grippy Floor Mat Customer

Easy cleaning. Effortless maintenance. No more lugging heavy mats out of the way to clean your floors. PIG Grippy Floor Mat lets you sweep, vacuum or mop right over it. You can even run your floor scrubber and it won't budge!

GRP36200
Gray

Choose your Grippy Mat:

1. **Select Rolls** (continuous lengths that you cut to size) or **Precut mats** (standard sizes that peel right off the roll).
2. **Determine Size and Weight** — Heavyweight adds absorbency.
3. **Pick a Color** — Three color options deliver the look you want.

P53® adhesive backing keeps mat in place but peels up easily when you need to remove it.

Starter Pack includes both tools!

See Grippy tools, like the Safety Knife and Installation Board, on page 225.

Low-profile surface design
traps dirt and liquids to
stop tracking.

EXCLUSIVE!

piG Grippy® Carpeted Entrance Mat — Adhesive-backed mat eliminates slips, trips and falls and captures dirt and liquid at your door.

- Adhesive-backed mat stays exactly where you put it with **no shifting, rippling or flipping over**
- **P53® adhesive backing** delivers the ideal balance of stick-and-release performance
- **Create inviting entrances** and impress your guests; multiple textures and colors complement modern or upscale lobbies and vestibules
- High-performance needlepunched fibers and low-profile surface design **trap dirt and liquids** to help prevent tracking
- **Quick-dry, colorfast fibers** resist staining and fading; made from 100% postconsumer recycled content
- No rippled edges to obstruct doors or create tripping hazards; **ADA compliant** for wheelchairs and walkers
- **Commercial-grade durability** lets you keep mat in place for three to six months depending on your conditions
- **Clean your floors with mats in place**; won't budge while you work, making it easy to use a vacuum or water extractor
- **Cuts easily** without fraying or unraveling; lets you create **continuous walk-off coverage** and custom sizes with no gaps or overlaps

GRP91

P53 adhesive backing sticks tight, but peels up easily when you need to replace mat. (There's no rush — Grippy Mat stays down for months!)

Tested and certified by the National Floor Safety Institute (NFSI) to reduce slip and fall claims by as much as 90% when used as part of a Floor Safety Program.

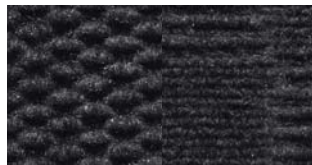

Two stylish textures available! See next page for details.

Available in 3' x 25', 3' x 50' and 6' x 10' rolls.

NOTE: All adhesives have potential to lift finish coatings or paint depending on the condition of the surface. Grippy Mat is formulated to work with most industrial floor and work surfaces, but testing a 6" square piece in a noncritical area can help you judge suitability for your use. Product life will vary depending on the type of use, level of liquid saturation and the frequency and intensity of foot and vehicle traffic.

Tools for PIG Grippy® Mat — Make the easy job of installing Grippy Mat even easier with these professional tools.

- **Installation Board** (GRP001) helps you smooth mat into place and eliminate air bubbles; can also be used as a cutting guide for creating perfect corners or 45° angles
- **Safety Knife** (GRP012) makes quick, clean cuts to Grippy Mat without the risk of handling scissors or box cutter; recessed blade has protective edges to help eliminate injuries and property damage (Board and Knife also sold together as GRP005)
- **Installation Roller** (GRP021) unrolls the mat as you push it along and smooths it into place; eliminates the need to get down on your knees during installation. (Not recommended for use with Grippy Carpeted Entrance Mat.)
- **Removal Tool** (GRP020) "locks" its jaws onto mat material, providing a firm handgrip for pulling up Grippy Mat (ideal for removing long runs or mats that have been in place for extended periods of time)

"We use the mats at the doors leading to our test areas. Before, we had to have our office carpets cleaned biweekly; now we can go a few months. They saved us more than they cost."

— Wesley E., MAT566 Customer

Sticky Steps Mat with Frame — Move this tear-off mat pad wherever you need it to remove dirt from shoes.

- **Portable frame** lets you use Sticky Steps Mat on carpet or on floors that are difficult to clean thoroughly; can be easily stored
- **High-tack disposable mat** pulls dirt and debris from shoes and wheels to prevent tracking into offices
- **Mats come 30 sheets to a pad**; entire pad attaches to frame and used sheets tear off easily for disposal
- **Numbered pull-tab system** shows when you're running low
- **Refillable white PVC frame with rubber backing** holds the mat pad in place
- **Ideal for use** in hospitals, laboratories, clean rooms, data centers, test facilities, mixing facilities, construction sites, residences, photography studios and during renovation projects

Mats on frame are clear (refills sold separately, see MAT195 at left)

QUICK-SELECTION GUIDE: ANTIFATIGUE MATS

Antifatigue mats are designed to reduce leg and back strain when you spend a lot of time on your feet. They promote frequent posture changes to keep blood circulating so you can stay on the job longer without feeling fatigued. New Pig offers a wide range of antifatigue mats for a variety of applications.

Also in this section are a few specialty mats that go beyond antifatigue. See what innovative solutions like PIG BubbleZorb Mat, PIG Grippy Floor Mat and PIG Sticky Steps Mat can do for your workstations! The guide below will help you choose just the right mat. If you have questions, just give us a call at **1-800-HOT-HOGS** (1-800-468-4647).

Application Key

NOTE: For chemical compatibility information on mats, please call Technical Services or visit newpig.com.

Dry Conditions

Use these mats primarily in dry areas, although many resist wet conditions. Some stand up to oil, grease and most chemicals. Choose from a variety of antislip surfaces to provide safe footing.

	Product Name	Light Splashes					Description	Page
		Dry Only	Water	Oil/Grease	Chemicals	Anti-Static		
Single Piece Mat/Rolls	Airug Mat						Economical, basic antifatigue comfort	231
	Pebble Step Sof-Tred						Protective coating withstands harsh chemicals	231
	Alleviator Comfort King Mat						Nearly an inch of soft foam for superior comfort	232
	Diamond Sof-Tred Mat						Abrasion-resistant top for long-lasting traction	230
	Diamond-Tuff Classic Max Mat						Thick and comfortable with long-lasting traction	229
	Hog Heaven Mat						Static-dissipative for use near electronics	228
	Cushion Max Mat						Tough nitrile with thick foam cushioning	228
	Cushion Trax Mat						Diamond-plate vinyl with floor-gripping bottom	229
	Workers-Delight Deck-Plate Mat						Durable and comfortable foam bottom and deck-plate top	231
	Corrugated Switchboard Mat						Static-dissipative for high voltage	232
	Spark-Safe Mat						Resists sparks and metal shards	232
	Get Fit Stand-Up Mat						Antifatigue mat available in six attractive colors	232
Modular	Hog Heaven III Modular Mat						Static-dissipative and antifatigue modular tile mat	230

Wet Conditions

Designed to work in wet conditions and provide long-lasting comfort without degrading. Drainage holes let liquids escape to avoid slips and falls.

	Product Name	Continuous Contact			Description	Page
		Water	Oil/Grease	Chemicals		
Single Piece Mat/Rolls	Comfort Flow Mat				Lightweight for easy movement and cleaning	234
	Diamond-Deluxe with Grit-Safe Mat				Nonslip grit embedded in surface provides extra traction	234
Modular	Safety-Step Grease-Resistant Mat				Interlocks for a sturdy, grease-resistant work area	233
	Dura-Step II Grease-Proof Mat				Fast-draining with superior resistance to grease and oils	233
	Performa Mat				Excellent drainage, available with gritted top	233
	Niru Cushion-Ease GSII Mat				Chemical resistance with permanent grit	233

Specialty Mats

Work cleaner and safer with these innovative mat solutions!

Product Name	Description	Page
PIG Grippy Floor Mat	Full-coverage adhesive backing holds tight; no bunching up or shifting	222-225
PIG Sticky Steps Mat	Pulls dirt and debris from shoes or wheels to prevent them being tracked around	226
PIG BubbleZorb Mat	Combines cushiony antifatigue support and universal absorbency	234

Hog Heaven Mat — Textured nitrile top and closed-cell cushioning deliver slip-resistant comfort.

- Sturdy 100% nitrile rubber surface naturally **resists sparks and chemicals**
- Premium $\frac{5}{8}$ "-thick closed-cell nitrile/PVC cushion backing provides **all-day comfort**
- **Curved, beveled edges** help prevent tripping and won't crack or curl, even after extended use
- Textured, **slip-resistant surface** helps improve safety
- **Static-dissipative mat** is ideal for use around sensitive electronic equipment or machinery
- Choose standard sizes or **order by the linear foot**

Custom cut lengths ship within 5–7 days.

Performa Mat — Antislip, nitrile/SBR construction provides excellent drainage.

- **Thick nitrile/SBR construction** improves comfort and productivity and helps relieve foot, leg and back fatigue
- Holes in mat **allow drainage** to help keep mat surface dry
- **Built-in connectors** let you combine sections (sold individually)
- **Grease-resistant mat** is ideal for metal working, food processing, kitchens and more
- Available with **gritted surface** (FLM539) for increased traction

Performa™ Modular Anti-Fatigue Mat

Item #	1-4	5+
FLM538 • 3'W x 3'L x 0.625"H	\$41	\$39
FLM539 • Gritted Surface 3'W x 3'L x 0.625"H	\$75	\$71

CAPACHE

Line any drainage mat with absorbent **Pig Blue Mat!**
See pages 8-9.

Safety-Step Mat — Provide a sturdy, grease-resistant surface in slippery areas.

- **576 large drainage holes** channel liquid away from standing surface
- Ideal for **wet, greasy areas**
- **Nubbed backing grips floor** and improves drainage to prevent sliding
- **Modular design** can be built to fit your workstation; built-in connectors securely lock sections
- Choose heavy-duty rubber (**FLM639**) or 100% nitrile (**FLM648**) for extra resistance

Safety-Step™ Grease-Resistant Modular Anti-Fatigue Mat

Niru Mat — Interlocking system adds safety where it's slippery.

- **100% nitrile construction** provides comfort and resistance to chemicals, oils and grease
- **Modular design** makes it easy to replace individual sections and customize configurations
- Assembles easily with **built-in connectors** and channels that fit together without hammering
- Silicon-carbide grit bonded permanently to pure nitrile provides **long-lasting, nonslip traction** (yellow ramps are without grit)
- Add **beveled ramps** to reduce tripping hazards and create a finished look
- Available **with holes** for wet areas or **without holes** for dry areas

Carbide surface won't wear off.

Built-in connectors make it easy to connect ramps.

ELS275 • 5300 Lumens 6.5"W x 22.25"L x 11.25"H	\$1100	\$1041

ELS275

Tiny drops of oil can be nearly impossible to see, especially outside on white absorbents.

The 390 nm UV LEDs in these lights make even traces of oil glow bright purple for quick, accurate identification!

Oil Detection Light — LEDs make even the smallest drops of oil glow purple!

- **Titanium-reinforced aluminum** with sealed O-rings and polycarbonate lens resists corrosion, abrasion, impact and water
- **Multi Ops Task Light** has four settings: 5-LED oil detection light, C4 LED floodlight and laser pointer with or without floodlight
- **Ideal for inspections** in utilities, automotive and other industries where catching leaks early is imperative

Compact 5 1/4" model fits in your pocket.

ELS218

Multi Ops® LED Oil-Detection Task Light

Item #	1-4	5+
ELS218 • 50 Lumens • Ext. Dia. 1.5" x 5.25"L	\$77	\$74

Emergency Lighting Station — When the power goes out, this glow-in-the-dark flashlight appears.

- **Glow-in-the-dark body** is easy to locate during power outages
- Produces **378 lumens of output** on high; runs up to 202 hours on low (three AA batteries included)
- **Three light options:** high beam, low beam and flashing signal mode
- **High-impact, water-resistant** design
- **ELS3310** includes light and lockable, wall-mountable clear case; light (**ELS3311**) is also sold separately

ELS3310

ELS3311

Emergency Lighting Station

Item #	1-3	4+

ELS3310 Contents • Flashlight • Tamperproof Case • Mounting Hardware		
ELS3311 • Flashlight Only • Ext. Dia. 1.5" x 6"L	\$45	\$43

Foam Guards — Add bumper protection wherever you need it to limit bumps and bruises.

- **Dense foam softens blows** to help protect workers; guards equipment or facility from damage
- **Add bumper protection** in industrial work areas, railway and subway stations, public spaces or anywhere people walk
- **Flexible material** conforms to slightly irregular angles and surfaces
- Protective coating **prevents abrasion**
- **Self-adhesive backing** attaches to any clean, dry indoor surface (PLS171 and PLS1995 slide on and hold with friction)
- Guards with **highly visible pattern** draw attention to potential hazards
- **Wide variety of shapes and styles** to fit I-beams, shelves, racks, ventilation hoods, corners, pipes, rails and more
- **PLS1324 and PLS1325** are softer and for light duty uses; cuts easily with scissors

Neoprene tape creates vacuum
to hold cover in place.

Bollard Covers — Get durable bollard protection in your choice of sizes.

- Durable polyethylene shell **resists impact, chemicals and UV light**
- **Holds 90% of its true color** in constant sunlight for a period of five years
- **Smooth, rounded finish** won't snag clothing or hold grime
- **Slides over existing bollard for easy installation**
- **Heavy-duty covers** feature 1/4"-thick walls and neoprene tape for a vacuum-tight fit; PLS195 is available in four colors
- **Economy cover** has 1/8"-thick walls; yellow color only

Heavy-Duty Bollard Cover

(Specify PLS195 Diameter Size: 4" (fits 4"-4.75"Dia.), 5" (fits 5"-5.875"Dia.) or 6" (fits 6"-6.75"Dia.)
Specify Color for PLS195: Blue, Light Granite, Red or Yellow)

Item #	1-9	10+
PLS195 • Fits Bollards up to 52"H	\$77	\$73
PLS1259 • Yellow with Reflective Tape Fits Bollards Diameters 6" - 6.75" and up to 52"H	\$85	\$80
PLS626 • Yellow • Fits Bollards Diameters 7" - 7.875" and up to 56"H	\$107	\$103
PLS1009 • Yellow • Fits Bollards Diameters up to 8.75" and up to 60"H	\$112	\$107

Economy Bollard Cover

(Specify PLS758 Diameter Size: 4" (fits 4"-4.87"Dia.) or 6" (fits 6"-6.87"Dia.))

Item #	1-9	10+
PLS758 • Yellow • Fits Bollards up to 52"H	\$53	\$50
PLS1261 • Yellow with Reflective Tape Fits Bollards Diameters 6" - 6.75" and up to 52"H	\$62	\$59

PLS195 available in:

Blue Light granite Red Yellow

How to measure your bollard for a cover:

1. Measure exact bollard circumference with flat tape and divide by 3.14 for outside diameter.
2. Find the most suitable bollard diameter range in the product information box.

NOTE: When purchasing multiple covers, measure each bollard to ensure that you are ordering the correct sizes.

Armadillo Tape — Built for years of use on your floor.

- Thick, poly-backed vinyl tape with scrim and mesh webbing provides **years of useful life in industrial settings**
- Weatherproof adhesive **backing keeps tape flat indoors or out**; leaves no residue when removed
- **Helps you meet OSHA regs** and prevent injury

Armadillo Marking Tape			
(Specify Color: ■ Blue ■ Green ■ Red ■ White ■ Yellow)			
Item #	1-2	3+	
PLS1990 • 3"W x 108'L	\$219	\$208	

BEST SELLER!

"Heavy-duty mesh backing allows me to use my forklift without worry of damaging the tape. High visibility and antislip surface give me peace of mind. It provides a safer environment for employees to work in."

— Scott V., PLS1990 Customer

Foil-Backed Traction Tape — Conforms to curved, textured or uneven surfaces.

- Tough, **conformable foil backing** won't stretch, crack, tear or lift on corners or uneven surfaces
- Waterproof and **resistant to oil and chemicals**
- Indoors or out, **powerful adhesive** sticks to most clean, dry surfaces

Foil-Backed Traction Tape			
(Specify Color: ■ Red/White ■ Yellow/Black)			
Item #	1-4	5+	
PLS1482 • 6"W x 60'L	\$209	\$200	
PLS1481 • 4"W x 60'L	\$145	\$139	

Available in six ANSI-standard colors for quick recognition.

Solid Color Marking Tape — Mark an area with safety tape in ANSI-standard colors.

- Durable 6-mil vinyl is colored, not printed, so **color won't fade**
- **Rubber adhesive backing** secures tape to most clean, dry surfaces
- Semipermanent tape is **easy to apply, remove or reposition**
- **Resists regular cleaning** and traffic from feet and vehicles; can also be used for pipe marking
- Available in **ANSI-standard colors**
- **Helps you meet OSHA regs** and prevent injury

Solid Color Marking Tape			
(Specify Color: Black, Blue, Green, Red, White or Yellow)

OVER 100 ONLINE COURSES!

TRN100
PIG Spill Response Tactics Training

TRN101 – PIG Response Tactics for Hydraulic Spills on Soil

TRN184 – PIG Spill Prevention, Control and Countermeasures Training

TRN186 – PIG Flammable and Combustible Liquids Training

Training — Boring doesn't work. **PIG Training** is packed with tactics for safety and compliance.

We've all seen trainings where you sit down, zone out, take a quiz and leave. Workers barely remember what the training was about 15 minutes later, let alone when they need it to do their jobs.

That's why we developed PIG Training around the principles of attention, retention and action. In addition to original, cutting-edge content, PIG Training employs creative storyboarding, state-of-the-art 3D animation, and a little bit of humor to keep it interesting.

- Original content written and designed to **keep workers awake and engaged** for high retention and on-the-job action
- Runtime is broken into short modules for fast-paced training that's **informative, educational and entertaining**
- **State-of-the-art 3D animation** shows real-world tactics that apply to everyday workplace applications
- Automatically adapts to **play on any computer**, projector, tablet or smartphone regardless of your connection speed
- Quizzes keep end users engaged as they work toward their **named certificate of completion** (online trainings only, one certificate per user license)

"When our roof starts leaking, it needs to be controlled ASAP to avoid damaging product. This thing **does the trick** without causing production delays!"

— Tony, PIG Roof Leak Diverter Customer

MAINTENANCE

Be prepared for Mother Nature and Murphy's Law with facility-savers from PIG.

Don't wait for something bad to happen around your facility before you stock the right products to deal with it. Because if something *can* go wrong, it usually does, and PIG can help you get through it unscathed.

Floor-to-ceiling fixer-uppers

Overhead leak after the big storm? Grab a PIG Leak Diverter. Forklift driver puncture a drum? Patch it with PIG Drum Repair Kits. Burst Pipe? PIG Pipe Wrap to the rescue!

You'll also find dozens of powerful PIG solutions in this section like our Drain Inserts for stormwater, Compactors and Crushers for waste minimization, and PIG Restroom Mats with Grippy® backing to keep law and order on your restroom floor.

Leak Diverters	256–265

◆ HELPS YOU COMPLY

Stormwater BMP's don't have to be complicated or cost a fortune — see our drain filters on pages 275–277.

◆ Stormwater Discharges

40 CFR 122.26

When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

“REAL SOLUTIONS YOU CAN RELY ON.”

PIG has the best fixes for leaky roofs, ruptured drums, oily water issues and waste minimization.

Matt Riley — Product Development

PROTECT AGAINST LEAK LOSSES

ROOF LEAK DAMAGE!

Why buy a PIG Leak Diverter?

- **Roof and pipe leaks can be catastrophic** and result in ruined inventory, lost production time and possible injuries.
- **Be prepared!** Avert disaster by keeping PIG Leak Diverters on hand before you need them.
- **Get the best!** Only PIG Leak Diverters deliver the top quality and wide selection that can keep you covered in any situation.
- **Keep your employees safe.** PIG Diverters help you comply with OSHA regs stating that your floors must be kept dry and safe.

Here's how it works...

**BEST

CRISIS AVERTED.

"We keep a supply of leak diverters on hand to cover leaks over product and machinery."

— Dyanna, PIG Leak Diverter Customer

How to choose the right Leak Diverter:

1. **Survey the spots where you're most likely to have a leak:** roof, ceiling, pipes, HVAC, etc.
2. **Choose the diverter size** that matches the leak area. Custom sizes are also available (call 1-800-HOT-HOGS®).
3. **Decide on the color:** clear and translucent diverters are easily inspected; hi-viz yellow sends a clear safety message; gray blends in with surroundings.
4. **Choose hanging straps and hose.** Leak Diverter Kits come with preattached straps and a quick-connect hose, otherwise be sure to choose your accessories on page 259.
5. **Consider whether you want to divert the leak into a drain** or use a container to collect the liquid (see Tote-N-Stor Tanks on page 259).

TLS462
Square Leak Diverter

Leak Diverters — Help protect your people, equipment and inventory from a roof leak.

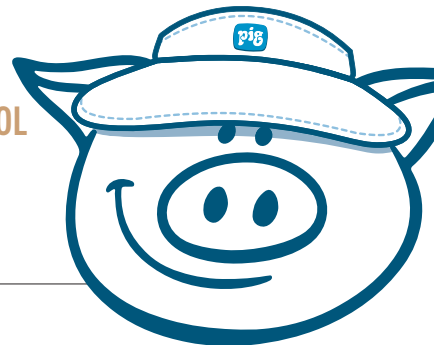

PIG Leak Diverters hang easily in problem spots to catch roof leaks and channel them to a floor drain or container.

- **Ideal for quick response** to avoid downtime after a roof leak or for long-term prevention in leak-prone areas
- Protect employees, equipment and inventory while **keeping floors dry**
- Impermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Pinched corners **help funnel liquid** toward center for better drainage
- Accepts a **standard 3/4" hose connection** to channel liquid (hose sold separately)
- Flow rate of **3 1/2 gallons per minute** when used with a 1/2" ID hose
- **Corner grommets** (or D-rings in larger models) resist tearing and make installation easy

*"I used the 5'x10' leak diverter to contain a roof leak (100 gallons a day with a moderate rainfall). I used the four corners, did not need to make any adjustments, and fully contained the leak.
Very effective design!"*

— John L., TLS553 Customer

SEE OUR QUICK CONTROL
LEAK DIVERTERS
ON PAGES 261–262.

Our leak diverters come in different shapes and styles to fit your needs.

STEP 1: Choose your Leak Diverter size and style.

Rectangular leak diverter is ideal for catching leaks and drips from long cracks or fissures.

The 16"-wide trough-style diverter fits perfectly between ceiling joists, and the edges feature rods along the length for added stability.

The flexible hose channels the leak to a floor drain or collection container.

EXCLUSIVE!

Hang the diverter from a single point near the leak.

IT'S IN THE BAG! NO NEED TO BUY A HOSE OR STRAPS FOR THE DIVERTERS SHOWN HERE.

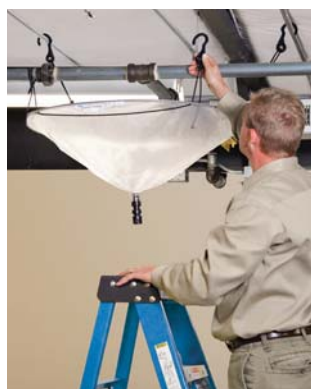

PIG® Spring-Open Leak Diverter Kit — Hangs and levels easily to capture and divert overhead leaks.

STEP 1: Hang it in places where you need fast response.

STEP 2: A rigid outer rim opens like a pop-up tent and holds the diverter open for easy installation.

STEP 3: Hang diverter by the hooks and slide it along the straps to level.

STEP 4: Click drainage hose into place and position toward a drain or collection container.

- Goes from storage bag to fully functioning leak diverter in **less than two minutes**
- **Coiled diverter springs open** for easy installation
- Straps, hooks and clamps can be adjusted in seconds; just **nudge diverter until it's centered and leveled**, even if hanging points are uneven
- **Rigid outer rim adds structure** so diverter keeps its shape and is easier to level
- All diverter **components are preattached for speedy setup**; flexible 25'L PVC drainage hose (included) clicks into place with preinstalled quick-connect adapter
- **Conical shape** funnels leaks toward center and to a floor drain or collection container; translucent for easy monitoring
- **Nonpermeable tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Pipe Leak Diverter — Don't rig another gizmo to catch a leak. Our diverter works!

- Hangs from a leaking pipe to **catch nuisance leaks** and channel them to a floor drain or collection container
- Nonpermeable tarp is vinyl coated; **resists punctures, UV and mildew** for long life
- Hose coupling accepts **drainage hose** (sold separately on page 259)
- **Flow rate of 3.33 gpm** when used with a 1/2" ID hose
- **Choose** yellow for high visibility; gray to blend with ceilings; clear to monitor leaks
- **TLS691, TLS248 and TLS200** have built-in grommets and rubber straps for easy hanging from a pipe
- **TLS190 is low-profile** for a leak in a tight spot; has built-in grommets. Straps sold separately on page 259
- **TLS147** wraps around pipes spraying liquids; hangs with hook-and-loop fasteners

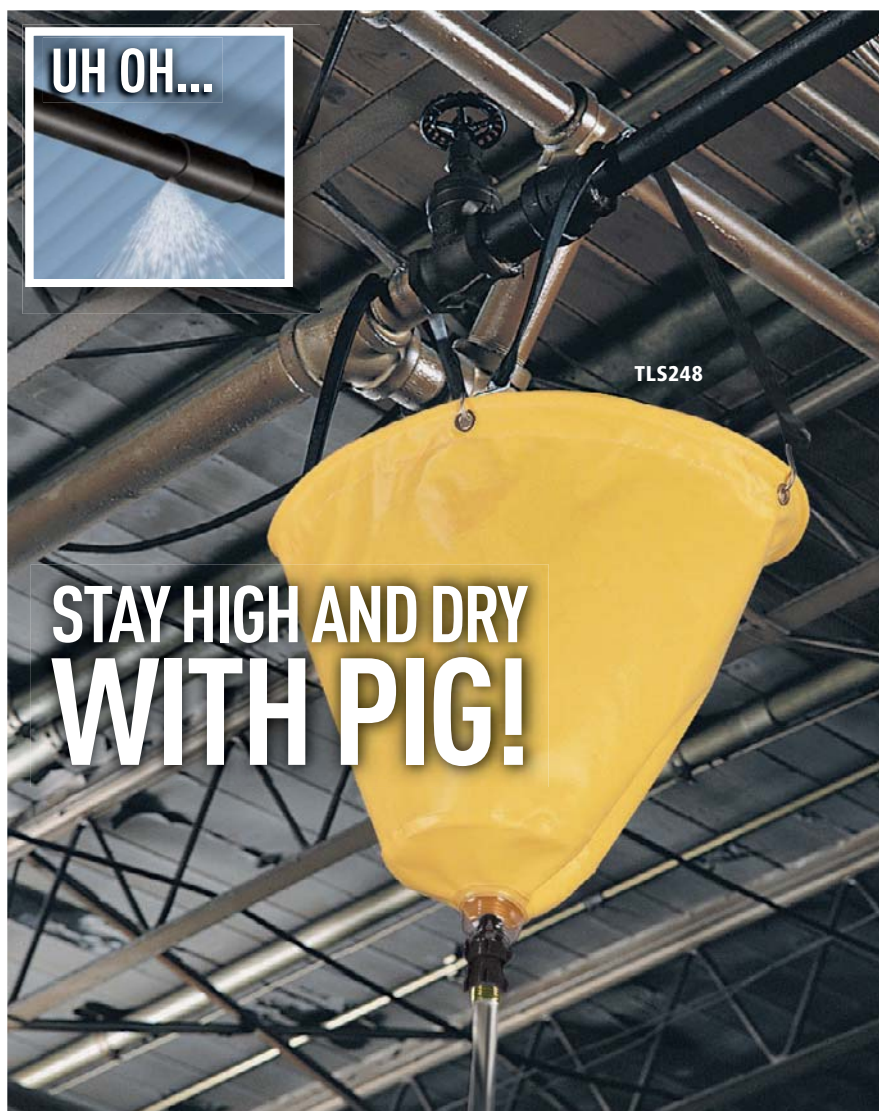

Tight spot? TLS190 is low-profile for leaks where full-size diverters won't fit.

