SAFE STATIONS

SafeStationx2

SafeStationx3

SafeStationx4

## SafeStations

Certified for filling 5500 psig SCBA cylinders

**SafeStations** combine unsurpassed performance with the flexibility to create customized solutions. Our trusted fill station design offers advanced technology and state-of-the-art safety features like our three-layer containment protection cabinet, with configurations to meet every need.

### SafeStationx2

The **SafeStationx2** features sleek design and a two-cylinder fill station.

### SafeStationx3

The **SafeStationx3** is designed to fill three SCBA cylinders or two SCUBA cylinders simultaneously or separately.

### SafeStationx4

The **SafeStationx4** offers maximum performance and efficiency, with a four-cylinder fill station and the versatility to fill two cylinders while loading or unloading two others, eliminating downtime between fills.

Exclusive regulator design that prevents unintentional adjustment in compliance with NFPA 1901 standards

Unique AirLock access door, "click door handle down to open, click door handle up to close"

## Our Company. Our Commitment.

EagleAir, Inc. is proud of our longstanding commitment to safety and innovation. In business since 1973, the Company has a well known track record of innovations that have become industry standards and have improved firefighter safety. The development of **Containment Design fill stations** and **Single-Appliance breathing air systems** are key examples of these innovations. **For more than 40 years** we have manufactured breathing air systems that **meet and exceed the highest industry standards**. As an American and veteran-owned company, we understand the needs of our armed forces, firefighters, first responders and other customers, and we are dedicated to providing them with the most **advanced, most reliable equipment possible**.

Our commitment starts with an active membership in the **Fire Apparatus Manufacturers Association (FAMA)**. We have also been an active company in **National Fire Protection Association (NFPA)** committees to set standards that assure firefighter safety, so we remain aware and **help drive the latest safety standards**. It continues with a **manufacturing strategy that assures traceability and consistency in all of our products**. And it evolves with a **reputation for continuous improvement** that results in **innovation across all product lines**.

### All EagleAir products have unique, technically advanced features that set us apart in the industry

#### User-Friendly Features

#### Design Innovation Features

#### Safety Features & Certifications

EagleAir, Inc. manufactures high pressure breathing air systems for recharging SCBA and SCUBA cylinders. We are proud of the essential service we provide to first responders and those serving in defense of our nation worldwide.

We are committed to a loyalty based national distributor network that includes only top-quality businesses with the necessary assets to serve their regional markets.

Our Company is committed to a continuous improvement philosophy that drives product and service development above and beyond your expectations. Firefighters, commercial and recreational divers, our armed forces, and people who operate in hazardous environments can expect products with uncompromising reliability, best-in-class design and user-friendly features. Our products are backed by a commitment—100% customer service satisfaction.
