

CMC Access Packs

STRONG, BURLY, AND BUILT FOR WORKING AT HEIGHT

Named for iconic towers around the world, our access packs are built for working at height and made to last. Their exterior fabric is Double Ripstop Nylon with Carbonate Coating for abrasion and water resistance. Key features for organization and travel include gear loops, pockets, carry handles, padded suspension, ID holders, and streamlined closure systems.

LOTUS TECH PACK™ (37L)

The Lotus is a combination backpack and duffel bag that zips open from all sides and lays flat for maximum access to essential equipment. With 4 exterior pockets and 7 interior pockets, personal kit is easily organized and prepared for the job. Gear loops and compression straps are sewn in key areas and removable in others, enhancing equipment storage. The Lotus includes a ground cloth, laptop storage sleeve, heavy duty zippers, and removable waist belt. Born to travel, it has an ID holder, Velcro strip for patches, and fits nicely in overhead bins.

AXUM TECH PACK™ (75L)

The Axum is durable and streamlined. Primarily designed for carrying rope, the Axum supports organization and storage with an exterior pocket, sewn gear loops, 3 interior tie-off loops, 2 interior handles, and a removable waist belt. The cinch-top closure provides extended capacity and has an extra closure strap for added security.

SKYPER TECH PACK™ (82L)

The Skyper is a big volume pack with self-retracting shoulder straps, extended handles, a removable interior liner that zips open to serve as a ground cloth, expandable exterior pocket, sewn gear loops, 3 interior tie-off loops, 2 interior handles to hold it open, and a removable waist belt. The water-resistant roll-top closure expands the Skyper's total capacity.