Operation's a snap — just attach clear hose (sold separately on page 259) for proper drainage.

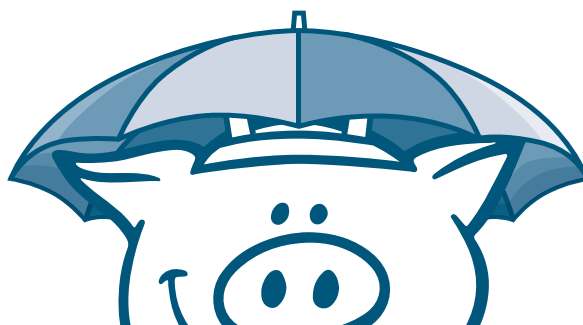

Standard funnel design (at right) is made for single point leaks. TLS147 (left) wraps to catch spraying leaks.

"Our field guys love the drain bags. They usually find a home in their trucks! Easy setup and take-down, always easy to order and delivery is good. I'd recommend to all who repair pipe leaks or backflows."

TLS100 • Heavyweight • 15.5"W x 20"L • 25 pads/box Absorbs up to 4 gal./box	\$54	\$52

Easy-to-install vinyl covers snap right over existing metal ceiling grid.

GEN635

GridMAX Covers — Don't paint or replace ceiling grids, use snap-on covers instead!

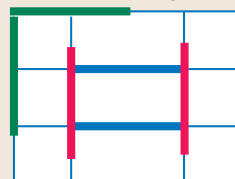

- Precut, pre-notched and **ready to install right out of the box**
- **High-grade, white vinyl construction** resists rust, scratches and UV
- **Eliminate costly downtime** from demolition and replacement
- Works on any **2' x 2' or 2' x 4' ceiling grid system** with $\frac{15}{16}$ " grid face
- **ASTM E-84 Class A fire rated**
- **For custom colors**, call 1-800-HOT-HOGS® (468-4647)

GridMAX™ Ceiling Grid Covers		
Item #	1-4	5+
GEN635 • Main • 0.9375"W x 0.13"D x 48"L • 25/bag	\$96	\$92
GEN638 • Wall Molding • 0.9375"W x 0.13"D x 48"L • 25/bag	\$93	\$88
GEN637 • Tee • 0.9375"W x 0.13"D x 47"L • 25/bag	\$93	\$88
GEN636 • Tee • 0.9375"W x 0.13"D x 23"L • 25/bag	\$51	\$48

HOW TO ORDER GRIDMAX COVERS

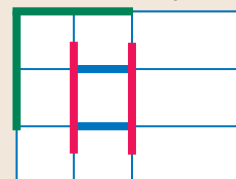

Measure perimeter to calculate the number of wall moldings needed. Measure total square footage to calculate the number of mains and tees needed. See formulas below.

Rooms with 2' x 4' Tile and Grid System

4' Wall Molding Covers: Perimeter ÷ 4
4' Main Covers: Square Footage ÷ 16
4' Tee Covers: Square Footage ÷ 8

Rooms with 2' x 2' Tile and Grid System

4' Wall Molding Covers: Perim. ÷ 4
4' Main Covers: Square Footage ÷ 8
2' Tee Covers: Square Footage ÷ 4

Round all calculations up to the nearest whole number.

PIG PUTTY, PATCH & REPAIR

PTY123
PIG Pipe Wrap Repair
Kit for Lines & Joints
Under Pressure
 (See page 270)

Burst pipes. Breached drums. Ruptured tanks. Be prepared!

When we say "Be prepared for fast response," we're usually talking about PIG Spill Kits. But some leak and spill situations aren't as simple as cleaning up the liquids that hit the floor. Depending on what's gushing from where, your first response could be to stop it at the source.

PIG to the rescue!

That's why we offer a variety of high-quality, plant-proven putties, wraps and patches. The products shown in this section are designed for fast fixes and lasting results. Putties that set in minutes. Pipe wraps that restore pipes beyond their original strength. Pastes, patches and plugs that stop leaks instantly. We know these solutions work, because we use them in our own facilities when something springs a leak.

So don't underestimate the power of preparedness. Having the right supplies on-hand in the event of a spill emergency can make a big difference in the damage report.

Products to help you patch and repair:

PIG Epoxy Putties	268–269
PIG Drum Patch & Repair Kits	269
PIG Pipe Wrap & Repair Kits	270–271
PIG Plug-N-Seal Paste	271
Floor Patch & Resurfacing	271–272

PTY125

Pipe Wrap Repair Kits — Make broken pipes like new.

- Each kit contains materials for restoring **one pipe or joint**
- **Works on** PVC, copper, galvanized steel, rubber, lead and iron; repair is **not affected by salt water**
- Materials adhere to wet or dry surfaces; **no need to drain pipes**
- Polyurethane-impregnated fiberglass wrap **exceeds original bursting pressure** rating of pipes
- Cures in about **30 minutes at 75°F**
- **NSF Certified** for safe use on potable water lines
- Repair kits for **pipes and joints under pressure** can be used without relieving line pressure (up to 60 psi); pressure-sensitive tape and PIG Repair Putty apply under outer wrap to strengthen seal
- Repair kits for **pipes and joints not under pressure** require you to relieve line pressure before beginning repairs; butyl patch or PIG Repair Putty applies under outer wrap to strengthen seal

PTY119

1. Apply primary patch layer.

2. Soak outer wrap to activate it.

3. Apply outer wrap.

4. Finish off repair and let it cure.

PIG™ Pipe Wrap Repair Kit for Pipes & Joints Not Under Pressure

Item #	1-3	4+
PTY122 • For 6.5" to 10" Dia. Non-Pressurized Pipes & Joints • 1/box	\$279	\$268
PTY121 • For 4.5" to 6" Dia. Non-Pressurized Pipes & Joints • 1/box	\$150	\$144
PTY120 • For 2.5" to 4" Dia. Non-Pressurized Pipes & Joints • 3/box	\$260	\$244
PTY119 • For up to 2" Dia. Non-Pressurized Pipes & Joints • 3/box	\$175	\$165

Contents • Putty Sticks • Butyl Patch • Nitrile Gloves • Polyurethane-impregnated Fiberglass Wrap

PIG™ Pipe Wrap Repair Kit for Pipes & Joints Under Pressure

Item #	1-3	4+
PTY126 • For 6.5" to 10" Dia. Pressurized Pipes & Joints • 1/box	\$382	\$361
PTY125 • For 4.5" to 6" Dia. Pressurized Pipes & Joints • 1/box	\$217	\$207
PTY124 • For 2.5" to 4" Dia. Pressurized Pipes & Joints • 3/box	\$346	\$330
PTY123 • For up to 2" Dia. Pressurized Pipes & Joints • 3/box	\$266	\$252

Contents • Putty Sticks • Pressure-sensitive Tape • Nitrile Gloves • Polyurethane-impregnated Fiberglass Wrap

*"We've used PIG Pipe Wrap to repair leaks during inclement weather on pipe that transports abrasive material under pressure. The pipe wrap **held up extremely well, often outlasting the original steel pipe.**"*

— Jeff E., PTY124 Customer

PIG Wrap 'N Cure — Quickly and permanently encase deteriorating pipe insulation.

- Minimizes exposure to asbestos or other hazards
- Water-resistant construction **withstands temperatures up to 900°F**
- Premeasured wrap of gypsum, cotton and resin is activated by water and requires no mixing (hardens in 10 minutes)

Wrap 'N Cure® PIG	
Item #	1+
PTY109 • 6"W x 9'L • 80 rolls/box	\$502
PTY108 • 4"W x 9'L • 120 rolls/box	\$502

PIG Plug-N-Seal Paste — Stop leaks now so you can fix them later, even when it's freezing!

- Excellent chemical resistance makes it **ideal for flammable or hazardous leaks**
- **Stops leaks** from 2 minutes up to 2 hours until the system can be drained or the source moved into a containment area
- **Ready to use** without mixing
- **PTY223** is specially formulated for **storage and use in cold temperatures** that would freeze standard patching pastes

"Good for temporary patching projects. We carry it on all our trucks for emergency repairs offsite to keep a small spill from turning into a major one."

— Jessica K., PTY223 Customer

Freezer Floor Patch — Sets in 2 hours, even in freezers.

- Ideal for use in **walk-in freezers and coolers**
- **Withstands heavy traffic** without cracking
- **USDA Approved** for use in food areas
- Sets in 2 hours, **even in sub-zero conditions**, for repairs without shutting off refrigeration

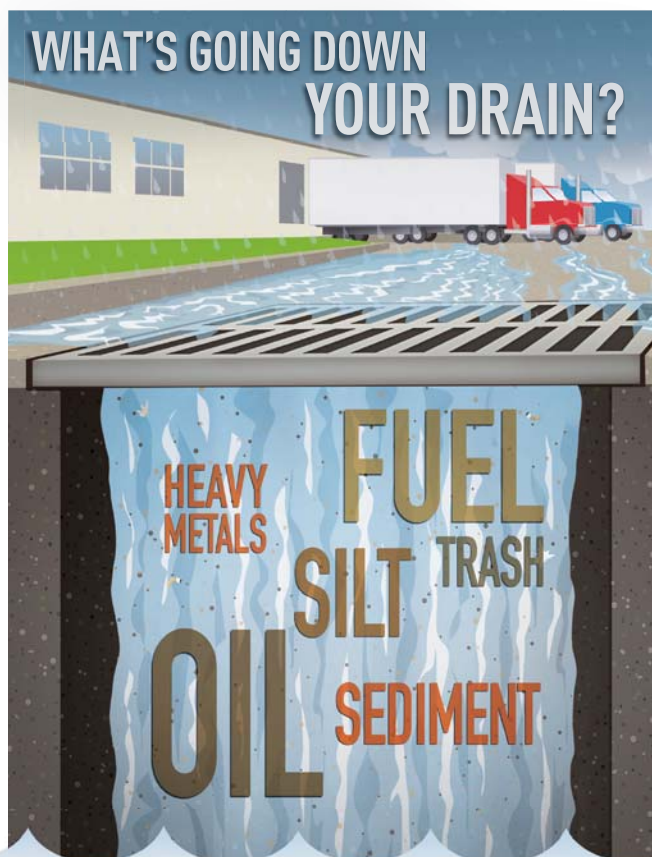

ARCTIC-CRETE Freezer Floor Patch

Item #	1+
PTY310 • 15 sq. ft. Coverage Area at .125" D 2-gal. Pail	\$179 *

* ⚠ **WARNING:** Cancer - www.P65Warnings.ca.gov

STORMWATER & FILTRATION

Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can result in fines of up to \$100,000 per day and/or six years in jail. But aside from the fines, protecting the environment is just the right thing to do.

We know NPDES, SWPPP, SWMP and BMPs

If you're in a group that must comply (call us if you're not sure!), you need to obtain National Pollutant Discharge Elimination System (NPDES) permit coverage by filing a Stormwater Pollution Prevention Plan (SWPPP) or Stormwater Management Plan (SWMP). Plan requirements may include implementing Best Management Practices (BMPs), which is where PIG products come in handy.

New Pig can help!

Stormwater BMPs don't have to be complicated or cost a fortune. The products in this section are designed to help you protect the environment and comply with regs. So whatever's going down your drains, we can help you keep it out.

Products to help you meet Stormwater Regs:

FilterSocks	274
PIG Drain Inserts	275
PIG Sediment Drain Filter	276
Curb Drain Filters	277
PipeSock and DeWatering Bags	279
PIG Oily Water Filters	280

Need to totally block a drain? Reach for a PIG DrainBlocker.

The products listed above are perfect for filtering pollutants from water that enters your drains. But what if you don't want *anything* getting in? You can seal drains tight in seconds with PIG DrainBlocker Drain Covers — nothing gets past 'em!

Learn more on pages 166–172.

PIG DrainBlocker Drain Cover

All aboard the treatment train! Combine multiple products to remove more pollutants from runoff.

NEW!

**TURN THE PAGE TO SEE OUR
ALL NEW STORMWATER FILTRATION SOLUTIONS!**

Heavy Metal Filter Socks (FLT822–FLT823) remove oil and sediment plus zinc, cadmium, lead and other dissolved metals.

NEW!

FLT822

FLT823

Filter Socks also available for oil and sediment only (FLT820–FLT821).

FOR DRAINS AND SOURCE POLLUTANT REMOVAL

Ideal for use around drains, dumpsters, oil containment areas, downspouts, stock piles, property perimeters, culvert pipes, washdowns and more. Create source-to-drain protection anywhere you need it!

Trench drains

Curb drains

Dumpsters

Roof drains

Stormwater Filter Sock — Keep your runoff free from pollutants.

- Filter sock **allows water to pass through** as it removes oil, sediment, trash, debris and other pollutants from your stormwater runoff
- **Heavy Metal Sock** (FLT822, FLT823) removes all of the above plus zinc, cadmium, chromium, lead and other dissolved metals
- **Patent-pending dual-chamber design:** first chamber's filler pulls in hydrocarbons; second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals
- **Weighted sock** eliminates the labor and expense of staking or trenching
- Durable geotextile skin **removes total suspended solids (TSS)** over 297 microns (50 mesh) and maintains an impressive flow rate of 2 gpm per foot
- **Flexible design** follows the contours of uneven ground for maximum surface contact; can be shaped, even at right angles, to create fully contained spaces
- **Heavy-duty handles** make socks easy to carry, install, reposition and replace
- Can use multiple socks to build a **treatment train** for source-to-drain protection
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Stormwater Filter Sock

Item #	Filtration	Product Size	Abs. Up To.	1-5	6+

Patent Pending

GUARANTEED NOT TO FALL IN.

NEW!

FLT007

Hi-viz straps show from a distance that you're proactively managing stormwater.

PIG Storm Drain Filter — Adjustable frame and 4-stage filtration guard your drains against oily runoff.

- Stainless steel adjustable frame **holds up to 60 lbs.** of oil, sediment, debris and trash; stays in place even when grate is not installed
- Easy, **one-person job** to install, maintain or remove; just pull on ends of frame and expand filter to match your drain size
- **Four-stage filtration:** Stormwater flows through drain grate onto fabric shelf (Stage 1), passes over filter ring (Stage 2) into collection bag (Stage 3) and over four sets of filter strips (Stage 4)
- All-polypropylene construction **removes contaminants** at multiple stages, increasing the amount of pollutants captured
- **Filter ring** (patent-pending) channels water to center of collection bag to prevent untreated water from escaping through overflow ports
- **Filter strips** float freely to remove hydrocarbons from moving water

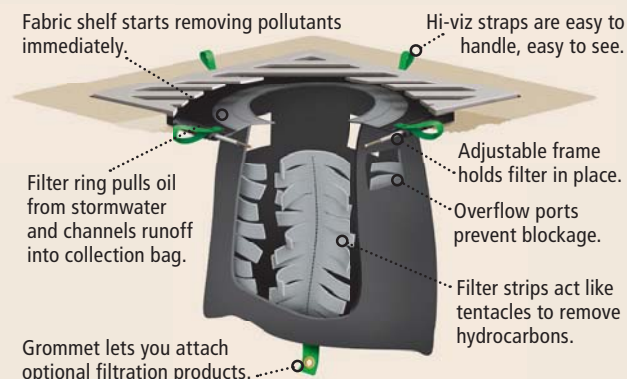

◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG™ Storm Drain Filter

A look inside our Storm Drain Filter:

PIG EXPERT ADVICE

Read about how to handle stormwater pollution: newpig.com/stormwaterpollutionprevention

Integrated straps make positioning the Drain Filter in place an easy task — no need for rebar.

Reusable Drain Filter makes disposing of collected sediment easy during periodic maintenance.

Sediment Drain Filter — Collect debris and dirt to comply with regulations and protect drains.

- **Ideal for use in the construction industry** and anywhere sediment collection is a concern
- **Constructed of a monofilament polypropylene** that captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts
- **Hi-viz integrated straps secure the bag** in place under the drain grate without the use of rebar and cradle the grate for added support and security during installation and removal
- Can handle large capacity but is manageable during maintenance; **no equipment or forklift needed for removal**
- **Filters with overflow ports** (FLT746, FLT748) allow excess water to release into drain during heavy flow or if filter is blocked; also provides an opening to collect samples of filtered stormwater
- **UV resistant**, durable and reusable
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

FLT746

**EXPERT
ADVICE**

Get tips to prevent waterway pollution and meet stormwater regs during construction: newpig.com/construction-stormwater

Slide tension rod through material to secure drain insert inside curb inlet.

PIG Curb Style Drain Insert — Capture oil, debris and sediment swept into your drains.

- Sewn-in debris diverter **blocks runoff at curb opening** and directs it into grate
- **Polypropylene skirting fits inside catch basin** under grate to further block debris from drain
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG™ Curb Style Drain Insert Plus

Item #	1-3	4+
FLT214 • Filters Oil & Sediment • For Combination Style Drains w/ Grates up to 40" x 40" & Curb Opening from 24" to 42" • 48"W x 47"L	\$149	\$143

* **WARNING:** Reproductive Harm - www.P65Warnings.ca.gov

Renewable coconut fiber material secures to top of drain using cable ties and pads (included). Use with PIG Filter Socks (sold on page 274) to create a treatment train.

Over-the-Drain Debris Filter — Economical, eco-friendly coconut fiber helps keep drains clean.

- Acts as a short-term **Best Management Practice** for sediment issues like construction-phase stormwater sediment removal
- **Built to withstand UV**, weather and light vehicle traffic
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Over-the-Drain Debris Filter

Item #	1-3	4+
FLT699 • Filters Debris & Sediment For Storm Drains up to 29" x 27" 30"W x 27"L • 10 pads/box	\$201	\$192
FLT700 • Filters Debris & Sediment For Storm Drains up to 26" W 27"W x 21"L • 1 roll/box	\$167	\$163

PIG Round Drain Insert — Outfit your round drains with this insert to control oily runoff and avoid fines.

- **Capture trash, sediment, silt and hydrocarbons** to keep storm drains from clogging and overflowing
- Below-grate design **fits round drains** and stays intact in areas with high vehicle traffic
- **Excess fabric around grate** can be trimmed for appearance or left in place for grip during changeouts
- **Excess flow ports** help avoid blockage during high water flow
- **Deep accumulation pocket collects contaminants** while allowing stormwater to flow through
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG™ Round Drain Insert

Item #	Storm Drain Size	Product Size	Abs. Up To	1-3	4+
FLT615	Up to 54" Dia. Round	60"W x 60"L	2.06 gal.	\$121	\$110
FLT116	Up to 30" Dia. Round	48"W x 36"L	1.38 gal.	\$105	\$98

FLT559 • For Curb Opening up to 6' Ext. Dia. 9" x 8'L	\$151	\$135

PIG Outdoor Deck — Rugged decks with removable grates capture oil while rainwater drains out.

- **Low-profile**, fits under transformers, outdoor equipment, vehicles, greasy dumpsters or piping
 - **Rugged, UV-resistant construction** is made for long-term use outdoors
 - **Spaghetti-strip filter media** absorbs oil, but allows water to flow through deck
 - **Bolt decks together** (shown at left) to hold large items like grease dumpsters
- ◆ **Helps you comply** with 40 CFR 122.26

Just lift off the grates
to easily replace the
absorbent media.

"We use these drip pans with our grease dumpsters as a pouring platform. **Our clients love them** because they are stable, look clean and allow water to pass through while trapping the grease."

— **Matthew D., FLT510 Customer**

PIG® Outdoor Deck

Item #	1+
FLT512 • 52"W x 52"L x 5.75"H • Absorbs up to 10 gal.	\$465
FLT511 • 26"W x 52"L x 5.75"H • Absorbs up to 5 gal.	\$315
FLT510 • 26"W x 26"L x 5.75"H • Absorbs up to 2 gal.	\$209

Media for PIG® Outdoor Deck

FLT513 • Ext. Dia. 4" x 12"L • Absorbs up to 5 gal./box • 20 socks/box	\$99	\$85

FLT562

DeWatering Bag — High-surface-area design removes oil and sediment from higher-volume pumping outflows of water.

- Attach to hose or pipe to **remove hydrocarbons** and sediment
 - Nonwoven polypropylene **construction resists chemicals**, and fill **bag can hold approximately 4,320 lbs.**
 - Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

DeWatering Bag

Item #	1-5	6+
FLT617 • 15"W x 15"L • Holds 225 cu. ft.	\$233	\$223
FLT563 • 10"W x 15"L • Holds 150 cu. ft.	\$159	\$151
FLT562 • 6"W x 6'L • Holds 18 cu. ft.	\$59	\$54

PipeSock — Attach to a hose or pipe to control and contain oil and sediment during lower-volume dewatering.

FLT564

- **Remove hydrocarbons and sediment** from water by simply attaching PipeSock to a hose or pipe
 - **X-Text recycled fibers** provide high efficiency and excellent flow
 - Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PipeSock

Item #	1-5	6+
FLT565 • For 12" Dia. Pipes Ext. Dia. 12" x 5'L • Holds 3.9 cu. ft.	\$116	\$110
FLT564 • For 8" Dia. Pipes Ext. Dia. 8" x 5'L • Holds 1.7 cu. ft.	\$84	\$77

PIG® Pour-Through Oily Water Filter — Separate oils from water.

- Just pour liquid into the filter and **filtered water flows out of drain**
- 55-gallon drum filter handles **up to 8 gallons of liquid per minute**
- **Outflow pipe allows hose connection** for easy draining of filtered water
- **Replaceable absorbent media** is easy to change when saturated
- **Optional carbon pillows** (FLT612) work in conjunction with included oil-only pillows to remove trace amounts of hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Pour-Through Oily Water Filter

Item #	1+
FLT521 • Absorbs up to 33 gal. • Ext. Dia. 24" x 39"H	\$355
FLT525 • Refill for PIG® Pour-Through Oily Water Filter • 6 each	\$204
FLT525 Contents • 6 Pillows • 1 Polyethylene Diffuser Funnel	

Carbon Pillow for PIG® Pour-Through Oily Water Filter

Item #	1-4	5+
FLT612 • 3 Pillows/box	\$315	\$299

NOTE: Test effluent regularly to ensure it meets local, state and federal discharge requirements and to determine when to replace the pillows.

PIG® Outdoor Oily Water Filter Bucket — Just connect to a leak diverter for help with regs.

FLT730

FLT1153

- **Absorbent-filled bucket** captures hydrocarbons from collected liquid, but water passes right through
- **Alternating layers** of Oil-Only Mat Pads and Oil-Only Pillows offer high oil retention for fewer changeouts
- Top hose fitting accepts $\frac{3}{4}$ " drainage hose **from a PIG Leak Diverter**
- **Container and absorbents are UV resistant** for long-term use
- $\frac{3}{4}$ " **connection on bottom** accepts a self bailer, drain plug (included), drainage hose (included) or use as a free-flowing drain
- **20-gallon container (FLT730)** holds oil-absorbent media to remove up to 5 gallons of oil, grease and hydrocarbons
- **Weatherproof containers (FLT1153)** hold oil-absorbent media to remove up to 1 gallon of oil, grease and hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Outdoor Oily Water Filter Bucket

Item #	1+

FLT731 Contents • 4 Mat Pads • 3 Pillows	
FLT1153 • Absorbs up to 1 gal. • 12"L x 10"W x 10"H	\$117
FLT1153 Contents • 1 Bucket w/Lid & Fittings • 3 Mat Pads • 2 Pillows • 1 5'L Hose • 1 Plug	

Patent Pending

RECYCLING & WASTE MINIMIZATION

Zero in on zero waste — help the environment, help yourself.

According to the EPA in the Resource Conservation and Recovery Act (RCRA), waste minimization is “the reduction of hazardous waste that is generated or subsequently treated, stored or disposed,” and includes both source reduction and recycling. Here’s what you can do:

- **Perform a waste audit** — find out what types and how much waste you are producing and identify processes that are producing unnecessary wastes
- **Improve housekeeping** — this inexpensive but effective method includes proper labeling, storage, disposal and segregation of wastes
- **Reclaim, recycle and reuse wastes** — many wastes can be recycled within a process, used as fuel or sold as scrap

PIG Waste Compactors can help you reduce the volume of your waste, and products like our PIG Aerosol Can Recycler can save you money by avoiding the expenses of haz waste handling. Check out the graphic below for more ways that PIG products can help!

Need help with RCRA requirements?

**EXPERT
ADVICE**

Learn how to manage waste streams as universal waste! Get our White Paper: newpig.com/recycle-universal-waste

PIG® Aerosol Can Recycler — Puncture and drain your aerosol cans to avoid the hassle and expense of haz waste handling.

- Recycling system easily punctures aerosol cans, rendering them **exempt from haz waste regulations** when properly emptied
- **Eliminates the risks** associated with illegal aerosol disposal and the expense of haz waste handling
- **Minimizes worker injuries** caused by fire, explosion or VOC release
- Properly emptied cans can be sold as scrap steel; reducing waste can **help you meet recycling goals**
- System works with **domed mini, standard and jumbo aerosol cans** (minimum 2" Dia x 5" H, maximum 3" Dia x 9.5" H with sleeve removed)
- **Unit mounts directly into 2" bung** on a 30- or 55-gallon closed-head steel drum; residual liquids drain directly into drum. (Drum should not be filled more than 70% full to provide proper displacement for released contents.)
- **Timestrip indicator** eliminates the guesswork of carbon cartridge changeouts (ideal operating temperature range 60–80°F)
- **Replacement gaskets** sold separately; choose standard neoprene (DRM1237) or upgrade to Viton (DRM1236) for extra chemical resistance
- **Replacement filters** also sold separately as combo (DRM1151) or carbon cartridge only (DRM1150); coalescing filter life is six months; carbon cartridge life is three months
- ◆ **Helps you comply** with 40 CFR 261.1(c)(6) that defines scrap metal

CURRENT STATE OF HAZARDOUS WASTE DISPOSAL

\$538

Cost of drum & drum disposal

234

Collected "empty" cans per drum

\$2.30

Per can disposal cost

- Hazardous Satellite Accumulation Required
- 90 or 180 Day Accumulation Limit
- Closed Container Storage Required
- Frequent Hazardous Waste Removal Required

PUNCTURE & RECYCLE HAZARDOUS WASTE DISPOSAL

\$240

Cost of drum & drum disposal

4,000

Collected "empty" cans per drum (processed liquid equivalent)

\$0.41*

Per can disposal cost

- Exceed Compliance
- Reduced Disposal Cost
- Reduced Handling Requirements
- Recycling Profits

Empty cans are now valuable scrap metal

*Includes initial cost of unit and replacement filters.

Punctured cans have no sharp, jagged edges.

Durable aluminum construction resists rust and corrosion.

