

CMC LIFELINE™

All CMC Lifeline is sold by the foot.

Featuring the optimum balance of strength, handling, and durability with minimum sheath slippage, this 100% nylon kernmantle rescue rope offers excellent knotability and provides a high level of control when used with a descent control device. The industry standard for those who prefer traditional nylon ropes, CMC Lifeline is a great choice whether you are a firefighter on a high-rise, performing a high-angle mountain rescue, responding to an industrial accident, or a tactical officer on rappel.

Rope is sold by the foot. Rope ends are included. No charge on custom cutting. Please contact customer support for maximum length available.

CMC Lifeline™ Specifications

The following specifications apply to all diameters of CMC Lifeline:
