MESSAGE FROM OUR CHIEF OPERATING OFFICER

Whether you are a current or potential customer, welcome to the Onyx Armor 2019 Catalog.

The Onyx team is passionate about our products and services and helping our customers make informed decisions in a manner that will exceed their expectations. Our dedication to quality in design and throughout the manufacturing process is world class. To emphasize this, we are a subcontractor for a few of the largest armor manufacturers in the industry solely due to our quality and on time delivery.

Although we have only been incorporated under the Onyx brand since 2010, our executive teams combined experience in the industry spans decades. We have shipped over **100,000** armor systems since moving in to our **20,000** square foot state of the art facility in **2017**.

We realize you have a choice when making your decision regarding lifesaving equipment. Enjoy your tour of our catalog and be sure to check out our website at www.onyxarmor.com. Our Sales representatives and distributors are standing by to assist you in choosing Onyx Armor for your next armor purchase.

BALLISTICS STANDARD

NIJ 0101.06 Standard

The NIJ .06 standard is the most comprehensive and rigorous body armor compliance standard that exists today. The NIJ tests ballistic resistant materials to determine if they are compliant to the NIJ 0101.06 standard. This ensures that you are wearing the most current state-of-the-art armor available. Always check the NIJ website at nlectc.org to determine if the armor you are purchasing is on the Compliant Product List (CPL). There are several manufacturers selling armor that is tested to meet but has not gone through the NIJ protocol to become compliant. Don't fall into the trap of price without verifying compliance.

NIJ 0101.06

ONYX FEMALE ARMOR DESIGNED BY WOMEN FOR WOMEN

All of the female designs at Onyx Armor are designed by women for women. Our design team has years of experience in the high-end garment and armor business. Assisted by the latest technology in CAD, our designers have created the most comfortable female vests in the industry.

The process begins with obtaining the right measurements. The easy step by step sizing form found on our website makes the process very simple. It is also backed by our 60 Day fit guarantee.

TECH FOR LIFE™

CONCEALABLE CARRIERS

ATHENA FEMALE

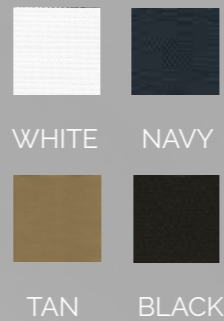

Contoured shape designed by women for women ensuring comfort for daily wear. Custom tailored fit to allow for maximum concealment and optimum maneuverability. Moisture management system keeps you dry and comfortable throughout your shift.

FEATURES

- Constructed with durable water repellent (DWR) microfiber outer shell

RIOT SUIT

The Onyx Armor Riot Protective System was designed to provide the ultimate in protection from blunt force trauma due to thrown objects without sacrificing mobility. Our armor design engineers collaborated with riot experts to create a system that meets the rigorous needs of today's law enforcement. We understand that riot control equipment is very tough to fund. To assist in this area, we include a helmet, shield and gloves with our suit to offer a complete system at a price lower than the competition for just the suit. Each system comes complete with case, including a very unique helmet attachment.

OTHER PRODUCTS

PLATES / SHIELDS

Level III and IV rifle plates are available in a variety of shapes and sizes offering a wide range of coverage for any mission. Special threat plates are available in a variety of sizes to protect against IIIA+ rounds and for adding additional trauma protection to any vest. All hard armor plates are manufactured in the USA. Onyx offers high quality Shields manufactured by Blueridge Armor.