Hardened steel pin cleanly punctures cans.

How-to instructions come attached to the unit.

"DRM1266 works very well. We used to pay a hazmat company to dispose of our aerosols — quite expensive. Since we got the Aerosol Recycler, we recycle the cans and recoup even more money. We've more than paid for the unit with these savings. **Very good investment.**"

— Chuck, DRM1266 Customer

pig Lamp Recycling Program — The safest mail-back kits you can buy to package, label, ship and recycle spent bulbs.

- **Includes everything you need** — collection and shipping containers, prepaid UPS shipping label to our recycling partner, specially reinforced packing tape and access to your recycling certificate upon completion
- Packaging meets **ISTA 3A Standard Shipping Performance Test** to ensure no hazardous chemicals, including mercury powder, or broken glass can escape during shipping; no other recycling program meets these standards
- **Tyvek and vapor-seal bonded bag** with self-adhesive seal contains bulbs, tubes and haz waste if breakage occurs during shipping
- Collection box holds the bag, featuring **multi-layered cardboard** and reinforced shipping tape
- Outer shipping box, also multi-layered cardboard, contains the sealed inner box and provides **strength during shipment** to the recycling center
- Program includes a downloadable **Certificate of Destruction** to prove your compliance with Hazardous Waste Regulations during EPA audits
- Performance-tested system helps **protect all key stakeholders** within the supply chain (generator, transporter and recycling company)
- **Helps you manage waste streams**, reduce waste costs and avoid costly fines associated with throwing out bulbs in regular trash
- **Minimizes the risk of breakage** or leakage of mercury powder and other hazardous chemicals that can occur in mail-back programs utilizing cheap polyethylene containment bags

DRM1401
For HID Lamps

DRM1400
For 4' Fluorescent Lamps

Recycling your fluorescent lamps *the right way* couldn't be easier!

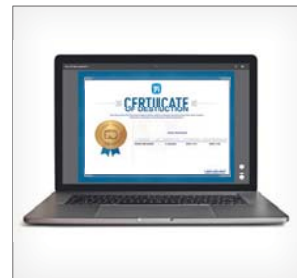

1. We send you the boxes, Tyvek collection bag, reinforced tape and prepaid shipping labels.

2. Collect your spent bulbs in our bag/box/box container system (Passes ISTA 3A Shipping Test)

3. Schedule your prepaid UPS shipment and send your bulbs off to our recycling partner.

4. Visit newpig.com/COD and download your Certificate of Destruction (allow 5–7 days)

You get all this in one easy purchase:

Tyvek and vapor-seal bonded bag

Prepaid UPS shipping box

Containment box

Reinforced shipping tape

Plus a downloadable **Certificate of Destruction** for proof of compliance with EPA regs.

Q: Do I have to recycle my lamps?

A: **Yes, you do!**

Many businesses aren't aware that it is illegal to throw fluorescent lamps into a garbage can or dumpster. Other companies are aware, but find it difficult to sort through complex environmental regulations to determine what they need to do.

All fluorescent lighting — even when it's marketed as a "green" product — contains mercury, which can leach into groundwater and cause neurological problems in children and adults. To help companies manage this hazardous waste stream, the EPA has established **Universal Waste Regulations** that streamline the requirements for fluorescent lighting that will be recycled.

Waste Compactor — Crush up to six drums of waste into one and save money.

**BEST
SELLER!**

- Choose from **electric, air-driven and air-driven spark-resistant models**
- Crushes waste with **12,000 lbs. of force**
- **Ideal for minimizing waste** such as absorbents, rags, plastic, paper and cardboard (not recommended for wood, metal or other hard materials)
- Residual liquids are forced through holes in ram top; **models with waste pump** remove liquids up to 5 gpm for recycling
- **Durable 5"-channel profile frame** prevents flexing and failure over time
- **No need to move** heavy drum for access
- **Reinforced base plate** keeps drum from bowing under pressure
- **Safety interlock** shuts off compactor if safety cover is opened during operation
- **Spark-resistant aluminum** (DRM656, DRM655) is ideal for flammables

DRM429

Pressure gauge tells you when valve stem can be removed.

Propane Tank Recycling System — Recycle cylinders and avoid haz waste disposal.

- **Pays for itself** with recycling of three standard propane cylinders
- Safely removes valve stem so **canister can recycle as scrap steel** rather than be disposed of as hazardous waste
- Inserts "Recyclable" steel certification tag into cylinder valve
- **Activated carbon filter** helps remove Volatile Organic Compounds (VOCs) from propellant
- Unit **can be handheld** or mounted on bench
- **Antistatic wire** grounds unit
- **One-piece replacement cartridge (DRM451)** threads directly into ProSolv unit without special tools
- **Replace filter after 40 uses** which can be tracked with the 40 certification tags included
- ◆ **Helps you comply** with 40 CFR 261.1(c) (6) that defines scrap metal

ProSolv® Propane Cylinder Recycling System

Item #	1-2	3+
DRM429	\$1320	\$1258
DRM429 Contents • 1 ProSolv® Unit • 1 Anti-Static Wire • 1 Carbon Filter • 1 Safety Goggles • 40 Certification Tags

Item #	1-9	10+
CLN549 • 1 - 8.45 oz. Squeeze Tube	\$20	\$18

Liquid Remediact — On land or water, turn oil into carbon dioxide and water.

- Solves hydrocarbon contamination problems onsite with **minimal labor and expense**
- Active mixture of **naturally occurring live microorganisms** and a bio surface agent oxidizes carbons to quickly tackle contamination problems
- **Microbes are in active preparation:** no special solutions and no special mixing
- 1 gallon of mixed product remediates up to **1 cubic yard of soil or 200 gal. of water**

CLN352

Liquid Remediact™ Cleaning Agent

Item #	1-2	3+
CLN352 • 1 - 5 gal. Container	\$457	\$436

VAC-U-MAX Vacuum — Make short work of cleaning up liquid spills.

- **Must be used with 55-gallon open-head steel drum** (without clamps) for cleaning spills in one step
- **Ideal for cleaning up spills** of water or machine oils, removing oil from sumps and other containment, and picking up metal chips and other small debris; use with PIG SpillBlocker Dikes for best results
- Includes **static-conductive PVC 1½" x 15'** hose, aluminum wand, floor tool and crevice tool
- Produces a maximum static lift of **215" H2O and 110 SCFM suction**
- **Input operating range** from 37–70 SCFM at 60 psig

VAC-U-MAX® Industrial Wet Vacuum

Item #	1+
TLS271 • Air: 35 SCFM at 60 PSI (Minimum)	\$2340

NOTE: Not for use with flammable or corrosive liquids and requires a minimum ½" airline for operation.

Shop-Vacs — Economical and great for your medium-duty cleanups.

- **Wet/dry vacs are great for lifting water** as well as dirt, debris and sawdust; **quiet, reliable operation**
- **6.5 hp motors** for even more powerful suction
- Tank latches securely to lid and **locks in vacuumed material**
- **Stable base** helps prevent tipping and spilling

Shop-Vac® Industrial Wet/Dry Vacuum

Item #	1+
TLS697 • Holds 22 gal. • 6.5 Hp	\$302
TLS662 • Holds 10 gal. • 6.5 Hp	\$364

Flammables Warning: Not suitable for flammable or corrosive liquids.

**CONTENT LISTINGS AND REPLACEMENT FILTERS
AVAILABLE AT NEWPIG.COM**

Flammable Oils Vacuum — Helps you safely lift fuels, flammable oils and compatible semisolids.

- Advanced safety features **help prevent ignition of fuels and flammable oils**, including a static-dissipative hose, anti-sparking inlet with flame arrestor, grounding lug and nonsparking vacuum tools
- Completely air-driven to **minimize risk of explosion**; auto shutoff
- **Single-jet venturi with variable orifice** produces maximum flow rate with minimum compressed air requirements
- **Recovers 1 gallon of liquid per second** and operates on a minimum of 35 SCFM at 60 psi
- ◆ **Helps you comply** with OSHA Noise Exposure requirements outlined in 29 CFR 1910.95

VAC-U-MAX® Fuels and Flammable Oils Vacuum

Item #	1+
TLS417 • Holds 55 gal. • Air: 35 SCFM at 60 PSI (Minimum)	\$5965
TLS417 Contents • 1 Vacuum • 1 Hose • 1 Two Bend Floor Wand • 1 Squeegee • 1 Crevice Tool • 1 Caster Assembly • 1 Static-conductive Hose • 1 Quick Disconnect Coupling	

NOTE: Requires a minimum ½" airline for operation.

MaxiRough Tool Organizer — Grips tools, but lets go easily.

- Wall-mountable unit **holds four tools**, from mops and brooms to shovels and squeegees
- Flexible rubber holders securely hold tools yet release easily; **brackets slide along track and can be positioned** to adjust space between tools
- **Durable, lightweight aluminum-and-plastic frame** won't rust or corrode
- Holder is **20¼" wide**
- Removable end caps let you **connect multiple units**

MaxiRough® Tool Organizer

Item #	1-4	5+
CLN552 • 20.25"W	\$42	\$40

Broom Head — Quality broom has chemical-resistant bristles.

- **All heads resist chemicals**, petroleum-based liquids and solvents for a long, reliable life
- **Stiff-fibered broom head** scrubs and sweeps on rough or smooth concrete
- **Handle (CLN279) locks into reinforced head** to prevent breaking or stripping (Handle sold separately)

PRO-SWEEP™ Broom		
Item #	1-11	12+
CLN278 • 24"W Broom Head	\$26	\$25
CLN279 • Handle Ext. Dia. 1.13" x 60"L	\$26	

Mop, Mopstick, Bucket and Wringer — Take the mess out of mopping.

- **Economical MaxiCotton Mop head (CLN550)** is cut-end 4-ply cotton yarn
- **Mopstick head and handle (CLN551)** work with the MaxiCotton Mop; plastic head and fiberglass handle won't rust or corrode
- **60"L** for extra reach and leverage, quick side-mop release
- **MaxiRough Mop Bucket and Wringer (CLN553)** has a 33 qt. bucket and sidepress wringer
- **4 swivel casters**, hook on wringer for mop and slot holds tools

Maintenance Mops

(Specify Size for CLN550: 16 oz., 24 oz. or 32 oz. • **Add \$1** for 24 oz. and **\$2** for 32 oz.)

Item #	1-11	12+
CLN550 • MaxiCotton™ Cut-End Mop Head • 7"W	\$9.50	\$8.50
CLN551 • Quick-Way™ Mopstick • 60"L	\$17	\$16

MaxiRough® Mop Bucket and Wringer

Item #	1-4	5+
CLN553 • Holds 8.25 gal.	\$112	\$108

Tool Stand — Store 24 tools in an 18" x 18" space.

- Accepts tools with long handles **up to 1 3/8" in diameter**
- Compact and **requires minimal floor space**
- Plastic construction is **unaffected by wet tools or humidity**
- **Assembles easily without tools**

Tool Storage Stand		
Item #	1-4	5+
TLS484 • For Tools up to 1.375" Dia.	\$51	\$49

Squeegee — Quickly move spills and standing liquids.

- Choose **conventional straight or liquid-containing curved blade**
- Tough, rubber squeegee **blades are durable and long-lasting**
- **60"L solid wood handle (CLN555)** has smooth finish
- Tapered end **attaches to squeegee head with friction fit**; easy release

Maintenance Squeegee

(Specify for CLN554: Curved or Straight Blade)

Item #	1-11	12+
CLN554 • MaxiRough® Floor Squeegee Curved 23.5"W • Straight 24"W	\$38	\$36
CLN555 • Handle for MaxiRough® Floor Squeegee • 60"L	\$10	\$9

Double-Blade Squeegee — Lasts 2X longer and it won't splash.

- **Chemical-resistant PVC blades** leave floors free of liquid and streaks
- **Two blades double the service life** because the head flips, and the unused blade acts as a splashguard

Double-Blade Squeegee

Item #	1+
CLN256 • Straight Head • 30"W	\$44
CLN255 • Straight Head • 24"W	\$37
CLN254 • Straight Head • 18"W	\$35
CLN253 • Handle • 1.5"W x 60"L	\$32

GRP7004

Full coverage adhesive backing holds tight with no shifting.

Restroom Mats with Grippy® Backing — No-shift mats fight odor and stains.

Adhesive-backed mats keep your floors cleaner, drier and safer for a more professional restroom environment.

- Full product line to **protect your entire restroom**: antimicrobial urinal mats, toilet mats, sink/dryer mats and more
- **Proprietary adhesive formulation** applied across entire backing of mats ensures they stay in place with no shifting, curling or flipping up
- Sticks to your floor to **stop slip and trip hazards** and eliminate time spent repositioning mats that have shifted; mats peel up easily when you need to remove them
- Permanently infused with **antimicrobial technology** to help prevent the growth of odor-causing bacteria and mold on the mats
- **Absorbent top surface** is engineered to pull in urine and water on contact, wick it away and dry out quickly
- Two impermeable backing layers ensure **zero liquid pass-through**, protecting your flooring and grout against degradation and discoloration from uric acid

Tested and certified by the National Floor Safety Institute (NFSI) to reduce slip and fall claims by as much as 90% when used as part of a Floor Safety Program.

GRP7002

Durable, low-profile mats can be mopped or scrubbed without shifting or sliding, allowing you to extend product life.

Urinal Mat

- **GRP7001, GRP7601** — catches drips and splashes in standard applications
- **GRP7002, GRP7602** — is extra-large for extended coverage, place with one end abutting your wall for **easy alignment**

Urinal Mat Runners

- Industry-first design lets you **roll out and cut to length** the perfect size runner for continuous drip/splash coverage
- 25-foot roll provides enough **coverage for up to 10 urinals**; also ideal for rows of sinks or wherever custom sizes are needed

Toilet Mat

- Mat design fits around the base of your toilet to absorb urine and provide maximum **drip/splash coverage**

Plunger Mat

- **Controls drips and eliminates puddles** under toilet plungers and brushes, soap dispensers and other small-footprint areas

Sink & Dryer Mat

- Provides effective **drip/splash coverage** on floors underneath and between sinks, hand dryers and towel dispensers.
- Can also be used in front of drinking fountains, showers, transition, areas or anywhere you need to **control slip hazards**

Patent Pending

"We were having compliance issues with staff not placing the lids back on 55-gallon oily rag and debris drums. This product solved our problems and **kept us from getting violation notices** during our last audit."

— Justin, PIG Latching
Drum Lid Customer

STORAGE & MATERIAL HANDLING

We've got easier ways to store, dispense, handle and transport your liquids.

Whatever you're storing, pouring or securing, we've developed and discovered an unbeatable collection of products to help you get the job done right.

- **PIG Latching Drum Lids** open and close with one hand for easy hazardous waste compliance
- **PIG Burpless Funnels** let you pour quickly and safely thanks to our patented splash-free designs
- **Drums & Containers** come in all the sizes, styles and materials for your storage and shipping needs
- **Drum Accessories** like pumps, gauges, movers and lifters make your drum work easier and safer
- **PIG Flammable Safety Cabinets** can't be beat when it comes to quality, features and performance

“AWARD-WINNING SOLUTIONS THAT WORK.”

We invented products like our Burpless Funnels and Latching Drum Lids to take some of the grunt work out of your workday.

Andy Brunhuber — Product Manager

◆ HELPS YOU COMPLY

For every solid waste stream that's generated by or at your facility, a hazardous waste determination must be made. For help understanding the Resource Conservation and Recovery Act (RCRA), call our Tech Team at 1-800-HOT-HOGS.

EXPERT ADVICE: FREE WHITE PAPER

Having a plan to manage your hazardous wastes properly is key to avoiding violations and fines. Our experts tell you how.

Download the white paper: newpig.com/hazwaste

reghelp@newpig.com • 1-800-HOT-HOGS®

PIG LATCHING DRUM LIDS & BURPLESS FUNNELS ARE DESIGNED SPECIFICALLY TO ◆ **HELP YOU COMPLY!**

If you're using a drum to collect materials that are considered hazardous waste, you can't take the drum lid off and not put it back on properly. If you're hassling with the bolt ring every time you access the drum, you'll be out of compliance the first time the lid ends up on the floor. Same goes for funnels that are on-again and off-again. Our **Latching Lids** and **Burpless Funnels** allow you to keep drums closed until they're ready for disposal. That helps you meet these regs:

- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

EPA's Solvent-Contaminated Wipes rule could lower your shipping costs.

The EPA passed the *Solvent-Contaminated Wipes Management Rule* that allows properly managed wipes with no free liquids to be exempted from full haz waste regulations. That can save you money, and **PIG Latching Drum Lids** can help you with the "properly managed" part of that equation!

- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes

The EPA has new rules about the management of solvent-contaminated wipes. Learn how you could save time and money.

DOWNLOAD YOUR FREE WHITE PAPER:
newpig.com/solventwipes

Using a funnel to meet regs? Your transfer station probably needs a pallet, too!

Once you've got a PIG Burpless Drum Funnel on top of your drum to satisfy closed container regs, bring your transfer station full circle with a **PIG Containment Pallet** underneath for compliance with EPA secondary containment regulations.

- ◆ **Helps you comply** with 40 CFR 264.175 requiring full containment for hazardous waste to prevent releases into the environment.

**LEARN MORE ABOUT OUR SPILL PALLETS
ON PAGES 366–371.**

WHEN DO YOU NEED A LID VERSUS A FUNNEL?

PIG LATCHING LIDS

For solid waste in open-head drums

Safely cover drums of solid waste without the fuss of a nut and bolt ring.

- **PIG Latching Drum Lids** give quick, easy access but keep contents dry and secure
- One-handed access makes it easy to add to drum contents and **helps you comply with regs**
- **Nitrile gasket and locking mechanism** seal drum lid to help reduce vapors and protect contents

PIG BURPLESS FUNNELS

For liquid waste in tight-head drums

Our patented funnel designs help you pour liquids quickly and safely.

- **Burpless vents** allow fast pouring without venting through $\frac{3}{4}$ " bung; a possible reg violation if left open
- Easy-access design helps you **meet closed container regs** and minimize vapor exposure
- **Nitrile gasket and locking mechanism** seal drum funnel lid to reduce vapor emissions

SEE OUR FULL LINEUP OF LIDS AND FUNNELS ON PAGES 300–310.

pi® EXCLUSIVE!

pi® Latching Drum Lids — One-hand access makes it easy to meet haz waste regulations.

Problem: Taking the bolt ring and lid off an open-head drum that's being used to store hazardous waste and not replacing it is a violation of closed container regs.

Finding the solution: Our idea was simple — make a temporary lid with a latch that was easy to install and use. Early models were compliant but clunky. Pins broke. Hinges got pinched. We had lots of failures and replaced lots of lids. But the customers who worked with us helped us perfect them.

Now we make a lid that controls vapor. We have a lid that has FM Approved fusible plugs for flammables, plus we have the first lids for poly and fiber drums and outdoor storage.

Problem solved:
PIG Latching Drum Lids

- Hinged lid has a latching handle that easily **opens and closes with one hand**; hinge stops **keep lid upright** when open
- Nitrile gasket and locking mechanism **seal drum lid** to help cut vapors and keep drum contents dry and secure
- Drum lid **improves appearance of drums** and storage areas
- Easy-access lid closes securely to help you **meet regulations**; **lockable latch** helps prevent unauthorized access
- Durable, **chemical-resistant powder coat** for long service life
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas

**SIZES AVAILABLE TO FIT YOUR STEEL DRUMS FROM
5 TO 85 GALLONS. CHOOSE FROM THREE COLORS!**

Adjustable tension means the latching handle will close properly every time!

Removable hinge pin lets you remove the lid without loosening the band.

PIG™ Latching Drum Lid

(Specify Color for DRM659 & DRM821: Black Red Yellow)

Item #	1-2	3+

DRM1201
85 gal.

Even your 85-gallon drums can meet regs — this Latching Drum Lid is a perfect fit for extra-large, 85-gallon drums.

"This was a great investment. It is very easy to use, and we do not have to battle with closing waste drums when not in use. Because of this lid, we were able to improve our compliance record."

— Laura B., DRM659 Customer

**EXPERT
ADVICE**

Watch our latching lid make it easy to access drums with no bolt ring hassles. See it at: newpig.com/drumlid

Latching Lids — Choose a lid to suit your

Latching Lid with Fast-Latch Ring — Easy to install and access.

- Fast-latch ring allows **easy installation** on new or most reconditioned 55-gallon steel drums; no clumsy nut-and-bolt ring
- Adjustment rod lets ring expand to **fit reconditioned drums with larger diameters**
- **Latching handle** easily opens and closes with one hand
- **Includes all the lid features** listed on page 300
- ◆ **Helps you comply** with the regulations listed at right

The fast-latch ring is so much easier to install than a nut-and-bolt ring — and it can expand to fit larger drums.

Latching Drum Lid with Fast-Latch Ring

DRM1200 • For 5-gal. Plastic & Steel Buckets	\$255	\$245	*

* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 8,480,139

PIG® Fiber Drum Lid — Outfit a fiber drum with a no-hassle PIG Latching Lid to keep contents dry and pure.

- Tabs on ring align to drum chime to securely **fit 30- or 55-gallon fiber drums**
- Fast-latch ring allows **easy installation** on fiber drums
- **3"-wide EVA gasket and locking mechanism** seal lid to container to protect contents
- **Includes all the lid features** listed on page 300
- ◆ **Helps you comply** with regulations listed on page 305

Now you can access your fiber drums with one hand!

PIG™ Latching Lid for Fiber Drum		
Item #	1-2	3+
DRM1199 • For 55-gal. Open-head Fiber Drums	\$416	\$395 *
DRM1124 • For 30-gal. Open-head Fiber Drums	\$413	\$390 *

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 8,480,139

PIG® Latching Lid for Fluorescent Lamp Storage Drum — Made to fit your drum and meet waste management regs.

- Replaces conventional slide-on lids for **fast, easy access**
- **Latching handle** is easy to open or close with one hand
- **3"-wide EVA gasket and locking mechanism** seal lid to container; hinge pin for **easy lid removal** without loosening drum band
- **Crowned lid** keeps debris from accumulating on top
- ◆ **Helps you comply** with 40 CFR 273.13(d) for managing universal waste in a manner that prevents releases into the environment

PIG™ Latching Lid for Fluorescent Lamp Storage Drum		
Item #	1-2	3+ *
DRM1129 • For 23" Dia. Fluorescent Lamp Storage Drums	\$400	\$377

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG® Open-Head Poly Drum Lid — Replaces waste drum lid; no hassling with bolts.

- Large **18"-diameter opening** allows easy waste collection
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals; optional screen (see page 304)

NOTE: Does not meet closed container regulations.

PIG® Open-Head Poly Drum Lid		
(Specify Lid Color: Black Red Yellow)		
Item #	1-4	5+
DRM965 • For 55-gal. Steel & Poly Drums • Ext. Dia. 24.5" x 11.25"H	\$151	\$144

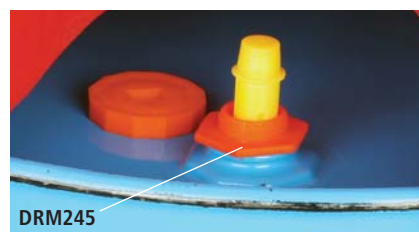

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

DRM672

PIG® Poly Drum Funnel — Cover your entire drum top for clean, easy draining and pouring.

- 4"-high sidewalls and zigzag ridges **prevent splashes** and catch tools or parts
- **Double-wall polyethylene** construction resists UV rays, corrosion, most chemicals
- **Level inside surface** allows easy draining
- **Fits 55 gal.** tight-head steel or poly drum
- **Attached hinged lid** blocks dirt and contaminants; still allows quick access
- **Access to ¾" bung** for liquid-level gauge
- **Pop-Up Drum Fill Gauges and Strainer** sold separately

DRM245

Pop-up drum fill gauge helps prevent overfilling. Two sizes available.

DRM628

Drum funnel strainer filters metal chips and debris from liquid as you pour.

PIG® Poly Drum Funnel

(Specify Color: Black Red Yellow)

Item #	1-4	5+
DRM672 • Ext. Dia. 29" x 11"H	\$80	\$75

BEST SELLER!

Pop-Up Drum Fill Gauge

Item #	1-3	4+
DRM317 • 11" Float Indicator Depth For Drums w/ .75" NPT Bung	\$27	\$26

Strainer for PIG® Poly Drum Funnel

Item #	1-4	5+
DRM628 • Use with DRM672 .044"W x .044"L • Mesh Opening	\$20	\$18

PIG® Waste Fluid Collection System — Save on three leading PIG items!

- **Complete system** for mobile collection of waste fluids
- **Includes** single drum container with 70-gallon sump that holds a 55-gallon drum
- **Container dolly** makes it easy to move system even when it's full
- **Includes PIG Poly Drum Funnel** with hinged lid for easy pouring
- Store nonhazardous **waste liquids** for recycling
- **Drum not included**

DRM375

PIG® Waste Fluid Collection System

(Specify Funnel Color: Black Red Yellow)

Item #	1-3	4+
DRM375 • 70 gal. • 32.81"W x 32.81"L x 30.33"H	\$379	\$367

DRM375 Contents • 1 PIG® Single Drum Container (DRM373) • 1 PIG® Single Drum Container Dolly (DRM374) • 1 PIG® Poly Drum Funnel with Cover (DRM672)

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

System includes funnel, sump and dolly.

Empty drums sold on pages 312-315.

**BEST
SELLER!**

PIG Barrel Top Mat sold
on pages 18–19.

EXCLUSIVE!

PIG Burpless Funnels — Clean pouring, no splashback and a one-hand latch for easy reg compliance.

- **Latching handle** opens and closes lid in a one-handed operation
- Lets you pour **without having to vent through 3/4" bung**, a possible closed container reg violation if left open
- **Chemical-resistant powder coat** helps ensure long service life
- **Lockable** to prevent unauthorized access
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) for VOC emissions

PIG Drum Funnels set the standard for performance.

These funnels offer features you won't find anywhere else!

Patented Burpless design vents during pouring for fast, smooth flow with no splashback.

One-hand latch for easy opening and secure closing.

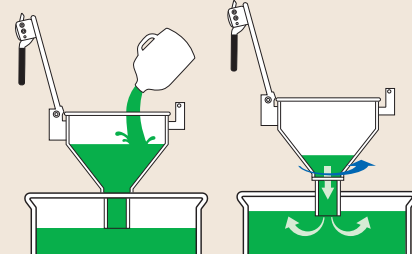

Nitrile gasket and locking mechanism create a vapor-tight seal, tested to 2 psi.

Overfill preventer stops messy overflow (available on DRM1127, DRM1032 and DRM1050).

How the overfill preventer works:

1. When liquid level reaches the bottom of preventer, funnel stops draining and starts to fill up, so you know when to stop pouring.
2. Air trapped between inside of drum and outside of tube stops liquid from rising.
3. To empty funnel, twist funnel and preventer counterclockwise and slowly lift to drain contents into remaining airspace.

Choose the right funnel for your pouring jobs.

PIG Original Burpless Funnel (DRM1125)

Our original bestselling drum funnel is great for everyday pouring needs.

PIG Large Burpless Funnel (DRM1210)

Wide-mouth funnel drains a 5-gallon bucket in 17 seconds.

Sturdy, coarse mesh screen (DRM1203) holds heavier containers and parts for draining.

