

# RP886 D5PRO Work/Rescue Descender (no panic-brake)

## Data Sheet

Developed with highly qualified and experienced 'Pro' users in mind, the D5PRO Descender does not incorporate a panic-brake function.

The absence of the panic brake can be particularly useful on longer descents and in rescue and belay applications, where a broader 'sweet spot' zone is welcomed.

<b>Weight</b>	818g (29oz)
<b>Rated Load</b>	240kg (529lb)
<b>Rope Size</b>	12.7mm (1/2")
<b>Body Material</b>	Aluminium
<b>Finish</b>	Anodised
<b>Standards</b>	EN12841

**NOTE:**

As the D5PRO does not incorporate a panic-brake function, it is not possible for the device to fully meet the criteria of NFPA and ANSI Standards.

If you require a Descender which meets NFPA/ANSI standards, please see **RP885** D5 Work/Rescue Descender device (which incorporates a panic-brake).
