- Earlier perception of emergency ahead
- Increased braking distance
- Dramatic expansion in depth of No Go Zone

Flares Cause 85% Increased Lateral Separation

- Gets passing traffic farther from emergency scene

Flares Cause 89% Right Lane Volume Reduction

- Creates better visibility around emergency scene
- Dramatic lateral expansion of No Go Zone

- Flares create a No Go Zone equal to
 - Safety response in passing traffic
 - Increasing the No Go Zone will save lives... maybe yours!
- that created by a police cruiser with a light bar activated improves as more flares are deployed