PIG Small Burpless Funnel (DRM1032)

Designed for 5-gallon pails and smaller drums; 5"-diameter fill mouth limits vapor, odor and VOC emissions.

PIG Tall Burpless Funnel (DRM1211)

The extra height lets you drain tall containers such as paint cans and filters inside funnel while keeping the lid closed, reducing vapor emissions.

PIG® Burpless® Steel Drum Funnel

Item #	Name	Overfill Preventer	Drum Size (gal.)	Type of Drum	Type of Thread	Dimensions	Color Options Available	1-4	5+

DRM1126 • For 20- to 55-gal. Steel or Plastic Drums w/ 2" NPT 11.25"W x 15"L x 13"H	\$440	\$414	*
DRM1128 • W/ Overfill Preventer • For 20- to 55-gal. Steel or Plastic Drums & Buckets w/ 2" NPT • 11.25"W x 15"L x 15"H	\$519	\$473	*

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 5,676,185

PIG® Stainless Steel Drum Funnel — For ultimate chemical compatibility and purity.

- **New Design!** Now with an even more chemically resistant polyethylene foam gasket
- **Stainless steel** provides excellent resistance to acetone, methyl ethyl ketone (MEK), toluene, xylene, and other chlorinated solvents and harsh chemicals
- Features a **built-in overfill preventer** to stop messy overflows

◆ **Helps you comply** with regs listed on page 308

DRM1112

Compact design for 5-gallon buckets and smaller drums. 5"-Dia. fill mouth limits vapor, odor and VOC emissions.

PIG® Burpless® Stainless Steel Drum Funnel			
(Specify Color: Black Red)			
Item #	1-4	5+	
DRM1112 • For 20- to 55-gal. Steel or Plastic Drums w/ 2" NPT 11.25"W x 15"L x 15"H	\$779	\$745	*
DRM1068 • Small • For 5- to 55-gal. Steel & Plastic Drums & Buckets w/ 2" NPT • Ext. Dia. 8.25" x 11"H	\$665	\$647	*

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

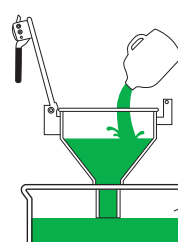

Patent 5,676,185

PIG® Overfill Preventer — Avoid drum overfills.

- Two-piece adapter **acts as a shutoff valve**, closing off a 55-gallon drum when it reaches 53½ gallons
- Can be used with **nearly any liquid**
- Fits steel Burpless Funnels

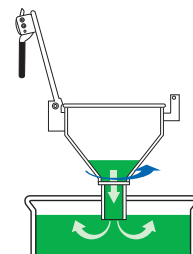

Overfill Preventer for PIG® Burpless® Steel Drum Funnel			
(Specify Color: Black Red)			
Item #	1-4	5+	
DRM919 • 5"H	\$174	\$158	*

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Air trapped between inside of drum and outside of tube stops liquid from rising.

When liquid level reaches the bottom of preventer's outer tube, funnel stops draining and starts to fill up, so you know to stop pouring.

To empty funnel, twist funnel and preventer counterclockwise to drain contents into remaining airspace.

Interior ridges create a level surface for easy draining of buckets and other large containers.

Our fastest draining funnel, DRM166, has a superwide opening and 7-gal. capacity.

PIG Burpless Poly Funnel — Keeps on chugging without burps or splashbacks.

- **Burpless design** vents during pouring for fast, smooth flow with no splashback
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals
- **Threaded brass** insert screws right into bung. **Vent tube** prevents liquid from burping back.
- **Lockable hinged lid** won't get lost or separated from funnel; choice of three colors to help segregate waste
- **Built-in debris strainer** captures large particles
- DRM1680 and DRM1681 feature built-in **overflow preventer** (see more on page N8)
- DRM1680 fits **2" NPT** bung opening; DRM1681 fits bung openings with **2" buttress threads**

PIG® Burpless® Poly Drum Funnel			
(Specify Lid Color for DRM1680, DRM1681 & DRM138: Black Red Yellow)			
Item #	1-4	5+	
DRM1680 • Standard w/Overflow Preventer • For 30- and 55-gal. Steel or Poly Drums w/ 2" NPT • Ext. Dia. 13.375" x 13"H	\$85	\$80	
DRM1681 • Standard w/Overflow Preventer • For 30- and 55-gal. Poly Drums w/ 2" Buttress Thread • Ext. Dia. 13.375" x 13"H	\$98	\$94	
DRM138 • Large • For Steel or Poly Drums w/ 2" NPT Ext. Dia. 22" x 11.5"H	\$115	\$108

DRM837
Quick-Style Open-Head

Quick-style lever lock rings make drum access quick and easy.

DRM836
Quick-Style
Open-Head

DRM970
Open-Head
w/Bungs

Open-Head UN Rated Steel Drums — Open-head design and removable lid offers full, convenient access.

Tough, UN Rated steel drums are **made for liquid or solid hazardous waste**, so you can rely on them to deliver safety and compliance.

- Removable lid offers **full, convenient access** to inside of drum
- Optional **phenolic/epoxy lining** adds corrosion resistance
- **12-gauge bolt ring closure**, sponge rubber gasket and plated bolt/nut (on all except DRM833–DRM837) provide tight seal to help prevent leaks and spills
- **Quick-style lever lock rings** (DRM833–DRM837) make it easy to comply with closure regs; no tools required and shippable “as is” — no need to switch closure rings as with other lever lock ring assemblies
- DRM970 and DRM1973 feature **2" NPT and ¾" NPT bungs**

BUY AN EXTRA DRUM AND TURN IT INTO A SPILL KIT! SEE PAGES 98, 110 AND 126.

THOSE CODES ON YOUR DRUMS? HERE'S WHAT THEY MEAN.

The UN marking system identifies several characteristics of hazmat packaging, including information on the test levels the packaging has successfully passed. It's very important to know the shipping requirements for the materials you work with, so we've spelled it out for you below.

Need help deciphering the code? We've partnered with DOT experts **Daniels Training Services** to cover all the bases. Contact us with all your DOT questions, and we'll figure it out together!

Open-Head HDPE Drums — Store and ship solid waste in these UN Rated containers.

- Rigid, lightweight **high-density polyethylene** won't rust and is compatible with a wide range of chemicals
- **UN Rated for storage and transport** of solid hazardous materials
- Made from **FDA Compliant resins** for containment of food and cosmetic products
- **Lever lock band** can be wire sealed to prevent tampering
- **Straight-sided drums** (DRM1059, DRM1060) have ribs for extra strength; allows broader use of drum grabs, parrot beak lifters and other equipment that can't move tapered drums

Open-Head UN Rated Poly Drum

UN Ratings have you dazed and confused? We can clear it all up right here: newpig.com/un-ratings

UN Rated Fiber Drum — Affordable container even has steel chimes and a lever-locking band.

- **Economical, lightweight fiber drum** holds dry products like colorants or powders
- **Lever-locking band** holds steel lid in place; can be wire sealed to deter tampering
- **Reinforced bottom** adds strength
- **Incinerable** to minimize disposal cost at end of usable life

UN Rated Fiber Drum with Lever Locking Band

Item #	1-9	10+
DRM384 • 55 gal. • UN1G/Y200/S	\$86	\$82
DRM383 • 30 gal. • UN1G/Y172/S	\$68	\$64

* NEW

UN Rated All-Fiber Drum — Incinerable drum can store or dispose of hot-fills and dry materials.

- No need to empty drum to burn contents for waste reduction or fuels blending; drum is **completely incinerable**
- **Flat top and bottom** make stacking simple and safe
- **Telescoping cover** slips over top, so you can utilize entire inside capacity
- **Ideal for pelletized resins, colorants and other dry materials**

UN Rated All-Fiber Drum

Item #	1-9	10+
DRM806 • 55 gal. • UN1G/Y100/S	\$62	\$61
DRM799 • 30 gal. • UN1G/Y120/S, UN1G/Z120/S	\$48	\$47
DRM798 • 12 gal. • UN1G/X60/S	\$44	\$41

UN Rated Square Fiber Drum — Maximize your floor space for storage.

- **Single-wall construction** is sturdy and long lasting; rounded corners are less likely to get damaged
- **Telescoping, two-piece design** allows compact storage; flat top and bottom make stacking safer and more uniform
- Drum contains **no metal parts** for rust-free storage and complete incineration at time of disposal
- **Cost-effective alternative** to poly drums for storing dry or solid materials

UN Rated Square Fiber Drum

Item #	1-9	10+
DRM1071 • 55 gal. • UN1G/X100/S	\$73	\$71
DRM995 • 30 gal. • UN1G/Y120/S	\$60	\$56
DRM994 • 15 gal. • UN1G/X75/S	\$34	\$33

UN Rated Steel Salvage Drum — Safely ship a damaged or leaking container.

- **UN Rated and tested** to help ensure safe shipping of hazardous materials
- **Open-head design** and removable lid offer full, convenient access
- Interior is coated with a **corrosion inhibitor**; choose optional phenolic/epoxy lining for added resistance
- **Quick-style drums** (DRM842, DRM846) have quick-style lever lock rings, require no tools; easier to comply with closure regs
- **Bolt & ring drums** (DRM400, DRM1000, DRM1001, DRM1002) provide a tight seal with plated bolt/nut, EPDM gasket
- ◆ **Helps you comply** with 49 CFR 173.3(c)(1)

Quick-style lever is easier and less time-consuming to use than traditional bolt-and-ring closures.

pig Overpack Salvage Drum — Ship hazardous waste in a tough container.

- **X-rated for Packing Groups I, II, and III** (except PAK998 and PAK181); ideal for regulated packaging including shipping hazardous waste
- **100% plastic material with UV inhibitors** is durable, lightweight and chemical resistant
- **Containers are nestable** when empty to save storage space; will keep hazardous waste safely contained during shipping
- **Leakproof, twist-on lid** (except PAK998 and PAK181) is notched so you can easily tighten it with a 2x4 or pole
- **Integrated ledges** allow you to move overpack with a forklift; smaller units have integrated handles

Special features to suit your needs:

- **PAK998** is durable HDPE made from FDA Compliant resins; one-piece sealable lid with flip-up handle allows for quick open/close
- **PAK708 and PAK709** feature **two broom holes** 180-degrees opposite each other on the lid that allow 100% positive leverage for easy opening and closing with a broom handle or bar
- **PAK489 and PAK710** have **6" polyolefin wheels** and integrated handle for easy transportation to your shipping vehicle
- **PAK674** is **oversized** for shipping distorted or bulging drums
- **PAK229** is specially designed for **one-person handling**; base and lid accept 2x4s or poles to stabilize drum while you tighten the lid
- ◆ **Helps you comply** with 49 CFR 173.3(c)(1) requiring salvage drums to meet UN specs for shipping

DID YOU KNOW?

Spent spill response materials, including absorbents and PPE, may be placed in compatible UN Rated salvage drums for shipment. If the container is certified as both a salvage drum and an overpack and is used as a salvage drum, any references to the overpack must be removed prior to shipment.

Overwhelmed by overpacks?
We can help:
newpig.com/overpacks101

DID YOU KNOW?

Used oil destined for recycling is not subject to full hazardous waste regulation. Collecting waste oil in bulk tanks makes it easier to pump the oil into trucks for transport to the recycling facility.

Double Wall Waste Oil Tank — Store up to 500 gallons of waste oil.

- Bulk capacity eliminates multiple small containers and **centralizes waste oil storage**
- **Double-wall, 10-gauge steel construction** helps tank withstand impact and provides leak-tested containment
- **Generous 10"-diameter fill hole** features a lockable hatch and debris screen
- Durable powder coating **resists chipping, rust and corrosion**
- **Heavy-duty locking swivel casters** for easy repositioning (PAK248–PAK250 only)
- **Dipstick measures oil volume** in tank (PAK248–PAK250 only) while level gauge monitors content at a glance
- Individual ports and tank exterior are **labeled for easy identification**
- 2" vent helps **prevent pressure buildup**
- **Arrives assembled** and ready to use

NOTE: Not intended to be used as storage for new oil.

Clean-Pak UN Rated Waste Container — Collect haz waste in this bulk bag for easy shipping and disposal.

- **UN Rated** shipping container is ideal for collecting saturated absorbents, used rags, contaminated soil and other hazardous materials (intended for solids only)
- Triple-wall corrugated sleeve maintains rigidity to **keep bag open during loading**; poly outer layer resists oil
- High-capacity straps are rated at 3,000 lbs. for **secure lifting with a hoist** or forklift with proper attachment
- LLDPE liner helps **protect against punctures and leaks**
- Collapses and folds for **compact storage**

Clean-Pak UN Rated Waste Container

Item #	1-9	10+
DRM1240 • 36"W x 36"L x 36"H • Holds 2,500 lbs. (UN Packaging Group I) or 3,000 lbs. (UN Packaging Groups II and III)	\$188	\$174

Oil Safe Container — Store and dispense your lubricants, and choose from ten lid colors to help prevent contamination.

Lids and containers sold separately.

- Compact, ergonomic, wide-mouth containers are **easy to fill**
- **Five lid styles available** including stretch spouts and utility lids (sold separately)
- **Industrial-grade HDPE** has antistatic treatment and resists heat, UV and contamination
- **Liquid levels are easy to read** and measure in quarts or liters
- Keeps stored lubricants pure and **free of contamination**
- **Includes label** to identify contents
- **Optional pump** (GEN550) dispenses lubricants in hard-to-reach spots

Premium pump (GEN172) features fill port and non-return valve; requires **utility lid** (GEN594). **Quick connect hose** accepts a quick connect fitting (not included) to avoid drips; choose **5' hose** (GEN170) or **10' hose** (GEN171).

Lids available in 10 colors:

Oil Safe® Container

Item #	1-2	3+
GEN544 • 10 qt.	\$54	\$50
GEN543 • 5 qt.	\$27	\$26
GEN542 • 3 qt.	\$24	\$23
GEN541 • 2 qt.	\$21	\$20

Oil Safe® Lid

Item #	1-2	3+
(Specify Lid Color: Black, Blue, Dark Green, Green, Gray, Orange, Purple, Red, Tan or Yellow)		
GEN593 • Storage Lid	\$29	\$28
GEN594 • Utility Lid w/ Screw-on Cap	\$32	\$31
GEN595 • 8" Stretch Spout Lid w/ .5" Opening	\$55	\$52
GEN596 • 5" Stumpy Spout Lid w/ 1" Opening	\$72	\$69
GEN598 • 5" Mini Spout Lid w/ .25" Opening	\$62	\$60
GEN547 • Stretch Spout Lid Extension	\$26	\$24
GEN835 • Hose Extension For GEN596 Only • 10"	\$33	\$32

Oil Safe® Pump

Item #	1-2	3+
GEN550 • For GEN594 Lid and GEN542, GEN543 and GEN544 Containers • 5' Hose	\$87	\$84

Oil Safe® Premium Pump

Item #	1+
(Specify Lid Color for GEN172: Black, Blue, Dark Green, Green, Gray, Orange, Purple, Red, Tan or Yellow)	
GEN172 • For GEN594 Lid and GEN542, GEN543 and GEN544 Containers • 5' Hose	\$135
GEN171 • Quick Connect Hose • 10'L	\$58
GEN170 • Quick Connect Hose • 5'L	\$55
GEN171 & GEN170 Contents • 1 Discharge Hose with 1/4" NPT Male Adaptor • 1 - 1/4" NPT Male Adaptor for Pump Return Port • 1 - 10 Micron Breather	

13" stretch spout extension (GEN547) reaches tough places; replaces tip of stretch spout lid.

Storage lid (GEN593) with molded handle fits all containers; prevents contamination.

Utility lid (GEN594) with screw cap allows you to pour without removing lid; also accepts pump.

Stretch spout lid (GEN595) has a twist-open valve to regulate flow of low-viscosity liquids.

Stumpy spout lid (GEN596) has a 1" spout opening; hose extension (GEN835) also available.

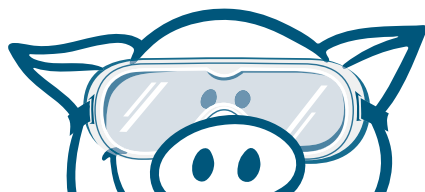

Pump (GEN550) dispenses liquids in hard-to-reach places; requires utility lid (GEN594).

Rotary Hand Drum Pumps — Whatever liquid you need to move, we've got a pump that's compatible!

- Manual pumps are rotary operated for **fast, easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- Lightweight designs can be broken down for **compact storage** or disassembled for easy cleaning
- **Use with** any 15- to 55-gallon drum with 2" NPT bungs
- **Built-in strainer** (on DRM311, DRM596 and DRM597) filters out particulate to help avoid contamination

DISPENSING FLAMMABLES?
DON'T FORGET THE GROUNDING WIRE!
SEE PAGE 338

Wesco Iron Rotary Hand Drum Pump with Drip Pan reduces spills and leaks during and after use.

Wesco Iron Rotary Drum Pump with Drip Pan

- Drip pan helps to eliminate spills due to overpumping or draining at the nozzle

DRM1310

Wesco Aluminum Rotary Pump - Non-Sparking

- Self-priming and non-sparking to help you safely pump oils and noncorrosive liquids

DRM1311

Zee Line Poly Rotary Pump - PTFE Seals

- Corrosion-resistant plastic body is great for dispensing fleet fluids, oil-based liquids, water-based chemicals and chlorinated solvents

DRM981

Zee Line Ryton Rotary Pump - Viton Seals

- Corrosion-resistant plastic body is great for dispensing aggressive chemicals and chlorinated solvents

DRM982

Zee Line HDPE Rotary Pump - Viton Seals

- Capable of pumping in reverse using discharge hose (not included) for transferring fluids into drums

DRM311

Zee Line Aluminum Rotary Pump - NBR Seals

- High-flow pump includes 54" polypropylene discharge hose
- Gear-driven design provides fast, smooth operation to pump a full quart of liquid per stroke

DRM983

Zee Line Stainless Steel Rotary Pump - PTFE Seals

- PTFE tape (included) provides an excellent seal between pickup tube sections

DRM988

Fill-Rite Cast Iron Reversible Action Rotary Pump

- Spring-loaded vanes compensate for wear and prevent freezing or sticking in cold weather
- 8' output hose has anti-static wire

DRM596

Fill-Rite Cast Iron Reversible Action Rotary Pump with Counter

- Built-in counter lets you monitor how many gallons of liquid you've dispensed
- Spring-loaded vanes compensate for wear and prevent freezing
- 8' output hose has anti-static wire

DRM597

BEST SELLER

PVC Piston Hand Drum Pump — Economical pumps move a full gallon of liquid with just six strokes.

- **DRM221** is compatible with 50% sulfuric acid, detergents and chlorine
- **DRM222** is compatible with oils, hydraulic oil and glycerine
- Maximum recommended viscosity equals **40–60 wt.**
- 3'-long hose included

Beckson Industrial PVC Piston Hand Drum Pump

Item #	1+
DRM221 • For Sulfuric Acid (up to 50%) • 28 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT Bung • Viton Seals	\$96
DRM222 • For Oil-Based Liquids • 21 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT Bung • Buna-N Seals	\$95

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Polyethylene Piston Hand Drum Pump — Transfer Diesel Exhaust Fluid (DEF) easily and economically.

- **Hand-operated, piston-style pump** is compatible with chemicals like antifreeze, hydraulic oils, engine and gear oils and degreasers
- Pump design uses materials that **will not taint or alter the chemical structure** of the Diesel Exhaust Fluid (DEF) being transferred
- Maximum flow rate is **11 oz. per stroke**
- **Fits a 55-gallon drum** with a 2" NPT bung

Fill-Rite Polyethylene Piston Hand Drum Pump

Item #	1	2+
DRM1289 • For DEF, Engine Oils, Antifreeze, Hydraulic Oils, Degreaser • 11 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT Bung	\$111	\$107

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Action Pump FDA Compliant Piston Pumps — Food-grade pumps dispense viscous liquids and harsh chemicals. Four sizes fit pails to IBCs!

DRM1318
Need to dispense from an IBC? No problem! This pump is designed specifically to fit your totes.

- **FDA Compliant** pumps are made from polypropylene with polyethylene wetted materials
- **Ideal for dispensing** olive oils, syrups and honey; also compatible with a wide range of chemicals including acids, bases, glycerine, chlorines, crop chemicals and liquid fertilizer
- **Manual pump** is more affordable than electric or air-powered pumps; can be used when power supplies are unavailable
- Handles liquids up to 140°F at a **maximum viscosity of 8,800 cP**
- Safety strap "locks out" the pump to **help reduce waste**
- Spout can be rotated to **eliminate messy drips**
- **Four sizes available** to fit your pails, drums and IBCs (models for drums fit both 2" NPT and 2" buttress threads)

Action Pump FDA-Compliant Piston Pump

Item #	1+
DRM1315 • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids • 5 oz./Stroke • Fits 5-gal. Pail w/ 70mm Rieke Screw Cap	\$92
DRM1316 • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids • 15 oz./Stroke • Fits 15- to 30-gal. Drum w/ 2" NPT or Buttress Bung	\$102
DRM1317 • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids • 15 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT or Buttress Bung	\$124
DRM1318 • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids • 15 oz./Stroke • Fits IBC Totes w/ 2" NPT Opening	\$137

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Nylon and Poly Piston Hand Pumps — Easily dispense 16 ounces per stroke.

- **Nylon Pump** (DRM462) handles small water-based jobs
- **Poly Pump** (DRM681) is ideal for detergents and degreasers
- **Pumps up to 16 oz.** of liquid per stroke
- Spout rotates up to **prevent messy drips** between uses
- **Fits 15- through 55-gallon** drums with 2" NPT bungs
- Maximum recommended **30 wt. viscosity**

Zee Line Nylon Piston Hand Drum Pump

Item #	1+
DRM462 • For General-Purpose Chemicals • 16 oz./Stroke • Fits 15- to -55-gal. Drum w/ 2" NPT Bung • Nylon with Stainless Steel Rod	\$72

Zee Line Polypropylene Piston Hand Drum Pump

Item #	1+
DRM681 • For General-Purpose Chemicals • 16 oz./Stroke • Fits 15- to -55-gal. Drum w/ 2" NPT Bung • Polypropylene with Nickel-Plated Steel Rod	\$53

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Stainless Steel Piston Hand Pump — Great for use with aggressive chemicals.

- **Pumps up to 22 oz. per stroke** with a maximum of 40 wt. viscosity
- **Stainless steel and PTFE construction** is compatible with oils, detergents, soaps and mild corrosives
- **Fits 15- through 55-gallon** drums with 2" NPT bungs

Earthing stud on tube allows pump to be grounded for safer dispensing of flammable liquids.

Action Pump Stainless Steel Piston Hand Drum Pump

Item #	1+
DRM343 • For Aggressive Chemicals • 22 oz./Stroke • Fits 15- to -55-gal. Drum w/ 2" NPT Bung	\$159

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Steel Piston Hand Drum Pump — A safer choice for flammables and combustibles.

- **FM Approved** drum pump has **built-in bonding and grounding wires** to control static electricity
- **Internal flame arrestor** helps prevent flashback
- PTFE piston, packing gland and gasket are **highly resistant to chemicals and solvents**
- T-handle design and **piston action pump**
- DRM1109 is made from stainless steel so **entire pump resists corrosive chemicals**

Ayling & Reichert Piston Hand Drum Pump

Item #	1-2	3+
DRM1092 • Steel • For Alcohols (all except Propyl), Ammonia Nitrate, Anti-Freeze, Gasoline, Ketone, Potassium Bicarbonate, Potassium Chromate and Toluene • 8 oz./Stroke • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$211	\$194
DRM1109 • Stainless Steel • For Acetic Acid (20-50%), Alcohols, Butyl Acetate, Calcium Hydroxide (10-20% Boiling), Chromic Acid (5-10%), Denatured Alcohols, Ethylene Glycol, Heptane, Lacquer Thinner, Nitric Acid (10-50%) & Toluene • 8 oz./Stroke • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$290	\$270
DRM1092 and DRM1109 Contents • 1 Pump • 1 Adapter • 1 Tube		

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Aluminum Piston Hand Pump — Dispense fuel in the field with a groundable pump.

- Outputs up to **20 gallons for every 100 strokes** (on push and pull); flow can be reversed by rotating piston 180°
- **UL Listed pump** can be grounded for use with oil and gasoline
- Aluminum body is lightweight; stainless steel inner liner **stands up to oils and fuels**
- Includes **suction tube** (23"—43½") and **8' hose w/antistat wire**

Fill-Rite Aluminum Piston Hand Pump

Item #	1+
DRM285 • For Gasoline, Diesel Fuel, Light Oils and Kerosene • 25 oz./Stroke • Fits 15- to -55-gal. Drum w/ 2" NPT Bung	\$251

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

BRIGHTER COLORS FASTER RESPONSE

Our Hi-Viz Spill Kits really stand out so you can find 'em fast and get to the spill!

See why every second counts on page 83.

DRM344

Heavy-Duty Siphon Pump — Moves up to 7 gal. per minute from your 55 gal. drums.

- **Compatible with** mild solvents, light oils, diluted acids/caustics and disinfectants
- **Moves up to 7 gallons** of liquid per minute
- Maximum recommended viscosity equals **30–40 wt.**

Action Pump Polyethylene Heavy-Duty Siphon Drum Pump

Item #	1-6	7+
DRM344 • For Oil-Based Liquids & General-Purpose Chemicals 7 gal./Minute • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$33	\$30

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Lever-Action Pump — Handles a variety of liquids.

- **Pumps up to 15 oz. per stroke** with a maximum of 40 wt. viscosity
- **Fits 15- through 55-gallon drums** with 1½"–2" NPT bungs
- **Five models available** to handle almost any liquid, from oils to nitric acid; see ordering information below

Spout turns up to stop drips.

DRM299

Wedge — Durable wedge helps you pump every last ounce out of your drums.

- Easy-to-use wedge **props up 30- and 55-gallon drums**
- Moves liquid to one side for **easy pumping**
- Made of durable, nonsparking **100% recycled polyethylene**
- Reduces waste; ideal for use with **expensive process chemicals**

DRM299

Zee Line Lever Action Drum Pump

Item #	1-2	3+
DRM461 • Nitrile Seals • For Light Oils (Max. 40 wt.), ATF, Hydraulic Fluids, Kerosene and Diesel Fuel 15 oz./Stroke • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$61	
DRM106 • Polypropylene with Steel Rod • Viton Seals • For Lubricants • 12 oz./Stroke • Fits 15- to 55-gal. Drum w/ 1.25" & 2" NPT Bung	\$48	\$45
DRM107 • Polypropylene with Stainless Steel Rod • Poly Seals • For Water-Based Fluids, Light Acids and Alkali Solutions 14.4 oz./Stroke • Fits 15- to 55-gal. Drum w/ 1.25" & 2" NPT Bung	\$66	\$62
DRM108 • Ryton® with Stainless Steel Rod • For Stronger Acids, Alkalis and 20% Nitric Acid • 14.4 oz./Stroke • Fits 15- to 55-gal. Drum w/ 1.25" & 2" NPT Bung	\$93	\$89

Notice: For chemical compatibility call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com.

Drum Wedge

Item #	1-9	10+
DRM299 • 9.625"W x 12"L x 5.625"H	\$25	\$23

NiCad & Lithium Battery-Operated Pump Systems — Put away your cords and air lines ... these pumps are portable!

