

Friction Loc® Batons

On the street, there can be no tolerance for second best. It is here that the nation's most respected and tactically sophisticated law enforcement agencies trust their safety to ASP. An impact weapon system of uncompromising quality from a firm with a long tradition of agency service. Under the most severe tactical conditions, ASP products have proven themselves virtually indestructible. Easily carried. Readily at hand. Low profile. Improved public image. Unparalleled psychological deterrence. Devastatingly effective. ASP... protecting those who protect.®

Field Proven Performance

Airweight® offers a 45% weight reduction with 98% of the striking potential of steel.

Black Chrome provides the most durable and corrosion resistant black baton finish available.

Chrome delivers a high lustre finish for increased visibility under low light conditions.

Electroless® is the most corrosion resistant finish. It is well suited to high humidity environments.

Independent laboratory tests have confirmed the superior corrosion resistance of ASP products.

Injection molded **DuraTec®** grips are permanently bonded to the baton handle.

Foamed vinyl grips are extremely durable and replaceable.

Wavemaster grips provide a secure hold and increased control.

Maximum Yield Strength

The 4140 steel used to manufacture ASP Batons is significantly stronger than the 4130 used by other manufacturers.

Friction Loc® Batons

The patented ASP Retaining Clip is replaceable and color coded. It identifies the manufacturing date of each expandable baton.

	DuraTec	Foam	Wavemaster
Airweight*	AD	AF	AW
Black Chrome	BD	BF	BW
Chrome	CD	CF	CW
Electroless	ED	EF	EW

* Airweight Batons weigh 45% less than steel models.