- **Convenient and portable;** can be used remotely in different locations without the use of power cords or air lines
- **Works with** diesel exhaust fluid (DEF), water-based chemicals, soap, detergents, insecticides and antifreeze with maximum 20 wt. viscosity
- **Maximum flow rate of 7 gal./minute**
- **NiCad Battery-Operated Pump (DRM1220)** pumps 106 gallons per charge and uses a 19.2V rechargeable NiCad battery and Charging Dock (included and also sold separately)
- **Lithium Battery-Operated Pump (DRM1221)** pumps 136 gal. per charge and uses a 19.2V rechargeable lithium battery and Charging Dock (included and also sold separately)

ZeeLine NiCad Battery-Operated Pump System		
Item #		1+
DRM1220 • Pump System • For DEF, Water-Based Chemicals, Insecticides, Antifreeze (Max. 20 wt.) • 7 gal./minute • Fits up to 55-gal. Drum & Container with 2" Bung		\$315
DRM1222 • Replacement Battery		\$70
DRM1223 • Charging Dock		\$40
ZeeLine Lithium Battery-Operated Pump System		
Item #		1+
DRM1221 • Pump System • For DEF, Water-Based Chemicals, Insecticides, Antifreeze (Max. 20 wt.) • 7 gal./minute • Fits up to 55-gal. Drum & Container with 2" Bung		\$385
DRM1224 • Replacement Battery		\$97
DRM1225 • Charging Dock		\$50

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

Battery-Operated Pump — Hand-held pump is great for small jobs.

- **Unique, portable design** can be used remotely in different locations, unlike standard pumps that require power cords or air lines; uses two D size alkaline batteries (not included)
- **Compatible with** water and light oils of maximum 20 wt. viscosity
- **Ideal for moving material** from 5-gallon and smaller cans to equipment or other containers; fits sumps, bladders and containers
- **Maximum flow rate of 2.5 gal./minute;** pumps approximately 1,000 gal. per set of batteries

ZeeLine Alkaline Battery-Operated Pump		
Item #		1+
DRM1226 • For Water and Light Oil (Max. 20 wt.) • 2.5 gal./minute Fits Sumps, Bladders & Containers		\$26

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

TT Series Pump — For medium viscosities.

- For transfer of **shear-sensitive liquids or oils**
- Rated continuous-duty for **medium-viscosity** corrosives
- Choose **.25 HP electric** or **.50 HP air-driven motor**
- **Pickup tube** (DRM271) is made from stainless steel and PTFE to withstand corrosives and solvents

FTI TT Series Drum Pump System

Item #	1+
DRM887 • FTI .25 Horsepower Drum Pump Motor • For Medium Viscosities & Corrosives Electric: 110V/50-60 Hz	\$979
DRM433 • FTI Air Drum Pump Motor For Liquids up to 330 cps Viscosity Air: 80-100 psi @ 15-32 cfm	\$519
DRM271 • FTI TTS Pickup Tube • For Corrosives, Solvents and Flammables • 40" L	\$742

**PUMP ACCESSORIES
ARE AVAILABLE AT
NEWPIG.COM**

DRM433

DRM887

DRM271

Light-Duty Drum Pump — Economical choice for mild corrosives.

- Lightweight, all-in-one system is perfect for **intermittent liquid transfers**
- .33 HP electric motor with 2-speed toggle switch provides **better flow control**
- Impact-resistant plastic pump housing and pump tube **withstand rust, corrosion and chemicals**
- Pump tube diameter **fits full-size drums**
- Also includes a flexible 5'-long PVC **discharge hose**

DRM1082

FTI Light-Duty Drum Pump

Item #	1+
DRM1082 • For Mildly Corrosive Acids, Cleaners, Bases and Lab Chemicals • Electric: 110V/60 Hz	\$635
DRM1082 Contents • 1 Pump Tube • 1 Electric Motor 1 PVC Discharge Hose	

**BEST
SELLER!**

**OUR TECH EXPERTS CAN
HELP YOU CHOOSE.
CALL TODAY AT 1-800-HOT-HOGS.**

TTX Series Pump System — Explosion-proof pump for flammables.

- For transfer of **flammable liquids**
- Your choice of explosion-proof **.66 HP electric** or **.50 HP air-driven motors**
- **Pickup tube** (DRM271) is made from stainless steel and PTFE to withstand corrosives, solvents and flammables
- **Static hose protection kit** (DRM272) helps you properly ground motor to eliminate static-generated sparks; hose features cross-linked poly construction

NOTE: Power cord for DRM269 is included, but plug must be installed by customer to match specific receptacle being used

FTI TTX Series Drum Pump System

Item #	1+
DRM269 • FTI Explosion-proof Drum Pump Motor • For Flammable Liquids Electric: 110V/50-60 Hz	\$1309
DRM433 • FTI Air Drum Pump Motor For Liquids up to 330 cps Viscosity Air: 80-100 psi @ 15-32 cfm	\$519
DRM271 • FTI TTS Pickup Tube • For Corrosives, Solvents and Flammables • 40" L	\$742
DRM272 • Static Hose Protection Kit For Explosion-proof Motor and Stainless Steel Pump Tube	\$465
DRM272 Contents • 1 4' Hose • 1 6' Grounding Wire with Clamp	

DRM269

DRM271

PF Series Pump System — High-output pump for corrosives.

- Rated continuous-duty for **light to medium viscosities**
- Choose .50 HP motor in electric or air-driven models to **pump up to 22 gpm**
- Sealless **polypropylene pickup tube** (DRM435) is a solid choice for high-output pumping of acids, caustics and other chemicals
- **Stainless steel pickup tube** (DRM508) is excellent for general-purpose pumping of solvents and mild corrosives

FTI PF Series Drum Pump System

Item #	1+
DRM432 • FTI .5 Horsepower Drum Pump Motor For Acids, Corrosives and Chemicals Electric: 110V/50-60 Hz	\$499
DRM433 • FTI Air Drum Pump Motor For Liquids up to 330 cps Viscosity Air: 80-100 psi @ 15-32 cfm	\$519
DRM435 • Polypropylene • FTI PFP Pickup Tube For Mild Corrosives and Nonflammable Solvents 40" L	\$522
DRM508 • Stainless Steel • FTI PFS Pickup Tube For Mild Corrosives and Nonflammable Solvents 40" L	\$813
DRM435 & DRM508 Contents • 1 Pump Tube • 1 Hose and Hose Clamp	

DRM432

DRM435

Lutz Pump System — Take control of your outflow with this variable speed motor.

Lutz Electric Drum Pump Motor (DRM767)

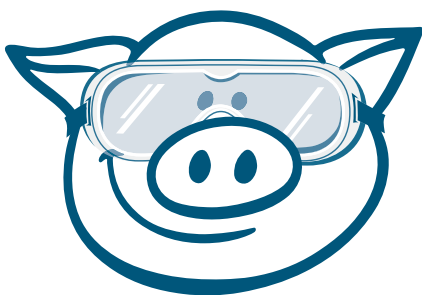

- **Variable speed .85 HP electric pump motor** lets you easily control output flow
- Open-flow, **drip-proof motor** is ventilated and cooled by air

Pickup Tube (DRM768)

- Polypropylene construction is compatible with a wide range of **light-viscosity, oil-based liquids**
- **Nonlubricated tube**

Lutz Electric Drum Pump System	
Item #	1+
DRM767 • Motor for Thin-bodied & Slightly Viscous Liquids in Nonexplosive Areas Electric: 110V/60 Hz	\$661
DRM768 • Pickup Tube • For Corrosive and Noncorrosive Liquids • 39" L	\$547
DRM768 Contents • 1 Polypropylene Pickup Tube • 1 Wall Hanger 1 PVC Hose • 1 Barrel Adaptor • 2 Hose Clamps	

*This product is subject to restrictions and cannot be shipped to California.

at 1-800-HOT-HOGS!

Metered Dispensing System — Ideal for fleets, this system ensures fast, consistent oil and fluid fills.

- **Accurately dispenses motor oils**, gear oils, automatic transmission fluids or other petroleum-based lubricants from 55-gallon tight-head drums
- **System consists of** air-operated pump, quart meter and 32' open oil hose reel
- 3:1 ratio low-pressure pump is specifically designed for **pumping liquids through a hose reel**
- **32' rubber hose reel** reaches your work area, retracts when you're finished
- Hand-operated **quart meter** tracks the amount of liquid dispensed in 8 oz. increments; comes with 12" flexible hose and non-drip nozzle

BUY SEPARATE COMPONENTS OR SAVE ON A COMPLETE SYSTEM (DRM699)

Zee Line Air-Operated Metered Oil Drum Pump System	
Item #	1+
DRM699 • Complete System For Oil-Based Liquids • Air: 50-145 PSI	\$1820
DRM699 Contents • 1 Pump - (DRM696) 1 Open Oil Hose Reel - (DRM697) • 1 Quart Meter - (DRM698)	
DRM696 • Pump For Oil-Based Liquids Air: 100-145 PSI	\$763
DRM696 Contents • 1 Air Operated Pump Motor • 1 Pump Tube 1 Oil Hose • 1 Air Hose • 1 Air Regulator Combination Unit	
DRM697 • Open Hose Reel	\$706
DRM698 • Quart Meter	\$463

Oil Dispensing System — Great for farm and fleet operations.

- **Dispenses motor oils**, gear oils, automatic transmission fluids and other petroleum-based lubricants
- Attaches to **16- to 55-gallon tight-head drums**
- 3:1 ratio, low-pressure pump is specifically designed for **pumping liquids through a hose reel**
- **Z-Swivel and 25' medium-pressure dispensing hose** aides lubrication for hard-to-reach machinery
- **Durable hose** has maximum working pressure of 5,000 pounds
- **Oil control handle** keeps output regulated and consistent
- **Delivery rate** of 5 gpm

Zee Line Air-Operated Oil Drum Pump with Nozzle	
Item #	1+
DRM164 • For Oil-Based Liquids & Lubricants Air: 50-145 PSI	\$757
DRM164 Contents • 1 Air Operated Pump - (DRM696) • 1 Dispensing Hose - (DRM162) • 1 Oil Control Handle - (DRM163)	

BEST SELLER!

Drum sold separately

Electric Powered Fuel Transfer Pumps — Convenient and safe refueling in the field is a breeze with these pump systems.

DRM1290

Portable model offers versatility in the field.

DRM1291

- Easy to use in the field **for fleet, farm and lawn vehicle refuels**; compatible with gasoline, diesel, biodiesel, kerosene, mineral spirits, methanol and ethanol/gasoline (E15)
- **Maximum flow rate** 8 gallons/minute; maximum viscosity 140 wt.
- **DRM1290 is a handheld** portable transfer pump with a hinged vane design; no bypass valve needed
- **DRM1291 can be handheld or hung-mounted** with included bung tank mount adapter and hinged vane design

NEW!

DRM1291

Fill-Rite Electric Powered Fuel Transfer Pump System			
Item #	1	2+	
DRM1290 • Portable • For Diesel, Gasoline, BioDiesel (up to B20), E15, Kerosene, Mineral Spirits, Methanol (up to 15%) • Requires 12V Direct Current • 8 gal./Minute	\$389	\$369	
DRM1290 Includes • Manual Nozzle • Discharge Hose • Quick Connect Power Cord with Alligator Clips • Air-Line Input Fitting			
DRM1291 • Mountable • For Diesel, Gasoline, BioDiesel (up to B20), E15, Kerosene, Mineral Spirits, Methanol (up to 15%) • Requires 12V Direct Current • 8 gal./Minute	\$410	\$390	
DRM1291 Includes • Manual Nozzle • Discharge Hose • Telescoping Suction Tube • Nozzle Boot • Bung Tank Mount Adapter • Quick Connect Power Cord with Alligator Clips			

Air-Operated Double Diaphragm Pumps — Make the job of moving waste oil quicker and easier with these mountable transfer pumps.

DRM1286
Polypropylene

NEW!

- Pumps are all-polypropylene or aluminum and polypropylene construction
- **For transferring** oil, waste oil, gear lube and automatic transmission fluid (ATF)
- Pump motors are **non-stalling and lube-free**
- Buy just the motor or **entire pump system (DRM1286–DRM1288)** including cam locks, valves, adapters, hoses, filters, mounting bracket and more; system can be mounted to a wall, table or cart

Zee Line Air-Operated Polypropylene Double Diaphragm Pump Motor			
Item #			1+
DRM1283 • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute			\$523
DRM1284 • Aluminum Base with a Polypropylene Center Section • 3/4" Inlet For Motor Oil, Waste Oil, ATF • 14 gal./Minute			\$537
DRM1285 • Aluminum Body with a Polypropylene Center Section • 1" Inlet For Motor Oil, Waste Oil, ATF • 37 gal./Minute			\$838
Zee Line Air-Operated Polypropylene Double Diaphragm Pump			
DRM1286 • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute			\$986
DRM1287 • Aluminum Base with a Polypropylene Center Section 3/4" Inlet • For Motor Oil, Waste Oil, ATF • 14 gal./Minute			\$1016
DRM1288 • Aluminum Body with a Polypropylene Center Section 1" Inlet • For Motor Oil, Waste Oil, ATF • 37 gal./Minute			\$1582
Pump System Includes • Male & Female Cam Locks • Brass Ball Valves • Hydraulic Adapter Swivel • Street Elbow Suction Hose • Discharge Hose • Nipple • Strainer • Wall Mount Bracket • Airline Filter Reducer Bushing			

DRM1287
Aluminum

Air-Operated IBC Pump — Dispense fleet lubricants from IBC units.

- Transfer or dispense liquids **up to 90 wt.**
- **Positive displacement pump** is designed for pumping liquids through meters and oil hose reels with minimum flow loss
- 3:1 pump delivers steady flow of liquid up to **5 gpm**
- Includes **extra-long 42" pick-up tube** and shorter 22½" tube for versatility

DRM367

Zee Line Air-Operated IBC Pump

Item #	1+
DRM367 • For Oil-Based Liquids Air: 50-145 PSI	\$710
DRM367 Contents • 1 Air-Operated Pump Motor • 1 42" L Pump Tube 1 22.5" L Pump Tube • 1 Oil Hose • 1 Air Regulator Combination Unit	

BEST
SELLER!

Dual-Force Vac Pump — Air-operated vac sucks liquids into a drum or pumps out for reclamation.

- Dual-mode design **pumps or vacuums**
- Quiet, air-powered pump has no motor; **requires virtually no maintenance**
- **Automatic safety shutoff valve** prevents overflows
- **Fast-turn switch** changes from fill to empty mode in seconds
- **Installs quickly** on a 55-gallon tight-head steel drum (requires drum with UN Rating of at least 1A1/X1.8/300)
- Pumps up to **33 gpm of oils, coolants and solvents**
- Optional **squeegee attachment** (DRM276) pulls in up to 40 gpm for easier liquid cleanups

DRM903

Vortec Air-Operated Dual-Force Vac Pump

Item #	1+
DRM903 • For Oils, Coolants and Solvents • Air: 50 PSI at 15 SCFM (Min.), 100 PSI at 23 SCFM (Max.)	\$799
DRM903 Contents • 1 Pump Body Assembly With Overflow Preventer • 1 Hose • 1 Drum Evacuation Tube • 1 Extension Wand • 1 Hose Drum Connection 1 Ball Valve With 1/4" NPT • 1 Air Line Filter	
Vortec Squeegee Attachment	
Item #	1+
DRM276 • Steel handle with neoprene blade	\$190

Lever Action Pail Pump — Turn a standard bucket into a mobile lubricant dispenser!

- **Dispenses 3 oz. per stroke** of motor oil, hydraulic oil, automatic transmission fluid or gear lubricants up to 140 weight
- Buna-N O-ring and brass-ringed piston are designed for **use with petroleum-based oils and lubricants**
- Includes **4' clear vinyl hose** with a curved discharge nozzle

DRM694

NOTE: Pail not included.

Zee Line Steel Lever Action Pail Pump

Item #	1+
DRM694 • For Oil-Based Liquids, ATF & Gear Lube (Max. 140 wt.) • 3 oz./Stroke Fits 5- to 6.5-gal. Open-head Pail	\$48

Coliwasasampler — The easy way to sample liquids and semisolids in drums.

DRM151

- **100% chemical-resistant**, see-through tube (polypropylene), rod (thermoplastic polymer) and stoppers (neoprene)
- Features a unique **screw-down locking device** for transferring liquids and semisolids to your in-house lab
- **DRM151** collects up to 130 mL of liquids or semisolids; **DRM152** collects up to 460 mL

Coliwasasampler

Item #	1-2	3+
DRM152 • For Sample Gathering Int. Dia. 1" x 39" L • 10/box	\$268	\$256
DRM151 • For Sample Gathering Int. Dia. .56" x 39" L • 10/box	\$268	\$256

The Ultimate Multitasker

You only have two hands, but **PIG All-Purpose Wipers** will do the work of many. Multitask all around your facility with our most versatile wiper. See **WIP231** on page 149.

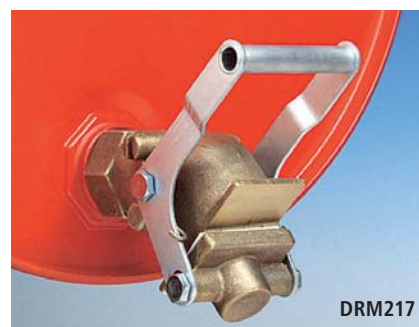

Poly Drum Faucet — Chemical-resistant and great for disposable use.

- Inexpensive faucet **can be discarded** after dispensing liquids that may harden or gel on the faucet over time
- Economical **alternative to steel** faucets to help ensure chemical compatibility
- Ideal for use with **adhesives, resins and fixatives**

Polyethylene Drum Faucet

Item #	1+
DRM347 • For Viscous, Noncorrosive Liquids For 2" NPT Bung • Not Adjustable	\$18
DRM346 • For Nonviscous, Noncorrosive Liquids For .75" NPT Bung • Not Adjustable	\$9

BEST SELLER

Brass Gate Valve — Easily dispenses viscous liquids heavier than SAE 30.

- **Drains thick resins, lubes** and other noncorrosive liquids from 55 gal. drums
- Able to dispense noncorrosive liquids **heavier than SAE 30**
- Solid cast brass construction is **strong and chemical resistant**
- **FM Approved** for dispensing flammables

Brass Gate Drum Valve

Item #	1+
DRM217 • For Noncorrosive High Viscosity Fluids For 2" NPT Bung • Not Adjustable	\$189

Adjustable Stainless Steel Drum Faucet — Ideal for dispensing flammables.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Stainless steel for **added chemical resistance** and long service life
- Faucet **adjusts to desired pouring angle** without remounting
- PTFE seals offer secure, **leak-free operation** with a wide range of liquids

Adjustable Stainless Steel Drum Faucet

Item #	1+
DRM489 • For Flammable & Corrosive Liquids For .75" NPT Bung • Adjustable	\$198

Brass Drum Faucet — Flame arrestor helps prevent ignition.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Self-closing with a **PTFE seal** to help prevent spills
- **Lockable** to prevent unauthorized access
- Available in standard design (DRM244) or **adjustable** (DRM244-01)

Brass Safety Drum Faucet

Item #	1+
DRM244 • For Nonviscous, Noncorrosive Liquids For .75" NPT Bung • Not Adjustable	\$64
DRM244-01 • For Nonviscous, Noncorrosive Liquids • For .75" NPT Bung • Adjustable	\$78

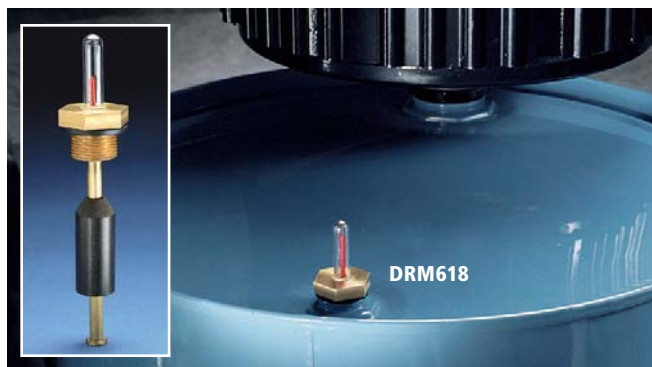

Zinc Drum Faucet with Gauge — See exactly what's left in your drum.

- **Chrome-plated steel drum gauge** with visible fluid level gives quick reading for horizontal drum
- **Zinc faucet** is FM Approved for use with flammable liquids
- For **nonviscous oils and chemicals** except chlorinated solvents or concentrated acids or bases

Zinc Drum Faucet with Gauge

Item #	1+
DRM205 • For 55-gal. Horizontal Drums w/ .75" NPT Bung	\$153

PIG® Pop-Up Gauge — Prevent overfills with a drum gauge that won't leak.

- Durable gauge pops up when drum is near capacity to **help prevent overfilling**
- Solid cast brass construction is **strong and chemical resistant**
- **Nitrile gasket and float** have excellent resistance to petroleum-based fluids and aromatics
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii)

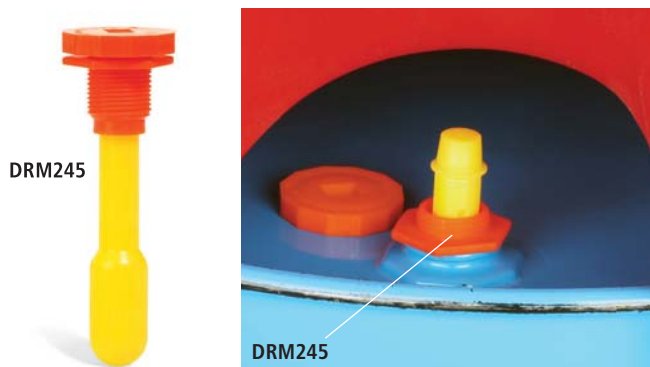

PIG® Flammable Liquids Pop-Up Drum Gauge

Item #	1-4	5+
DRM618 • For 30- and 55-gal. Vertical Drums w/ .75" NPT Bung 8.25" Float Indicator Depth	\$145	\$132

BEST SELLER!

Drum Gauges — Check levels across a wide range of liquids.

- **Avoid overflows and downtime** by quickly checking a drum's liquid level; no guessing or messy dipsticks
- High-contrast, transparent design is **easy to read**, even in low light
- **Simple mechanical design** helps minimize upkeep
- Indicator tube **shows high and low barrel levels** in gallons, lifters and volume percentage
- Designed for use with **vertical drums**

Pop-Up Drum Gauge — Economical gauge signals when drum is nearly full.

- Durable gauge **helps prevent overfilling** by popping up when drum is near capacity
- **Corrosion-resistant polyethylene** withstands most liquids
- Highly visible red and yellow colors offer **easy indication**
- Available in extra-long **11" model** (DRM317) to give an even earlier warning that your drum is nearly full

Pop-Up Drum Gauge

Item #	1-3	4+
DRM317 • 11" Float Indicator Depth • For Drums w/ .75" NPT Bung	\$27	\$26
DRM245 • 5" Float Indicator Depth • For Drums w/ .75" NPT Bung	\$26	\$25

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Drum Gauges

(Specify Size for DRM1292 and DRM1293: 15-Gal., 30-Gal., or 55-Gal.)

Retractable Grounding Reel — Provides tangle-free flexibility for high-use areas.

- Spring-loaded retracting reel maintains a handy length of wire; **prevents tangles to avoid accidents**
- Reel **locks when cable is at desired length** and retracts with a light tug
- Ideal for transferring **flammable materials in high volumes**

Rota-Reel® Retractable Bonding/ Grounding Wire Reel

Item #	1-2	3+
DRM133-50T • Reel Grounding End Hand Clamp Bonding End • 50'L	\$462	\$446
DRM133-20T • Reel Grounding End Hand Clamp Bonding End • 20'L	\$350	\$334

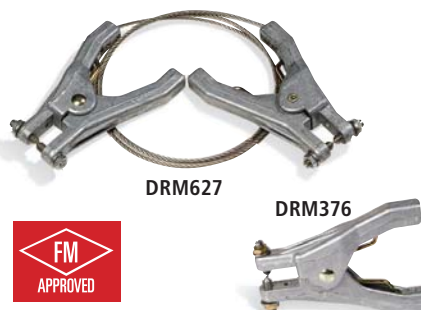

Grounding Wires — Work safer with a coiled grounding wire to prevent tripping.

- Bonding and grounding assemblies **control static electricity** to prevent sparking during flammable liquids transfer or storage; FM Approved, NFPA 77 compliant
- **Coiled wire** provides a solid grounding connection with no tripping hazard
- **Vinyl coating** protects wire from corrosion for outdoor use and longer life

Retract-a-Clamp® Insulated Bonding/ Grounding Wires

Item #	1-3	4+
DRM416 • Hand Clamp Grounding End Hand Clamp Bonding End • 10'L	\$107	\$104
DRM441 • 1/4" Eyelet Grounding End Hand Clamp Bonding End • 10'L	\$77	\$74

Grounding Clamp — NFPA- and FM-compliant grounding for flammables storage.

- Bonding and grounding assemblies **prevent spark danger** while transferring or storing flammable liquids
- **3' galvanized uncoated steel wire** is easy to inspect for dangerous breaks and frays
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

Tuffite® REB2960 Grounding Clamp

Item #	1-3	4+
DRM376 • Hand Clamp	\$37	\$35
DRM627 • Hand Clamp Grounding End Hand Clamp Bonding End • 3'L	\$101	\$97

Bonding/Grounding Wires — Safer flammables transfers.

- **Choose insulated or uninsulated** drum grounding wires
- Available with **various clamp options** to ensure a solid connection on barrels
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

Bonding/Grounding Wires

Item #	1-3	4+
DRM491 • Uninsulated • 1/4" Eyelet Grounding End • Hand Clamp Bonding End • 10'L	\$57	\$53
DRM492 • Insulated • 1/4" Eyelet Grounding End • Hand Clamp Bonding End • 10'L	\$59	\$55
DRM493 • Uninsulated • C-Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$66	\$64
DRM494 • Uninsulated • Hand Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$87	\$83
DRM1235 • Insulated • #10 Ring Terminal Bonding End • Alligator Clip Grounding End • 5'L	\$43	\$41
DRM495 • Uninsulated • Alligator Clip Grounding End • Alligator Clip Bonding End • 3'L	\$39	\$37
DRM498 • Insulated • C-Clamp Grounding End • Alligator Clip Bonding End • 3'L	\$41	\$39

BEST SELLER!

DRM474

Straight-Sided Inserts

Thick 15-mil construction is durable for mixing, pumping and when using follower plates. (See ordering information below)

DRM956

DRM955

Anti-Stat Insert and Liners

Specially treated to dissipate static charges; an extra safety measure when you're handling flammable products. Color-coded pink for easy identification. (DRM955, DRM956 and DRM1098)

DRM923

Round-Bottom Liners

Thinner design (4-mil to 10-mil) is more baglike with a full rounded bottom that won't trap liquids. (See ordering information below)

DRM143

Chemical-Resistant Liner

Multi-layered nylon/poly film resists chemicals, paints, solvents and hot fills that break down standard liners. (DRM143)

GEN302

Accordion-Sided Insert has pleated walls to accommodate variations in reconditioned drums.

Drum and Bucket Liners — Reuse your containers and save on cleaning costs.

- **Reduces the costs** and time associated with cleaning, reconditioning and disposing of used drums and pails
- Helps **eliminate container residues** that could make you liable for future contamination
- Protects contents and **extends drum life**
- Contoured design is **easy to insert**, won't leave folds or pockets that can trap liquid
- Made from **FDA Compliant resins** for containment of food and cosmetic products
- Ideal for storing paints, inks, coatings and other **hard-to-clean materials**
- Three top styles: **snap-over** rolls over the rim of open-head drums and covers the lip; **peel-over** slides over the side of the drum, about 5" past the lip; **tie-off** can be lifted and tied like standard trashbags

*"Buckets are very costly and this liner reduces the need to change the bucket often. **The liners are durable and up to the task.** We've used them for years in a heavy industrial setting and never had one rip or tear."*

— John, GEN308 Customer

DRM1249 • For 55-gal. New Open-head Steel Drums • 6/box	\$60

DRM1340

Drum Lock — Protect drums and their contents with a sleek bung lock.

- **Protects steel drum contents** from cross contamination, theft or sabotage; electrophoretic lock coating is **corrosion-proof** and **made to last a lifetime**
- **Set includes a 2" and a 3/4" drum lock** for bungs on 15–110-gallon steel drums
- **Hinged, one-piece design** is heavy-duty, nonsparking zinc alloy with an all-weather locking mechanism; gator-like grips clamp around the bung plugs

Drum Lock

Item #	1	2+
DRM1340 • For Steel Drums with .75" and 2" Bungs	\$73	\$70

DRM1004

55-Gallon Steel Drum Heater — Warm thick liquids for easier handling.

- **Clamps onto a 55-gallon steel drum** to gradually warm liquids for easier pumping and dispensing
- Thermostat-controlled band can be **adjusted up to 550°F** to accommodate liquids of varying temperatures
- Powered by a **standard 120 V outlet**

55-Gallon Steel Drum Heater

Item #	1+
DRM1004	\$307

NOTE: Not for use with flammable or hazardous liquids.

Drum Replacement Parts — Salvage those still-usable drums and put them back in business!

- **Steel drum replacement parts:** Ring and bolt sets for 55 gal. open-head steel drums; lever drum rings for 55 gal. open-head drums
- **Open-head drum replacement parts:** Rubber gaskets for 55 gal. drums (sold 10/box); drum lids for 55 gal. drums with and without bung fittings; DRM1037 gasket stretches over drum lip to create an air, and liquidproof seal
- **Bungs for tight-head steel drums:** Choose either 2" NPT or 3/4" NPT plated steel bungs with bung gaskets
- **Bungs for tight-head poly drums:** Choose either 2" poly buttress bung or 2" poly NPT bung (both have gaskets)

Drum Replacement Parts

Item #	1+
DRM531 • Drop Forged Drum Ring & Bolt Set for 55-gal. Open-Head Steel Drums	\$32

PIG® Draining Screen — Fit inside a 55-gallon drum for easy draining.

- Steel screen **allows drum to be closed with a latching lid** or covered with a funnel with screen in place
- **Mounts securely** and holds up to 40 lbs.
- Use to **drain filters, buckets and more**
- Mesh **filters out debris**, but lets liquid pass through
- 1" finger hole with rubber grommet for **easy removal**

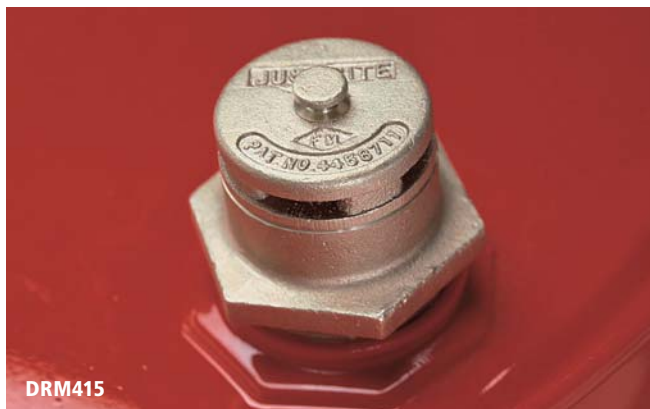

PIG® Draining Drum Screen		
Item #	1-4	5+
DRM135 • For 55-gal. Open-head Steel Drums • .125" Dia. Mesh Opening	\$121	\$115

PIG® Drum Ring Spider — Grabs and squeezes lid rings for easy installation.

- Place "spider" over lid and ring, then **crank legs to hold lid closed** for nut-and-bolt securing
- Coarse thread on closure mechanism **tightens quickly** with limited cranking
- For **55-gallon open-head drums**, especially if lid rings become hard to install

PIG® Drum Ring Spider		
Item #		1+
DRM1044 • For 55-gal. drums		\$168

DRM415

Safety Drum Vent — Relieves dangerous pressure in vertical or horizontal drums.

- **DRM415** automatically **relieves vacuum and pressure** at 5 psi
- **DRM201** automatically **relieves pressure** at 5 psig; vent manually to relieve vacuum
- **Flame arrestor** prevents flashback ignition
- **Solid cast brass** construction

DRM201

Safety Drum Vent

Item #	1+
DRM415 • For 55-gal. Vertical Drums w/ 2" NPT Bung	\$103 *
DRM201 • For 55-gal. Horizontal Drums w/ 2" NPT Bung	\$83 *

* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRM1295

IBC Fill Cap Wrench — Tightly closed center caps are no problem for this tool.

- Lightweight IBC tote wrench can help you **achieve the right torque to remove a tightly closed IBC cap**
- **Double handles** ease the opening of previously torqued fill caps; **can also be used to tighten fill caps** for in-plant use
- **Helps you comply with UN/DOT closure requirements** prior to shipping by inserting a 1/2" drive manual torque wrench (sold separately) into the center and applying the specified torque

DRM1295

- **Compatible with most 6-inch IBC caps**

IBC Fill Cap Wrench

Deluxe Drum Plug Wrench — Open almost any drum bung with ease.

- Versatile **wrenches** open **standard and nonstandard drum bungs**; also work as ring and faucet wrenches
- Available in durable **zinc-plated steel** or **nonsparking bronze alloy**
- Deluxe wrench** (DRM1019, DRM1020) features an elongated handle for extra leverage and knuckle protection
- Multi-purpose wrench** (DRM1017, DRM1018) features an angled handle for knuckle protection

Deluxe Drum Plug Wrench			
Item #	1-3	4+	
DRM1019 • Polished Zinc Cast Steel • 2"W x 12"L	\$74	\$69	
DRM1020 • Nonsparking Bronze Alloy • 2"W x 12"L	\$116	\$110	
Multi-Purpose Drum Plug Wrench			
Item #	1-3	4+	
DRM1017 • Polished Zinc Cast Steel • 5"W x 13"L	\$85	\$78	
DRM1018 • Nonsparking Bronze Alloy • 5"W x 13"L	\$175	\$163	

PIG™ Torque Socket — Fits any 3/8" wrench to close bungs to proper specs.

- Tightens most 2" and 3/4" poly and steel drum bung plugs**, including Tri-Sure and Rieke
- Durable construction features **steel with zinc plating**
- ◆ **Helps you comply** with 49 CFR 173.22(a)(4) requiring shippers to tighten container closure devices to specifications of manufacturer

DRM818

PIG™ Drum Plug Torque Socket			
Item #	1-3	4+	
DRM818 • .38"L	\$51	\$46.65	
Drum Torque Wrench			
Item #	1+		
TLS404 • 14.25"L	\$82		

BEST
SELLER!

Nonsparking Drum Plug Wrench — Avoid sparks and knuckle scrapes.

- Durable, **nonsparking aluminum** is safe around flammables
- Offset handle design **reduces user stress** and prevents knuckle scraping
- Fits most **round- and hex-style** bung plugs (not compatible with 3/4" Rieke plugs)

Non-Sparking Drum Plug Wrench			
Item #	1-3	4+	
DRM1058 • 10.5"L • For Most Round- & Hex-style Drum Plugs (Not Compatible w/ .75" Rieke Plugs)	\$27	\$25	

Drum Plug Wrench — Economical cast iron wrench is built to last.

- Inexpensive way** to open and close most domestic steel and plastic drum plugs
- Durable cast iron** construction and zinc-plated finish
- 12" handle with offset allows **two-handed use** for stubborn bungs

Drum Plug Wrench				
Item #	1-2	3-5	6+	
DRM315 • 2.5"W x 12"L	\$32	\$30	\$25	

Drum Deheader — Helps prevent injury by flattening sharp edges as it cuts.

- Unique design flattens sharp edges as it cuts to **help protect hands and arms**
- Easy-operating 20" handle provides **maximum leverage**
- Sharp, hardened steel blade** easily opens any steel drum
- Plastic handgrip helps make deheading **easier on your hands**

Drum Deheader		
Item #	1+	
DRM1025 • 4"W x 20"L	\$108	
DRM1026 • Replacement Blade	\$23	

PIG® Spill Containment Cart — Mobile sump catches leaks and spills from drums.

- Sump holds up to **57 gallons** of spilled hazardous liquids from leaking drums
- Grate and drain plug remove for **easy emptying and cleaning**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste

PIG® Poly Spill Containment Cart		
Item #	1-2	3+
PAK648 • For 5- to 55-gal. Drums • 500 lb. load capacity 57 gal. sump capacity	\$940	\$899

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PIG® Steel Spill Cart — Move your drum on a 33-gallon containment sump.

- **Rugged, welded-steel** construction withstands strenuous use
- Chemical-resistant, **6" polyurethane wheels** roll easily, even over rough surfaces
- **Rear swivel wheels** have brakes
- Steel grating deck lifts out for **easy sump cleaning**
- **Pipe handle has cross bracing** to add strength; handle removes for easier storage
- **Cart is compatible with** most oils, solvents, lubricants and flammables

PIG™ Steel Spill Containment Cart	
Item #	1+
PAK994 • For 5- to 55-gal. Drums 2,000 lb. load capacity • 33 gal. sump capacity	\$699

PIG® Adjustable Dolly — Fits drums and overpacks.

- Fits 55-gallon drums and most overpacks (**adjustable diameters from 22¾" to 26½"**)
- **Heavy-duty ¾" steel frame** adjusts in minutes with bolts and lock nuts
- **Curved ends** hold drum tight
- **Hard rubber casters** for smooth rolling
- **Brakes keep dolly from moving**

PIG™ Adjustable Drum Dolly	
Item #	1+
DLY301-01 • For 55-gal. Drums and Containers from 22.75" to 26.5" Dia. 800 lb. Load Capacity	\$202

Graduated steps accept various containers.

Multi-Level Quad Dolly — Holds or moves buckets, LP tanks or drums.

- **Dolly base has multiple levels** to accommodate 5-gallon buckets, LP tanks and 30- and 55-gallon drums
- **Steel construction** is strong and durable
- Highly polished zinc finish **resists corrosion**

Vestil® Heavy-Duty Multi-Level Quad Dolly		
Item #	1-2	3+
DRM877 • For 5-gal. Pail and 30- to 55-gal. Drums • 1,200 lb. load capacity	\$190	\$177
DRM876 • For 5-gal. Pail and 30- to 55-gal. Drums • 900 lb. load capacity	\$138	\$131

PIG® Drum Sock Dolly — Use with a PIG Sock to catch leaks.

- Built to **hold up to 800 lbs.** while capturing leaks and drips
- Base design **holds a PIG Absorbent Sock** for extra leak-catching power (sold separately on page 34)
- **Hard rubber wheels** won't crack like plastic
- **Lockable casters** add stability

PIG™ Drum Sock Dolly	
Item #	1+
DRM380 • For 30- and 55-gal. Drums 800 lb. Load Capacity	\$162

PIG Spill Drum Dolly — Simple solution for drum storage and transport is always ready to catch leaks and spills.

- **Holds up to 500 lbs.** for easy moving of 55-gallon drums even when they're full
- **11-gallon sump** provides protection from minor spills and leaks
- **Free-rolling casters** and optional handle (DRM787) make drum transport easy

DRM949

PIG® Spill Drum Dolly			
Item #	1-2	3+	
DRM786 • White • For 5- to 55-gal. Drums • 500 lb. load capacity 11 gal. sump capacity	\$185	\$173	
DRM949 • Hi-Viz Green • For 5- to 55-gal. Drums • 500 lb. load capacity 11 gal. sump capacity	\$192	\$180	
DRM787 • Handle	\$38	\$37	

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PIG Drum Spill Tray — Store a 55-gallon drum in compliance with regulations so leaks can't touch your floor.

- **Catches drips, leaks and spills** that can make your floor a big mess
- **With a 55 gal. drum in place**, DRM369 holds 15 gal.; DRM371 holds 14 gal.
- **Tray with removable grate** (DRM371) holds four 5-gallon buckets or leaky batteries above leaked liquids
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

PIG® Drum Spill Tray			
Item #	1-5	6-10	11+
DRM369 • 32.25"W x 32.25"L x 8.25"H 22 gal. sump capacity	\$96	\$92	\$88
DRM371 • With Grate 32.25"W x 32.25"L x 8.25"H 21 gal. sump capacity	\$135	\$127	\$122
DRM484 • PIG™ Drum Dolly 800 lb. load capacity	\$178		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

DLY306

BE READY TO ROLL!

Wesco Drum Trucks — Simple solutions that let you roll, drain and dispense from just about any drum.

- Drum trucks make it easy for one person to **safely move drums** around your facility, even in busy areas
- Heavy-duty, welded steel construction **holds up to 1,000 lbs.**; (DRM1078–DRM1079 are lightweight aluminum, hold up to 700 lbs.)
- Stable, **4-wheel design** helps you move drums without strains or tipovers (select models, see table at right)
- DRM250, DRM211 and DRM1251 are specially designed **for use with poly or fiber drums**; wide feet and security belt help prevent gouges and punctures
- **Built-in kickstand** secures drum truck when not in motion (DLY303, DRM250, DRM464, DRM997, DRM1250 and DRM1251)
- **Wheel options:** Shock-absorbing **Moldon rubber wheels** for rough or outdoor surfaces; **Polyurethane wheels** are made to handle rough surfaces indoors; chemical-resistant **polyolefin wheels** for hard, smooth surfaces indoors; **pneumatic tires** offer a smooth, cushioned ride over any surface

Multi-Purpose Drum Truck

- **Rear wheels** help you maneuver stand when it's in draining position

DLY303

- Truck doubles as a cradle for draining; just add a spigot to have an **all-in-one mobile dispensing rig**

Draining Drum Truck

- Add a spigot and this truck doubles as a **dispensing cradle**
- **Rear wheels** help you maneuver stand when it's in draining position

Aluminum Drum Truck

- Corrosion-resistant aluminum is lightweight and **safe for use with flammables**
- DRM1079 includes a **handle brake** for extra stopping power

Poly Drum Truck

- Specially formed nose pads help you safely transport poly drums and overpacks without damage

Knock Down Drum Truck

- Ergonomic design for easier handling; ships boxed to save on freight
- DRM1250 for **steel drums**; DRM1251 for **poly drums**

Easy Load Drum Truck

- Extra-stable, 4-wheel design and double-welded steel pipe frame make this drum truck ideal for harsh environments

Economy Drum Truck

- Wide 24" handle with vinyl grips ensures easy maneuvering
- Double-welded, budget friendly design is ideal for occasional drum handling

PIG FLAMMABLE SAFETY CABINETS

**Built to last a lifetime.
Guaranteed.**

No other cabinets on the market are stronger or have better features. From fully MIG-welded construction to door faces that are 56% thicker than the competition, our cabinets are built to take decades of industrial use. And with our lifetime warranty, you can buy our cabinets once and use them forever — if there's ever a problem, we'll replace your cabinet or refund your money.

We have dozens of sizes and styles to match your application. See our full selection on pages 354–357.

**The only Flammable
Safety Cabinets tough
enough to wear the PIG label!**

Rounded, one-piece corners	Fastened 90-degree corner pieces
Hybrid powder coating	Conventional powder coating or enamel paint

EXPERT ADVICE

Watch this video to see why our cabinets are the best-built, best-backed on the market: newpig.com/safetycabinets

Check out these FAQs for help choosing the best cabinet to store flammables: newpig.com/flammable-cabinet-FAQs

Every PIG Flammable Safety Cabinet is built

Self-closing models have a fusible link that melts in a fire; allows you to prop doors open.

Full-width shelf hangers are stronger than individual, spot-welded column hangers.

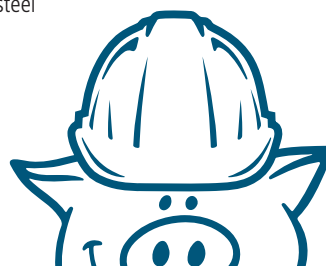

Fully enclosed bullet hinges won't trap grime. More durable than piano hinges.

Three-point zinc latch ensures spark-free closing every time.

Recessed door handle with keyed lock won't snag on passing traffic.

LIFETIME WARRANTY

If you're not satisfied, we'll replace the cabinet or offer you a full refund.

- **FM Approved** for the storage of flammables (meets NFPA and OSHA specs); models with self-closing doors meet UFC standards
- **Fully MIG-welded** 14- and 18-gauge steel body is built for a lifetime of continuous use
- Impact-resistant, 14-gauge steel door faces are **56% thicker than competing cabinets**
- **Three-point zinc latch** ensures fail-safe, nonsparking door closure
- **Recessed handle** won't catch on passing traffic
- **4" bullet hinges** feature self-lubricating, fully enclosed brass pins
- Double-wall construction with 1½" of insulating air space **adds fire protection**
- **2" leakproof sump** contains leaks, drips and spills
- **Flame arrestor** vents on right and left sides of cabinet help prevent flashback ignition
- **Full-width, welded shelf hangers** offer maximum support and increase sidewall thickness
- **Grounding connection** inhibits static buildup
- Hybrid powder-coat finish **resists chemicals and corrosion**
- Leveling feet can be **adjusted for stability**

NOTE: OSHA codes state that no more than 60 gallons may be Category 1, 2 or 3 flammable liquids, and no more than 120 gallons may be Category 4 flammable liquids.

*"Thank you! This is EXACTLY what I was looking for.
Super sturdy. Super easy to set up. Super easy to use.
I'm in Hog Heaven!"*

— Mark, PIG Heavy-Duty Poly Modular
Spill Deck Customer

SPILL CONTAINMENT

Store and secure your liquids on field-proven PIG Containment products.

Keep dangerous liquids in drums, IBCs and tanks on lockdown! PIG Spill Containment products are tested and proven to handle real-world abuse and harsh weather, year after year. No matter what conditions you're dealing with, your liquids stay secure.

- **PIG Pallets and Decks** are the strongest you can buy for drum storage at any capacity
- **IBC Containment** is designed to handle your totes' larger capacities for safe, compliant storage
- **Roll Top Hardcovers** deliver weathertight security to meet your outdoor drum storage needs
- **Collapsible Containment** offers portable roll-over and drive-in solutions for easy loading and fast setup
- **Trays, Basins and Bags** capture leaks and drips from just about anything to keep floors safe and dry

“TRUST US — THIS STUFF IS TOUGH.”

We know that containment products take a beating in the real world, so we engineer ours to a higher standard that won't fail you. Guaranteed.

Dan Gongloff — Product Development

◆ HELPS YOU COMPLY

Depending on your application and capacities, many PIG containment products can help you meet EPA regulations.

40 CFR 264.175 requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

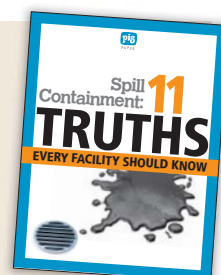

EXPERT ADVICE: FREE WHITE PAPER

Spill containment is a big part of complying with water pollution regs. Know these 11 truths! Download the white paper: newpig.com/11truths

YOU CAN'T BUY A STRONGER PALLET OR DECK.

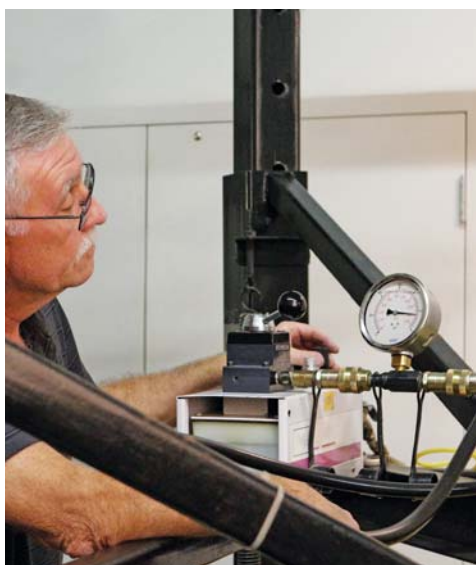

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

Extreme measures

We built the hulking machine shown on this page to push the limits of our decks and pallets. It can easily simulate your real-world applications, but that's just the beginning. We crank up the pressure — and keep it there for months — to ensure performance when it counts. So whatever you do to your PIG Pallets, we've torture-tested ours even worse.

It pays to be PIG Tough.

Don't waste your money on products that can't take the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

30,000 reasons why PIG won't fail.

Our in-house compression tester can deliver loads equivalent to 30,000 lbs. of drum weight. Way more than you'll ever see in the real world.

EXPERT ADVICE

Decks and pallets can fit multiple needs. Read this article for help choosing which is best for your application: newpig.com/deck-or-pallet

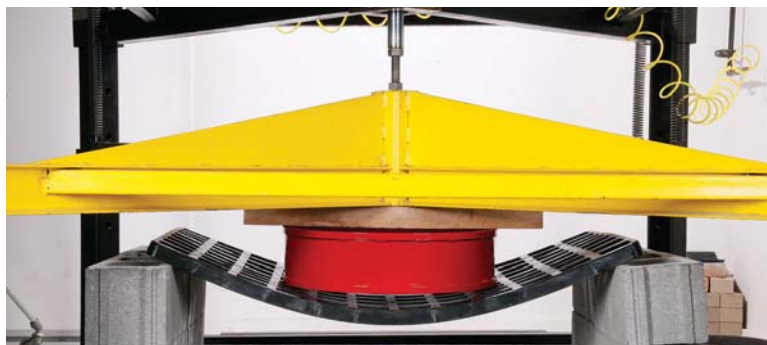

Designed
& Tested
PIG
TOUGH

PASS! PIG grates can take the pressure.

Our compression tester simulates long-term, full-capacity drum storage. PIG Decks and Pallets pass the test with flying colors!

FAIL! Other brands bend and bow.

Anything less than level is an accident waiting to happen. Why risk it? Play it safe with stronger grates from PIG!

CHOOSING THE RIGHT CONTAINMENT: DO YOU NEED A PALLET OR A DECK?

PAK210
PIG Poly Spill
Containment Pallet

PAK531
PIG Poly Modular
Spill Deck

Pallets are best when:

- **You need full containment** for your drum storage area to meet EPA regulations; Spill Pallets have larger sumps to accommodate the number of drums they're intended to be used with
- **You need to move your containment** with a forklift; most models can only be moved without drums, but our Heavy-Duty Pallets can be moved fully loaded (see pages 368–369)
- **You don't have enough floor space** to build a modular drum storage system; pallets are taller, making them a better choice when you can't build outward

Decks are ideal when:

- **You need to store drums of non-hazardous liquids** in order to catch leaks and drips, but compliance is not required
- **You need to store smaller containers** of hazardous liquids in full containment to meet EPA regulations; as long as the math works out, decks can help you meet regs, but not as efficiently as pallets (call us for help if you're not sure!)
- **You need easier access** to your drum tops or containers; decks are lower profile than pallets, keeping stored items closer at hand
- **You need to connect multiple units** with shared sumps

◆ HELPS YOU COMPLY

When compliance is a must, put your trust in PIG.

Storing drums or leaky equipment on PIG Pallets and Decks is about more than just maintaining a professional appearance. They also play a big role in maintaining regulation compliance at your facility.

- ◆ **Helps you comply** with 40 CFR 264.175 **Secondary Containment Regs** requiring full containment for hazardous waste to prevent releases into the environment
- ◆ **Helps you comply** with 40 CFR 122.26 **Stormwater Regulations** requiring facilities with an SWPPP to describe the plan and equipment available to prevent illegal discharge of pollutants into waterways
- ◆ **Helps you comply** with 40 CFR 112.7 **SPCC Regulations** requiring facilities to have written plans and documentation of the products that are in place to prevent discharge of oil into waters

Create a top-to-bottom compliant transfer station.

Once you've got a PIG Spill Pallet underneath your drums, top off your transfer station with a PIG Burpless Steel Funnel to help satisfy the EPA's closed container regulations.

- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

SEE OUR FUNNELS
ON PAGES 308–310.

sold on page 309.

**BEST
SELLER!**

PAK210

PIG Poly Spill Pallet — The strongest standard pallet you can buy for everyday drum storage.

- **6,000 lb. UDL capacity** holds four fully loaded steel or poly drums
- Low 10" height means **easy loading and unloading**
- **Molded-in sump** catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- Textured grating **adds traction and lifts out** for easy sump access
- **Two-way forklift entry** allows easy movement from either direction (unloaded only)
- **Compact footprint** reduces floor space needed for drum storage
- **Optional drain plug**; empty sump without removing drums or grate
- **Poly Loading Ramp (PAK734)** is chemical-resistant and easy to position

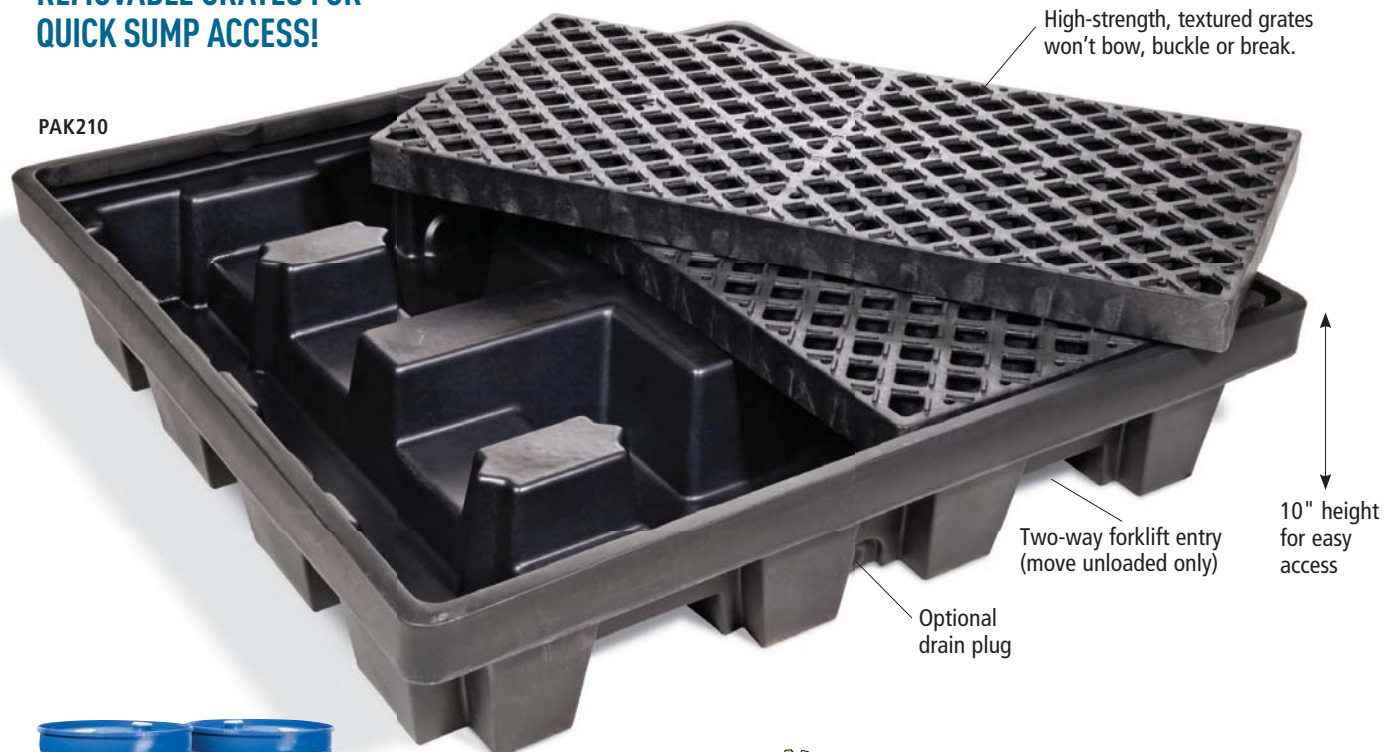

- ◆ **Helps you comply with** 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply with** 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply with** 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

PIG® Poly Spill Containment Pallet			
(Specify: With drain or without drain • Add \$15 to price shown for Pallet with drain)			
Item #	1-2	3-6	7+
PAK210 • Holds (4) 55-gal. Steel or Poly Drums • 66 gal. sump capacity • 6,000 lb. load capacity • 51"W x 51"L x 10"H	\$350	\$340	\$325
PIG® Poly Loading Ramp			
Item #	1+		
PAK734 • Use with PAK210 • 700 lb. load capacity	\$248		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

REMOVABLE GRATES FOR QUICK SUMP ACCESS!

PAK210

Engineered to handle poly drums too!

Nestable design lets you stack unused pallets and saves money on bulk shipping.

Load drums onto PAK210 using a poly loading ramp (PAK734).

DON'T LET THIS HAPPEN TO YOU!

Did your bargain-basement containment pallet come with a warning? Not all pallets are all created equal. First there's a little bending, bowing or warping. Then drums are leaning, tipping and spilling. A cheap pallet might save you a few bucks up front, but you'll always pay more in the end.

PIG Pallets are **PIG TOUGH**. Guaranteed.

HEAVY LOADS? BRING 'EM ON.

PAK672

Nonslip structural grates
on the deck surface won't
bow, buckle or break.

Only 8¾"
high!

Optional
drain plug

Four-way forklift entry
for easy movement —
even when fully loaded!

pig Heavy-Duty Spill Pallet — The strongest pallet on the market won't bow or buckle. Guaranteed.

- The strongest, **most durable** containment pallets you can buy
 - Innovative design **transfers weight to load-bearing channels** to maximize capacity
 - Molded-in sump **catches leaks, drips and spills** to help you comply with regulations and keep your storage areas clean and safe
 - Low height means **loading and unloading require less effort** and drum tops are within easier reach
 - Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
 - Textured grating **adds traction and lifts out** for easy sump access; optional drain plug lets you **empty sump without removing drums** or grating
 - ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
 - ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
 - ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- NOTE: Loaded drums should be properly secured before moving.

PIG Heavy-Duty Grates — Up to 2X thicker and 4X stronger than the competition.

The grates in our Heavy-Duty Pallets are tested and proven to support the weight of fully loaded poly drums — long term — without failing.

Other grates bow and sag under poly drums, and over time, the weight will cause the pallet to fail.

PAK604
Engineered to be moved fully loaded.
(Straps not included.)

PIG® Heavy-Duty Poly Spill Containment Pallet

(Specify: With drain or without drain; Add \$15 to price shown for Pallet with drain)

PIG Economy Spill Pallet — Our most economical pallets are made of up to 97% recycled content!

- Low-density, 100% polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**; is up to 97% recycled
- Textured grating **adds traction and lifts out** for easy sump access
- **Four-way (PAK606) or two-way (PAK605) forklift entries** allow access for easy movement (unloaded only)
- We test all PIG Containment Pallet designs at max load for months to ensure they can **handle full capacity at your facility**
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

"Our greenhouse has two fertilizer supply tanks that needed oil containment. The Economy Spill Containment Pallet was a perfect fit for our operation. It is narrow enough to be out of the way but still holds 110% of the fertilizer volume."

— Tom K., PAK605 Customer

PIG® Economy Poly Spill Containment Pallet 			
(Specify: With drain or without drain • Add \$15 to price shown for Pallet with drain)			
Item #	1-2	3-6	7+
PAK606 • Holds (4) 55-gal. Steel Drums • 66 gal. sump capacity 5,000 lb. load capacity • 53"W x 53"L x 12"H	\$303	\$290	\$280
PAK605 • Holds (2) 55-gal. Steel Drums • 66 gal. sump capacity 1,500 lb. load capacity • 28.75"W x 53"L x 16.31"H	\$223	\$196	\$191
PIG® Poly Loading Ramp 			
Item #	1+		
PAK989 • Use with PAK606 • 700 lb. load capacity	\$350		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.
Poly Drum Notice: Not recommended for long term storage of poly drums.

You don't need a forklift to load drums onto pallets. A simple hand truck will do the job when you add our Poly Loading Ramp.

Steel Pallet — Fully welded, 12-gauge steel pallet is designed for safe storage of flammables.

- Durable, 12-gauge steel **can be bonded and grounded** to control static electricity and prevent sparking while transferring or storing flammable liquids
- **Fully welded sump meets UFC requirements**; catches leaks and spills to help you comply with regs and keep floors slip-free
- Powder-coating **guards against rust and corrosion**
- Drain plug lets you **empty sump without removing drums**; lift-out grating for easy access
- **Four-way forklift entry** allows easy movement from any direction (unloaded only)

◆ **Helps you comply** with regulations listed on opposite page

PIG™ Steel Spill Containment Pallet 			
Item #	1-4	5+

PAK603

Optional ramp makes loading and unloading drums easier.

PAK239

**BE SAFE! BUY
GROUNDING WIRES
ON PAGE 338.**

PAK223

PAK225

This durable ramp attaches to the PIG Steel Deck; edge guards guide drum trucks and keep them on the ramp.

Steel Deck — Low-profile storage is ideal for flammables and has regulation sump capacity.

- **Economical alternative** to steel pallets; avoid extra costs of pallet feet while still benefiting from full containment capacity
- Full-height internal **support channels add strength**; flow-through vents allow liquid to spread across sump
- Durable, powder-coated steel **resists dents and provides years of service**
- **Steel grating** lifts out for access to sump
- **Can be grounded** to avoid static sparking
- Available with storage for **up to six drums** at an easily accessible 6½" height (except for PAK220)
- **Closed sump** catches leaks and spills to help keep floors safe
- ◆ **Helps you comply** with regulations listed on opposite page (except PAK223)

PIG™ Steel Spill Containment Deck 		
Item #	1+	
PAK222 • Holds (6) 55-gal. Steel Drums 99 gal. sump capacity • 9,000 lb. load capacity 51"W x 76.5"L x 6.5"H	\$1135

PAK220 • Holds (2) 55-gal. Steel Drums 66 gal. sump capacity • 3,000 lb. load capacity 26"W x 51"L x 12"H	\$565	
PAK223 • Holds (2) 55-gal. Steel Drums 33 gal. sump capacity • 3,000 lb. load capacity 26"W x 51"L x 6.5"H	\$456	
PAK225 • Use with PAK221, PAK222 and PAK223 • 1,500 lb. load capacity	\$300	

PIG® Bladder Deck — Roll out 55 gallons of additional sump capacity!

PAK523
Full bladder deployment requires clearance of 66"W x 58"D in front of deck.

- Patented **"flow-through" sump design** lets liquid pass freely from the sump to the bladder to help you comply with containment regs
- Modular design with exclusive bulkhead fittings and predrilled ports to connect to other decks; **5¾"H decks are ready to use**
- Integrated bladder box provides extra **55 gallons of containment**
- **Predrilled, plugged ports** allow you to connect to any PIG Poly Modular Spill Deck
- **Molded-in sump** catches leaks and spills to keep storage areas clean
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and chemicals** (call for compatibility)
- **Replacement Bladder (PAK525)** recommended after bladder is used; Loading Ramp (PAK726) sold on opposite page
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Deck captures small spills and leaks. Bladder stays rolled up behind trap door until sump is full and then deploys automatically.

PIG® Bladder Spill Containment Deck

Item #	1-2	3-6	7+
PAK530 • Holds (4) 55-gal. Steel or Poly Drums • 99 gal. sump capacity • 6,000 lb. load capacity • 52"W x 56"L x 5.75"H	\$462	\$451	\$441
PAK528 • Holds (2) 55-gal. Steel or Poly Drums • 77 gal. sump capacity • 3,000 lb. load capacity • 26"W x 56"L x 5.75"H	\$346	\$335	\$325

PIG Poly Modular Spill Deck — Build up to your required sump capacity with our connectable, sump-sharing decks.

- Patented **flow-through sump design** lets liquid pass from one sump to another; helps you meet containment regs
- Modular design features bulkhead fittings and predrilled ports to **connect to other decks**; ready to use as soon as they arrive
- **Mix and match** the sections you need to fit your space and help meet sump capacity requirements
- **Special tools and hardware** to connect sections included
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating** adds traction and lifts out for easy sump access
- Translucent white sidewalls allow **easy visual inspection**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste (depending on size of containers stored and number of deck sections)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where absorbents, barriers and containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

NOTE: PIG Heavy Duty Poly Modular Deck and PIG Poly Modular Deck components cannot be joined together due to their different heights.

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

Choose our standard decks for drum storage and everyday applications.

PIG® Poly Modular Spill Deck

Lift truck? No sweat. The 9-deck system shown here has a combined 300,000 lb. UDL capacity and 264-gallon sump.

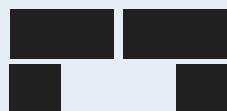

PAK531

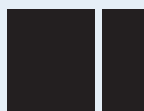

PAK466

Combine sections to create a custom containment area:

Configure to tight spaces easily.

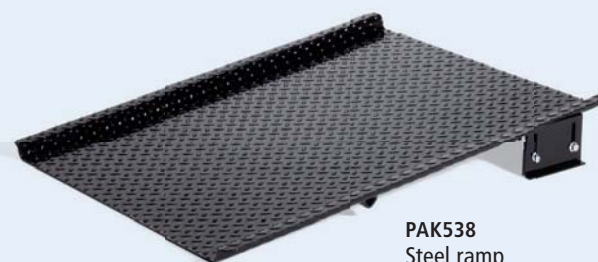

Create a 6-drum deck that complies — with just 2 sections.

Create a linear storage area.

DID YOU KNOW?

Uniform Distribution Load (UDL) refers to the amount of weight a product can handle over its entire surface. For example, a unit with a 50,000-pound UDL capacity will not be able to support the weight of a 50,000-pound tank on four legs. The weight needs to be evenly distributed over the entire surface. For more information about load capacity and testing, see page 364.

PAK538
Steel ramp

Add a ramp to make drum loading and unloading easier.

- A poly ramp (PAK726, shown on page 374) is easy to handle and more economical
- A steel ramp (PAK538) has a heavier weight capacity

PIG ROLL TOP HARDCOVERS

PAK601
PIG 2-Drum Roll Top
Hardcover Spill Pallet
(See page 379)

Why do I need a Roll Top?

Drums stored outdoors are an easy target for EPA inspectors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out. But New Pig has you (and your drums) covered. PIG Roll Top Hardcover stands up to even the toughest conditions, keeping liquids in and the elements out.

- **Weathertight roll top slides up** for easy access while the rest of the hardcover stays closed
- **Covered pallet has built-in sump** to catch leaks, drips and spills; helps you meet drum containment regs
- **Heavy-duty construction** allows entire unit to be moved with drums in place
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with SPCC and Stormwater Regs

Products for outdoor drum and IBC storage:

PIG Roll Top Hardcover Spill Pallets	378-379
PIG Pallet with Hinged Hardcover	380
PIG Poly Storage Shed	380
Drum HazMat Containment Station	381
Outdoor Covers & Tarps	381
PIG IBC Roll Top Hardcover Spill Pallet	387

STORE YOUR HAZ WASTE OUTDOORS AND IN COMPLIANCE.

FROM IBCs
TO BATTERIES,
WE'VE GOT YOU
COVERED!

PIG EXPERT ADVICE

Storing containers outdoors in areas where rain and snow are common could lead to run-on entering your secondary containment systems. Run-on is rain or snowmelt that accumulates in sumps. If hazardous waste is being stored outside, EPA says that run-on "must be prevented," or there must be sufficient sump capacity to accommodate both run-on and the largest potential spill.

Keep reading at newpig.com/prevent-run-on

DRUM STORAGE FOR RAIN, SHINE, SLEET OR SNOW.

Roll Top Spill Pallets — Protect your drums from the elements using our roomy roll tops.

- Roll top slides up for **easy access to drum tops** while the rest of the unit stays closed; store drums with pumps or funnels in place
- **Low-profile pallet** with sump catches leaks, drips and spills while keeping drum tops and accessories within reach
- **Weather-resistant design** prevents contaminants from entering stormwater
- Heavy-duty construction allows unit to be **lifted by a forklift with drums in place**
- Low-density polyethylene (LDPE) with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- Durable **swing-out doors** on front for easy loading and unloading (PAK601); swing-out doors on front and rear provide easy access from both sides (PAK901)
- Doors and roll top **can be secured with padlock** (sold separately)
- **Single drum roll top** features a two-piece design to provide protected storage and liquid containment

- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste (except DRM828)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 112.26 Stormwater Regulations

Hardcover and pallet (PAK901, PAK601, PAK150) can be lifted by a forklift with drums in place. No need to unload them!

Forklift collar on DRM828 lets you move fully loaded unit.

Setup is simple! Just load a drum on the pallet, drop sleeve over drum and attach roll top hardcover.

Optional bucket shelf
makes dispensing easy.

PAK736

IBC Spill Pallet — Your heavy tote is no problem for our 8,000 lb. capacity pallet.

PIG PALLETS HAVE THE POWER!

Problem: Customers needed a compact, easy-to-use pallet for their IBCs with enough sump volume to meet regs.

Finding the solution: Our Poly IBC Spill Containment Pallet has an innovative support system that doesn't cut into sump capacity but keeps the unit low and easy to use. We topped it with the heaviest grates in the industry for unbeatable strength and added 17% more surface area to make it easier to position your totes. As a final touch, we gave it the only closed sump on the market to keep out debris and make liquid recovery easier.

Problem solved: PIG Poly IBC Spill Containment Pallet

- The best blend of **strength and value** without paying for more capacity than you need
- Strong enough for long-term storage of IBCs, this innovative design **transfers weight** to load-bearing channels
- Molded-in sump catches leaks, drips and spills to **help you comply with regulations** and keep storage areas clean
- **Low profile** for easy access to and dispensing from IBC tanks; 27" height for single unit, 22" height for twin
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Two-way forklift entry** allows movement from either direction when not loaded
- **Textured grating** holds a variety of IBC sizes; lifts out for easy access to sump
- **Pallet with attached bucket shelf (PAK736, PAK940)** drains collected liquids into main sump for neater, easier dispensing (extra bucket shelf sold separately as PAK1011)

◆ **Helps you comply** with regs listed on page 384

Tank Containment Sump — Contain leaks up to 1,100 gallons to avoid major spills, indoors or out.

- Safely stores up to 1,000-gallon oval tanks; **no measuring or guesswork required**
- **Extra-large sump** contains leaks, spills and overfills; helps prevent groundwater contamination outdoors and slippery floors indoors
- Low-density polyethylene **resists UV rays, rust, corrosion and most chemicals** for a long, troublefree life
- Choose **either ¾" or 2" drain plug** for convenient emptying; also available without drain
- **Use with tarp** (sold separately) to prevent accumulation of rainwater outdoors
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 126.26 Stormwater Regulations

PIG® Elasticized Tarp 		
Item #	1+	
PAK969 • For PAK750	\$307	
PAK579 • For PAK949 & PAK580	\$215	

Self Bailer Kit — Stops containment outflow in an oil or hydrocarbon spill.

- Easily attaches to a spill pallet or tank containment unit with a ¾" drain; **acts as a fail-safe design**
- **Automatically stops outflow** if filter senses a large hydrocarbon leak or if absorbent cartridge is completely saturated from hydrocarbons
- See all sizes on page 396

PIG® Self Bailer Kit 	
Item #	1+
FLT517 • Flow Rate 7.5-gal. per Hour • Ext. Dia. 3.75" x 36"L	\$354

Tank Spill Containment Tray — A big oil tank needs a big containment tray!

- **Catch drips** from 275-gallon tanks before they create messes and slippery floors
- Made of 100% polyethylene; **won't rust, dent or corrode**
- **Galvanized steel footplates** prevent tank legs from puncturing tub

Tank Spill Containment Tray		
Item #	1-2	3+
PAK640 • 30"W x 60"L x 4.5"H • 35 gal. sump capacity	\$147	\$137
Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.		

PIG Pallet Rack Sump — Add secondary containment to your existing system.

- Holds almost any wood, poly or metal pallet **above sump** without **grating**; supports four fully loaded drums or an IBC
- Sump allows **vertical segregation of incompatible materials**
- **Resists UV rays, rust, corrosion, most chemicals**
- **Drops right into steel pallet racks** from 36" to 48" deep

PIG® Pallet Rack Containment Sump

(Specify: With drain or without drain **Add \$28** to price shown for Sump with drain)

Item #	1+
PAK219 • Holds (4) 55-gal. Steel or Poly Drums or (1) IBC • 66 gal. sump capacity 3,000 lb. load capacity • 52"W x 52"L x 11.5"H	\$403

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. IT'S THIRSTY! PIG BLUE MAT

100 heavyweight
Pig Blue Mat Pads
will absorb
34 gallons of liquid!

Learn more on pages 8–9.

PIG Under-Rack Containment Tray — Capture leaks and drips underneath pallet racking to make floors safe.

- Install **low-profile containment trays** under pallet racking to capture liquids before they can reach your floor
- Black polyethylene trays are **lightweight and durable**
- **Trays slide forward** to capture drips during dispensing or for cleaning
- Sectional design **prevents liquids from spreading** to multiple trays
- Available in **single tray** (PAK963), **double tray** (PAK964) and **triple tray** (PAK965) configurations for up to 72" of coverage
- **Connectors** join trays to eliminate an open area that liquids could pass through; included with PAK964 and PAK965

PIG® Under-Rack Containment Tray

Item #	1+
PAK965 • 3 Trays and 2 Connectors • 72"W x 44"L x 3.25"H 24 gal. sump capacity	\$220
PAK964 • 2 Trays and 1 Connector • 48"W x 44"L x 3.25"H 16 gal. sump capacity	\$146
PAK963 • 1 Tray • 23.5"W x 44"L x 2.75"H • 8 gal. sump capacity	\$59

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Poly Utility Tray — Line your bench or shelf with a poly tray to hold small parts.

- Light-colored, flat-bottomed, modular design makes it **easy to see small parts**
- All-poly construction **resists most chemicals**; will not rust or corrode

Poly Utility Tray

Item #	1+
PAK662 • 24"W x 37"L x 4"H • 13.48 gal. sump capacity	\$65
PAK661 • 25.5"W x 38"L x 2.5"H • 8.83 gal. sump capacity	\$62
PAK659 • 29.5"W x 29.5"L x 2"H • 6.18 gal. sump capacity	\$50
PAK658 • 17"W x 24"L x 2.25"H • 3.27 gal. sump capacity	\$40
PAK657 • 16"W x 20"L x 2.5"H • 3 gal. sump capacity	\$39
PAK656 • 10.75"W x 15"L x 1"H • .5 gal. sump capacity	\$25

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

BEST SELLER!

PAK124

PAK123

Utility Tray — Tough tray can handle your heaviest parts.

- Great for **temporary storage** of leaking parts or cores; poly tray **resists many chemicals**
- **Saves** valuable bench **space**; store large, heavy parts safely on floor
- **Ribbed bottom** keeps batteries and containers from resting in spilled liquids
- PAK123 has **heavy-duty grate** to raise parts and containers out of deeper liquids in sump

PIG® Utility Tray

Item #	1+
PAK123 • With Grate • 25.25"W x 49.25"L x 3.25"H • 8 gal. sump capacity	\$120

**PAK1003**

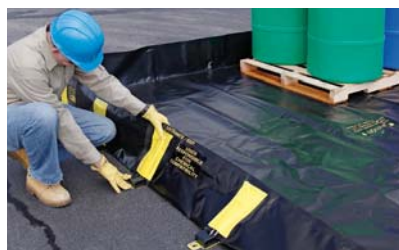

Berm provides constant drive-through capability, while sides can be locked in place.

PAK595

Optional belting helps protect containment berm from sharp debris collected in tires. See page 396 for information.

Self-Rising Containment Berm — Endwalls rise with a leak or can be locked in place.

- Endwalls can remain folded down during use, but **automatically rise** with the liquid level of a leak
- **Heavy-duty hinges** can be locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning
- Folds to a **compact size** to let you store the system in a vehicle and transport it to a remote location; included strap secures unit in place
- Constructed of tough **XR-5 geomembrane** to resist the effects of harsh chemicals and UV exposure
- **Grommets** at each support hinge allow unit to be staked to the ground when needed
- **Ideal for use** under storage tanks, tote tanks, pillow tanks, pallets loaded with drums and more
- **Custom sizes and colors** available; call 1-800-HOT-HOGS (468-4647) for details
- ◆ **Helps you comply** with regulations listed on opposite page

Hinges can be locked in place to prevent snow, hoses or other heavy objects from interfering with the flotation system.

Endwalls rise with the liquid level for round-the-clock protection.

Heavy-duty hinges are tough enough to withstand vehicle traffic.

CUSTOMIZED CONTAINMENT

Collapse-A-Tainer Berm — Tell us what you need!

Don't see a Collapse-A-Tainer Berm that fits your application? Just give us your specs and we'll build it! Customize the shape, dimensions and reinforcement to create the perfect system.

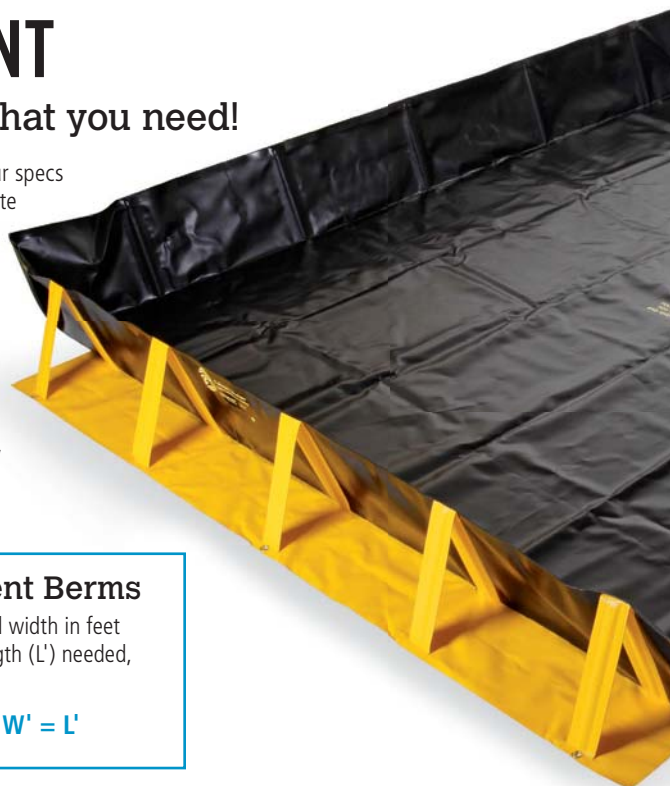

- Convenient one-piece construction; **no assembly required** and no parts to lose
- **Made of tough geomembrane material** that resists harsh chemicals
- **Designed for mobility in the field** and easily moved by hoist or forklift
- **Container packed on plastic pallet** for reusability and ease of storage
- Optional accessories include **track mat, ground tarp and ground mat**, sold separately
- **Sample material available**; just ask!

How to Order Collapse-A-Tainer Containment Berms

For a custom Collapse-A-Tainer Berm, you'll need to determine the number of gallons (Gal) you wish to contain, including volume displaced by vehicles, containers or other items.

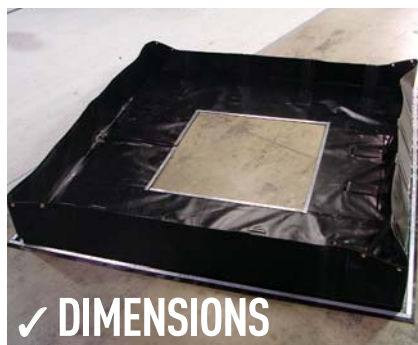

Next, estimate the desired width in feet (W'). To calculate the length (L') needed, use this formula:

$$\text{Gal} \div 7.48 \div W' = L'$$

Use this handy checklist to create your custom Collapse-A-Tainer Berm.

- ☒ What is your application?
- ☒ What shape do you need?
- ☒ Does it need to accommodate an obstruction?
- ☒ How many gallons will you need to contain?
- ☒ Are there any size restrictions?
- ☒ Do you need rigid or collapsible sidewalls?
- ☒ What type of material is required to contain your liquid?
- ☒ Do you need penetrations for cables, pipes or drains?
- ☒ Do you need passive filtration (PIG Self Bailer)?
- ☒ Do you need drive-through? 2 or 4 sides?
- ☒ Will you use it on smooth or rough surfaces?

✓ DIMENSIONS

Specify any height from 8" to 24" by any width and length. Add a cutout (shown) to fit around existing structures.

✓ SHAPE

Specify round, square, rectangular or irregular — we can even include obstruction deviations.

✓ REINFORCEMENTS

Choose rigid or collapsible sidewalls; counterbalanced outside locking supports available, along with optional track belting.

✓ SIZE

Large, small or in-between, we can customize the perfect containment berm for your application.

PIG Collapse-A-Tainer Lite — Lightweight containment is easy to store, handle and deploy.

"Everything about these containments is great! They ship fast, collapse to almost nothing and **work like a charm**. Great product!"

— Brad Y., PAK720 Customer

- A great way to provide **portable containment**; **no assembly required**
- **Durable 18 oz. vinyl** is chemical resistant, lightweight and easy to handle
- Portable containment berm **folds to a compact size** for carrying or storing
- 8" sidewalls are the **perfect "step-over" height**, so Collapse-A-Tainer Lite is ideal for use as a decon station
- **Optional grate** elevates area inside containment berm
- ◆ **Helps you comply** with 40 CFR 264.175, 40 CFR 122.26 and 40 CFR 112.7

PIG® Collapse-A-Tainer® Lite			
Item #	1	2+	
PAK722 • 4'W x 8'L x 8"H Sump dimensions • 159 gal. sump capacity	\$515	\$488	*
PAK721 • 4'W x 6'L x 8"H Sump dimensions • 119 gal. sump capacity	\$378	\$356	*

* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG Soft Side Spill Berm — No ramp required for loading drums into this berm.

- **4"-high foam sidewalls** can be driven over with a drum truck and spring back for leak containment
- **Heavy-duty, 22 oz. vinyl** provides resistance to tears, punctures and chemicals
- **Low-cost** alternative to hard plastic pallets and decks
- **Removable polyethylene grates** keep drums out of liquid and protect fabric
- **Perfect for temporary storage** of drums, machine parts, tanks, generators or as a washdown pad
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste (depending on size of containers stored)

Berms are easy to carry and set up in seconds!

PIG™ Soft Side Spill Berm			
Item #	1-2	3+	
PAK908 • Holds (8) 55-gal. Steel or Poly Drums • 76 gal. sump capacity 2,000 lb. load capacity • 8.5'W x 4.5'L x 4"H	\$705	\$671	
PAK907 • Holds (6) 55-gal. Steel or Poly Drums • 57 gal. sump capacity 2,000 lb. load capacity • 6.5'W x 4.5'L x 4"H	\$420	\$399	
PAK906 • Holds (4) 55-gal. Steel or Poly Drums • 38 gal. sump capacity 2,000 lb. load capacity • 8.5'W x 2.5'L x 4"H	\$339	\$320	
PAK905 • Holds (4) 55-gal. Steel or Poly Drums • 38 gal. sump capacity 2,000 lb. load capacity • 4.5'W x 4.5'L x 4"H	\$262	\$254	
PAK904 • Holds (2) 55-gal. Steel or Poly Drums • 19 gal. sump capacity 2,000 lb. load capacity • 4.5'W x 2.5'L x 4"H	\$170	\$160	
PAK903 • Holds (1) 55-gal. Steel or Poly Drum • 9.5 gal. sump capacity 2,000 lb. load capacity • 2.5'W x 2.5'L x 4"H	\$132	\$123	

PAK936

PIG® FlexBerm Containment Pad — Roll right over the soft sidewalls for easy washdowns or leak containment.

- Pliable, 2"-high foam sidewalls contain liquids and spring back to shape after you drive over them
- Double-layer, 18 oz. vinyl bottom resists punctures and tears
- One-piece construction deploys in seconds; no assembly required
- Portable, lightweight and easy to store when not in use
- ½" grommets on each corner help keep the berm in place
- Deck Grate (PAK354, PAK469) with raised-profile, antislip grating adds traction and allows draining

Open-cell foam sidewalls spring back to shape.

PAK724

PIG® FlexBerm Spill Containment Pad

BEST SELLER!

"The size fits perfectly under our trucks. It handles being driven over with no tears, springs back up with no problems. The yellow visibly announces to all that spill containment is being used."

— Jim H., PAK936 Customer

PAK724

Use deck grates to elevate drums and parts inside your FlexBerm.

PAK354

Transformer Bags — Contain and transport

Problem: Energy companies transporting damaged, oil-filled transformers were pumping them out and loading them onto spill pallets. And it was costing them a bundle.

Finding the solution: We believed there had to be a better way — a bag that would allow customers to move transformers without having to empty them first. At first, they said it would never work, but we knew we were on to something.

We lined the bag with PIG Fat Mat® Pads to absorb and contain leaks and worked out how to make it puncture resistant, sturdy enough to drag over diamond plating and strong enough to hoist.

Twelve prototypes, seven on-site tests and six months later, we lifted a transformer and shook it in midair to prove once and for all that the best way to eliminate pumpouts was with one tough bag.

Problem solved: PIG Transformer Containment Bags

PIG Transformer Containment Bags are packed for compact storage in vehicles. Handles and lightweight construction make them easy to carry anywhere!

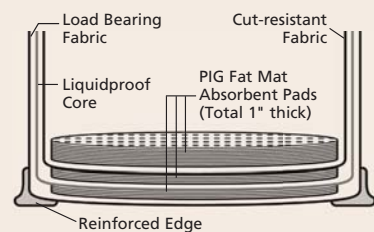

Pad-mount bags are easy to use — just drop in the transformer, zip and go!

- **DOT and UN Rated** for Packing Group III for the safe transport of PCBs
- **High-capacity hoist straps** (rated at 10,000 lbs.) offer secure lifting
- Watertight nylon/polyethylene sandwiched between durable woven polypropylene delivers **weather, puncture and tear protection**
- Three integrated PIG Fat Mat Pads cushion bag to prevent damage on rough surfaces like diamond plate; also **soak up leaks and splashes** of mineral oils and PCBs
- Pull-up duffel sleeve **covers entire transformer** and cinches with attached drawstring
- Self-supporting bag opens for **easy, one-person loading**; sewn-in Tyvek tag lets you record tracking info
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan; 40 CFR 761 by containing releases of PCB-contaminated materials; 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges

leaking transformers with our DOT Rated bags.

Just 4 easy steps and it's in the bag.

Built tough for the long haul.

Our containment bags come in a variety of sizes for both pole- and pad-mount transformers!

PAK235

Drop it in: Just set your containment bag down and drop in the transformer.

Close it up: Pull up the sleeve and cinch it tight.

Lift it: Move the transformer with a hoist. If using a forklift, our attachment (DRM419, page 349) helps you comply with regs.

Transport it: Load it up, strap it down and go — this tough bag contains leaks and withstands wear and tear!

WRAP UV-RESISTANT PIG OIL-ONLY SOCKS AROUND PAD-MOUNT TRANSFORMERS TO ABSORB LEAKS! SEE PAGE 60.

PIG® Pole-Mount Transformer Containment Bag

Item #		1+
PAK237	• For 75 kVA to 167 kVA Pole Mount Transformers • Holds 2,250 lbs. (HazMat) or 2,780 lbs. (Non HazMat) • UN13H4/Z*/USA/AA6394/0/1020	\$285

LEAKS & SPILLS ARE RISKY BUSINESS...

Prepare for the inevitable.

When it's your job to keep workers safe and protect the environment, it requires you to wear many different hats. Problem is, the more hats you wear, the harder it is to do your job.

Unfortunately, it only takes one slip-and-fall injury or a single spill into the environment to saddle your facility with serious consequences. Since the dangers posed by leaks and spills aren't always known, it can be pretty stressful to manage the risks. It's not a matter of if, but when, so you need to be prepared.

Your mess. Our mission.™

We're on a mission to guide you through the pitfalls of leak-and-spill management so you can stay clean, safe and productive. And that includes helping you avoid the accidents, injuries and regulatory relapses that can happen so quickly in today's fast-paced facilities.

We understand how overwhelming it can feel, which is why everything we do is to make your job easier. We don't just want you to get through your workday — we want you to feel good about it, too! Who couldn't use a little more peace of mind?

EXPERT ADVICE

Experience you can trust.

Each member of our service team receives hundreds of hours of training. From in-depth product and regulatory training to emerging trends across various industries, we're educated on the issues that affect you most.

DON'T GO IT ALONE!

Expert advice to get the job done right.

You can always count on PIG for products that work, people who know their stuff, and an experience that'll put a smile on your face. We're experts at things like catching leaks and overspray, containing spills, and preventing slips, trips and falls. But we're even better at listening to your problems, finding solutions that fit your facility, and paying attention to the little things, like getting back to you when we say we will.

Check out the topics listed at the right to see how we can help. We've loaded the next eight pages with info and resources to help you do your job right and keep hazards in check. Any questions? Give us a squeal!

"New Pig knows their stuff ... They're not just selling X. They're telling you how to use X or when maybe Y is better."

— Norman, EHS Manager

"They'll do whatever's necessary to get you that information, time and time again. They have the knowledge to ask the right questions to help you out as a customer."

— Rick, Maintenance Manager

We're on a mission to help you stay clean, safe and productive:

Catch Leaks and Overspray

Find out which PIG products are best for containing oily messes from your machinery.

See page 404

Contain Spills

Spills are a matter of *when*, not *if*. Be prepared to respond fast and clean up quickly.

CATCH LEAKS & OVERSPRAY

A messy workstation is no way to work.

THE PROBLEM

Machines that leak, drip and spray oil are guilty of more than just making a mess. They're also to blame for mucking up your productivity and creating slip hazards. A greasy, grimy workstation is a daily distraction that slows you down and only gets worse if you ignore the problem.

HOW WE CAN HELP

PIG Absorbents stop oil in its tracks. We make mats, socks and pillows in dozens of styles to soak up leaks, drips and overspray of any liquid. You can also use our containment berms to confine messy machinery. By hitting leaks at the source, you can spend more time working and less time working around the problem.

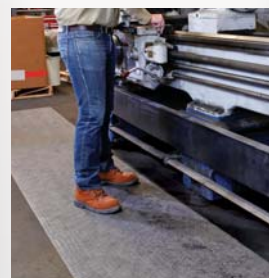

OSHA regulation summary

29 CFR 1910.141(a)(3)(ii) requires that workplace floors shall be maintained in a dry condition, and where wet processes are used, mats or other dry standing places shall be provided.

PIG Products help you do the job right:

PIG Absorbent Socks

CONTAIN SPILLS

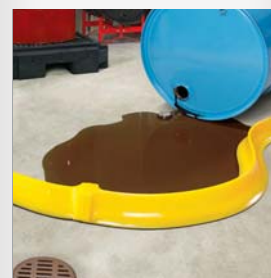

PIG Products help you do the job right:

PIG OverPack Spill Kits
KIT202..... page 87

PIG Absorbent Booms
BOM304..... page 65

PIG SpillBlocker Dike
PLR267..... page 175

Just when you think spills won't happen — they do.

THE PROBLEM

An open container of solvents is kicked over. A drum of waste oil is hit by a forklift. A fueling mishap pours diesel into a retention pond. If you're not prepared to respond, the damages can quickly multiply. From EPA fines to worker injuries, not having a plan can prove to be extremely costly.

HOW WE CAN HELP

New Pig has spill response down to a science. Every PIG Spill Kit is filled with plant-proven supplies to contain liquids, and they're packed in the order you need them for fast cleanup. Trust our Absorbent Booms for oil spills on water, and ask us about other PIG solutions to help satisfy your facility's spill plan.

EPA regulation summary

40 CFR 112.7 states that facilities subject to **SPCC Regulations** must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

5-PART SPILL RESPONSE SERIES

Part 1: Assessing risk and retraining instincts

PIG-exclusive series covers risk assessment, proper protection of responders, spill planning and training requirements, spill response techniques, decontamination and reporting requirements.

READ MORE: newpig.com/spillresponse101

SLIPS, TRIPS & FALLS

An ounce of prevention is worth a ton of safety.

THE PROBLEM

Slips, trips and falls to the same level are the second-leading cause of worker accidents and lost work-time injuries. On top of the pain and suffering, a single workers' comp claim can cost your company tens of thousands of dollars. According to the National Safety Council, 50% of these incidents are caused by unsafe floors. Knowing how to find these hazards is the first step in making your workplace safer.

HOW WE CAN HELP

Once you know *where* to focus your floor safety efforts (see the white paper below), we can hook you up with the best products on the planet to do the job right. Stick down some Grippy® Mat for instant traction anywhere you need it — aisles and walkways, even workstations. Hang our Leak Diverters to stop overhead drips from puddling where people walk. You can always count on PIG to keep your floors dry — and safe!

OSHA regulation summary

29 CFR 1910.22(a)(2) requires that workplace floors be maintained in a clean and, so far as possible, dry condition.

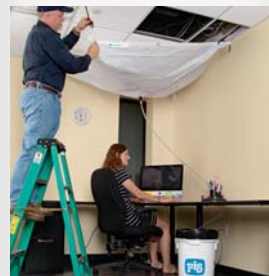

PIG Products help you do the job right:

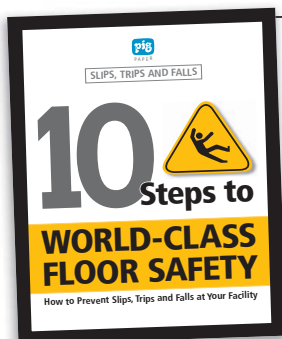

PIG Grippy Floor Mat GRP36200 page 223

PIG Grippy Absorbent Mat MAT32100 page 21

SECONDARY CONTAINMENT

PIG Products help you do the job right:

PIG Collapse-A-Tainer Berm
PAK793 page 394

PIG Poly Spill Pallet
PAK210 page 366

PIG Roll Top Hardcover
PAK601 page 379

Give your hazardous liquids a safe space to spill into.

THE PROBLEM

A simple container failure can start a chain reaction of damages and fines, from lost inventory (\$) to slip-and-fall injuries (\$\$) to environmental contamination (\$\$\$). That's why the EPA requires secondary containment — something for your spills to spill into. Even if your facility has measures in place, things like rainwater accumulation, chemical reactions and insufficient volume capacity can render your containment system useless.

HOW WE CAN HELP

We're not the type of company that just sells you a product and sends you on your way. We'll help you find the best solution for your specific application — whether it's a PIG Spill Pallet for small transfer stations, a Collapse-A-Tainer Berm for drive-in access or a Roll Top Hardcover for weatherproof storage outdoors. Not sure what you need to comply? Get in touch with our experts — we're always happy to help!

EPA regulation summary

40 CFR 264.175 requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

ARTICLE

5 Main Points of Secondary Containment Regulations

We know how mind-numbing federal regulations can be. So we broke it down into the five main things to consider under the EPA's haz waste storage regs.

STORE & CONTAIN LIQUIDS

PIG Products help you do the job right:

PIG Overpack Salvage Drum
PAK725 page 319

UN Rated Poly IBC
DRM1141 page 323

UN Rated Steel Drums
DRM1844 page 312

Our most-popular reads deliver best practices:

Overpacks 101

Like drums and other performance-oriented packaging, overpacks have to pass specific tests in order to qualify as overpacks. Get the lowdown on salvage drums, lab packing and how UN ratings come into play when you ship containers.

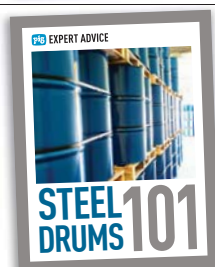

READ THE ARTICLE: newpig.com/overpacks101

Cracking the Code: Explaining UN Ratings

You probably know that you need DOT packaging or a special container to ship dangerous goods. You may even know that these containers require a UN rating. But did you know which UN rating each container needs to have?

GET THE ANSWERS HERE: newpig.com/UN-ratings

Steel Drums 101

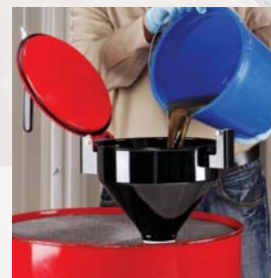

The liquids and chemicals that steel drums come in contact with are varied and the jobs they do change with your plant's needs. Different kinds of drums are needed to match your application, but how do you know which one you need?

LEARN MORE: newpig.com/steeldrums101

HAZARDOUS WASTE

PIG Products help you do the job right:

PIG Burpless Steel Funnel
DRM1125..... page 309

PIG Latching Drum Lids
DRM1072..... page 302

PIG HazMat Pads
MAT309 page 73

RCRA inspections: Ready or not, here they come.

THE PROBLEM

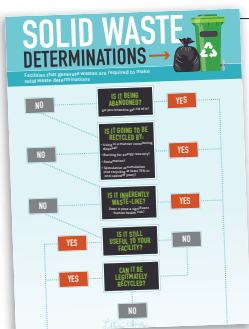

Chemical spill catastrophes make headline news, but there are thousands of smaller spills from drums, IBC totes, tanks, hoses and all sorts of machinery that result in violations and “smaller,” five-figure fines. These get piled on facilities every year as EPA auditors look for dysfunctional processes and mismanaged hazardous waste systems during visits.

HOW WE CAN HELP

We can help you understand your RCRA responsibilities (see below), and there’s a full lineup of PIG products to help you comply. Our Burpless Drum Funnels and Latching Drum Lids are must-haves for Closed Container requirements. We’ve got HazMat absorbents for soaking up spilled acids and bases. And you’ll find dozens of recycling solutions to help keep your haz waste handling costs in check. Need help navigating all the red tape? Give us a squeal — we’re happy to help!

EPA regulation summary

40 CFR 262 (RCRA regulations) state that hazardous waste must be appropriately identified and handled safely to protect human health and the environment, while minimizing interference with daily business operations.

15-PART RCRA SERIES

Part 1: How to Make Solid Waste Determinations

In this series on the Resource Conservation and Recovery Act (RCRA), we’ll guide you through proper hazardous waste handling to keep you safe and compliant.

START HERE: newpig.com/RCRA101

DRAIN PROTECTION & FILTRATION

Preventing water pollution is everyone's responsibility.

THE PROBLEM

Your storm drains are a system of passageways that empty into nearby rivers, lakes and streams, and it's your job to protect those waters. Stormwater runoff and its contaminants can pose a serious threat to the environment, and the EPA will levy heavy fines if you're in violation of their regulations. Many facilities don't understand their risks, or how easy and affordable it can be to get into compliance.

HOW WE CAN HELP

We understand the Clean Water Act, we speak SWPPP and NPDES, and we have an entire line of products designed to protect your drains and prevent runoff pollution. Ask us about our redesigned Storm Drain Filters for below-the-grate protection, or go with our all new Stormwater Filter Socks for source pollutant removal. From DrainBlockers to Oily Water Filter Mats, we've got what you need to keep your runoff clean.

EPA regulation summary

40 CFR 122.26 requires facilities to have a Stormwater Pollution Prevention Plan (SWPPP) in place when applying for a National Pollutant Discharge Elimination System (NPDES) Permit.

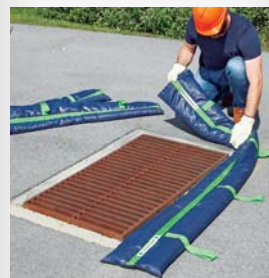

PIG Products help you do the job right:

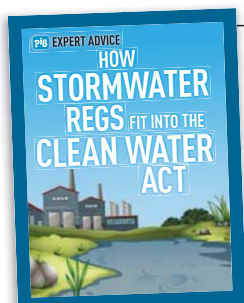

PIG Storm Drain Filter
FLT006 page 275

STORMWATER SERIES

Part 1: How Stormwater Regs Fit Into the Clean Water Act

Learn best practices that protect water quality and help ensure compliance with environmental regulations to help simplify the process.

START HERE: newpig.com/stormwater101

STORM PREPAREDNESS

Sooner or later, every roof is gonna spring a leak.

THE PROBLEM

It doesn't take a "storm of the century" to interrupt your business. If you're not prepared to protect your people, inventory and assets, even a moderate weather event can have big consequences. Roof leaks and flooding can quickly lead to downtime, lost customers, falling stock prices, worker injuries and other costly outcomes.

HOW WE CAN HELP

The key is to be ready before the storm hits, and New Pig offers some great products to help you prepare for Mother Nature's worst. A PIG Roof Leak Diverter catches leaks and channels them to a drain or container, away from your people and inventory. Stock up on absorbent mats and socks to soak up any floodwater that gets in — the ones shown at right are our best for absorbing water! We also carry SpillBlocker Dikes, drain covers, wet vacs and more to help you stay dry out there.

Best practice summary

Business Continuity Planning (BCP) is a strategy that's established through the recognition of threats and risks facing a company, ensuring that personnel and assets are protected and able to function in the event of a disaster.

Need to buy from a company with ISO certified systems? You're looking at it!

When you're ready to make a purchase, the last thing you want is another obstacle in your path. That's one of the reasons we're committed to maintaining our ISO 9001:2015 and ISO 14001:2015 certifications — to make sure that anybody who wants to do business with New Pig can!

Even if you're not *required* to buy from an ISO-registered company, you can still benefit from the rigorous processes we have in place. Our quality and environmental management systems help ensure that we make PIG products the best they can be — and in a safe and environmentally responsible way, too.

ISO-9001:2015
QMI-SAI Global
CERT-0096545

ISO-14001:2015
QMI-SAI Global
CERT-0096908

"We want the PIG brand to represent more than just a product. It's a solution to your needs. Through our quality and environmental management systems, we're able to achieve this with the utmost success!"

Jason Emes
New Pig QMS/EMS Manager

Mailing List Rental Preference:

We occasionally make our customer list available to a few reputable, carefully screened companies whose products we feel may be of interest to you. If you do not wish to receive such mailings, you may do any of the following and we will promptly remove your name from our rental list. Mail: New Pig Customer Lists, One Pork Avenue, P.O. Box 304, Tipton, PA 16684; call: 1-800-643-OINK (6465); or email: hothogs@newpig.com.

Limited Warranty: Except as described in our No Guff Guarantee®, there are no express warranties or implied warranties including, but not limited to, merchantability and fitness for a particular purpose. New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

Prices: All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices, but they are subject to change due to market conditions.

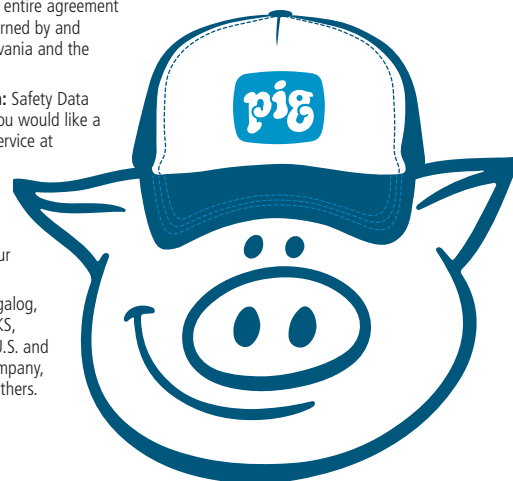

Terms: These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

OSHA Hazardous Substance Product Information: Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

Attention Distributors: If you hold integrated supply contracts with your customers and would like to provide New Pig Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

Trademarks: All rights reserved. PIG, the PIG logo, Pigalog, 1-800-HOT-HOGS and WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS, are trademarks of New Pig in the U.S. and other countries. See more at tm.newpig.com. Other company, product or service names used may be trademarks of others.

Offers: Expire in 30 days.

Pigging out on workplace messes since 1985.

It all started with a leaky machine and a pile of clay. Back then, the world used clay to clean up oil. Then they used shovels to clean up the clay. Not smart, right? Time and money were being wasted, and it was one big mess. Enter the PIG Original Sock — we figured out a better way to deal with leaks and spills, and customers loved it. New Pig, and the contained absorbents revolution, was born.

Made right here in Tipton, PA!

More than three decades later, we're still making our own absorbents in the same small town where we started. And while we've grown to become the world's leading brand, we've always stayed true to our roots. Tipton, Pennsylvania, may not be the most exciting place in the world (we have two traffic lights), but there's no shortage of pride in what we do here. From the engineers on our Product Development team to the operators on our PIG Mat line, our people have a rich history of making dependable products that keep customers coming back for more.

The World's #1 Mat

As demand for our cleaner, safer way of working grew, PIG wasn't about to be penned in by a couple of oceans. By establishing offices in the UK, Europe, China and India, and partnering with thousands of distributors and resellers around the globe, PIG products have reached more than 300,000 facilities in over 100 countries — on all 7 continents! No matter where messes are made, people everywhere love PIG: it's the *World's Best Stuff for Leaks, Drips and Spills.*®

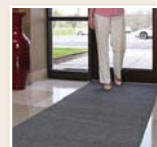

Our home base is in the United States, but we're fluent in leak-and-spill cleanup in many different languages!

Award-winning designs with your messes in mind.

We've won more **Plant Engineering Product of the Year** awards than anyone. Check out our history of innovative problem-solvers!

At New Pig, looking for a better way is the only way we work.

◀ INNOVATION THEN: Corncobs and pantyhose

If our founders had settled for the status quo back in 1985, workers might still be throwing clay on their leaks and spills. But after spending countless hours shoveling oil-soaked kitty litter from factory floors, they were determined to find a better way.

So they put on their inventor hats, cut up some pantyhose and stuffed them with everything from sawdust to rice hulls. They laid them in pools of oil and watched them wallow. Nothing worked until finally, they found it — ground corncob was the golden ticket! The world's very first absorbent sock was the first of many New Pig innovations to come.

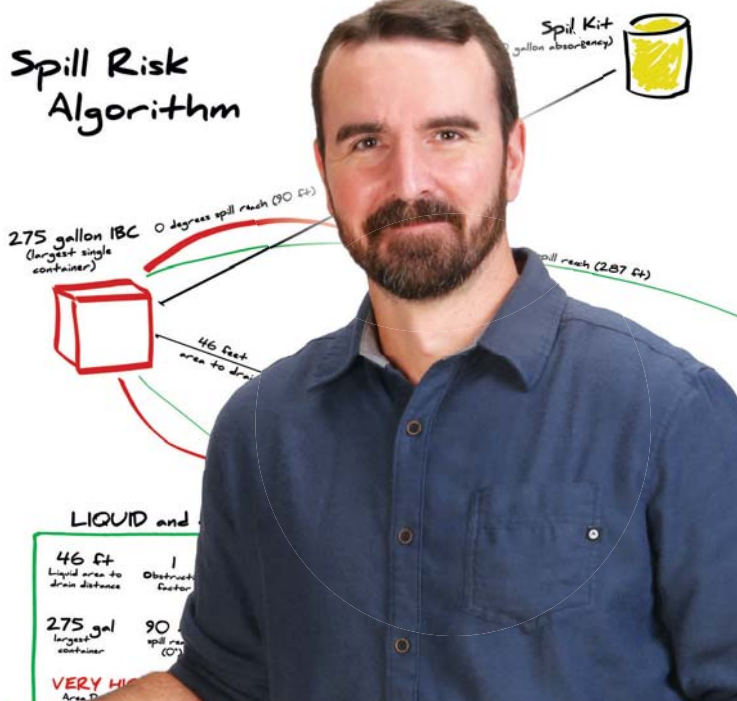

INNOVATION NOW: ▶ Adhesives and algorithms

A lot has changed on the leak-and-spill landscape since 1985, but our passion for finding better ways to work has been a constant through the years. We've developed dozens of industry firsts and engineered hundreds of product improvements to help you work cleaner, safer and be more productive. (Check out some of our award-winners on the opposite page!)

One of our most recent inventions, PIG Grippy® Mat, never would have happened if we didn't step outside our comfort zone. We knew that a sticky-backed absorbent mat would solve a ton of problems, but we knew nothing about adhesives. So we did what all good inventors do — we failed, and failed and failed some more (52 times, in fact) until our P53® adhesive backing was just right.

That's not to say that PIG innovation is all about sloppy testing areas and sticky experiments. Our new Spill Risk Algorithm (locked inside the top-secret box at right) is evidence that even the leak and spill experts at New Pig are always learning how to learn. This PIG-original, patent-pending algorithm applies physics — over 600 calculations are performed — and industry-specific research to help you really understand your spill risks.

Spill Risk Algorithm

(and really good at physics)

WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS.®

Top products to get the job done right.

When you're going up against industrial hazards like acid baths, oil-slicked floors and runaway spills, you need products you can trust. And nobody can beat the quality, engineering or performance of PIG. That's why more than 300,000 customers worldwide have relied on New Pig to help them absorb, contain and control their liquid messes. We've highlighted some of our most popular solutions below — the *world's best stuff* is ready to take on your worst leaks and spills.

PIG Latching Drum Lid

Make quick work of closed container regs with our industry-first design. It's so easy to close our latching lid, you can do it with one hand tied behind your back!

MAT32100
See page 21

*"This is the **best floor covering for industrial shops**. Keeps the floor from being slippery from oils and coolants. We use it between the machines and in the aisles, and all the employees love it."*

— Chris, Grippy Absorbent Mat customer

The Grippy Berber Mat was a fantastic addition to our property. The customers really like the way it holds the dirt and water. No more issues with the rugs moving during the day.

— Debra, Grippy Carpeted Mat customer
